Truck driver (6 cubic yards and less than 8 cubic yards water level capacity)	1.50
Intermediate Grade Labor	
Concrete vibrator operator	1.375
Jackhammer operator	1.375
Oiler power shovels or cranes	1.50
Truck driver (4 cubic yards and less than 6 cubic yards water level capacity)	1.4075
Truck driver (less than 4 cubic yards water level capacity)	1.2825
Unskilled Labor	
Flagman	1.25
Laborer	1.25

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions, as interpreted in the light of this classification.

The minimum wage paid to all skilled labor for which rates are not shown above shall be not less than $1.25 per hour.

The minimum wage paid to all intermediate labor for which rates are not shown above shall be not less than $1.25 per hour.

The minimum wage paid to all unskilled labor for which rates are not shown above shall be not less than $1.25 per hour.

Overtime—one and one half (1½) times the above rates.

Sundays and holidays — one and one-half (1½) times the above rates.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules, and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the district in which the work is situated, at the office of the Associated General Contractrs in San Francisco, and at the office of the County Engineer or County Surveyor at the county seat of the county in which the work is to be performed.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions.)

The Department of Public Works reserves the right to reject any or all bids.

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 373, Public Works Building, Sacramento, California, until 2 o'clock p. m. on April 2, 1947, at which time they will be publicly opened and read in the Assembly Room of said building, for constructing Highway in accordance with the specifications therefor, to which special reference is made, as follows:

Napa County, on Silverado Trail between 4 miles northeast of Napa and Calistoga (IV-Nap-607), about four and seven-tenths (4.7) miles in length to be graded and surfaced with crusher run base and armor coat and a reinforced concrete bridge to be constructed.

Bids are required for the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Skilled Labor	
Asphalt plant dryerman or fireman	$1.60
Carpenter	1.75
Cement finisher	1.875
Concrete mixed operator (one cubic yard capacity or less)	1.60
Concrete mixer operator (over	

one cubic yard capacity)	1.90
Mason	2.05
Motor grader operator	2.10
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.10
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.25
Reinforcing steel worker	1.75
Roller operator	1.95
Tractor driver	1.95
Truck driver (8 cubic yards water level capacity or more)	1.875
Truck driver (6 cubic yards and less than 8 cubic yards water level capacity)	1.50
Intermediate Grade Labor	
Concrete vibrator operator	1.375
Jackhammer operator	1.375
Oil distributor bootman	1.275
Oiler power shovels or cranes	1.50
Truck driver (4 cubic yards and less than 6 cubic yards water level capacity)	1.4075
Truck driver (less than 4 cubic yards water level capacity)	1.2825
Unskilled Labor	
Flagman	1.25
Laborer	1.25

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions, as interpreted in the light of this classification.

The minimum wage paid to all skilled labor, for which rates are not shown above, shall be not less than $1.375 per hour.

The minimum wage paid to all intermediate labor, for which rates are not shown above, shall be not less than $1.25 per hour.

The minimum wage paid to all unskilled labor, for which rates are not shown above shall be not less than $1.25 per hour.

Overtime—one and one-half (1½) times the above rates.

Sundays and holidays—one and one-half (1½) times the above rates.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules, and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the district in which the work is situated, at the office of the Associated General Contractors in San Francisco, and at the office of the County Engineer or County Surveyor at the county seat of the county in which the work is to be performed.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions.)

The Department of Public Works reserves the right to reject any or all bids.

Item 18. 1 6-inch Type A biowoff assembly, in place.
Item 19. 2 4-inch Type B biowoff assemblies, in place.
Item 20. 3 4-inch Type C biowoff assemblies, in place.
Item 21. 4 2-inch Type B biowoff assemblies, in place.
Item 22. 2 2-inch Type C biowoff assemblies, in place.
Item 23. 1 6-inch water meter, in place.
Item 24. 1 8-inch water meter, in place.
Item 25. 50 lineal feet 24-inch No. 10 gage corrugated metal pipe under State Highway and railroad, in place.
Item 26. 60 lineal feet 6-inch concrete pipe cover on 18-inch pipe.
Item 27. 75 lineal feet 9-inch concrete pipe cover on 18-inch pipe
Item 28. 233 lineal feet gravel surfacing over pipe trench.
Item 29. 331 lineal feet armor coat surfacing over pipe trench.
Item 30. 43 lineal feet concrete road surfacing over pipe trench.
Item 31. Lump sum—Connection to 6-inch pipe line at Sta. K15 + 60.5.
Item 32. Lump sum—Special connection at Sta. K30 + 22.3 to K30 + 39.4.
Item 33. Lump sum—Connection to 6-inch pipe line at Sta. L63 + 58.
Item 34. Lump sum—Special connection at Sta. L100 + 20.00 to L100 + 23.33.
Item 35. Lump sum—Connection to 8-inch pipe line at Sta. L106 + 95.3.
Item 36. Lump sum—Building for Chlorination Plant and Pit for Venturi meter.
Item 37. Lump sum—Equipment in Chlorination Plant, and Venturi Meter, in place.

Plans 1 and 2 are alternatives. Plan 1 comprises Items 1 to 4, inclusive, and Items 5 to 37, inclusive. Plan 2 comprises Items 1-a to 4-a, inclusive, and Items 5 to 37, inclusive. Bids are required for the entire work to be performed under either plan. Bids must be submitted on both plans. The Department of Public Works reserves the right to award a contract to perform the work embraced in Plan 1, or to perform the work embraced in Plan 2, whichever is considered to be to the advantage of the State after bids have been opened.

The foregoing quantities are approximate only, being given as a basis for the comparison of bids, and the Department of Public Works does not, expressly or by implication, agree that the actual amount of work will correspond therewith, but reserves the right to increase or decrease the amount of any class or portion of the work, or to omit portions of the work, as may be deemed necessary or expedient by the Engineer.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Boring Machine Operator	$1.95
Carpenter	1.75
Compressor Operator	1.60
Concrete finisher	1.875
Concrete mixer operator (up to one cu. yd.)	1.60
Concrete mixer operator (over one cu. yd.)	1.90
Concrete worker	1.25
Dragline or Shovel operator (up to and including one cu. yd.)	2.10
Dragline or Shovel operator (over one cu. yd.)	2.25
Electrician	2.00
Flagman	1.25
Guard	1.25
Derrickman - Crane operator	2.25
Laborer	1.25
Oiler and Helper	1.50
Painter (brush)	1.75
Plumber (Utility)	2.00
Pipeline laborer	1.25
Pipe fitter	2.00
Pipe treater	1.75
Pipe wrapper	1.75
Pneumatic tool operator	1.375
Powderman	1.50
Power grader operator	2.10
Pump operator	1.60
Roofer	1.875
Steel worker (reinforcing)	1.75
Tractor operator	1.95
Trenching machine operator	2.00
Truck driver (8 cu. yds. water level capacity or more)	1.875
Truck driver (6 cu. yds. and less than 8 cu. yds. water level capacity)	1.50
Truck driver (4 cu. yds. and less than 6 cu. yds. water level capacity)	1.4075
Truck driver (less than 4 cubic yards water level capacity)	1.2825
Water truck driver	1.3475
Any classification omitted herein not less than	1.25

Overtime one and one-half (1½) times the above rates.
Sundays and holidays—one and one-half (1½) times the above rates.

The attention of bidders is particularly directed to the provisions of Section 7 of the Standard Specifications published by the Department of Public Works, Division of Highways, in April, 1945, regarding the laws to be observed, and Section 8, articles (a) and (b) of the Standard Specifications, and to Sections 4100 to 4108, inclusive, of the Government Code, State of California, regarding subcontracting and assignment of any subcontracts, respectively.

Plans, forms of proposal, bonds, contract, and specifications may be seen and obtained at the office of the State Engineer, Public Works Building, Sacramento, California, and they may be seen at the office of the State Engineer, 803 California State Building, Los Angeles, and at the offices of the Associated General Contractors in San Francisco.

A representative from the State Engineer's office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and contractors are urged to investigate the location, character, and quantity of work to be done with a representative of the State Engineer. It is requested that arrangements for joint field inspection be made as far in advance as possible.

No bid will be considered unless it is made on a blank form furnished by the State Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions.)

The Department of Public Works reserves the right to reject any or all bids.

STRAN-STEEL "Quonsets" FOR FARM AND INDUSTRY

ALL-STEEL BUILDINGS AT LOW COST

Adaptable to hundreds of farm and industrial uses, Stran-Steel "Quonset" buildings are filling a steadily increasing need for low-cost, all-purpose structures.

Available in a variety of sizes, "Quonsets" are framed with Stran-Steel *nailable* framing members for strength and rigidity and the simple attachment of exterior and interior collateral materials.

Features include clear-span construction (except in the "Multiple"), for 100% usable floor space . . . all-steel materials, for fire-safety, permanence, and freedom from weather and rodent deterioration. The Stran-Steel framing system permits the easy addition of sections or the demounting of the entire building for re-erection elsewhere.

Stop in today for details and prices.

Stran-Steel "Quonset" buildings are products of Great Lakes Steel Corporation, a unit of National Steel Corporation.

PLANS and Speculations

Mayor Lapham has requested the board of supervisors to set the $57 million bond issue election on traffic and transit improvements "by May 15, if possible, but not later than June 1."

oOo

A proposal to extend Alhambra Avenue in Martinez to the Arnold Industrial Highway is gaining support locally. Estimated cost is about $60,000.

oOo

Preliminary plans and specifications on the junction of the Indian-Flat-Nevada City highway (at W. Broad Street) have the approval of the Nevada City city council, and West Broad Street will be broadened shortly.

oOo

Frank L. Farish, Woodland realtor, recently announced plans to sub-divide 160 acres north of College Park, Davis city limits, into 1½-acre tracts. The first unit was purchased by Lang Realty Co., San Francisco.

oOo

Surplus structures allocated to the University of Southern California will be re-erected at the College of Aeronautics at Santa Maria where it will be used for lab, shop, classroom, office and gym facilities.

oOo

Bids on more than 30 buildings at Redding - Shasta Army Airfield and the field's electrical distribution system, sewage and water systems will be opened by San Francisco WAA offices.

oOo

Only senate approval and President Truman's signature now are needed to change the name of Boulder Dam to Hoover Dam.

oOo

The $650,000 Winters-Davis flight strip will be presented to Yolo County soon.

oOo

Santa Cruz city council has decided to employ an outside engineering firm to draw up a master plan for the city's airport.

Jaeger President Describes Firm's Program of Expansion, Development Before ERBCO Staff

O. G. MANDT JACK HOW

O. G. Mandt, president and general manager of the Jaeger Machine Company of Columbus, Ohio, recently completed a business tour of the Pacific coast. While in San Francisco, he spoke before the executives, sales and service engineers of the Edward R. Bacon Company, northern California distributors of Jaeger compressors, pumps, hoists, mixers and other items of construction equipment. In discussing Jaeger's program, Mandt stated that their complete plant is being enlarged to take care of the vast demand for Jaeger products. A new compressor plant is being constructed, a new foundry is being installed, capacity of the paving machinery division and shops are being greatly increased. Jaeger has also completed plans for the manufacture of truck mixers in Richmond. Later, as soon as their program gets underway, they plan to manufacture other items in the Jaeger line on the Pacific coast.

In addition to their program of plant expansion, several new Jaeger products are being developed and will be introduced late this year.

Jack How, general manager of the Edward R. Bacon Company, who also spoke before the meeting, stated that ERBCO have increased their facilities to provide greater parts and field service and keep pace with the increasing volume of Jaeger business now being done by his company.

New Architectural Horizons

(Following is the second section of the recent address of Thomas S. Holden, president of the F. W. Dodge Corporation, before the joint luncheon meeting of the Associated General Contractors, Central California chapter, the American Institute of Architects, and the Building Industry Conference Board.)

"The war changed many things, among them public attitudes toward the construction industry and the architectural profession.

The public, or at least an important sector of it, saw that while it took 18 months for the automotive industry to convert to airplane manufacturing, it didn't take much more than 18 hours for the construction industry to convert from peacetime to wartime projects.

The great war construction program of 1942, which made the country's wartime production miracles possible, demonstrated the kind of efficiency that is inherent in flexibility of design and organization techniques, and in an industry geared to versatility instead of to standardization. It demonstrated that the assembly - line techniques of the construction industry could be successfully applied to shipbuilding, and management of industrial communities as well as to construction of naval bases, army cantonments, flying fields, munitions plants, airplane factories and war housing.

At the beginning of the war construction program, the practical men in charge did not see any place for architects in the picture. But it was soon discovered that the planning of vast projects required something more than a knowledge of stresses and strains and the uses of earth-moving and material-handling equipment. For effective organization of production and material handling operations, intelligent space layout was essential. Then came the discovery that the architect's talent for organizing working space, circulation, and facilities was essential.

Given the challenge, the architects rose to the occasion, developing new design ideas of startling originality and intense practical value, new organizational arrangements for handling work on an unprecedented scale, a broadened outlook upon their opoprtunities and capacities for service.

As usual, the architects had to move ahead by going back to basic principles of space-design in meeting the practical requirements of buildings.

Actually, architectural progress had been merely retarded, not stopped, during the great depression. Progress in modern building techniques, construction methods, and design ideas had been real and continuous, though not uniformly so, ever since the introduction of steel and reinforced concrete construction and the invention of the safety elevator; progress that expressed itself up to 1929 principally in large urban type buildings.

New materials and new construction techniques came in steady flow year after year. Even in the dismal 1930's there was a marked improvement in design - standards for average and small-sized single-familily houses. Excellent house

(Continued on Page 7)

GROOVER and I

THAT COMMODITY CALLED "QUIET"

Some sloganeer has remarked "the memory of value remains long after price is forgotten". There should be some way for Architects to impress this fact upon clients when selling that "commodity called quiet".

☆ ☆ ☆

Perhaps the sales resistance is because you can't hear quiet. You only miss it when it isn't.

☆ ☆ ☆

When buildings are given soundproof treatment with acoustical tile and other sound-deadening media, there is still a point overlooked — or should I say looked through?

☆ ☆ ☆

Fenestration—the windows thru which come serve jangling street noises which probably adds more gray hairs to a man's busy day than all the government-forms-with seven-carbon-copies-attached.

☆ ☆ ☆

The Pittsburgh Plate Glass Company has done something about this—but they seem to modest to mention it.

☆ ☆ ☆

I am referring to TWINDOW—two planes of "Pittsburgh" glass, separated by an air space and hermetically sealed in a stainless steel frame.

☆ ☆ ☆

They mention thermo insulation and resistance to heat conductance, but they fail to mention insulation against the little devils of sound—the gremlin-like decibels who scrape tense, tired nerves with jagged scraps of rusty tin.

☆ ☆ ☆

Why doesn't "Pittsburgh" give out something on sound insulation as well as heat control?

☆ ☆ ☆

I should help keep the secret and not mention that TWINDOW is distributed by the W. P. Fuller Company.

PREFAB INSTITUTE MEETS

CHICAGO. — The fourth annual meeting of Prefabricated Home Manufacturers' Institute will be held here March 25-26, Harry H. Steidle, manager, announced. Delegates from 70 United States and Canadian firms are expected to attend the meeting.

No Justification for Building Trade Union Action, Hague States

"Clerks unions in Oakland stores are not members of the building trades department of the American Federation of Labor, and the building trades council should not be involved in this dispute," William E. Hague, manager of the Central California chapter, Associated General Contractors, said in an interview Friday.

He referred to the council's recent announcement that its constituent union members will do no work on new building construction, repairs or alterations on any property of a member of the Retail Merchants Association of Oakland. At present, work on Kahn's store remains unfinished because of the action.

Hague stated: "I have pointed out to Jack Reynolds, council business agent, that he was delaying development of the city of Oakland and the beginning of construction on many fine new stores and additions to stores which are contemplated and already planned.

"I also pointed out to him that there were many hundreds of carpenters, laborers and other building mechanics already idle in Alameda County. He replied that Kahn's store had imported strike-breakers of the building trades from Los Angeles. I cannot find this to be a fact.

"Our members erect most of the large buildings in Oakland, and we resent this action of the building trades council and its efforts to impede construction and development of the city of Oakland."

RFC Subsidiary to Take Vet Mortgages

WASHINGTON. — A new government mortgage investment plan for veterans' home loans has entered the field in the form of the Reconstruction Finance Corporation Mortgage Company, a RFC subsidiary.

This government agency has announced that effective immediately the RFC Mortgage Company will issue firm commitments to purchase veterans' home loans.

(RFC has been carrying on a secondary market program since last September but this is the first announcement of the agency's entrance to the field of first mortgage paper.)

In operation, the plan calls for the mortgage company to make commitment contracts with original lenders for the purchase of specific first mortgage home loans when closed and guaranteed or insured by Veterans Administration.

Terms of the commitment will require such loans to be delivered to the company within 12 months from the date of execution of the contract. The purchase price will be an amount equal to the unpaid principal balance of the loan, plus accrued and unpaid interest, and will be available to the seller upon delivery of the loan documents within the commitment period.

RFC said that commitment contracts will not be executed in connection with guaranteed or insured veterans' home loans which are in existence and available for immediate delivery. Such loans may be offered to the company for purchase by original lenders under its present program setup.

Commitments and purchases are being made by agents of RFC's mortgage company in the 31 regional offices where all inquiries are received.

Colonel Karrick to Head Army Engineers Office; Mayo Retires

Col. Samuel N. Karrick, Corps of Engineers, today assumed duties of district engineer, San Francisco district, relieving Colonel George Mayo who is retiring. Col. Mayo's retirement is the culmination of 31 years of continuous army service. He will be remembered as a member of the joint army - navy board for a second bay crossing, the California debris commission, and 1946 president of San Francisco Post, Society of American Military Engineers.

Colonel Karrick arrived in San Francisco after 32 months in the Southwest Pacific. During the advance from Australia to the Philippines Colonel Karrick built and commanded the large army bases at Milne Bay, New Guinea, and Bink Island, Netherlands East Indies. After the capture of Manila in February 1945, he commanded the Manila engineer district, and the engineer troops charged with army construction in the Philippines.

Colonel Karrick was District Engineer, Chicago District, from 1935 until 1940. While there he was responsible for river and harbor improvements on the Great Lakes and for the building of the locks and dams on the Illinois River.

A member of the American Society of Civil Engineers and the Society of American Military Engineers, he received his engineer education at the University of Utah and Columbia University, and is a veteran of the first world war. He has been awarded the Legion of Merit with bronze oak leaf cluster, the bronze star medal with silver star, and the army commendation ribbon.

#

ASPHALT ROOFING AND SIDING OUTPUT HIGH

WASHINGTON. — Shipments of asphalt roofing in January reached a record high of 5.8 million squares, according to preliminary figures released today by the Bureau of the Census. Shipments in January were 1.3 million squares more than in the corresponding month of last year, 500 thousand squares more than in December 1946, and about 50 thousand squares more than shipments in October, 1942, the previous peak.

Shipments of asphalt sidings in January amounted to 436 thousand squares, an increase of 20 per cent over December, but only six per cent greater than average monthly shipments in 1946. Shipments of saturated felts remained at about the December level: 25,584 tons were shipped in January compared with 25,089 tons in December, a gain of 2 per cent.

#

RAYMOND YOUNG TO HEAD TRADE GROUP

Appointment of Raymond M. Young of Berkeley, as chairman of the industrial and business development committee of the Bay Area Council, was announced today.

Well known to Bay Area manufacturing and business circles, Young is senior partner of Shand and Jurs Company, Berkeley, manufacturers of valves, regulators and gauges for liquid products.

An engineering graduate of Tufts College, Medford, Mass., his former home was Winchester, Mass. He came to the Bay Area in 1934.

#

RECONVERSION NOTE

ALLENTOWN, Pa.—Sale of a portion of war plant here to the Paulsboro Manufacturing Company of Philadelphia for $511,750 was announced today by War Assets Administration.

The plant formerly produced locomotives. The new owner will convert it to making hard surface flooring and wall coverings.

31-32—WATER SUPPLY & SEWAGE DISPOSAL PLANTS

3/14/47 • 32
Owner Taking Bids—Due April 28, 3 P. M.
Municipal Sewage Works Enlargement; No. 46-3
Owner—City of Palo Alto, Department of Public Works, City Hall, Palo Alto, Calif.
City Engineer—Fabian S. Miller, City Hall, Palo Alto, Calif.
Consulting Sanitary Engineer—Harry N. Jenks, 345 Madrono Ave., Palo Alto, Calif.
Bids will be taken as follows:
(1) lump sum, sewage treatment plant complete, comprising pumping addition, primary clarifier modification, vacuator, installing roughing biofilter 100 ft. diam., separate sludge digester tank 70 ft. diam. and sludge gas power plant;
(2) lump sum, installation of approximately 2600 ft. 30-in. sewer pipe;
(3) lump sum, construction of sludge drying beds;
(4) lump sum, construction of dredger canal outfall line.
Specifications obtainable from the office of the city engineer upon deposit of $10, refundable.

3/14/47 • 31
Owner Taking Bids—Due March 17, 8 P. M.
Well Drilling
CORCORAN, Calif., Kings County.
Owner—City of Corcoran, James C. Condon, city clerk, City Hall, Corcoran, Calif.
Plans by owner.
Drilling a well, furnishing and installing the necessary casing and gravel envelope.
Specifications obtainable from the above office.

33— BRIDGES

3/17/47 • 33
Only Bid Rejected
Bridges (4) and Culverts (11)
MODOC COUNTY, Calif. At various locations between Adin and Alturas.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
Construct four bridges and eleven culverts.
As previously reported, Morrison-Knudsen Co., Inc., 785 Market St., San Francisco, Calif., at $97,930, submitted the only bid March 5.

3/17/47 • 33
Low and Only Bidders (Unit Prices)
Bridge, Grading, Surfacing Cost $199,539
KERN and INYO COUNTIES, Calif.
Between Indian Wells and Little Lake.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engr.—G. T. McCoy, Public Works Bldg., Sacramento.
About 2.7 miles (net length) grading and surfacing with plant mix surfacing on imported borrow and construct steel span bridge on reinforced concrete abutments.
Low Bidder—Basich Bros. Constr. Co. and Basich Bros., Box 151, 600 S. Fremont Ave., Alhambra, Calif., $199,539.
Work involves:
(A) clearing and grubbing;
(1) 71,500 c.y. rdwy. excav.;
(2) 1,030 c.y. struc. excav.;
(3) 700 c.y. struc. excav., bridge;
(4) 43,300 c.y. ditch and channel excavation;
(5) 13,200 c.y. import borrow;
(6) 364,900 sta. yds. overhaul;
(7) develop water supply and furnish water equipment;
(8) 4,560 M gals. apply water;
(9) 145 sta. finish rdwy.;
(10) 6,300 tons min. agg. plant mix surfacing;
(11) 56 tons liq. asph., SC-2 prime coat and pene. treatment;
(12) 354 tons liq. asph. SC-4 plant mix surfacing;
(13) 33 tons asph. emulsion, seal coat
(14) 400 tons screenings, seal coat;
(15) 242 c.y. Class A portland cement concrete structures;
(16) 82,000 lbs. furnish struc. steel;
(17) 82,000 lbs. place do;
(18) 41,600 lbs. furnish bar reinf. steel;
(19) 41,600 lbs. place do;
(20) 1,146 c.y. light stone riprap;
(21) 136 c.y. sacked portland cement concrete riprap;
(22) 38 each monuments;
(23) 53 each culvert markers and guide posts;
(24) 324 l.f. 24-in. CMP, 14 gage;
(25) 160 l.f. 36-in. CMP, 12 gage;
(26) 80 l.f. 42-inch do;
(27) 64 l.f. 48-inch do;
(28) 211 l.f. tee rail bridge railing;
(29) 2 each clearance markers;
(30) engineers' office.
Total bids submitted March 12 were:
(A) Basich Bros. Construction Co. and Basich Bros., Alhambra, $199,539.
(B) Spencer Webb, Inglewood, $275,902.

Many are the wrongs with Competitive (ugh!) Bidding
You know what's wrong with the old, wasteful, expensive system of competitive bidding. You know how costly and unfair it is for each bidder to figure his own quantities. No one wants to continue the inefficient practice of bidding against someone who guessed wrong on quantities. When all bidders use LeRoy quantity surveys, bidding is fair and truly competitive. This service reduces costs for all, permits skill and ability to be recognized, eliminates irresponsible bidding. When you bid on uniform quantities, risks are minimized. Investigate this service.

A builder is judged by his buildings

A builder has no finer advertisement nor more severe critic than his own buildings. He establishes a reputation by thinking of the future, planning and building for comfort and convenience for years to come. One way to increase the value of homes and buildings is to specify built-in telephone outlets during construction. Here's why!

Built-in telephone outlets add little to building costs..much to building value.

The location of the telephone can be changed or additional telephones may be added in the future without tearing up the flooring or running wires along baseboards.

The convenience of well placed telephone outlets will be appreciated year after year.

Call or dial local Telephone Business Office.
Ask for Architects' and Builders' Service.

Holden Analysis

(Continued from Page One)

design of architects in California, Texas, and Florida taught large numbers of American families how to enjoy daylight and went a long way toward overthrowing the tyranny of the little windowpane.

The war improved the status of the construction industry and the architectural profession with the public. It opened new opportunities for design progress. It also caused to be piled up a vast accumulation of deferred construction needs and filled the designers' offices with projects most of which have not yet had a chance to get under way.

Postwar recovery has passed through its first phase, the phase of confusion, reconversion of productive industry, acute labor troubles, material shortages and commodity price inflation. It is now in the somewhat critical second phase, the phase of price stabilization. The trend of material prices during the next couple of months will likely determine whether the current high recovery of construction activity is to be continuous or is to be interrupted by a price-deflation recession.

Evidence at hand points to ample production of construction materials in 1947, barring serious work stoppages in producing plants. Approaching balance of the demand-supply situation in materials should foreshadow the return of competition and material price stabilization. The price situation has reached a critical stage. Strong buying resistance is developing and many projects are being priced out of the market. These are the forces that make for stabilization. If carried too far they could produce a serious setback to construction industry recovery.

From November 9, 1946 (the day price controls were removed) to February 8, the Bureau of Labor Statistics wholesale price index for building materials jumped from 140.0 to 170.6. An increase of more than 30 points in three months is something to worry about. The increase from V-J day to last November 9, a 15-month period, was only 28 points. The increase from August 1939 to V-J day (August 1945) a period of six years, was only 28 points.

The supposedly dry index numbers are somewhat more sensational than the facts. The November 9 figure represented ceiling prices; market prices in many instances were much higher. The index numbers give no recognition to the fact that some important materials have been selling lower recently in the free market than they were selling in the black markets of last November. The building materials price index is heavily weighted with prices of lumber and paint and paint materials, two groups of commodities whose prices have risen much more rapidly than most others.

Nevertheless a price level for building materials 88 per cent over the 1939 average is, I believe, too high to stand up under buying resistance and competitive selling conditions. The sooner we get some reasonable price reductions the better will be the construction industry's prospect for continuous recovery.

PLANS and Speculations

The California Institute of Flameproofing recently requested that the city fire commission accept flameproofing done only by companies and with chemicals approved by the state fire marshal.

oOo

Sacramento AVC has endorsed construction of a million acre-foot dam at Folsom in Sacramento Co.

oOo

Other sites besides Del Monte will be considered by a house armed services subcommittee for the multi-million dollar naval postgraduate school.

oOo

Water impounded behind Shasta Dam on the upper Sacramento River will measure almost as much as during an average year at the end of this month, a recreation bureau official predicted.

oOo

Preliminary actions have been taken toward widening of 12th St. in Sacramento.

oOo

A preliminary report by State Engineer Ed Hyatt on feasibility of constructing a series of small dams on Los Gatos Creek has been scheduled to be presented to senate and assembly committees considering re-routing of the Los Gatos-Santa Cruz highway where it would interfere with the proposed site of a large dam.

oOo

Kern County supervisors have memorialized the state water resources board to recommend that congress appropriate funds for early construction of the Kern River flood control project.

oOo

M. Dean McCauley has been appointed to Fresno County's newly-created post of postwar projects administrator, on a part-time basis.

oOo

Two new fireboats may replace the 38-year-old boats now in use on the San Francisco waterfront if the legislature approves a bill now before committee on municipal and county governments.

RFC, State Assembly Back Kaiser Freight Discrimination Issue

WASHINGTON.—Latest argument on the part of the Henry J. Kaiser Company against reduction of freight rates on Utah-produced steel shipped to west coast users revolves around the allegation that such a reduction in shipping rates would threaten operation of Kaiser's Fontana, Calif., steel plant.

RFC Backs Kaiser

Kaiser's attorney, Thomas McCarthy, appeared before the Interstate Commerce Commission to argue that this would occur unless rate reductions are made "fair and equitable to all", including rate cuts on iron ore and coal shipped from Utah to the Fontana plant, which Kaiser operates.

Opposition was voiced last week to intervention in the dispute by the Reconstruction Finance Corporation which came in on the side of Kaiser. RFC has millions of dollars outstanding on the Fontana installation.

After showing that the railroads last year denied an application by the Fontana mill for lower coal and iron ore rates, McCarthy told the commission:

Original Cost Low

"If the railroads, in their managerial direction, have the power by lower freight rates to bring the U. S. Steel's Geneva plant closer to its markets on the Pacific coast, while at the same time leaving the raw materials for the Fontana plant by high freight rates as far away as before, then their managerial direction gives them the power to destroy the Fontana plant."

The Kaiser representative said that economic surveys purporting to show that the Geneva, Utah, plant cannot be operated without the benefit of reduced freight rates are "not borne out by the facts and do not take into consideration the fact that the plant was bought from government as surplus holder—at 20 cents on the dollar."

Demand Full Hearing

"If these reports are to be used as a basis for reducing the freight

(Continued on Page 5)

New Architectural Horizons

This is the third of a four-article series reprinting the address of Thomas S. Holden, president of the F. W. Dodge Corporation, recently before the joint luncheon meeting of the American Institute of Architects, the Associated General Contractors, Central California chapter, and the Building Industry Conference Board.

I believe the odds favor an orderly stabilization of material prices over the chances of a price boom and bust. I get reports of lumber prices softening in retail markets. In that and in some other lines, wholesalers and dealers are buying cautiously and are not piling up unwieldy inventories. I am told that in a number of lines profit margins have been amply sufficient to absorb such reasonable price reductions as may be forced by buying resistance. I think we are in the middle of the price stabilization process right now. If that is true, a clear trend should soon emerge out of the present confusion.

Cost Can Come Down

Regular flow of materials to sites will permit more efficient scheduling of building operations and more efficient use of building labor, whose hourly scales are at an all-time high. **The general public little realizes how much the slowdowns of work added to construction costs in 1946.** There were also other excess costs due to material shortages such as black market prices, costs of shopping distant markets for critical supplies, substitution of available high-priced items for cheaper ones that could not be obtained. Excess costs added 15 to 25 per cent to the theoretical construction costs indicated by published index numbers. These excess costs should disappear as material supply approaches normal.

Once past this critical phase of price stabilization, construction industry recovery will swing into its third phase, the phase of progressive catching up with deferred demands. This phase is likely to be one of continuously increasing volume and is likely to last several years. After World War I it lasted to the end of 1924, a period of six years; that represented, however, a net recovery period of four years, since there was a two-year setback in 1920 and 1921 due to price deflation.

After deferred demands have been taken care of will come the fourth phase. Some people are fearful of a depression at that time. I think these people have **an inadequate comprehension of the dynamics of the free-enterprise economy.** The essence of the capitalist system is that it must expand to survive; it must expand to larger and larger volumes of activity and to higher standards of living. A dynamic economy thrives on new ventures, new needs and new standards of its people, not merely on a backlog of unfilled orders.

Depression was expected to follow after war-deferred demands were caught up in 1924. The reverse happened. Instead of a depression came a five-year period of general economic expansion and greater peacetime prosperity than

(Continued on Page 7)

GROOVER AND I

THREE SECONDS

Engineer Paul Swafford of Berkeley, is a steady kind of a guy—meaning he mentally turns corners with a low center of gravity. But if you want to see him do a slow burn mention his pet peeve of "blinding auto headlights".

☆ ☆ ☆

I join Swafford in that one. Handling an automobile under daylight conditions is dangerous and unsafe. It becomes increasingly so when you add darkness and glaring lights.

☆ ☆ ☆

(Well, if it isn't "dangerous and unsafe", why do so many people get killed in highway accidents?)

☆ ☆ ☆

We will have more later about "bigger and brighter headlights", but for now we mention the element of "timing".

☆ ☆ ☆

A tenth of a mile might be considered safe maneuvering distance—but what about the time element?

☆ ☆ ☆

Consider: Two automobiles 1/10 of a mile apart, each approaching the other at 60 m.p.h.—those machines will PASS in exactly THREE SECONDS—

☆ ☆ ☆

—or there will be another mess to clean up!

Delayed Steel Mills Building Program to Be Started in 1947

WASHINGTON.—A large chunk of business awaits architects, engineers and contractors in the pending expansion of the country's steel mills.

The nation's steel companies are prepared to spend $448 million in 1947 for new equipment and additional facilities to satisfy current steel demands, according to American Iron and Steel Institute.

1947 Program Big

In this record expansion (prewar high expenditures were $326 million in 1937) there will be need for services of architects in preparation of new plant plans, additions to office buildings and other new facilities. The actual building program alone is staggering, since it represents nearly half again as much outlay as was spent in the previous record expansion year.

Principal reason that the 1947 figure is so high results from a substantial carry-over from 1946 when only $291 million actually was expended. This $291 million went for new equipment and construction but represented only a part of the $327 million originally appropriated by the steel operators for expenditure last year.

Strikes and shortages current during 1946 forced the steel executives to postpone much of their construction during that year. Now they stand ready to include the postponed portion in this year's expansion.

The AISI said the 1947 appropriation brings to $2,750 million the total amount spent by steel companies over the past 12 years in their programs to expand and improve their plants.

From 1936 through 1946 the annual expenditures by this industry have averaged more than $200 million each year.

Improve Working Conditions

Just what is all this money to be spent for?

To provide modern methods, modern equipment and processes

Wolcott Promises Early Action on Patman Housing Act; Vet Groups Split on Question

WASHINGTON.—(Exclusive).—With Representative Jesse P. Wolcott of Michigan, prepared to introduce immediately his bill to repeal the Patman Housing Act, a full-blown storm is rising on the legislative horizon.

Source is an obvious split in veteran organization headquarters growing out of their commanders' alleged repudiation of committee stands taken at the recent convention of the National Association of Home Builders in Chicago.

Congressman Wolcott's office informed the "Builder" correspondent that he is prepared to put his legislation on the house calendar as soon as he can gain a listing. A heavy schedule, including President Truman's address, kept it off Wednesday.

It will be introduced, however, and will call for revoking all phases of the National Housing Act except two. These are:

1—Title VI covering Federal Housing Administration mortgage insurance, and

2—Retention of a form of veterans' preference in the purchase of new homes.

Some interesting conditions have developed with regard to veteran organization standing in connection with the proposed legislation.

On the eve of the bill's introduction the American Legion is reported to be split wide open; the breach is so pronounced that congressmen on both sides of the fence are claiming Legion support for their positions.

Paul H. Griffith, commander of the Legion, in coming out for retention of essential controls as covered by the Patman Act, is felt to have repudiated his housing committee's action at the Chicago convention. It is understood, however, that he had organization action in back of his recent announcement.

A release from the office of Housing Expediter Frank R. Creedon, circulated widely among members of congress, results from Creedon's recent meetings with veteran organization heads here in Washington. It states:

"National Commander Griffith Thursday urged the national housing expediter to maintain rigid controls on all non-residential construction.

"The recommendation was made in response to a request by Housing Expediter Creedon for comments by the Legion on nine basic housing restrictions still in force, ments by the Legion on nine basic

The statement says that Griffith supported all nine points.

The other side of the picture is contained in a release circulated by the National Association of Home Builders. This organization has always opposed government controls for the building industry.

NAHB is claiming not only Legion support for its point of view but similar backing from the Veterans of Foreign Wars and Amvets. This Creedon's office has challenged with statements issued by both veteran organizations.

Citing the veterans' stand taken in Chicago, the home builders' bulletin states:

"The call for a return to a free economy in housing as expressed by the leaders of the three great veterans organizations will carry great weight."

It further quotes Richard Cadwallader, chairman of the American Legion Housing committee:

"When we of the American Legion Housing Committee surveyed housing conditions last year, we came to the conclusion that it was safe to take off all controls with a very few exceptions from housing."

And so the opposing forces are lining up for their battle on Capitol Hill.

The Title VI provisions of the old Patman Housing Act, governing FHA's insurance of mortgages, is well known but the veterans' preference clause merits further explanation.

(There are the two phases of the legislation that are likely to be retained if congress eventually acts favorably on Representative

(Continued on Page 8)

Lapham Request for Bond Issue May Be Held to November

It appeared late Friday that Mayor Lapham's request for a $57 million transit bond election in the middle of May or early in June at the latest, will not be granted.

Supervisors meeting as a committee Friday expressed unanimous opposition to the special election in the spring, and framed a motion to defer the election until next November.

Chief Administrative Officer Thomas Brooks said he concurred in the belief of the supervisors that the bond election should be held over "until the plan can be thoroughly understood . . . The most important thing is to have the voice of the people."

Individual supervisors pointed out that the election should be held over until the general election in November because:

(1)—More time is needed to study the report of the mayor's technical committee;

(2)—More study of other revenue sources is needed, so that most of the bonds may be financed without increasing the tax on real estate.

Supervisor George Christopher predicted certain defeat if the bond issue is put on the spring ballot. He said, "It would be a great fallacy on our part trying to place this matter on the ballot in November. It would go down to certain defeat. Then it will take a great deal of time to regain the confidence of the people."

Supervisors attending the transit hearing were Christopher, Colman, Lewis, Mead, MacPhee, John J. Sullivan, and J. Joseph Sullivan.

URGE FORMATION OF LARGE PORT DISTRICTS

SACRAMENTO. — Formation of metropolitan airport districts where counties or even larger areas would join in such a plan, was suggested in a report of the aviation project committee of the state reconstruction and reemployment commission released over the weekend.

The report also urged enactment of aeronautical laws and coordinated development and promotion of the state's air transport industry.

28 CANDIDATES SEEK OAKLAND EXCHANGE'S DIRECTORSHIPS TUES.

Twenty-eight candidates are contesting for the 14 director's positions to be elected by the Oakland Builders' Exchange, Tuesday, March 18. Polls will be open from 8 a. m. to 5 p. m. Mail ballots are acceptable, Manager C. W. Dorwin announced.

Following are the names of the candidates for office: Donald B. Kirby, R. A. Hutchison, Hal Bennett, Frank C. Greth, Joseph A. Turgeon, Walter Blumert, N. V. Heathorn, R. F. Coffin, Wm. J. Goodman;

J. Moeller, J. Carlstrom, P. Sampson, Conrad Rasmussen, S. B. Spaan, L. H. Lincoln, Abe R. Doty, H. J. Christensen, C. H. Trams, John F. Tulloch, A. H. Rahlves, Ed E. Stahl;

Harrold Maglund, William E. McGrath, R. C. Fischer, P. S. Rickey, Hugh M. O'Neill, A. R. Matson and Lowell H. Lass.

Work is divided into 10 schedules. Specifications obtainable from the above office; no charge to prospective bidders; to others, $1, not returnable.

36— PARKS, AIRPORTS & PLAYGROUNDS

3/13/47 36
Owner Taking Bids—Due March 26, 10 A. M.
Runway Extension, Etc
LOS ANGELES, Calif., Los Angeles Co. Los Angeles Airport.
Owner—Los Angeles City Board of Public Works, 138 City Hall, Los Angeles, Calif.
Plans by owner.
Extension of runway "A", site grading and related work
The work involves:
(1) lump sum for removals;
(2) 68,150 cu. yds. of excavation;
(3) 7765 tons of asphaltic concrete wearing surface;
(4) 320 tons asphaltic concrete baze, over culvert;
(5) 33,075 tons asphaltic concrete base, runway and gutters;
(6) 398,600 sq. ft. soil cement stabilized base 9 inches thick;
(7) 88,632 sq. ft. soil cement stabilized base 8 inches thick;
(8) 11,523 bbls. portland cement for soil stabilized base;
(9) 524,421 sq. ft. select material compacted subbase, 6 inches thick;
(10) 88,632 sq. ft. select material compacted base, 2 inches thick;
(11) lump sum for reinforced concrete culvert;
(12) lump sum remove and reset existing fence and gates and furnish and install new fence;
(13) lump sum for concrete encased conduit;
(14) 2 units raising and resetting runway lights.
Note: Bids will be taken on Alternate 1, total of items 1 to 5 inclusive, and 9 to 14 inclusive. Alternate 2, total of items 1 to 4 inclusive and 6 to 14 inclusive.

38—ELECTRIC LIGHTING & TRANSMISSION LINES

3/10/47 38
Owner Taking Bids—Due March 24, 10 A. M.
Landing System and Light Lane; Pro. 6-47-385
LONG BEACH, Calif., Los Angeles County. Long Beach Municipal Airport.
Owner—Department of Commerce, Civil Aeronautics Administration, 5651 W. Manchester Ave., Los Angeles 45, Calif.
Includes installing instrument landing system and light lane consisting of 45x6x47-ft. sctional wood antenna shelter, 12x16-ft. sectional transmitter building, installation of standby engine generator and installation of 8x12-ft. glide path building, trenching and power and control cables 15,800 ft., two neon approach lights on 5-ft. steel rack supports and nine on pole supports.
Specifications obtainable from the above office.

39—SEWERS

3/17/47 • 39
Owner Taking Bids—Due April 2, 2:30 P. M.
Sewer Relocation; Spec. 20,235
SAN FRANCISCO, Calif. Fairmont School.
Owner—City and County of San Francisco, Department of Public Works, Room 282 City Hall, San Francisco, Calif.
City Engineer—Ralph Wadsworth, City Hall, San Francisco, Calif.
Lump sum bids on 8-in. vitrified clay pipe sewer, two manholes, trap and vent and connections.
Specifications obtainable from the office of city engineer upon deposit of $10, refundable.

40— STREETS AND HIGHWAYS

3/12/47 40
3/13/47 40
Hearing of Protests Set for March 21, 8 P. M.
Street Improvement; Res. 2597
SACRAMENTO, Calif., Sacramento Co. Alley between V and W Sts., from 16th to 17th Sts.
Owner—City of Sacramento, H. G. Denton, city clerk, City Hall, Sacramento, Calif.
City Engineer—Fred Klaus, City Hall, Sacramento, Calif.
Includes reconstructing existing manhole by placing curb and cover to proper grade; installing cast-iron gutter drains and connecting same to sewer system with vitrified ironstone sewer pipe; grading and constructing concrete curb wall; grading and constructing hydraulic concrete pavement 6-in. in thickness.

3/13/47 40
Hearing of Protests Set for March 21, 8 P. M.
Street Improvement; Res. 2608
SACRAMENTO, Calif., Sacramento Co., 64th St., Ivey Way, 14th Ave., and rights of way in Macnevs Tract
Owner—City of Sacramento, H. G. Denton, City Clerk, City Hall, Sacramento, Calif.
City Engineer — Fred Klaus, City Hall, Sacramento, Calif.
Includes constructing concrete curbs, gutters and sidewalks; installing cast iron gutter drains and connecting same to sewer system with vitrified ironstone sewer pipe; installing vitrified ironstone pipe sewer; installing street monuments; constructing concrete manholes complete with cast iron curbs and covers; installing one water system complete; grading and constructing an asphaltic concrete pavement 1½ inches in thickness.

3/17/47 • 40
Construction—Low Bidder
Access Road; Project Calif. DA-MR-84 Cost $57,110.50
RICHMOND, Calif., Contra Costa Co. To Naval Fuel Annex.
Owner—Public Roads Administration, C. C. Morris, division engineer, 720 Denton, City Clerk, City Hall, Sacramento, Calif.
City Engr.—Fred Klaus, City Hall, Sacramento, Calif.
Includes reconstructing existing manhole by placing curb and cover to proper grade; installing cast-iron gutter drains and connecting same to sewer system with vitrified ironstone sewer pipe; grading and constructing concrete curb wall; grading and constructing hydraulic concrete pavement 6-in. in thickness.

(17) 8 each intersection controller standards and foundations;
(18) 1 each intersection controller;
(19) lump sum intersection wire;
(20) 200 lin. ft. service wire;
(21) lump sum, removal of "stop and go signals".
Specifications obtainable from the office of the city engineer upon deposit of $10, refundable.

Contract Awarded
Grading & Surfacing Cost $763,297.50
LOS ANGELES COUNTY, Calif. Between Palomas Creek and Violin Saddle.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
About 2.6 miles (net length) grading and surfacing with plant mixed surfacing on untreated rock base. Bids will be opened in the State Bldg., Los Angeles, Calif.

Kaiser Rate

(Continued from Page One)

rate for the U. S. Steel Corporation," he added, "there certainly should be a full hearing by the commission in order that the authors of such a report may be examined."
Meantime, the California Assmbly forwarded a resolution asking ICC to grant lower freight rates on materials shipped from Utah to the Fontana plant in California.
The resolution sets forth that on December 5, 1946 the ICC allowed increased rates to all railroads, averaging 17.6 per cent; that certain railroads announced intention to reduce freight rates effective March 1 on products of the Geneva Steel Co. to West Coast points.

'Eliminate Discrimination'

The Kaiser Company endorsed the Geneva plant's requests for lower rates and asked for comparable reductions on raw materials from Utah to Fontana and on finished products from Utah to various western markets.
The resolution continued, "the Legislature and the people of the State of California believe in equality for all and special privilege for none," therefore it asks such action as will:
"Eliminate discrimination if any there is, and that will insure fairness and equity between shippers."

Fusion Welded Sheet Steel Pipe Low and Only Bidders
NAPA, Calif. Napa Co. — Basalt Rock Co., Inc., 900 8th St., Napa, Calif., submitted low bid March 11 to City of Napa, Charles Martin, city clerk, City Hall, Napa, Calif., for furnishing fusion welded sheet steel water pipe, together with accessories and appurtenances, for use by the City of Napa in the construction of the proposed Conn Creek Project pipe line. Plans by Consulting Engineer, A. Kempkey, Balboa Bldg., San Francisco, Calif.
Bids taken as follows: (Schedules B, C and D are alternative in character. Amendment will permit submission of proposal covering Schedule A only and a separate proposal covering Schedule B only... **Schedule A** (f.o.b. truck and/or railroad cars at Rutherford, Calif.):
(1) Approximately 7500 lin. ft. 36-in. I.D. x ¼-in. (i.e 36½-in. O.D.) fusion welded sheet steel pipe, double dipped only:
(a) 232 sections each 30 ft. long, one end belled, one end plain, both ends designed for field welding, per ft.;
(b) 14 sections each 20 ft. long, one end belled, one end plain, both ends designed for field welding, per ft.;
(c) 7 sections each 10 ft. long, one end belled for field welding, the other end to take a long sleeve Dresser coupling, per ft.;
(d) 7 sections each 10 ft. long, one end plain for field welding, the other end to take a long sleeve Dresser coupling, per ft.;
(2) 2 each manifolds complete;
(3) 3 each 6in. hat flanges to be furnished and welded on pipe;
(3a) flanges only not welded on pipe;
(4) 4 each 36-in. pipe flanges to be furnished and welded on pipe;
(4a) flanges only not welded on pipe;
(5) 7 each long sleeve Dresser couplings for 36½-in. O.D. pipe;
Schedule B (f.o.b. truck and/or railroad cars at Napa, Calif.):
(1) approximately 97,000 lin. ft. 24-in. I.D. x ¼-in. (i.e. 24½-in. O.D.) fusion welded sheet steel pipe, double dipped and wrapped;
(a) 3130 sections each 30 ft. long, one end belled, one end plain, both ends designed for field welding. per ft.;
(b) 46 sections each 20 ft. long, one end belled, one end plain, both ends designed for field welding, per ft.;
(c) 97 sections each 10 ft. long, one end belled for field welding, the other end to take a short sleeve Dresser coupling, per ft.;
(d) 97 sections each 10 ft. long, one end plain for field welding, the other end to take a short sleeve Dresser coupling, per ft.;
(2) specials;
(a) elbows, 4 each, 90degree;
(b) 3 each, 40-degree;
(c) 26 each 30-degree;
(d) 1 each 36x24-in. tapers;
(3) hat flanges to be furnished and welded on pipe;
(a) 50 6-in. hat flanges to be furnished and welded on pipe;
(b) 20 each 12-in. hat flanges to be furnished and welded on pipe;
(c) 50 6-in. do not welded on pipe;
(d) 20 12-in. do
(4) 10 each 30-in. pipe flanges to be furnished and welded on pipe;
(4a) dc not welded on pipe;
(5) 97 each short sleeve Dresser couplings for 30½-in. O.D. pipe;
Schedule D (f.o.b. truck and/or railroad cars at Napa, Calif.).
(1) approximately 97,000 lin. ft. 36-in I.D. x ¼-in. (i.e. 36½-in. O.D.) fusion welded sheet steel pipe, double dipped and wrapped:
(a) 3130 sections each 30 ft. long, one end belled, one end plain, both ends designed for field welding, per ft.;
(b) 46 sections each 20 ft. long, one end belled, one end plain, both ends designed for field welding, per ft.;
(c) 97 sections each 10 ft. long, one end belled for field welding, one end to take a short sleeve Dresser coupling, per foot;
(d) 97 sections each 10 ft. long, one end plain for field welding, one end to take a short sleeve Dresser coupling, per foot;
(2) specials:
(a) elbows, 4 each, 90-degree;
(b) 3 each 40 degree;
(c) 26 each 30-degree;
(d) 10 each 30x30-in. tapers;
(3) hat flanges to be furnished and welded on pipe;
(a) 50 each 6-in. hat flanges to be furnished and welded on pipe;
(b) 20 each 12in. hat flanges to be furnished and welded on pipe;
(c) 50 6-in. do not welded on pipe;
(d) 20 each 12-in. do
(4) 10 each 36-in. pipe flanges to be furnished and welded on pipe;
(a) do. not welded on pipe;
(5) 97 each short sleeves Dresser couplings for 36½-in. O.D. pipe.
Total bids submitted March 11 were:
(A) Basalt Rock Co., Napa, (Sch. A) $58,326.80; (Sch. B) $464,957.60 Total Sch. A and B, $553,294.40; (Sch. C) $647,490.40; Total Sch. A and C, $705,827.20; (Sch. D) $773,382.60; Total Sch. A and D, $831,719.40.

Steel Projects
(Continued from Page One)

for efficient, low-cost manufacture and distribution of products of a character and quality to meet changing customer requirements, says the American Iron and Steel Institute.

But further than this, the mills have an eye on improved working conditions and safety through installation of new equipment. The output of all workers will be increased, they feel.

A large portion of the anticipated 1947 expenditure will be for enlargement of the industry's capacity for sheet and strip steel. These products have been in strong demand for peacetime purposes. Heaviest users have been the automotive industries, manufacturers of home appliances—refrigerators, washing machines and other products for householders—and the construction industry. The greatest needs shown by contractors have been in the residential construction category.

War Wear Severe

Still other funds will be spent in adapting facilities built by the government for war purposes and now owned by steel companies, for peacetime use. Budgeted amounts for the customary replacement of obsolete equipment and machinery account for the balance of the 1947 sum.

During the war years, while producing at top speed, the wear and tear on the steel industry's equipment was very severe, the Institute points out. At the same time, the steel industry was unable to install new machinery and equipment for producing highly finished types of steel for civilian goods.

Greater Production

Construction men should bear in mind that the 1947 expansion of the steel industry will mean more of the essential product for heavy construction work as well as providing immediate work for builders. Limited mill capacities have held down the supply of reinforcing steel for highway construction, fabricated forms for commercial and industrial building, as well as housing.

Official Proposals

COUNTY OF SAN MATEO
STATE OF CALIFORNIA
NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the Purchasing Agent, County of San Mateo, in the County Court House, Redwood City, California, until 10:00 A. M., March 21, 1947, at which time they will be publicly opened and read in the office of the Purchasing Agent, for the performance in accordance with the plans and specifications therefor, to which special reference is made, of the CLEARING AND GRUBBING OPERATIONS for the realignment of County Road No 20, also known as Canada Road, San Mateo County, California, as follows:

From the existing Canada Road near the entrance to the property known as Canada Road Park, being approximately 2.5 miles along said road in a generally northerly direction from Woodside, California; thence in a generally northerly direction to the intersection of the said Canada Road with County Road No. 19, also known as Ralston Avenue, said proposed realignment being approximately 4.7 miles in length (Engineer's Station 134+00 to Station 382+30.84).

Item 1. Clearing and Grubbing Lump Sum

Prevailing rates of wages shall be paid on the work.

The attention of bidders is particularly directed to the provisions of Section 8, Articles (a) and (b), of the Standard Specifications, which are hereby cancelled, as no sub-contracts or assignments will be permitted.

No bid will be accepted from a contractor who is not licensed in accordance with the laws of the State of California.

Plans and specifications, forms of proposal, and contract may be seen and obtained at the Office of the Purchasing Agent in the County Court House, Redwood City, California. Plans may be taken therefrom upon deposit of $10.00 per set. Said deposit will be refunded upon return of the plans in good condition.

The County of San Mateo reserves the right to reject any or all bids.

E. B. SMITH, Purchasing Agent.

Decontrol Bill

(Continued from Page One)

Wolcott's new bill for repealing the housing measure.)

As the law now stands, newly completed homes must be held for a period of 60 days for sale to veterans. After that period they may be placed on the open market.

These priorities granted to vets to purchase homes built under the act will be reduced from the present 60-day period, Congressmen Wolcott said, but he did not reveal the length of time his new legislation would substitute.

Decision to reduce this priority time in the new measure undoubtedly stems from the housing agency's recent practice of reducing the period in individual hardship cases.

In several local instances builders have been permitted to sell their homes to non-veterans if they could show no veteran had applied for the house within a month after completion.

Two other exceptions in procedure have been noted. If the first house completed in a development is not sold to a veteran in 30 days, the Patman Act restriction has been waived and all homes in that group are permitted to go on the open market. In other instances a comparable new house in the neighborhood is used as a guide. If it has stood unpurchased by a veteran for 30 days, or another given time under the 60-day restriction period, then new homes in that locality have been permitted listing to non-veterans.

It is emphasized, however, that these NHA exceptions have been individually treated, that no blanket rule excepting builders has been applied. And hardship, so-called always has been shown.

POSITIONS OPEN

S-567—ENGRS, with sanitary and industrial hygiene training and experienced for administrative work in Alaska. Starting sales $300 to $420 month. Apply by letter.

S-411-H—PRINCIPAL SANITARY ENGR. and SR. SANITARY ENGR. to prepare plans and specs. of water and sanitary systems. Sal. $650 and $600 month, respectively. 12 months' contract. Foreign.

COMPLETE BUILDING AND ENGINEERING NEWS SERVICE

F. W. DODGE CORPORATION

Daily Pacific Builder

LARGEST CONSTRUCTION DAILY IN THE WEST

Vol. 57—No. 53 FIRST SECTION SAN FRANCISCO, TUESDAY, MARCH 18, 1947

Copyright 1946 by F. W. Dodge Corporation

PLANS and Speculations

Howard C. Wood, Bay Bridge engineer, announced Thursday that expansion of its toll plaza will start in about three months. Realignment of the westerly portion of the westbound leg of the Port of Oakland overhead structure and timber portions must be removed and replaced by permanent reinforced concrete construction.

oOo

Oregon's Senator Morse has declared he will introduce legislation to direct the national housing expediter to spend $25 million a year for roads into government-owned timber areas.

oOo

Hayward city council has taken action to secure traffic signals for the Sunset-Castro intersection.

oOo

Secretary of Commerce Averell Harriman has recommended a federal grant of $2,550,000 be allotted to help improve San Francisco Municipal Airport.

oOo

The state chamber of commerce has figured cost of the long range super-highway system at $13 per motorist per year.

oOo

Wilbur H. Haines has been appointed by the Sacramento city and county veterans affairs committee to supervise a vet housing survey.

oOo

Establishment of a lighting district in the San Pablo area will be the issue when a special election is called soon.

oOo

Mill Valley Tennis Club contemplates enlarging the proposed pool formerly to have been 25x60 feet. The new size would be 30x75. Bids will be asked soon, Gerry Misner, chairman of the swimming pool committee, announced.

oOo

The City of San Francisco presented the high bid for surplus railroad property near Fisherman's Wharf. The city plans to use the land for a Muny Railway barn.

oOo

Supervisor George Christopher has proposed that the San Francisco State College campus be constructed in the Presidio on a 150-acre site. The resolution will be presented at the March 17 supervisors meet and it has the backing of Dr. J. Paul Leonard, president of the college.

oOo

At least three proposals have been made for use of Angel Island, to wit: (1) for a state recreation area; (2) for a "super" airport for San Francisco; and (3) for homesite development.

oOo

FWA plans advances will be made Sonora on a proposed $54,500 sewage treatment plant addition. The loan is $1550. A second loan is to Oroville union high school district for a shop building to cost $33,000. The loan is for $1,500.

#

Creedon Staff Trims Construction Estimate

WASHINGTON.—About 825,000 new homes can be started in 1947, Housing Expediter Frank R. Creedon's staff informed him this week, provided that federal controls and financial aids are continued, and only 750,000 could be started should controls be dropped.

The report cited high costs, material scarcities and other factors as obstacles to the achievement of the million-homes goal set for 1947, and recommended that controls be continued through September. It also urged that the federal housing administration continue its Title VI mortgage insurance beyond the June 30 expiration date and liberalize its financing of home mortgages.

Fire Precaution Bill May Add Hundreds of Projects to State List

The construction industry of California can count on adding hundreds of thousands of dollars to the bulging market if Assembly Bill 753—now in committee—is passed by the state legislature this year.

The bill was devised by the state committee on amendments to and revision of the State Housing Act, and is directed toward preventing tragic fires in hotels and apartment buildings.

It prohibits transoms opening into public hallways, requires the enclosure of stairways with self-closing fire doors at each story level, fire protection of shafts, fire alarm systems, sprinkler systems where combustives are stored, fire extinguishers, flame - retardant treatment of decorative material, an adequate means of egress.

Such provision would be applicable to both new and existing apartment houses and hotels. Eighteen months would be allowed for the enclosure of stairways and shafts and installation of sprinkler systems after the bill is passed. Within a year from passage, such buildings must be provided with two means of egress.

Prominent representatives of the building industry and professions, of apartment and hotel owners, and of fire departments, served on the committee drafting the legislation.

Its chairman was Harry A. Cobden, chief building inspector of Berkeley, and a member of the Pacific Coast Building Officials' Conference. Other building inspection officials who served included A. J. Hurley, former Richmond chief, and W. H. Hughes, of San Bernardino County.

Albert J. Evers, San Francisco, and Adrian Wilson, Los Angeles, represented the American Institute of Architects. M. C. Poulsen, San Francisco, represented the Structural Engineers Association.

Fire department officials serving on the committee were Wm. Meyhoff, Berkeley; Clarence Mulligan, Sacramnto; Albert Sullivan, and Frank Kelley, San Francisco.

E. B. DeGolia, San Francisco, represented the California State Hotel Association; and Joseph A. Brown, the San Francisco Apartment House Association. Engineer C. A. Woars, San Francisco, was the delegate of the National Board of Fire Underwriters.

55,000 Tons Copper To Be Allocated; 4c Tax on Importations

WASHINGTON.—The price of copper sold by the Reconstruction Finance Corporation beginning with March allocations will be based on average cost of acquisition or the prevailing market price for copper, whichever is higher, Commissioner Harold Stein of the Office of War Mobilization and Reconversion announced today.

In a letter to Charles B. Henderson, chairman of the Board of the Reconstruction Finance Corporation, Commissioner Stein said that the new pricing policy is necessary to comply with the government's general policy of avoiding subsidized sales of materials bought by the government since the decontrol of prices.

The Reconstruction Finance Corporation, acting on a directive from OWMR on November 20, discontinued public purchase of copper except for the fulfillment of outstanding commitments. At the same time it was announced that beginning January 1, 1947, importations of copper by RFC would be subject to an excise tax of 4 cents per pound. Virtually all of the copper now in RFC stocks has been subject to the excise tax.

Commissioner Stein said about 55,000 tons of copper will be available for allocation and said under the new pricing policy during the next two or three months.

GROOVER AND I

?, ?, ?, & ?

President Truman's request for aid to Greece and Turkey will be approved by a "preasure cooked" Congress.

☆ ☆ ☆

It is time to recall a foreign relations formula so clearly expressed in five words by another President — the first of Wilson's 14 points: "open covenants — openly arrived at".

☆ ☆ ☆

Today's approval is influenced by the President's assurance of urgent necessity. It is fair to ask if the Administration has been sufficiently honest with the People to deserve this blind faith?

☆ ☆ ☆

The present emergency didn't just suddenly "happen" — it has been long in the making and our State Department hasn't slept that soundly. Evidence of a carefully planned propagandic build-up sticks out all around the edges.

☆ ☆ ☆

The timing was too perfect. We are given the rush act—17 days to change our policy of 170 years.

☆ ☆ ☆

It is time to try for some answers. Won't the needs of Greece and Turkey be just as great next year, the next, the next—and for how long?

☆ ☆ ☆

After those two, how many other nations where the need is just as urgent? Within a year England is withdrawing from India — are we supposed to rush in there and pick up the White Man's Burden?

☆ ☆ ☆

The President submitted a budget providing for a 200 million dollar payment on the national debt. By his own figures he admits we are in hock for the next thirteen hundred years! Is there any limit to our resources?

☆ ☆ ☆

By "military personnel" do we mean a few staff officers to supervise the training of native troops or do we mean armed forces to replace the withdrawing British troops? Just who is kidding whom?

☆ ☆ ☆

As to "saving a Democracy" by economic and military aid — we have just completed a colossal failure along that line in China.

☆ ☆ ☆

It is not a question of deciding whether we are going down this road of world politics—the State Department has been doing this for years. The question is: How far have we gone and where does the road lead?

☆ ☆ ☆

"The whole truth, simply told" to the people of this Republic is a commodity which has been in "short supply" in Washington for the past 14 years.

☆ ☆ ☆

Now is the time for your elected Congress to ask a lot of questions—if possible, to find out how many commitments and promises this government has made — and to whom. If your Congress is insistent enough, it may get a few answers.

☆ ☆ ☆

If half of the questions are answered — in double talk — it will be par for Washington.

#

EXTEND DEADLINE

The war assets administration announced today that the effective date for the signing of a definitive lease by the Tucker Corporation for the former Dodge-Chrysler aircraft engine plant in Chicago has been extended for four months.

The closing date previously had been set for March 1, but under an agreement concurred in yesterday by officials of the Office of Real Property Disposal and the Tucker Corp., an extension to July 1 has been granted.

Works Dept. 'Stand Pat' on Ten Major Issues Of Proposed Code; on Calendar Monday, 24th

Supervisor Chester MacPhee, chairman of the committee which is processing the proposed building code for presentation to the board, announced today that the voluminous building legislation probably will be upon the supervisors' March 24 calendar. MacPhee declared: "All hearings have been completed. The matter is now under advisement by the committee, and will probably be before the board a week from Monday (March 17) or later."

The city public works director told a Daily Pacific Builder reporter Monday that he will "stand pat" on a few major points of the proposed building code "upon which we have felt it necessary to hold firmly to our own ideas."

The director told a Daily Pacific Builder reporter that the Department of Public Works feels that they have gone as far as was possible in accepting a compromise to the code and that to go further along such lines would be to emasculate the code to such a point as to endanger its value.

The items that the department of works has notified San Francisco supervisors that it will not concede probably will draw fire from the citizens' advisory committee. The committee is headed by William Popert, a representative of the American Institute of Steel Construction, and secretary of the Structural Engineers Association.

The advisory committee was appointed by the judiciary committee of the board to coordinate and present the recommendations of the various segments of the construction industry. Its nine members held many meetings, and finally presented a long series of recommendations. Most of them were incorporated into the code.

Top on the department of works list comes Article 23 of the proposed code — the section dealing with lateral (seismic or earthquake) forces. The matter has been bitterly contested all through the public committee hearings on the code, with the advisory committee protesting that requirements as written by DPW are excessive, and works department representatives insisting that their provisions are as lenient as they may safely be.

Next in point of importance on the city's list was rivet stresses. The advisory board recommended that the A.I.S.C. 1946 permissible working stresses for structural steel, except that tension in bolts at the roots of threads shall be 15,000 pounds per square inch instead of 20,000 pounds per square inch.

Authors of the code recommended no change on Section 907-1 which deals with exposed stairways, requiring that they should be supported on masonry, rather than wood. An Associated Home Builders assertion that wood is adequate brought a conflict of opinion within the judiciary committee itself, and was held over for further discussion.

One of the hotly-advocated changes to the code (Section 907-d) was presented by the Associated Home Builders. They asked that the length of mud sill bolts be eight inches instead of nine inches as of January 1, 1948. This has been incorporated into the proposed code

Following are some other concessions made by the department of public works.

Section 1515: Provisions were incorporated whereby space may be rented for one car without declaring it a public garage. Private garages shall be unlimited in floor area and one- and two -family dwelling garages shall not accommodate more than three cars.

Section 1609: The judiciary committee qualified its passage of this by ordering that the matter of amending the code to provide for delivery space in buildings to be placed on the calendar of the committee, to be considered apart from the code. Adoption of this section, was strongly urged by the mayor's technical transit committee.

Other items city officials believe to be too vital to be given up are: limitation as to use and permitted location of No. 4 type of all-metal buildings; character of temporary partitions in Class 1 buildings; wood sheathing on outside walls of all frame dwellings; loading accommodations for truck deliveries in large buildings within the central business district; a landing platform at the head of basement stairways.

#

Technical Research Fund Freed Soon

WASHINGTON.—(Exclusive)—John L. Haynes, head of the construction division of the Department of Commerce, prophesied today that all funds appropriated for research work in the Office of Technical Services would soon be "unfrozen" and applied to their originally intended uses.

Of the $1 million set aside by congress for use this fiscal year in research activity undertaken by the Department of Commerce, nearly one-third has been obligated for investigations in the construction field, Haynes revealed. "We've got $225,000 already obligated," he said, "and another $100,000 ready to go. This money cannot be frozen."

Pay Raise Reason

It is doubtful that with such a large proportion of the funds already assigned to construction research, much of the remaining money that is temporarily withheld will go for this type of work when the allocations are freed.

It is a pretty good guess that necessity for the freeze action arose from the 14 per cent salary boost for federal employees voted by congress last year. It was said at that time that each department would have to tighten its own fiscal belt to take up the losses. Some agencies fired employees to achieve this, and some have just waited to see what would happen.

Now, with the fiscal year running out and the deficiency appropriation budget up for consideration, Commerce has decided to review its financial status and hold the research money in abeyance until the results of the survey are in.

An additional $500,000—over and above the one million—was appropriated for research activities at the bureau of standards and it is understood that this, too, is temporarily frozen.

Big Share to Industry

The $1,500,000 set aside by congress in the Commerce department covers a multitude of products in addition to construction items. In the light of this, the construction division has done well to secure obligation of nearly one-third of the $1 million for use exclusive of bureau of standards purposes when it is considered that construction constitutes about 12 per cent of all economic activity.

COMPRESSOR REVISION

WASHINGTON.—A revision of Simplified Practice Recommendation R209-43, Air Compressors for Automotive Service Stations and Garages, as proposed by the original proponents of that program, has been submitted to the manufacturers, distributors, and users of air compressors for comment or approval, or both.

Copyright 1946 by F. W. Dodge Corporation. Reproduction in whole or part, without written permission of the copyright holder, is expressly forbidden.

FHA PERMITS ISSUED

SAN FRANCISCO.—The Federal Housing Administration, D. C. McGinness, district director, 315 Montgomery St., San Francisco, has announced the following list of permits granted by the above office for the construction of dwelling or rental units (other than for owner-occupancy) in the San Francisco area for applicants as noted:

1 UNIT—Oakland; H L Murphy, 6847 Hawley St, Oakland.
1 UNIT—Pacific Grove; H I Searles, 1009 Egan Ave, Pacific Grove.
1 UNIT—San Carlos; W S Melville, 1368 School St, San Carlos.
1 UNIT—Oakland; Robert K Smith, 5851 Romany Rd, Oakland.
8 UNITS—Sacramento; Norman Latin, 1519 Alhambra Blvd, Sacramento.
1 UNIT—Byrte; A H Dunham, Frieda N Elliott, 121 Sacramento Ave, Ave. Byrte.
1 UNIT—Monterey; James W Heston, Route 1, Box 217F, Monterey.
74 UNITS—Walnut Creek; Pleasant Vie wHomes, Inc, 6529 Hollis St, Oakland.
1 UNIT—Oakland; D F Swindell, 4508 Tompkins Ave, Oakland.
1 UNIT—San Rafael; P J Tarrant, 1011 3rd St, San Rafael.
1 UNIT—Oakland; Morgensen Bros, 5830 Virmar Ave, Oakland.
1 UNIT—Richmond; Grover S Carpenter, 2025 Sanford Ave, Richmond.
1 UNIT—Berkeley; David Kesti, 2217 Browning St, Berkeley 2.
1 UNIT—Berkeley; A C Brunsell, 1173 Sutter St, Berkeley.
2 UNITS—Salinas; J M Durnell, 126 Paloma Ave, Salinas.
8 UNITS—San Francisco; George F Belcher, 3330 San Bruno Ave, San Francisco.

(2) 28,500 cubic yards of backfill about structures;
(3) Compacting 7,900 cubic yards of backfill about structures;
(4) Placing 16,000 cubic yards of earth lining of lateral;
(5) 500 cubic yards of gravel blanket on slope of lateral;
(6) 4,050 square yards of dry-rock paving;
(7) 2,175 cubic yards of concrete in structures;
(8) Furnishing and handling 3,300 barrels of cement;
(9) Placing 140,000 pounds of reinforcement bars;
(10) Erecting 29 M.b.m. of timber in structures;
(11) Laying 6,500 linear feet of 15-inch diameter concrete pipe;
(12) Laying 520 linear feet of 18-inch diameter concrete pipe;
(13) Laying 332 linear feet of 24-inch diameter concrete pipe;
(14) Laying 260 linear feet of 30-inch diameter concrete pipe;
(15) Laying 150 linear feet of 36-inch diameter concrete pipe;
(16) Laying 1,110 linear feet of 48-inch concrete pipe;
(23) Laying 3,000 linear feet of 54-inch diameter concrete pipe;
(24) Laying 36 linear feet of 15-inch diameter corrugated-metal pipe;
(25) Installing 2,100 pounds of gates; and
(26) Installing 10,650 pounds of miscellaneous metalwork.
Total bids submitted March 4 were:

33— BRIDGES

3/18/47 33
Contract Awarded Cost $73,631.50
Bridge and Grading
SAN JOAQUIN COUNTY, Calif. At Calaveras River, about eight miles north of Stockton.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
Construct steel girder bridge and about 0.4 mile grading and surfacing with plant mix surfacing.
Contractor—Elmer J. Warner, 1108 Sycamore St., Stockton, Calif.

34—DAMS, RESERVOIRS & DREDGING

3/18/47 34
Low and Only Bidders
Earthwork and Structures; Spec. 1668 Cost $251,381
BOISE PROJECT, Idaho. About 3 miles north of Caldwell.
Owner—U. S. Bureau of Reclamation, 214 Broadway, Boise, Idaho.
Plans by engineering department of owner.
Earthwork and structures, Conway Gulch Lateral from station 60 plus 50 to end, "C" Line East Canal laterals 9.2 and 9.4 and subiaterals, Payette Division.
Low Bidder—Humphreys & Ketchen, Box 329, Boise, Idaho, $251,381.
Work involves:
(1) 205,000 cubic yards of excavation, common, for laterals;
(2) 100 cubic yards of excavation, rock, for laterals;
(3) 1,500 cubic yards of excavation for core banks;
(4) 15,000 station cubic yards of overhaul;
(5) Compacting 2,700 cubic yards of embankment;
(6) 32,000 cubic yards of excavation, common, for structures;
(7) 50 cubic yards of excavation, rock, for structures;
(8) 28,500 cubic yards of backfill about structures;
(9) Compacting 7,900 cubic yards of backfill about structures;
(10) Placing 16,000 cubic yards of earth lining of lateral;
(11) 500 cubic yards of gravel blanket on slope of lateral;
(12) 4,050 square yards of dry-rock paving;
(13) 2,175 cubic yards of concrete in structures;
(14) Furnishing and handling 3,300 barrels of cement;
(15) Placing 140,000 pounds of reinforcement bars;
(16) Erecting 29 M.b.m. of timber in structures;
(17) Laying 6,500 linear feet of 15-inch diameter concrete pipe;
(18) Laying 520 linear feet of 18-inch diameter concrete pipe;
(19) Laying 332 linear feet of 24-inch diameter concrete pipe;
(20) Laying 260 linear feet of 30-inch diameter concrete pipe;
(21) Laying 150 linear feet of 36-inch diameter concrete pipe;
(22) Laying 1,110 linear feet of 48-inch concrete pipe;
(23) Laying 3,000 linear feet of 54-inch diameter concrete pipe;
(24) Laying 36 linear feet of 15-inch diameter corrugated-metal pipe;
(25) Installing 2,100 pounds of gates; and
(26) Installing 10,650 pounds of miscellaneous metalwork.
Total bids submitted March 4 were:
(A) Humphrey & Ketchen, Boise, Idaho, $251,381.
(B) Henry Horn, Caldwell, Idaho, $296,579.30.

(A) 90 cu. yds. concrete in tunnel;
(B) 2450 cu. yds. concrete in reinforced canal lining;
(C) 2450 cu. yds. concrete in unreinforced canal lining;
(D) placing 368,000 lbs. reinforcement bars in structures and tunnel lining;
(E) placing 150,000 lbs. reinforcement bars in canal lining;
(F) 430 sq. yds. dry-rock paving;
(G) driving 216 lin. ft. timber piles;
(H) erecting 75 B b.m. timber in bridges;
(I) constructing 10 cattle guards;
(J) laying 100 lin. ft. 12-in. diameter concrete pipe;
(K) laying 340 lin. ft. 15-in. diameter concrete pipe;
(L) laying 590 lin. ft. 18-in. diameter concrete pipe;
(M) laying 400 lin. ft. 24-in. diameter concrete pipe;
(N) laying 180 lin. ft. 30-in. diameter concrete pipe;
(O) installing 12,000 lbs. gates;
(P) installing 7300 lbs. miscellaneous metalwork;
(Q) purchase of forms from government by the contractor.

Schedule No. 2
Clayton Canal

(R) clearing 5 acres of orchards and vineyards;
(S) grubbing 5 acres of orchards and vineyards;
(T) 47,000 cu. yds. excavation for canal;
(U) 20,000 sta. cu. yds. overhaul;
(V) compacting 1500 cu. yds. embankments;
(W) 14,000 cu. yds. excavation for structures;
(X) trimming 30,000 sq. yds. foundations for concrete lining;
(Y) 10,000 cu. yds. backfill;
(Z) 1500 c.y. concrete in canal lining
(AA) placing 168,000 lbs of reinf. bars;
(BB) 100 sq. yds. dry-rock paving;
(CC) erecting 19 M b.m. timber in bridges;
(DD) constructing 1 cattle guard;
(EE) laying 50 l.f. 15-in. diam. conc. pipe;
(FF) laying 600 l.f. 18-inch do;
(GG) laying 200 l.f. 24-inch do;
(HH) laying 30 l.f. 30-inch do;
(II) laying 350 l.f. 12-inch diameter corrugated metal pipe;
(JJ) installing 1500 lbs. gates;
(KK) installing 2200 lbs. miscellaneous metalwork;

Schedule No. 3
Ygnacio Canal

(LL) clearing 10 acres orchards and vineyards;
(MM) grubbing 10 acres of orchards and vineyards;
(NN) 95,000 cu. yds. excavation for canal;
(OO) 10,000 sta. cu. yds. overhaul;
(PP) compacting 3560 cu. yds. embankments;
(QQ) 6500 cu. yds. excavation for structures;
(RR) trimming 24,000 sq. yds. foundations for asphaltic lining;
(SS) applying 15,000 sq. yds. organic soil sterilant;
(TT) applying 9000 sq. yds. inorganic soil sterilant;
(UU) 6000 cu. yds. backfill;
(VV) compacting 3400 cu. yds. backfill;
(WW) 440 cu. yds. concrete in structures;
(XX) 28,700 sq. yds. asphaltic canal lining, except asphalt;
(YY) furnishing 245 tons asphalt for asphaltic lining;
(ZZ) placing 50,000 lbs. reinforcement bars;
(AAA) 200 sq. yds. dry-rock paving;
(BBB) erecting 44 M b.m. timber in bridges;
(CCC) constructing 10 cattle guards;
(DDD) laying 900 lin. ft. 15-in. diameter concrete pipe;
(EEE) laying 960 lin. ft. 18-in. diameter concrete pipe;
(FFF) laying 240 lin. ft. 24-in. diameter concrete pipe;
(GGG) laying 170 lin. ft. 30-in. diameter concrete pipe;
(HHH) installing 3800 lbs. gates;
(III) installing 3000 lbs. miscellaneous metalwork.
Total bids submitted Mar. 17 were:
(A) Parish Bros., Benicia, Calif., (Sch. 1) $630,046, net total including lump sum deduction for item 30; (Sch. 2) $237,187.50; (Sch. 3) $184,914.

3/18/47 34
Contract Awarded—Construction Started March 13
Retaining Wall Cost $1,095
EUREKA, Calif., Humboldt County. Southeast property line of district adjoining county highway.
Owner — Worthington Elementary School District, Warren E. Fridley, clerk, RFD No. 1, Box 197, Eureka, Calif.
Plans by owner.
Concrete retaining wall.
Contractor — Mercer-Fraser Co., 2nd and Commercial Sts., Eureka, Calif.
Other bids submitted March 10 were:
C. E. Johnson, Eureka, $1400.
Garrison & Dodge, Eureka, $1480.75.

3/18/47 34
Three Low Bidders
Narrows Dam and Power Plant; Serial 47-143 Cost $6,618,262.50
PIKE COUNTY, Arkansas. Little Missouri River, tributary of Quachita River, approximately seven miles from Murfreesboro.
Owner—Vicksburg District, Corps of Engineers, War Department, Col. R. G. Lovett, district engineer, Vicksburg, Miss.
Plans by owner.
Gravity concrete dam and reservoir storage, capacity approximately 410,000 acre feet, and power plant at damsite with installation of hydroelectric generating facilities, capacity approximately 20,000-kw.
Low Bidder—L. E. Dixon Co. and Arundel Corp., 409 S. California St., San Gabriel, Calif., $6,618,262.50.
Second and third low bidders March 14 were:
Pensacola Construction Co., $7,675,-629.
Little Missouri Constructors, $7,772,-883.
Engineer's estimate, $6,040,000.

3/18/47 34
Owner Taking Bids—Due March 28, 2 P. M.
Rubble Breakwater; Serial No. 04-203-47-26
CRESCENT CITY, Calif., Del Norte County. Crescent City Harbor.
Owner—War Department, Corps of Engineers, office of the district engineer, 74 New Montgomery St., San Francisco, Calif.
Plans by owner.
Construction of rubble breakwater approximately 1000 ft. long extending southeasterly from the end of the existing breakwater towards Round Rock, and removal of approximately 790 cu. yds. of material from pinnacle rocks in the fishboat harbor.
The work involves:
(1a) 57,900 tons class A stone in breakwater;
(1b) 81,900 tons class B stone in breakwater;
(1c) 120,500 tons class C stone in breakwater;
(2) 790 cu. yds. pinnacle rock removal.
Specifications obtainable from the above office.

3/18/47 34
Low and Only Bidders
Canals; Spec. 1693
CENTRAL VALLEY PROJECT, California. Contra Costa Canal, located from about one mile south of Hookston to about one-half mile west of Pacheco; Clayton and Ygnacio canals from three miles northeast to 4½ miles south of Concord.
Owner—U. S. Bureau of Reclamation, Antioch, Calif.
Plans by engineering department of owner.
Includes earthwork, canal lining and structures, station 1993 plus 11 to station 2321 plus 25, Contra Costa Canal and Clayton and Ygnacio canals.
Low Bidder—Parish Bros., Box 6, Benicia, Calif., (Sched. 1) $650,046; (Sched. 2) $237,187.50; (Sched. 3) $184,914.
Estimated quantities are:

Schedule No. 1
Contra Costa Canal, Station 1993+11 to Station 2321+25
(1) clearing 28 acres of orchards and vineyards;
(2) grubbing 27 acres of orchards and vineyards;
(3) 186,000 cu. yds. excavation for canal;
(4) 1,164,000 sta. cu. yds. overhaul;
(5) compacting 16,000 cu. yds. embankments;
(6) 45,000 cu. yds. excavation for structures;
(7) 220 cu. yds. excavation in tunnel under highway;
(8) erecting 11,300 lbs. permanent steel supports in tunnel;
(9) erecting 3 M b.m. permanent timbering in tunnel;
(10) trimming 59,400 sq. yds. foundations for concrete lining;
(11) 39,400 cu. yds. backfill;
(12) compacting 11,000 cu. yds. backfill;
(13) 3450 cu. yds. concrete in structures;
(14) 90 cu. yds. concrete in tunnel;
(15) 2450 cu. yds. concrete in reinforced canal lining;
(16) 2450 cu. yds. concrete in unreinforced canal lining;
(17) placing 368,000 lbs. reinforcement bars in structures and tunnel lining;
(18) placing 150,000 lbs. reinforcement bars in canal lining;
(19) 430 sq. yds. dry-rock paving;
(20) driving 216 lin. ft. timber piles;
(21) erecting 75 B b.m. timber in bridges;
(22) constructing 10 cattle guards;
(23) laying 100 lin. ft. 12-in. diameter concrete pipe;
(24) laying 340 lin. ft. 15-nt. diameter concrete pipe;
(25) laying 590 lin. ft. 18-in. diameter concrete pipe;
(26) laying 400 lin. ft. 24-in. diameter concrete pipe;
(27) laying 180 lin. ft. 30-in. diameter concrete pipe;
(28) installing 12,000 lbs. gates;
(29) installing 7300 lbs. miscellaneous metalwork;
(30) purchase of forms from government by the contractor.

Schedule No. 2
Clayton Canal

(31) clearing 5 acres of orchards and vineyards;
(32) grubbing 5 acres of orchards and vineyards;
(33) 47,000 cu. yds. excavation for canal;
(34) 20,000 sta. cu. yds. overhaul;
(35) compacting 1500 cu. yds. embankments;
(36) 14,000 cu. yds. excavation for structures;
(37) trimming 30,000 sq. yds. foundations for concrete lining;
(38) 10,000 cu. yds. backfill;
(39) compacting 700 c.y. backfill;
(40) 875 c.y. concrete in structures;
(41) 1500 c.y. concrete in canal lining
(42) placing 168,000 lbs of reinf. bars;
(43) 100 sq. yds. dry-rock paving;
(44) erecting 19 M b.m. timber in bridges;
(45) constructing 1 cattle guard;
(46) laying 50 l.f. 15-in. diam. conc. pipe;
(47) laying 600 l.f. 18-inch do;
(48) laying 200 l.f. 24-inch do;
(49) laying 30 l.f. 30-inch do;
(50) laying 350 l.f. 12-inch diameter corrugated metal pipe;
(51) installing 1500 lbs. gates;
(52) installing 2200 lbs. miscellaneous metalwork;

Official Proposals

COUNTY OF SAN MATEO
STATE OF CALIFORNIA
NOTICE TO CONTRACTORS

Sealed proposals will be received at the Office of the Purchasing Agent, County of San Mateo, in the County Court House, Redwood City, California, until 10:00 A. M., March 21, 1947, at which time they will be publicly opened and read in the office of the Purchasing Agent, for the performance in accordance with the plans and specifications therefor, to which special reference is made, of the CLEARING AND GRUBBING OPERATIONS for the realignment of County Road No 20, also known as Canada Road, San Mateo County, California, as follows:

From the existing Canada Road near the entrance to the property known as Canada Road Park, being approximately 2.5 miles along said road in a generally northerly direction from Woodside, California; thence in a generally northerly direction to the intersection of the said Canada Road with County Road No. 19, also known as Ralston Avenue, said proposed realignment being approximately 4.7 miles in length (Engineer's Station 134+00 to Station 382+30.84).

Item 1. Clearing and Grubbing Lump Sum

Prevailing rates of wages shall be paid on the work.

The attention of bidders is particularly directed to the provisions of Section 8, Articles (a) and (b), of the Standard Specifications, which are hereby cancelled, as no sub-contracts or assignments will be permitted.

No bid will be accepted from a contractor who is not licensed in accordance with the laws of the State of California.

Plans and specifications, forms of proposal, and contract may be seen, and obtained at the Office of the Purchasing Agent in the County Court House, Redwood City, California. Plans may be taken therefrom upon deposit of $10.00 per set. Said deposit will be refunded upon return of the plans in good condition.

The County of San Mateo reserves the right to reject any or all bids.

E. B. SMITH, Purchasing Agent.

LARGEST CONSTRUCTION DAILY IN THE WEST

SECTION TWO TUESDAY, MARCH 18, 1947 PAGE 9

New Architectural Horizons

(This is the conclusion of the speech delivered by Thomas S Holden, president of the F. W. Dodge Corporation, recently before the Building Industry Conference Board, the American Institute of Architects and the Associated General Contractors, Central California Chapter.)

Expansion programs of industrial and commercial organizations have nowhere near run their course. Few of them have been completed, some important ones have barely started. They seem destined to effect very considerably the distribution of population, the replanning of cities and the planning of regional facilities.

For the year 1947, F. W. Dodge Corporation has estimated an overall increase over last year of 24 per cent in dollar volume of building and engineering contracts. Government estimates, made on the basis of work in place, anticipate the same percentage increase. Our figures call for the moderate increase of 7 per cent in non-residential building contracts (which may be over - conservative); an increase of 38 per cent in dollar volume of residential building; an increase of 22 per cent in heavy engineering construction.

Within the residential building classification, apartment building should increase relatively more than single-family houses. This expectation is based on the relatively greater need for rental housing and the relatively lower unit costs of apartment suites as compared with houses. The most important bottleneck to apartment building is the same one that has existed since V-J day, refusal of the government to exempt new rental housing from rent ceilings.

It is my strong belief that this and all other controls, except rent ceilings on existing housing, should be abandoned at once. For existing housing there should be an upward adjustment of ceilings, perhaps in several stages, with abandonment of rent control set for some definite and not too distant date. The whole rent control question has gone political; it looks as if some remedial action may come from congress.

Congress will also have before it the reintroduced Wagner-Ellender-Taft bill and other proposals for federal subsidies for housing and urban redevelopment. It is difficult to say at this time just what kind of housing legislation the Congress will give serious attention to or the kind it may enact. Last year's defeat of the W-E-T Bill the failure of the Veterans' Emergency Housing Program, and the trend away from government paternalism lead to the hope that housing legislation will be sound and moderate.

Once the construction industry passes the hurdle of price and cost stabilization its outlook for continued progress and prosperity are very good indeed. It looks to me as if most of the confusions of transition from war to peace are behind us and that trends toward long-range construction industry recovery are emerging in clearly defined outline. Remaining adjustments are in process right now and should be made in due course without serious danger of interruption.

Beyond these adjustments and beyond the immediate problems being faced in the American economy lies the most promising market for expanding construction activity, and for expanded service of the architectural profession that we have been able to visualize for a very long time.

Carrying the torch of western civilization is no mean responsibility, no small challenge, no little opportunity. If the American people can this time meet the challenge, I think they can count upon American architects and engineers and builders to express adequately in structural forms the material requirements and the spiritual aspirations of our dynamic New World.

If there is indeed to be in this New World a new renaissance of architecture, it is to be hoped that our professional men and our builders can feel a sense of dedication to great purposes such as animated the great builders of that earlier Renaissance that was born in Italy nearly six hundred years ago. I am reminded of the contract document prepared by the Signoria of Florence for Arnolfo di Cambia, chosen architect for the great Cathedral of Santa Maria della Fiore.

The Signoria, it will be remembered, was a governing council consisting of wool merchants, bankers, goldsmiths, labor-union leaders and other citizens of responsibility and substance. Their direction to the architect was that the Cathedral "should be so designed as to be worthy of a heart expanded to much greatness, corresponding to the noble city's soul, which is composed of the souls of all its citizens."

Did You Know That . . .

Bay Cities Equipment, Inc., announce that through the acquisition of the busines formerly operated by the Ainx Tractor & Equipment Co., it has acquired the franchise for International tractors and Industrial Power Units, Adams graders, Bucyrus-Erie equipment and other allied equipment.

Bay Cities Equipment, Inc., will continue distribution of all the lines of equipment formerly handled by Ajax Tractor & Equipment Co.

Harley W. Drake, former sales manager for Ajax Tractor and Equipment Co., will carry on in the same capacity with Bay Cities Equipment, Inc.

oOo

Rogers P. Parratt, 68 Post Street, San Francisco, has been appointed publisher's representative for northern California of The Timberman, an international lumber journal, published at Portland, Ore.

oOo

Barrett & Hilp, a partnership since 1912, has been incorporated under the name of Barrett & Hilp as of March 1. The well-known contracting firm announced that there will be no change in the interest or in the management.

oOo

Clarence O. Peterson and **Werdell R. Spackman** are enlarging their architectural office in the Balboa Building. The new telephone number is YUkon 6-4233.

GREELEY SUPERVISOR

Arthur W. Greeley has been selected as supervisor of the Lassen National Forest with headquarters at Susanville, succeeding Norman Norris.

Greeley formerly was with the division of timber management in the chief forester's office, Washington, D. C.

#

PLUMBERS' SERVICE

MODESTO.—The Master Plumbers' Association of Stanislaus Co., Inc., has started a bid depository service covering activities of the plumbing, heating and piping industries within the county's borders. The bid depository is located in the Bank of America at Tenth and Eye Streets here.

BROVELLI NAMED

Engineers were completely ignored when the Bay Area Council made appointments to its new bay area transportation and traffic committee, and only three of its 125 members were even remotely connected with the building industry. They are W. Ed Wallace, Oakland, president of the Wallace Real Estate Company; Cleland O. Whitton, San Francisco, of the Cleland O. Whitton Realty Company; and E. F. Brovelli, Napa, of the Basalt Rock Company.

SEEK ISABELLA FUNDS

SACRAMENTO. — The Isabella Dam—projected for the Kern River to protect Bakersfield and valley farmlands—has been added to the list of jobs which the state water resources board will urge congress to finance this year, at a cost of a million dollars.

RFC to Compensate Seattle Lumbermen For Sawdust Freight

WASHINGTON. — The Reconstruction Finance Corporation has been directed to make payments, upon certification by the Office of Price Administration, to compensate fuelwood dealers in the Seattle, Wash., area for excess transportation and handling costs incurred in connection with units of sawdust stockpiled between July 1, 1946, and September 1, 1946.

The compensation applies to units sold prior to November 9, 1946, at prices not to exceed OPA maximum prices, the Office of Temporary Controls said.

In no event will the total amount of such payments exceed $10,000. This account of circumstances leading up to yesterday's order was given:

On April 5, 1944, in order to insure the maximum necessary production and distribution of fuelwood, a subsidy payment program was initiated in the Pacific Northwest under section 2 (e) of the Emergency Price Control Act of 1942, as amended, covering excess transportation and handling costs incurred by dealers in stockpiling of sawdust used for fuel. The original program expired on June 30, 1945. However, due to the sharp declines in fuelwood production, the lack of equipment for conversion of wood - burning stoves to other types of heating equipment, and the curtailed production of coal, the fuel supply prospects in the Pacific Northwest remained precarious throughout the year 1945 and continued through the year 1946. Accordingly, on the strong recommendations of the interested government agencies, this program was continued from time to time until June 30, 1946.

Pending the formal renewal of this subsidy and upon the assurance of the government that the subsidy would be renewed, two dealers in the Seattle area undertook to stockpile 5,500 units of sawdust for the purpose of alleviating the acute shortage threatened in that area during the present heating season. The request has therefore been made that these two dealers be compensated for the excess transportation and handling costs incurred in stockpiling 5,500 units of sawdust between July 1, 1946 and September 1, 1946, in cooperation with the government.

Under these circumstances, I find that with respect to the units stockpiled on and after July 1, 1946, and unsold on November 9, 1946, there are no government price restraints in effect and, under the provisions of the Price Control Extension Act of 1946, subsidy payments made in connection therewith are prohibited.

#

Labor Committee to Call Union Leaders On Abuse Accusation

WASHINGTON. — Many union officials will be called to reply to a listing of charges against labor union practices named over the weekend by Chairman Hartley (r., N. J.), of the house labor committee.

The list came after the house labor group had heard testimony in its hearings on proposed labor laws.

Naming unions and their locations, the list also cites a reference columna labeled "abuse" which is interpreted as the most controversial section of the report.

Officials to be called in connection with these alleged malpractices include James Hoffa, AFL Teamsters' president, of Detroit. After announcing this, Hartley said that any union official who refuse to testify will be subpoenaed by his committee.

Some observers are saying that this "abuse" phase of the committee's investigations will continue after the labor legislation has been written in the present session.

The announced list:

CIO Steelworkers at Chicago—"monopolistic practices industry-wide."

CIO Auto Workers at Dearborn, Mich.—"coercion".

ALF Teamsters at Detroit—"attempted organization of retail meat dealers by force."

ALF International Brotherhood of Electrical Workers—"secondary boycott".

Utilities Manager Divulges Probable Time, Priority of Street Lighting Construction

San Francisco Utilities Manager James H. Turner announced the proposed time and priority of construction of the 1947-48 street lighting program. The proposed budget of $584,500 will cover 36 different sections of the street and highway pattern, but only $105,000 will be for reconstruction and replacement of lighting presently owned by the city.

The construction program follows:

	Amount
July to September, 1947	
Irving Street, Seventh Ave. to Ninth Ave.; replacement of uprights by pendants bracketed to trolley poles	$1,000
Third St., Market St. to Mission St.; replacement of upright with pendants	8,000
Market Street Path of Gold; site undetermined	100,000
California St., Presidio Ave. to Maple St.; replacement of uprights with pendants and placing conduits underground to conform to Laurel Hill tract requirements	15,000
October to December, 1947	
Sixth St., Market St. to Townsend St.; replacement of uprights with pendants, also increase number of standards	5,000
Mission St., Embarcadero to Beale St.; replacement of uprights with pendants	13,500
Second Street, Howard St. to Harrison St ; replacement of uprights with pendants	10,500
January to March, 1948	
Mission St., Silver Ave. to Onondaga Ave ; replacement of uprights with pendants and moving conduits underground as required by Department of Public Works	2,000
Harrison St., Embarcadero to Fifth St.; increase number of uprights (to conform to street lighting pattern)	19,500
Bryant St., Second St. to Fifth St.; moveup rights to alternate spacing	10,000
Mission St., Beale St. to South Van Ness Ave.; replacement of uprights at intersections with pendants	10,000
April to June, 1948	
Alemany Blvd., Mission St. to San Jose Ave.; replacement of uprights with pendants	48,000
Alemany Blvd., Mission St. to Crescent Avenue; replacement or uprights with pendants	14,500
Trunnbull Street, Mission Street to Davenport Lane; replacement of uprights with pendants	15,500
Following jobs must coincide in time of performance with street work planned by Department of Public Works. All work involves switching to underground conduits:	
Army Street, Harrison St. to Guerrero St.; replacement of uprights with center island double pendants	5,000
Guerrero Street and San Jose Avenue, Army Street to Brook and Randall Sts.; replacement of uprights with center island double pendants	5,500
Clipper St., Extension, Douglass Street to Portola Drive; installation of pendants	2,000
Monterey Blvd., Ridgewood Ave. to San Anselmo Ave.; replacement of uprights with pendants	36,000
Portola Drive, St. Francis Circle to Clairmont Blvd.; replacement of uprights with center island double pendants	32,001
Portola Drive, Claremont Blvd. to Evelyn Way; replacement of uprights with center island double pendants	28,000
Seventh Street, Market Street to Townsend Street; replacement of uprights with pendants	36,000
Army Street, Bryant Street to Potrero Avenue; replacement of uprights with pendants	10,900
Powell Street, California St. to Broadway, replacement of uprights with pendants	20,500
Anza Street, Parker Ave. to Masonic Ave.; replacement of uprights with pendants	12,500
Post Street, Powell St. to Mason St.; replacement of carbon arc lamps with double pendants	10,500
Geary Street, Divisadero Street to Masonic Avenue; installation of pendants for new Anza Vista tract	2,000
Emergency Replacements	6,000
Total New Construction	$479,500

The following reconstruction and replacement of Municipally-owned street lighting, all from uprights to pendants, is expected to be done according to the following priority:

Seventh Street, Market Street to Division Street	4,000
Fell Street, Market Street to Van Ness Avenue	3,000
Golden Gate Park Crossover and Bypass, Lincoln Way to Fulton St.	3,000
Sloat Blvd., Junipero Serra Blvd. to Great Highway	6,500
Army Street, Market Street to Townsend Street	20,500
Potrero Avenue, Division Street to Army Street	24,500
Nineteenth Ave., Sloat Blvd. to Junipero Serra Blvd	25,000
Bayshore Blvd., Third Street to County Line	20,000
TOTAL, RECONSTRUCTION AND REPLACEMENT	$105,000

ALUMINUM OUTPUT IS EXCEEDED BY DEMAND

This year's estimated aluminum production of 1.1 billion pounds will be more than three times that of the 1939 the last normal prewar year but the output will fail short of the estimated 1947 requirements of 1.6 billion pounds, the Civilian Production Administration reported today.

Greater use of aluminum in prefabricated home building and the utilization of the metal for many new purposes keep its demand at a level far above pre-war days.

Corrugated aluminum sheet is used for farm and industrial roofing and siding, and manufacturers predict that two million aluminum residential windows will be made in 1947.

#

LUMBER HITS TOP RATE SINCE WAR

PORTLAND. — Lumber production in the Douglas fir region of Washington and Oregon jumped during Feburary to the highest level reached since the end of the war. Average weekly production was 132,183,000 board feet, a pronounced increase over January's average of 116,686,000 board feet.

#

HEATING BOOKLETS OUT

Two booklets, "Choosing A Heating Plant Wisely," and "What You Should Know About Plumbing," have been published by the Plumbing and Heating Industries Bureau, 35 East Wacker Drive, Chicago 1, Ill.

Persons interested in receiving copies of the booklets should address inquiries to the Bureau enclosing five cents in stamps, or coin for each booklet.

'Enforcement Is More Vital than Framing New Labor Legislation

WASHINGTON. — Many Washington observers who have an ear tuned to attempts of Congress to revamp the labor legislation feel that a strict administration of laws now on the books would prove to be a better panacea for the nation's labor ills than newly revised statutes.

In this vein they hail the decision of the National Labor Relations Board. NLRB, in reversing its previous stand, now holds that it is not an unfair practice for an employer to discharge workers who stripe to compel him to violate the Wagner Act.

Another of the board's recently announced decisions holds that although the Wagner Act does not require unions to bargain in good faith, an employer can't be penalized for failure to bargain with a union that refuses to bargain with him.

A third board announcement says that henceforth a two-year contract between an employer and a union can't be disturbed by the demand of another union for an employe election. (Heretofore, the board usually has permitted such elections after one year.)

Still other board decisions have extended employers' right of "free speech".

All of these board decisions, representing policy reversal as they do, have been interpreted in some quarters as proof that the board is convinced the Wagner Act can be enforced fairly as it stands. This would preclude any board desire for amendments now under discussion in congress.

PROSPECTIVE BIDDERS

San Gabriel Dam No. 2, Alterations, Los Angeles County, Calif.

BIDS: Los Angeles County Flood Control District, 501 Hall of Records, Los Angeles, Calif., March 18, 10 A. M.

Hoagland-Findlay Engineering Co., 325 Cherry Ave., Long Beach.

Low and Only Bidders
Family Housing (Conversion of Existing Facilities) Cost $736,694
FORT LEWIS, Washington.
Owner—Seattle District, Corp of Engineers, War Department, Col. W. R. Shuler, acting district engineer, Textile Tower, Seattle 1, Wash.
Plans by owner.
Includes converting 40 B-63 barracks to 160 apartments; converting nine M-250 mess hall to 18 apartments; converting 10 AC (Rec) recreation buildings to 20 apartments and five B-45 barracks to 10 apartments, including changes and additions to water, sewer and electrical lines.
Low Bidder — Carson Constr. Co., Helena, Mont., $736,694; 150 days completion.
Other bids March 5 were:
John H. Bellen, Seattle, Washington $764,650; 150 days.
Gaasland Constr. Co., Bellingham, Wash., $786,330; 150 days; $786,330; 120 days.
McDonald Bldg. Co., Tacoma, Wash., $863,769; 150 days; $934,112; 120 days.
Brady Constr. Co., Seattle, Wash., $895,640; 150 days.

3/12/47 24
Working Drawings In Progress Residence Estimate Cost $18,000
SAN JOSE, Calif., Santa Clara Co.
Owner—Mr. Pizzo, c/o Architect.
Architect—Charles E. Butner, 985 The Alameda, San Jose, Calif.
Brick and wood exterior, one-story, Cape Cod design, seven rooms.

3/18/47 24
Preliminary Plans In Progress Residence Approx. Cost $25,000
BELMONT, Calif., San Mateo Co.....
Owner—B. Dudley, c/o Architect.
Architect — J. Lloyd Conrich 593 Market Street, San Francisco, Cal.
Wood, brick and plaster exterior, hardwood floors, composition roof, 4-bedrooms, 3 baths.

3/18/47 23
Contract Awarded
Flat
SAN FRANCISCO, Calif., Mission St., near Allison St.
Owner—Jack Kolley, c/o Architect.
Architect — J. Lloyd Conrich, 593 Market St., San Francisco, Calif.
Frame and stucco, 5 rooms, 1 bath
Contractor—J. H. Netherton, 3/95 Fillmore Street, San Francisco Calif.

3/18/47 23
Contemplated—Acquiring Site Subject To Rezoning
Apartment Bldg.
SAN RAFAEL, Calif., Marin County. Southwest corner of Nye and Laurel Sts.
Owner and Builder—E. W. Barnum, 520 Florence Ave., Dunsmuir, Calif.
2-stories of 24 apartment units over ground floor garages

3/18/47 22
Contemplated
Apartment Bldg.
SAN RAFAEL, Calif., Marin County. West estates property on Mission Ave.
Owner and Builder—Litchfield Construction Company, Irving B. Litchfield, 720 Francisco Blvd., San Rafael, Calif.
Four-stories. 50-units

3/18/47 24
Plans Completed
CPA Approval Granted
Owner Will Build
Construction To Start Immediately
Residences (3)
SAN FRANCISCO, Calif. St. Francis Wood.
Owner—Rugg Company, Russ Bldg., San Francisco, Calif.
Architect — J. Lloyd Conrich, 593 Market Street, San Francisco, Cal.
Wood frame, plaster and wood exterior, composition shingle roof, 1-5 room and 1 bath and 2-6 room and 1½ bath.
Contractor—Owner will build.

3/18/47 24
Preliminary Plans In Progress Residence
SAN RAFAEL, Calif., Marin County.
Owner—Withheld.
Architect—Charles E. J. Rogers, Phelan Building, San Francisco, Calif.
Frame, Farm House design, shingle roof

3/18/47 24
Working Drawings In Progress Residence
BELVEDERE, Calif., Marin County.
Owner—Withheld.
Architect—Charles E. J. Rogers, Phelan Building, San Francisco, Calif.
Brick veneer, frame, slate or tile roof

3/18/47 26
Plans Completed
Owner Will Build
Bungalows (17) Flats (12)
DALY CITY, Calif., San Francisco County.
Owner—A. J. Herzig, 3200 Ocean Ave., San Francisco, Calif.
Architect — J. Lloyd Conrich, 593 Market Street, San Francisco, Cal.
Wood frame; bungalows, 4-5 rooms and 13-6 rooms: Flats, 5 rooms
Owner will build.

3/17/47 26
Contract Awarded
Veterans' Emergency Dwelling Units (197) Cost $334,905
SALINAS, Calif., Monterey County.
Owner—Monterey County Housing Authority, Mrs. Walters, executive secretary, Salinas, Calif.
Architect—Charles E. Butner, 7 Winham St., Salinas, Calif.
Involves erection of 46 new prefabricated steel buildings, alteration of 143 wood units now up on the site, and moving and altering eight wood units, also on site, to provide 2- and 1-bedroom dwelling units; includes new sewer system, water, gas and electrical services.
Contractor—E. M. Carlsen, 16 Monterey Road, Salinas, Calif.

27—TRANSPORTATION BUILDINGS

3/18/47 27
Working Drawings In Progress Residence Approx. Cost $18,000
HILLSBOROUGH, Calif., San Mateo County.
Owner—Roy LeMoge, c/o Architect.
Architect — J. Lloyd Conrich, 593 Market Street, San Francisco, Cal.
Wood, brick and plaster exterior, 5 rooms, shake roof.

31-32—WATER SUPPLY & SEWAGE DISPOSAL PLANTS

3/17/47 31
Owner Taking Bids—Due March 27, 8 P. M.
Water Well
DINUBA, Calif., Tulare Co. Intersection of Whittaker Way and College Ave.
Owner—City of Dinuba, Gladys M. Archer, City Clerk, City Hall, Dinuba, Calif.
Consulting Engrs. — Quinton Engineers Ltd., Suite 300, 816 S. Figueroa St. Los Angeles 14, Calif.
Specifications obtainable from the engineer or the city clerk upon deposit of $5 refundable.

3/17/47 32
Preparation of Construction Plans in Progress on Washoe County Portion of Reno Regional Sewage Disposal Project—$1,000,000 Sewage Bond Election Contemplated for City Portion of Project.
Sewer Facilities Cost $1,735,000
NEAR RENO, Nev., Washoe County. South and east of Reno.
Owners—County of Washoe, Board of Commissioners, Courthouse, Reno, and City of Reno, T. L. Taylor, city clerk, City Hall, Reno, Nev.
County Engineer—A. E. Holgate, Courthouse, Reno, Nev.
City Engineer—E. C. Frisch, City Hall, Reno, Nev.
Consulting Sanitary Engineer—Harry N. Jenks, 345 Madrono Ave., Palo Alto, Calif.
Includes erection of a county sewage treatment plant east of Hubbard Airfield and about 17¾ miles of county sewer lines in area south of Reno and enlargement of present city disposal plant and expansion of sewer lines.
As previously reported, the sewer project has been proposed as a joint city-county undertaking. Mr. Jenks, working in cooperation with Washoe County Engineer A. E. Holgate and Reno City Engineer E. C. Frisch, has pointed out that the City Council and County Commissioners can act independently, each working out a share of the entire project, or they can go together and form a sewer district which shall be operated jointly through an appointed board.

5/17/47 32
Owner Taking Bids—Due April 3, 5 P. M.
Sewage Treatment Plant Alterations and Additions Cost $157,000
TULARE, Calif., Tulare Co. Approximately one mile southwest of the southwest corner of the city.
Owner — City of Tulare, Gail Bash, city manager, Board of Public Utilities Commissioners, City Hall, Tulare, Calif.
Consulting Engineer—Quinton Engineer, Ltd., 816 S. Figueroa St., Los Angeles, Calif.
Includes reconstruction of the primary sedimentation tank and certain pump pits and construction of a new filter and new digester with appurtenant equipment and structures.
Specifications obtainable from the office of the city clerk or the engineer's office upon deposit of $25.

33— BRIDGES

3/17/47 33
Contract Awarded
Underpass, Grading and Surfacing Cost $230,094.80
PLACER COUNTY, Calif., Between Wise Canal and Rock Creek.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
About 1.9 miles grading and surfacing with crusher run base and plant mix surfacing; constructing an underpass and widening an existing bridge.
Contractor — Fredrickson & Watson Construction Co., 873 81st Ave., Oakland, Calif.

3/17/47 33
Owner Taking Bids—Due March 24 2 P. M.
Bridges
OREGON
Owner—Oregon State Highway Commission, Public Service Bldg., Portland, Ore.
Plans by engineering department of owner
Projects include:
COOS COUNTY—Replace pier fender for South Slough Bridge on the Cape Arago Secondary Highway. State project. Requires approximately 5500 lin. ft. treated piling; driving of 116 piles and furnishing and placing 32 M - FBM treated lumber.
JACKSON COUNTY — Widen Reese Creek, Little Butte Creek and Antelope Creek bridges on the Crater Lake Highway. FAP No. 5-47 (4)
LINCOLN COUNTY—Painting Yaquina Bay Bridge on the Oregon Coast Highway at Newport, State project.
SHERMAN COUNT Y —Construct bridge over Buck Hollow Creek on the Sherars Bridge Secondary Highway. State project.
Specifications obtainable from the State Office Bldg., Salem, Ore. upon payment of $2 not refundable.

Viaduct
TACOMA, Wash. E. 25th St. between A St. and E. C St.
Owner—Tacoma Board of Contracts & Awards, City Hall, Tacoma, Wash.
Plans by engineering department of owner.
Reinforced concrete.
Specifications obtainable from the above office upon deposit of $5, refundable.

3/10/47 33
Bids Rejected
Bridge
CHICO, Calif., Butte County, Over Little Chico Creek on Mill St.
Owner—City of Chico, H. H. Hume, city clerk, City Hall, Chico, Calif.
City Engineer — Frank Robinson, City Hall, Chico, Calif.
Wood truss bridge 20 ft. wide and 57 ft. long.
As previously reported, L. G. Shaiz Route 1, Box 22, Chico, Calif., at $4670 submitted the low bid Feb. 4.

3/10/47 33
Low and Only Bidders
Bridges and Grading Cost $372,811.65
SAN BERNARDINO CO., Calif. At San Timoteo Creek and Santa Ana River on Waterman Ave. between Riverside-Redlands Road and Mill Street.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engr.—G. T. McCoy, Public Works Bldg., Sacramento.
Bids will be opened in the State Building, Los Angeles, Calif.
Low Bidder—Griffith Co., 1060 South Broadway, Los Angeles, Cal., $372,-811.65.
Work involves:
(1) Remove exist bridge;
(2) 170 sta. clear and grubb;
(3) 10,500 cu. yds. rdwy. excav.;
(4) 2,100 cu. yds. rdwy. excav., deduct;
(5) 600 cu. yds. ditch and channel excav.;
(6) 2,325 cu. yds. struct. excav.;

3/12/47 34
Owner Taking Bids—Due April 10, 10 A. M.
Spillway Alterations; Spec. 1712
RIO GRANDE PROJECT, New Mexico-Texas. Elephant Butte Dam on Rio Grande, about three miles east of Hot Springs, N. M.
Owner—U. S. Bureau of Reclamation, El Paso, Texas.
Plans by engineering department of owner.
The work involves:
Schedule No. 1
Alterations Upstream From Crest
(1) 3220 cu. yds. of excavation, all classes, for inlet channels;
(2) 540 cu. yds. excavation, rock and concrete, for gate structures;
(3) drilling 200 lin. ft. of holes for anchor bars and grouting bars in place;
(4) furnishing and handling 700 bbls. cement;
(5) 80 cu. yds. of concrete in inlet channels;
(6) 420 cu. yds. of concrete in gate structures;
(7) furnishing and placing 29,000 lbs. of reinforcement bars;
(8) constructing vortex eliminators, lump sum;
(9) installing 3500 lbs. anchor bolts;
(10) dismantling and removal of existing cylinder gates, frames and hoists, lump sum;
(11) installing 140 lin. ft. of electrical metal conduit;
Schedule No. 2
Alterations Downstream From Crest
(12) 210 cu. yds. of excavation, rock and concrete, for training wall footing;
(13) 240 cu. yds. of excavation, common, back of channel walls;
(14) 10 cu. yds. of excavation, concrete, for baffles;
(15) drilling 650 lin. ft. of holes for anchor bars and grouting bars in place;
(16) chipping and roughening 80 sq. yds. of concrete surfaces;
(17) furnishing and handling 975 bbls. of cement;
(18) 210 cu. yds. of concrete in training wall footing;
(19) 200 cu. yds. of concrete in training wall, except footing;
(20) 150 cu. yds. of concrete in channel cover;
(21) 120 cu. yds. concrete in baffles;
(22) furnishing and placing 91,000 lbs. of reinforcement bars;
(23) 100 cu. yds. of rock fill on channel cover;
(24) 170 sq. yds. of grouted paving.
Specifications obtainable from the above office; no charge to prospective bidders; to others, $1.75, not refundable.

3/10/47 34
Bid Rejected—Owner May Readvertise for New Bids Soon
Earthwork and Structures; Spec. 1590 Cost $502,883.50
SHOSHONE PROJECT, Wyoming. Heart Mountain Division, vicinity of Ralston.
Owner—U. S. Bureau of Reclamation, Cody, Wyo.
Plans by engineering department of owner.
Ralston lateral, station 0 plus 54.12 to station 230 plus 52.57, and sublaterals.
As previously reported, Otis Williams & Co., Helena, Mont., at $502,-533.50, submitted the low bid January 16.

3/10/47 34
Plans in Progress—Further Maturity Pending Voting Bond Issue May 20
Dam & Storage Reservoir (extension) Cost $12,000,000
COLORADO—South Boulder Creek, Moffat Tunnel Water Diversion System.
Owner—City and County of Denver, Denver Water Board, George F. Hughes, exec. secy., City & County Bldg., Denver, Colo.
Engr. (city) — Edward A. Smith, City Hall, Denver, Colo.
Project will involve concrete dam to empound approx. 68,000 acre feet of western slope water diverted through Moffat Tunnel.

3/18/47 34
Owner Taking Bids—Due Apr. 2, 2 P. M.
Earth Levee
Near YAKIMA, Wash. Both banks of Yakima River and right bank of Naches River.
Owner—Seattle Dist. Corps of Engineers, War Dept., 1400 Textile Tower, Seattle, Wash.
Plans by owner.
Approx. 30,100 ft. earth levee together with headwork and stoplog structures and culverts.
Specifications obtainable from the above office.

3/18/47 34
Owner Taking Bids—Due March 29, 2 P. M.
Channel Improvement
OROVILLE, Wash., Okanogan Co. Okanogan River between Osoyoos Lake and Zosel Dam.
Owner—Seattle Dist. Corps of Engineers, War Dept., 1400 Textile Tower, Seattle, Wash.
Plans by owner.
Includes enlargement of channel outlet of Osoyoos Lake, channel improvement for approx. 2000 ft. and channel change at mouth of Tonasket Creek.
Specifications obtainable from the above office.

3/10/47 34
Owner Taking Bids—Due Apr. 1, 1 P. M. (Unit Quantities)
Flood Control Channel and Levees; Serial 47-25
LOS ANGELES CO., Calif. From mouth of San Gabriel Canyon to Santa Fe Dam.
Owner—Los Angeles District, Corps of Engineers, War Dept., 751 So. Figueroa St., Los Angeles, Calif.
The work involves:
(1) lump sum, clearing and grubbing;
(2) 8000 cu. yds. stripping;
(3) 634,000 cu. yds. excav. channel;
(4) 445,000 cu. yds. excav. levee and stabilizer;
(5) 600 cu. yds. excav. structure;
(6) 227,000 cu. yds. fill, levee and stabilizer;
(7) 141,500 cu. yds. stone blanket, grouted;
(8) 19,500 cu. yds. stone blanket and apron, ungrouted;
(9) 48,800 tons derrick stone, stabilizer;
(10) 211,000 cu. yds. backfill;
(11) 56,500 cu. yds. grouting stone blanket;
(12) 800 cu. yds. removing existing concrete;
(13) 350 lin. ft. drilling and grouting 1½ in. dowel holes;
(14) 630 cu. yds. concrete, stabilizer, No. 1;
(15) 540 cu. yds. concrete, structure;
(16) 45,000 lbs. steel reinf.;
(17) 110 lin. ft. 60-in. reinf. concrete pipe;
(18) 145 lin. ft. 30-in. corr. metal pipe;
(19) 2 each 30-in. automatic drainage gate;
(20) 270 lin. ft. 4-in. steel drain pipe;
(21) 230 cu. yds. gravel for drains;
(22) 12,000 cu. yds. road fill;
(23) 5450 sq. yds. 3-in. plant mixed bituminous pavement;
(24) 107,700 bbls. portland cement.
Specifications obtainable from the above office; no deposit required.

3/10/47 35
Owner Taking Bids—Due Apr. 4, 1 P. M.
Electric Distr. System; Serial 47-28
MUROC, Calif., San Bernardino Co. Muroc Army Air Field.
Owner—Los Angeles District, Corps of Engineers, War Dept., 751 S. Figueroa St., Los Angeles, Calif.
Plans by owner.
4800-volt underground electrical distribution system and alterations on existing overhead distribution system.
Specifications obtainable from the above office upon deposit of $5.00.

35— DOCKS, PIERS & HARBORS

3/17/47 35
Owner Taking Bids—Due April 3, 10 A. M.
Wharves, Bulkheads, Etc.
LONG BEACH, Calif., Los Angeles County. Berths 52, 53 and 54, Long Beach Inner Harbor.
Owner—Long Beach City Harbor Department, E. J. Amar, port manager, 1333 W. El Embarcadero St., Long Beach, Calif.
Plans by owner.
Specifications obtainable from the above office upon deposit of $35.

36— PARKS, AIRPORTS & PLAYGROUNDS

3/13/47 26
Owner Taking Bids—Due March 26, 10 A. M.—Unit Quantities
Improve Runways; Pro. 6-47-386
WELLS, Nev., Elko Co. Intermediate Landing Field.
Owner — Civil Aeronautics Admin., 5651 Manchester Ave., Los Angeles, Calif.
Plans by owner.
Includes clearing, grading, graveling and sealing the east-west runway; clearing and grading of the northeast and southwest land strip, moving and installing beacon and power shed at the Wells, Nev., intermediate landing field; Proposal 6-47-386. Plans and specifications available from the above office.
The work involves:
Schedule 1
(1) 130 acres clearing and grubbing;
(2a) 120,000 cu. yds. grading, unclassified;
(2b) 6,500 M gal. watering;
(3) 24 lin. ft. 48-inch galv. corrugated metal pipe, complete;
(4) 1 48-inch gate valve and section and connecting band (installed complete);
(5a) 16,200 lin. ft. fence, Class "D";
(5b) 1 each 20 ft. cattle guard (steel grate);
(5c) 1 each 14 ft. steel gate;
Total Schedule 1
Alternate A
(6a) 24,000 cu. yds. 9 in. gravel base (uncrushed);
(6b) 2,000 M. gal. watering;
(6c) 37,000 gal. liquid asphalt MC2;
Total Schedule 1 with Alternate A
Alternate B
(7a) 24,000 cu. yds. 9 in. gravel base (Crushed);
(7b) 2,000 M gal. watering;
(7c) 37,000 gal. liquid asphalt MC-2 (4 sq. yd.);
Total Schedule 1, with Alternate B
Schedule II
(8a) lump sum move Beacon Tower and Beacon;
(8b) 2 coats paint Beacon and Tower;
(9a) lump sum move 10x14, power shed complete and reerect including painting;
(9b) lump sum transformer pad. Reg. etc., per drawing 4431-6;
(9c) lump sum rewire "G3" cabinet in power shed;
(10a) 10 each remove 60 ft. boundary markers and transport angles and post;
(10b) 25 each remove boundary cones from old field and transport;
(11a) a) 13,300 lin. ft. install cable 15 inch underground;
(11b) b) 38 each install rigid cone lights;
(11c) c) 4 each install tipover cone lights;
(11d) d) 4 each install AJ cabinets for splices (if ordered);
(11e) e) 2 each concrete cable markers (if ordered);
(11f) f) 84 each paint boundary cones;
(12a) a) 23 each install 60 ft. boundary marker;
(12b) b) 46 each paint 60 ft. boundary markers, per coat.
Total Schedule II
Total Schedule 1 & II with Alt. A
Total Schedule 1 & II with Alt. B

3/13/47 36
Contemplated Cost $240,000
Airport
MOSCOW, Idaho. E. end of D St.
Owner—Town of Moscow, c/o City Clerk, City Hall, Moscow, Idaho, and H. G. Gildersleeve, District CAA Engineer for Idaho.
Engr.—Private plans.
Includes 4000-ft runway; roadways.

38— ELECTRIC LIGHTING TRANSMISSION LINES

3/17/47 38
Owner Taking Bids—Due April 7, 2P. M.
Electric Line Extensions; No. 47-3
PALO ALTO, Calif., Santa Clara Co. Price Tract et al.
Owner — City of Palo Alto, Dept. of Public Works, City Hall, Palo Alto Calif.

(Continued from Page 11)

39—SEWERS

3/18/47 39
Bond Election In Amount of 100,000 Set for Apr. 8
Sanitary Sewer Cost $96,000
NILES, Calif., Alameda Co. South end of King Ave.
Owner—Niles Sanitary District, Leon Clark, attorney; E. E. Dias, Secretary, Niles, Calif.
Engineer — Roy Edwin Ramseier, 3813 Parker St., Berkeley, Calif.
Includes about 5.5 miles sewer mains, lift station and pumping plant, five crossing under railroads and 3 under highways, 57 manholes, etc.

3/17/47 39
Hearing of Protests Set for April 17, 8 P. M.
Sewer
OAKLAND, Calif., Alameda County. Portions of Mountain Blvd. and Joaquin Miller Rd. from La Puerta to Pierpoint Ave.
Owner—City of Oakland, Charles M. Don, city clerk, City Hall, Oakland, Calif.
City Engineer—Walter Frickstad, City Hall, Oakland, Calif.
Sewer with appurtenances (manholes, lampholes, standpipes, Y branches and concrete cradle).

3/17/47 39
Owner Taking Bids—Due April 7, 3 P. M. (Unit Quantities)
Culverts, Drainage Ditch, Etc. No. 46-6
PALO ALTO, Calif., Santa Clara Co. Louis Road, et al.
Owner—City of Palo Alto, Department of Public Works, City Hall, Palo Alto, Calif.
City Engineer—Fabian S. Miller, City Hall, Palo Alto, Calif.
Includes reinforced concrete sewer culverts, drainage ditch, headwall, catchbasins, connections, etc.
The work involves:
(1) 1775 lin. ft. 4x2.5-ft. reinforced concrete box culvert in place, complete;
(2) 2045 lin. ft. 4x2.7-ft. reinforced concrete box culvert in place, complete;
(3) 2711 lin. ft. 5.5x2.7-ft. reinforced concrete box culvert in place, complete;
(4) 1280 lin. ft. 3x2-ft. reinforced concrete box culvert in place, complete;
(5) 1520 lin. ft. 3.25x2.5-ft. reinforced concrete box culvert in place, complete;
(5A) 135 lin. ft. 4.25x2-ft. reinforced concrete box culvert in place (in park) complete;
(6) 1188 lin. ft. 4x3-ft. reinforced concrete box culvert in place, complete;
(7) 1153 lin. ft. 4.5x3-ft. reinforced concrete box culvert in place, complete;
(8) 852.7 lin. ft. 5x3-ft. reinforced concrete box culvert in place, complete;
(9) 996.3 lin. ft. 5.5x3-ft. reinforced concrete box culvert in place, complete;
(10) 155 lin. ft. 4.5x3-ft. reinforced concrete box culvert in place (in park) complete;
(11) 188 lin. ft. 6x3-ft. reinforced concrete box culvert in place, complete;
(12) 950 lin. ft. open storm sewer canal complete in place, including all grading, dike embankment;
(13) 180 sq. ft. sacked concrete headwall in place complete, including excavation and backfill.
Specifications obtainable from the office of the city engineer upon deposit of $10, refundable.

3/17/47 39
FWA Funds Advanced
Sewage Treatment Plant Cost $152,460
LITTLETON, Colo.
Owner—Town of Littleton, Mayor Ray E. Babcock, City Hall, Littleton, Colo.
Engineer—R. J. Tipton & Associates, 602 Insurance Bldg., Denver, Colo.
Includes construction of a sewage treatment plant for a designed population of 5000.

3/13/47 39
Owner Taking Bids—Due April 9, 10 A. M.
Interceptor Sewer System
Cost $650,000
VANCOUVER, Wash.
Owner—City of Vancouver, Geo. Carson, City Clerk, City Hall, Vancouver, Wash.
Consulting Engineers — Stevens & Koon, Spalding Bldg., Portland, Ore.
Work, under four schedules, is listed as follows: Part A, 21,140 l. f. of 10-in. to 42-in. pipe, 72 manholes and excavation to a depth of 20 feet; B, 11,769 l. f. of 15-in. to 30-in. pipe, 34 manholes and excavation to a depth of 18 feet; C, 11,110 l.f. of 21- to 27-in. pipe, 34 manholes and excavation to a depth of 22 feet; D, outfall sewer, involving 1103 l.f. of 42-in., 305 l.f. of 30-in. pipe and excavation to a depth of 15 feet.

3/18/47 39
Bids Rejected
Outfall Trunk Line, Unit No. 4
LONG BEACH, Calif., Los Angeles County. From proposed pumping plant located at Reeves and Gaylord north on Fashion to near Hill St., Long Beach, Calif.
Owner—Los Angeles County Sanitation District No. 3. A. M. Hawn, chief engineer and general manager, 3rd floor, 1206 S. Maple Ave., Los Angeles, Calif.
Plans by owner.
Owner will furnish pipe.
As previously reported P. & J. Artukovich, 13305 So. San Pedro St., Los Angeles, Calif., at $79,416 submitted the low bid Mar. 12.

3/18/47 39
Bond Election in Amount of $2,000,000 Set for April 14—
Sewer System Modernization
FRESNO, Calif., Fresno County.
Owner—City of Fresno, D. E. Roughton, City Clerk, City Hall, Fresno, Calif.
Survey by Engineers Koebig & Koebig, Rowan Building, Los Angeles, Calif.

3/18/47 39
Contract Awarded
Joint Outfall B Sewer; Unit 1, Sec 7
Cost $336,088.20
LOS ANGELES COUNTY, Calif. From Florence Ave. to Washington Blvd.
Owner—Los Angeles County Sanitation District No. 2. A. M. Rawn, chief engineer and general manager, 1206 S. Maple Ave., Los Angeles, Calif.
Approx. 16,000 ft. of 57- and 63-inch reinforced concrete pipe.
Plans by owner.
Contractor — Steve P. Rados, 2975 San Fernando Road, Los Angeles, Calif.

40— STREETS AND HIGHWAYS

3/12/47 40
Low Bidders
Grading, Bridges and Surfacing
STATE OF WASHINGTON.
Owner—State of Washington, Clarence D. Martin, director of highways, Olympia, Wash.
Plans by engineering department of owner.
Includes the following six projects:
(1) Clearing, grubbing and grading on 0.30 mile of P.S.H. No. 1, Coweman River North to Cowlitz County, F.A.P. No. UI-32 (12), Unit 5, involving lump sum clearing and grubbing, about 138,800 cu. yds. common excavation, 2450 cu. yds. selected roadway borrow and other items.
Low Bidder — Nat McDougal Co., Portland, Ore., $89,658.50; bid rejected.
(2) Constructing a reinforced concrete flat slab bridge on P.S.H. No. 12, Raymond East bridge in Pacific County, a state project, involving 78 cu. yds. concrete pavement, 14,260 lbs. pavement reinforcing, 505 cu. yds. bridge concrete, 97,000 lbs. steel reinforcing bars, 6700 lbs. structural steel, 3200 lin. ft. steel piling and other items.
Low Bidder—M. P. Butler, Seattle, Wash., $75,960.25; bid rejected.
(3) Constructing steel girder bridge over Birnie Slough and grading approaches to bridge on 0.199 mile of P.S.H. No. 12-F on Puget Island in Wahkiakum County, F.A.E. No. S-146 (1), involving 13,300 cu. yds. embankment from borrow, 3230 cu. yds. fragmentary rock, 1700 cu. yds. ballast, 600 lin. ft. culvert pipe, 310 cu. yds. concrete, 42,000 lbs. steel reinforcing bars, 6,000 lbs. structural steel, 6300 lbs. cast steel, lump sum erecting structural steel (62 tons furnished by state), 3200 lin. ft. precast concrete piling and other items.
Low Bidder—Larson & Palmberg Co., Astoria, Ore., $115,205; bid rejected.
(4) Clearing, grubbing, grading and surfacing on 1.091 miles of Clark County Road project, Hockinson vicinity, F.A.S. No. S-76 (1), involving about 12,412 cu. yds. unclassified excavation, 6675 cu. yds. ballast, 1827 cu. yds. crushed stone surfacing, 2216 cu. yds. mineral aggregate, 762 lin. ft. culvert pipe and other items.
Contract Awarded—Smith Bros., Vancouver, Wash., $41,272.95.
(5) Clearing, grubbing, grading, surfacing and constructing light bituminous surface treatment on 4.206 miles of Touchet Road, Dayton to Abels Grove, Columbia County Road project, F.A.S. No. S-78 (1), involving lump sum clearing and grubbing and about 51,220 cu. yds. common excavation, 6800 cu. yds. solid rock excavation, 13,480 cu. yds. ballast, 3240 cu. yds. crushed stone surfacing, 150 cu. yds. crushed cover stone, 123 tons bituminous cement MC-2, 714 lin. ft. culvert pipe and other items.
Low Bidder—F. H. Deatley & Co., Lewiston, Idaho, $86,176.80.
(6) Clearing, grubbing, grading and surfacin gon 2.462 miles of the John Koontz Road, Lewis County Road project, F.A.S. No. S-100 (1), involving about 18 acres of clearing, 18 acres of grubbing, 11,310 cu. yds. unclassified excavation, 11,250 cu. yds. selected roadway borrow, 3250 cu. yds. crushed stone surfacing, 1377 lin. ft. culvert pipe and other items.
Low bidder—Pacific Sand & Gravel Co., Centralia, Wash., $36,578.

3/17/47 40
Contract Awarded
Grading
SAN BRUNO, Calif., San Mateo Co. Edgemont Elementary School site.
Owner—San Bruno Park School District, Decima M. Allen, clerk, San Bruno, Calif.
Plans by owner.
Grading site.
Contractor—L. C. Smith, First and Railroad Aves., San Mateo, Calif.

3/17/47 40
Owner Taking Bids—Due March 25, 9 A. M.
Grading and Bridges
OREGON
Owner — State of Oregon, State Highway Commission, Public Service Bldg., Portland, Ore.
Plans by engineering department of owner.
Projects include:
CURRY COUNTY—Clean and paint bridge over Pistol River and bridge over Elk Creek on the Oregon Coast Highway, State project.
KLAMATH COUNTY — Construct three bridges over Sprague River on Sprague River Highway, State project.
MALHEUR COUNTY — Nyssa (1st Street-7th Street) Section of the Old Oregon Trail, FAP No. S-70 (2). 0.40 mile of grading and paving. This project may be bid in combination with the Ontario Pavement Widening project in Malheur County.
MALHEUR COUNTY — Ontario (SW 1st St.-SW 12th St.) Section of Old Oregon Trail. State project. 0.75 mile pavement widening. Project may be bid in combination with the Nyssa Paving project in Malheur County.
TILLAMOOK COUNTY—Clean and paint Necarney Creek Bridge and Nehalem River Bridge on the Oregon Coast Highway, State project. Specifications obtainable from the State Office Bldg., Salem, Ore., upon payment of $2 not refundable

3/17/47 40
Low and Only Bidder
Planting Cost $10,914.25
LOS ANGELES, Calif., Los Angeles County, Arroyo Seco Parkway, between College St. and Bernard St.
Owner—State Division of Highways, S. W. Corryvou, district engineer, Room 808 State Bldg., Los Angeles, Calif
Plans by engineering department of owner.
About 0.2 mile furnish and plant trees, shrubs and ground cover.
Only Bidder—Monrovia Nurseries, Altadena, Calif., $10,914.25.

3/17/47 40
Bids Scheduled To Be Opened March 11 Have Been Postponed Indefinitely
Highway: Ariz. FH-2-CrD6
COCONINO COUNTY, Ariz., Grand Canyon-Old Trails Kaibab National Forest.
Owner—Public Roads Administration, 303 W Jefferson St., Phoenix, Ariz.
Plans by engineering department of owner

3/17/47 40
Owner Taking Bids—Due April 7, 3 P. M.
Melville Ave. Improvement; No. 46-2
PALO ALTO, Calif., Santa Clara Co.
Owner—City of Palo Alto, Dept. of Public Works, City Hall, Palo Alto, Calif.
City Engineer — Fabian S. Miller, City Hall, Palo Alto, Calif.
Work involves:
(1) 409,870 sq. ft. excavation, grading, and subgrade, for roadways, curbs, gutters, and driveways including removal of concrete curb and sidewalk where required; complete
(2) 326,771 sq. ft. 6-inch crusher run base in place complete;
(3) 316,649 sq. ft 2-inch asphaltic concrete surfacing in place complete;
(4) 14,286 sq. ft. 3-inch asphaltic concrete surfacing in place complete;
(5) 400 sq. ft. 6-inch P.C.C. pavement in place, complete;
(6) 33 lin. ft. Type "A" 7-inch P.C.C. curb in place complete;
(7) 480 sq. ft. 7-inch P.C.C. gutter at existing curb returns in place complete;
(8) 64 lin. ft. Type "A" (2½-ft.) P.C.C. curb and gutter in place complete;
(9) 14,491 lin. ft. Type "A" (3-ft.) P.C.C. curb and gutter in place complete;
(10) 1,310 lin. ft. Type "A" (5½-ft) P.C.C. curb and gutter in place complete;
(11) 2,177 lin. ft. Type "B" (3-ft.) P.C.C. curb and gutter in place complete;
(12) 1,538 lin. ft. Type "B" (3½-ft) P.C.C. curb and gutter in place complete;
(13) 25,390 sq. ft. 4-inch P.C.C. sidewalk, sidewalk corners and corner aprons including excavation, grading and subgrading for same, in place, complete;
(15) 6,044 sq. ft. P.C.C. driveway aprons in place commlete;
(16) 29 each, 4-inch V.C. sanitary sewer laterals, in place complete;
(17) 31 each, ¾-inch wrapped seamless steel pipe gas service laterals in place, complete;
(18) 30 each, 1-inch copper tube water service laterals, in place, complete.
Plans and specifications obtainable from office of the City Engineer upon deposit of $10 refundable.

3/17/47 40
Owner Taking Bids—Due April 7, 2 P. M.
Pennsylvania St. Improvement; No. 25,913
SAN FRANCISCO, Calif. Pennsylvania St. between 20th St. and 306 ft. southerly.
Owner—City and County of San Francisco, Department of Public Works, City Hall, San Francisco, Calif.
City Engineer—Ralph Wadsworth, City Hall, San Francisco, Calif.
Includes 12-in. vitrified clay pipe sewer, brick manhole, Y branches, side sewers, asphaltic concrete pavement and unarmored concrete curb.

3/17/47 40
Owner Taking Bids—Due March 27, 4 P. M.
Sidewalk, Gutter and Curb, Etc.
EL CERRITO, Calif., Contra Costa County. East side of Ashbury Ave., between Lincoln Ave. and southerly line of the El Cerrito High School property.
Owner—Richmond Union High School District, W. L. Helms, secretary, Administration Bldg., 1108 Bissell Ave., Richmond, Calif.

ELK GROVE, Calif., Sacramento Co.—Until Apr. 10, 8 p. m. bids will be received by the Elk Grove Union High School District, E. Henry Kloss Clerk, Elk Grove, Calif., for furnishing one transit type school bus complete of 72-passenger capacity.

Specifications obtainable from the above office.

3/18/47 43
Reactors and Circuit Breakers
Bids Wanted

COLUMBIA BASIN PROJECT, Wash.—Until Apr. 24, 2 p. m. bids will be received by the U. S. Bureau of Reclamation, Customhouse, Denver, Colo., under Spec. 1738 for furnishing and delivering, f.o.b. shipping point and/or Almira, Wash. two (2) dry-type neutral-grounding reactors, each with rated insulation class of 8.66-kv and impedance of approximately 0.14 ohms, for use in the neutral of a 6,900-volt, 3-phase, 60-cycle, 12,500-kva generator; two (2) indoor-type, single-throw power circuit breakers, rated, at not less than 7,500 volts, 600 amperes, each for operation in the neutral of a 69,000-volt, 3-phase, 60-cycle, 12,500 kva generator; for the Station Service Units, Grand Coulee Power Plant, Columbia Basin Project, Washington. The apparatus will be installed by the Government.

No charge for copies of the specifications to prospective bidders; to others $0.75, not returnable.

3/18/47 43
Arm Chairs—Low and Only Bidder

SAN FRANCISCO, Calif.—Rucker Fuller Co., 559 Market St., San Francisco, Calif., at $10.83 each; 90-198 days delivery submitted only bid March 14 to Purchaser of Supplies M. H. Gerry, 270 City Hall San Francisco, Calif., under bid No. 3867 for furnshing and delivering 100 golden oak arm chairs for Laguna Honda Home

3/18/47 43
Pumping Units—Bids Wanted

COLORADO - BIG THOMPSON PROJECT, Colo.—Until Apr. 14, 2 p. m. bids will be received by the U. S. Bureau of Reclamation, Customhouse, Denver, Colo., under Spec. 1740 for furnishing and delivering f.o.b. cars at the shipping point or f.o.b. cars at Granby, Colorado, four (4) motor-driven, deep-well, turbine-type pumping units; for Granby Pumping Plant, Colorado-Big Thompson Project, Colorado. The control equipment will be furnished by the Government and all apparatus will be installed by the Government.

No charge for copies of the specifications to prospective bidders; to others $1.00, not returnable

3/18/47 43
Governors
Bids Wanted

DAVIS DAM and COLORADO-THOMPSON PROJECT—Until Apr. 14, 2 p. m. bids will be received by the Bureau of Reclamation, Denver, Colo., under Spec. 1734 for furnishing and delivering f.o.b. cars at the shipping point or f.o.b. cars at Boulder, Arizona, and at Wild Siding, west of Loveland, Colorado, at the option of the bidder, five governors with pumping equipment for regulating the speed of 62,200-horsepower turbines for Davis Dam Power Plant, Arizona-Nevada; three governors with pumping equipment for regulating the speed of 21,000-horsepower turbines for Estes Power Plant, and one governor with pumping equipment for regulating the speed of an 11,300-horsepower turbine for Marys Lake Power Plant, Colorado-Big Thompson Project, Colorado. The apparatus will be installed by the Government.

No charge for copies of the specifications to prospective bidders; to others $1.50, not refundable.

3/18/47 43
Prefabricated Residences
Bids Wanted

CENTRAL VALLEY PROJECT, Calif.—Until Apr. 15, 2 p. m. bids will be received by the U. S. Bureau of Reclamation, Customhouse, Denver, Colo., under Spec. 1742, for furnishing and delivering by trucks or by rail f.o.b. cars at the shipping point or f.o.b. cars at Antioch and Tracy California, at the option of the bidder, 38 two-bedroom and 12 three-bedroom, prefabricated or precut residences for the Antioch and the Tracy Government Camps, Central Valley Project, California. The residences will be erected by the Government.

No charge for copies of the specifications to prospective bidders; to others $0.50, not returnable.

3/18/47 43
Lightning Arresters
Bids Wanted

COLORADO - BIG THOMPSON PROJECT, Colo.—Until Apr. 15, 2 p. m. bids will be received by the U. S. Bureau of Reclamation, Customhouse, Denver, Colo., under Spec. 1737 for furnishing and delivering f.o.b. shipping point and/or cars at Granby, Colo., 3 single-pole outdoor, thyrite or autovalve, station type lightning arresters designed for base mounting and suitable for use on a 69,000-volt, 3-phase, ungrounded-neutral circuit at an elevation of 8,300 feet above sea level; three (3) 88,000-volt or 92,000-volt, 200-ampere, single-pole, hook-operated, outdoor, expulsion-type disconnecting fuses; each complete with two 10E-ampere fuse units; for Granby Pumping Plant construction substation, Colorado-Big Thompson Project, Colorado. The apparatus will be installed by the Government.

3/18/47 42
Structural-Steel Framework and Panels
Bids Wanted

CENTRAL VALLEY PROJECT, Calif.—Until Apr. 28, 2 p. m. bids will be received by the U. S. Bureau of Reclamation, Denver, Colo., under Spec. 1744 for furnishing and delivering f.o.b. cars at the shipping point or f.o.b. cars at Coram, California, the fabricated structural-steel framework and panels for control and power-distribution boards for the station-service system Bay U5, Governor Gallery, Shasta Power Plant, Central Valley Project, California. The materials will be installed by the Government.

No charge for copies of the specifications to prospective bidders; to others $1.00, not returnable.

3/18/47 43
Compressor Units & Tools
Bids Wanted

BOISE PROJECT and MISSOURI BASIN PROJECT.—Until Apr. 11, 2 p. m. bids will be received by the U. S. Bureau of Reclamation, Customhouse, Denver, Colo., under Spec. 1735 for furnishing and delivering f.o.b. cars at the shipping point or f.o.b. cars at Hot Springs, South Dakota; Cascade, Idaho; Mountain Home, Idaho, and Casper, Wyoming, the compressor units and tools for ice prevention air systems for Angostura Dam, Angostura Unit, South Dakota, Missouri Basin Project; spillway and outlet works at Cascade Dam, Payette Division, Boise Project, Idaho; Spillway at Anderson Ranch Dam, Boise Project, Idaho; and Kortes Dam, Kortes Unit, Wyoming, Missouri Basin Project. The materials will be installed by the Government.

No charge for copies of the specifications to prospective bona fide bidders; to others $0.50, not returnable

3/17/47 44
Test Holes (Boring)
Bids Wanted

SAN FRANCISCO, Calif.—Until March 19, 1:30 P. M., bids will be received by the City and County of San Francisco, Department of Public Works, Room 282 City Hall, San Francisco, Calif., for boring of test holes at southeast corner of 19th and Folsom Sts.

Specifications obtainable from the office of City Architect Dodge A. Riedy, Room 265 City Hall, San Francisco, Calif., upon deposit of $5.

3/17/47 44
Oil-Burning Equipment
Bids Wanted

BEVERLY HILLS, Calif., Los Angeles Co.—Until March 26, 2 P. M., bids will be received by the Federal Works Agency, Public Buildings Administration, office of the district engineer, 838 U. S. Appraiser's Bldg., San Francisco, Calif., for furnishing and installing new oil-burning equipment at the U. S. Post Office Bldg., Beverly Hills, Calif.

Plans and specifications obtainable from the above office of the district engineer.

3/17/47 44
Case Lighting—Bids Wanted

BREMERTON, Wash.—Until Mar. 26, 2 P. M., bids will be received by the Federal Works Agency, Public Buildings Administration, office of the district engineer, 838 U. S. Appraiser's Bldg., San Francisco, Calif., for furnishing and installing new case lighting at the U. S. Post Office Bldg., Bremerton, Wash.

Plans and specifications obtainable from the above office of the district engineer.

3/17/47 44
Water Heaters—Bids Wanted

SAN FRANCISCO, Calif.—Until March 19, 2 P. M., bids will be received by the Federal Works Agency, Public Buildings Administration, office of the district engineer, 838 U. S. Appraiser's Bldg., San Francisco, Calif., for furnishing and installing new gas burner water heater at the U. S. Rincon Annex Post Office, San Francisco, Calif.

Plans and specifications obtainable from the above office of the district engineer.

3/17/47 44
Sump Pit and Pump
Bids Wanted

REDWOOD CITY, Calif., San Mateo Co.—Until March 26, 2 P. M., bids will be received by the custodian of the building for new sump pit and sump pump at the U. S. Post Office Bldg., Redwood City, Calif.

Plans and specifications obtainable from the Federal Works Agency, Public Buildings Administration, office of the district engineer, 838 U. S. Appraiser's Bldg., San Francisco, Calif.

3/17/47 44
Ventilating Fans—Bids Wanted

SEATTLE, Wash.—Until April 2, 2 P. M., bids will be received by the Federal Works Agency, Public Buildings Administration, office of the district engineer, 838 U. S. Appraiser's Bldg., San Francisco, Calif., for ventilating fans for kitchen, U. S. Marine Hospital, Seattle, Wash.

Plans and specifications obtainable from the above office of the district engineer.

3/17/47 44
Tile Flooring—Bids Wanted

LOS ANGELES, Calif., Los Angeles Co.—Until April 2, 2 P. M., bids will be received by the Federal Works Agency, Public Buildings Administration, office of the district engineer, 838 U. S. Appraiser's Bldg., San Francisco, Calif., for switchboard changes, etc., at 100 McAllister St. Bldg., San Francisco, Calif.

Plans and specifications obtainable from the above office of the district engineer.

3/17/47 44
Hot Water Radiant Heating System
Bids Wanted

SAN LEANDRO, Calif., Alameda Co.—Until March 22 bids will be received by Engineer Geo. K. Brokaw, 582 Market St., San Francisco, Calif., for hot water radiant heating system for assembly factory building (30,000 sq. ft. floor area). Owner, Friden Calculating Machine Co., San Leandro, Calif. Plans and specifications obtainable from the above office of the engineer.

3/17/47 44
Stair Tread Repair
Bids Wanted

SAN FRANCISCO, Calif.—Until April 2, 2:30 P. M., bids will be received by the City and County of San Francisco, Department of Public Works, Room 282 City Hall, San Francisco, Calif., for repairing stair treads, Hall of Justice.

Specifications obtainable from the office of City Architect Dodge A. Riedy, Room 265 City Hall, San Francisco, Calif., upon deposit of $5, refundable.

3/17/47 44
Test Holes (Boring)
Bids Wanted

SAN FRANCISCO, Calif.—Until March 19, 1:30 P. M., bids will be received by the City and County of San Francisco, Department of Public Works, Room 282 City Hall, San Francisco, Calif., for boring of test holes at southeast corner of 19th and Folsom Sts.

Specifications obtainable from the office of City Architect Dodge A. Riedy, Room 265 City Hall, San Francisco, Calif., upon deposit of $5.

3/17/47 44
Sump Pump, Etc.—Bids Wanted

YUMA, Ariz.—Until April 9 2 P. M., bids will be received by the Federal Works Agency, Public Buildings Administration, office of the district engineer, 838 U. S. Appraiser's Bldg., San Francisco, Calif., for additional sump pumps, etc., at the U. S. Post Office Bldg., Yuma, Ariz.

Plans and specifications obtainable from the above office of the district engineer.

3/17/47 44
Entrance Doors, Etc—Bids Wanted

VACAVILLE, Calif., Solano Co.—Until April 9, 2 P. M., bids will be received by Federal Works Agency, Public Buildings Administration, office of the district engineer, 838 U. S. Appraiser's Bldg., San Francisco, Calif., for new entrance doors, etc., at the U. S. Post Office Bldg., Vacaville, Calif.

Plans and specifications obtainable from the above office of the district engineer.

3/17/47 44
Fence and Gate Repairs
Bids Wanted

NOGALES, Ariz.—Until April 2, 2 P. M., bids will be received by the Federal Works Agency, Public Buildings Administration, office of the district engineer, 838 U. S. Appraiser's Bldg., San Francisco, Calif., for fence and gate repairs at the U. S. Immigration Station, Nogales, Ariz.

Plans and specifications obtainable from the above office of the district engineer.

PLANS and Speculations

About $25,000 would be required for an investigation into the need and desirability of main line railroad service into San Francisco over a second bay crossing, City Engineer Ralph Wadsworth told the board of supervisors Monday. The board is considering hiring outside technicians to make such a study.

oOo

Now in a committee of the San Francisco board of supervisors is a Christopher-sponsored resolution urging state authorities to "take all necessary steps" to have the army open the Presidio for a 150-acre site for San Francisco State College.

oOo

Compton Junior College at Compton, Calif., is to obtain about 44,000 square feet of surplus structures for vocational shops and classrooms, together with surplus furniture and equipment, so that it can enroll an estimated 5,500 students, including 2,500 veterans, compared with the present enrollment of about 4,500, including 1,800 veterans, and a peak pre-war enrollment of 3,745.

oOo

Oakland city council has approved creation of the position of office engineer, at a starting salary of $495.

oOo

The Commonwealth Club heard Chester C. Fish, chairman of the highway section, advocate a statewide freeway system, a limited county primary road system and establishment of a system for improving and maintaining city streets connecting with state highways.

oOo

Enterprise High School at Compton, Calif., (Compton Union High School District) is to obtain about 9,000 square feet of vocational shops and classroom facilities, together with necessary furniture and equipment from Government surplus, to accommodate 200 veterans, compared with 195 new enrolled.

oOo

Surplus government structures will be converted to about 18,200 square feet of classroom, lab., office and cafeteria facilities at El Camino Junior College, a new institution at **Inglewood.**

oOo

The Federal Bureau of Prisons has condemned San Mateo County jail at **Redwood** City as "obsolete". County supervisors now are studying "ways and means" of improving the facilities.

SAN CARLOS BUILDER TO DEFEND PRICE HIKES

REDWOOD CITY.—Twenty-one suits asking damages totaling $45,000 have been filed in Redwood City Superior Court by veterans who claim increases in the prices of their homes were unwarranted.

San Carlos contractor W. G. Gould, defendant, maintains that the cost increases are justified, pointing out that the federal housing authority approved the increases, and that contracts signed by the veterans contained elevator clauses authorizing necessary increases.

DIRECTORS ELECTED

Eleven newly-elected directors of the San Francisco Builders' Exchange will elect its officers at the next regular meeting on Wednesday, Mar. 26. The directors' names were announced Wednesday, following elections and tabulation of votes Monday.

Following are the directors: A. I. Bos, Al W. Cobby, A. F. Edwards, E. J. Finnerty, Charles E. Gordon, E. E. Hundley, G. H. Martinelli, H. N. Patterson, E. H. Peterson, George W. Reed and A. H. Wilhelm.

Open Municipal Airport Bids

Guy F. Atkinson Company was revealed as low bidder on San Francisco's multi-million dollar airport development project when bids were opened by representatives of the public utilities commission at the City Hall late Tuesday afternoon.

The Atkinson quotation was $1,922,360.50 on Proposition A, and $3,722,310.50 on Proposition C. Next low bid was presented by Macco Construction Company and Morrison-Knudsen, who bid $3,904,229 on Proposition C.

Only other bidder was Construction Aggregates Corporation, who proposed to do the job under Proposition B for $1,990,200.

The work includes construction of fills for reclamation of tideland and water areas and other low-lying ground adjacent to the airport. The contract also calls for construction of roadway embankments, fill on the developed airport area to raise grades, installation of drainage pipelines and related work.

The required work was divided into two sections—A and B. In Section A, the fill material is to be placed in the fill in a dry condition, and in B, the fill may be constructed as dry fill or at the contractor's option the main bulk of the fill may be a hydraulic fill of sand. In this case, some dry fill will be required for covering the sand. Completion time is 330 calendar days.

Wage Spirals of Two Postwar Periods Trace General Industry Trend; Price Index Similar

WASHINGTON (Exclusive)—The trend of construction costs, postwar, reflected in wage scales and purchase price of materials, has brought premature gray hairs to many a contractor since VJ day.

These builders who have been so harrassed by excessive costs probably will take little satisfaction in a comparison with similar upward cost rends that occurred after World War I; certainly they will take little consolation from the discovery that the earlier upward cycle did not hit its peak—at least as far as wholesale prices on building materials was concerned—until 1920, two years after the close of the first world conflict.

But while these government-source figures, taken from the bureau of labor statistics division, might point toward continued higher costs in the building trades on the basis of comparison with World War I effects, private industry spokesmen are looking toward a drop in costs this year.

An example of the more optimistic report is the National Association of Real Estate Boards' published result of its 40th semi-annual survey. Replies from real estate boards in 475 cities in 45 states, as interpreted by NAREB, "dispel the specter of an unrestrained boom in real estate." Prices of residential property are expected to be lower as the year progresses in 58 per cent of the reporting cities, NAREB said. They are expected to remain the same in 36 per cent and according to returns from 63 per cent of cities canvassed, volume of home sales will dwindle in 1947.

But here is the factual comparative costs in the fields for which indexes are available, for the two postwar periods.

Taking union hourly wage rates first—1939 is measured as the base year with 100 representing wage rates then.)

This Dept. of Labor table on union hourly rates of pay in all building trades shows an index jump of 6.6 points from 1918 to 1919, an increase of 18.1 points from 1919 to 1920, and an increase of 1.3 points the following year. Then the wage rates began to decline.

Here are the figures—(Year 1939 equals 100):

	All Trades	Journeymen	Helpers and Laborers
1918	45.3	35.9	42.6
1919	51.9	52.4	49.3
1920	70.0	70.1	71.5
1921	71.3	71.4	72.2
1922	66.5	67.3	65.7

For a comparable time after the last war, into last year as far as the figures cover, the point jump in union hourly wage rates was shown to be considerably higher, reaching 20.4 points in the helpers and laborers category; 13.3 in all trades.

The point index has risen every year since 1933 when it reached an 80.8, lowest at that time since 1924.

Here are the figures for the war years and to date—(Year 1939 equals 100):

	All Trades	Journeymen	Helpers and Laborers
1941	105.3	105.0	106.8
1942	111.9	110.9	117.5
1943	112.7	111.5	118.9
1944	113.6	112.4	120.3
1945	116.0	114.4	125.9
1946	129.3	126.8	146.3

Labor's comment on the war years is this, "The rise in the index covering the 5-year period during World War II (1940 to 1945) indicates an average increase of 13 per cent for journeymen, 23 per cent for helpers and laborers, and 14 per cent for the groups combined, in contrast with the 5-year period during World War I (1914-1919) when increases in rates for journeymen averaged 39 per cent, for helpers and laborers 54 per cent, and for all building trades workers 41 per cent." That analysis covers the war years only, quite a different picture from the immediate postwar figures.

The actual wage rates are available for the years of the first World War. They are:

	All Trades	Journeymen	Helpers and Laborers
1916	$0.500	$0.556	$0.261
1917	.532	.587	.287
War end 1918	.590	.649	.333
1919	.676	.741	.385
1920	.912	.992	.558
1921	.929	1.016	.564
1922	.872	.952	.513

Inspite of the current general trends, the Labor Department has reported that the dollar value of urban construction reached $4,700,000,000 in 1946, setting a 17-year high that more than doubled the 1945 figure. Less than a tenth of total urban building valuations was in federally-financed construction.

A chart of index numbers for wholesale prices of building materials in the two postwar eras draws a similar parallel of rising costs. As with wages the boost in wholesale prices was not so marked during the first year after the first world war but it jumped considerably in 1920.

Using the year 1926 as a base period when wholesale prices equaled 100, Department of Labor computes the 1918 index figure at 98.6. In 1919 this rose to 115.6, an increase of 17 points. But the following year, 1920, saw thewholesale price index for building materials rise to 150.1 or 34.5 higher. The drop at this point was sharp. The 1921 figure was only 97.4, or 52.7 points lower than the year before.

Comparable figures for 1946 show a rise of 14.8 points over the armistice year of 1945—from 117.8 to 132.6

This rise in wholesale prices of building items after the war just concluded is only about two points lower than that for the first year after World War I.

Perhaps in reflection of these indices all construction in February reached $743 million, a 7.2 per cent drop from January.

WAA Announces New Disposal Methods for Contractors' Machines

WASHINGTON. — A new and continuous program to expedite the disposal of surplus government owned parts for construction, farm mining and some industrial machinery and equipment and their attachments is ready to be launched, War Assets Administration announced today.

Complete inventories of all categories and types are not yet available WAA said, but it is estimated that the total acquisition cost to the government of these surpluses may reach as high as $75 million.

For the first time since surplus machinery pools have been sold, they will be offered on a sealed bid basis and offered concurrently to all priority and non-priority groups. This will be a continuing program and priority groups and other eligible buyers will be notified and invited to bid on the offerings.

Surplus items included in this sales program are: parts for internal combustion engines; air motors; compressors and dry vacuum pumps; pumps; portable crushing plants, jaw and roll; portable screening plants; portable bulk conveyors; farm elevators; industrial type cranes, derricks, hoists and winches; agricultural machinery and implements; mining and quarrying machinery; earth and rock boring and drilling machinery and accessories; well and blast hole drilling machinery; excavating and dredging machinery; road and airport construction and maintenance machinery; tractor-mounted construction equipment; mixers and pavers, bituminous and concrete and related equipment; railroad construction and maintenance equipment, power driven (except inspection and maintenance railroad cars); miscellaneous construction and related equipment; tractors; horse-drawn vehicles; farm trailers; or rubber covered agricultural machine rolls; wooden wagon and farm machinery parts and street-sweeping machine brooms.

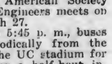
The largest inventories of these items in the west are located in the Los Angeles and San Francisco regional areas.

GROOVER AND I

BRITISH HUMOR

We sometimes say the English have no sense of humor. Trouble is we are as blunt as a quad-drive truck, and—

☆ ☆ ☆



We fail to appreciate the subtle delicacy of touch in English humor.

☆ ☆ ☆

As an illustration: Consider the question England's Bevin asked Russia's Molotov in Moscow last week—

☆ ☆ ☆

Bevin wanted to know if Russia had destroyed the German naval craft turned over to her for destruction!

Mechanical Engineers To View Cyclotron at Meet Thursday, 27th

Engineers will have an opportunity to see the cyclotron and related apparatus on the Berkeley campus when the San Francisco section of the American Society of Mechanical Engineers meets on Thursday, March 27.

From 4:45 to 5:45 p. m., buses will leave periodically from the north gate of the UC stadium for the cyclotron for a half-hour inspection tour guided by staff members. Two scientists who helped develop the cyclotron will explain it at a seven o'clock dinner at the Berkeley Women's City Club, 2315 Durant Avenue.

W. M. Brobeck (A. B., Stanford, '30; M. S., Massachusetts Institute of Technology, '33, in mechanical engineering) will explain design and construction of the cyclotron.

Dr. W. M. Powell, associate professor of physics, University of California, will speak on "Applications of the Cyclotron."

RECALL PREMIUM FUNDS, WHITLOCK RECOMMENDS

WASHINGTON. — Douglas Whitlock, chairman of the Building Products Institute, declared that efforts to balance the federal budget could be expedited by returning to the Treasury about $360 million of unexpended funds appropriated last year for subsidies to building product manufacturers.

"Of the $400 million premium payment fund voted by congress about $35 to $40 million will have been spent by June 30, and the balance would serve no useful purpose if it were spent," Whitlock pointed out.

LIMIT PIG IRON AID

WASHINGTON. — To help the producers of cast iron soil pipe for veterans' housing, the Civilian Production Administration todny announced that continued assistance in obtaining pig iron would be given only to producers of this type of soil pipe and fittings.

Owner— City and County of San Francisco, Public Utilities Commission, Room 287 City Hall, San Francisco, Calif.
Plans by engineering department of owner.
Consists of construction fills for the reclamation of tide lands and water areas and other low-lying ground adjacent to existing developed area of the airport, roadway embankments, fill on the developed area to raise grades, drainage pipelines and related work. The required work is divided into two sections designated "A" and "B"; in section "A" the fill materials is to be placed in the fill in a dry condition; in section 'B" the entire fill may be constructed as dry fill or at the contractor's option the main bulk of the fill may be a hydraulic fill of sand. In the latter case some dry fill will also be required for covering the sand. Proposition A covers the work in section "A"; proposition B that in section "B"; proposition C the entire work in both sections "A" and "B". Contractors may bid on any one, any two or all three of the propositions. Completion time 330 calendar days.
Low Bidder—Guy F. Atkinson Company, Orange and Railroad Aves., South San Francisco, Calif.
Work involves:

Proposition A
(1) 2,600,000 cu. yds. fill construction, dry placed;
(2) 375,000 cu. yds. compaction to 95% density;
(3) 45,000 M. gallons watering;
(4) 95,000 cu. yds. rehandling fill material;
(5) 35,000 cu. yds. leveling and benching;
(6) 200,000 cu. yds. excavation and removal of unsuitable material;
(7) 10,000 cu. yds. canal excavation;
(8) 8800 tons rock facing;
(9) 110,000 sq. yds. subbase preparation;
(10) 10,000 tons crushed rock base;
(11) 4700 sq. yds. removing existing concrete pavement;
(12) 9500 cu. yds. trench and minor structure excavation and backfill;
(13) 220,000 sq. yds. fine grading of inlet ponding area;
(14) 3200 lin. ft. furnishing and laying 12-in. standard strength reinforced concrete pipe;
(15) 1150 lin. ft. furnishing and laying 15-in. standard strength reinforced concrete pipe;
(16) 200 lin. ft. furnishing and laying 18-in. standard strength reinforced concrete pipe;
(17) 1150 lin. ft. furnishing and laying 21-in. standard strength reinforced concrete pipe;
(18) 500 lin. ft. furnishing and laying 24-in. standard strength reinforced concrete pipe;
(19) 1200 lin. ft. furnishing and laying 27-in. standard strength reinforced concrete pipe;
(20) 2000 lin. ft. furnishing and laying 30-in. standard strength reinforced concrete pipe;
(21) 2150 lin. ft. furnishing and laying 33-in. standard strength reinforced concrete pipe;
(22) 200 lin. ft. furnishing and laying 36-in. standard strength reinforced concrete pipe;
(23) 100 lin. ft. furnishing and laying 21-in. corrugated metal pipe;
(24) 1000 lin. ft. furnishing and laying 24-in. corrugated metal pipe;
(25) 200 lin. ft. furnishing and laying 36-in. corrugated metal pipe;
(26) 100 lin. ft. furnishing and laying 48-in. corrugated metal pipe;
(27) 100 lin. ft. lay 24-in. corrugated pipe furnished by city;
(28) 1 each furnish and install 21-in. automatic drainage gate;
(29) 1 each furnish and install 24-in. automatic drainage gate;
(30) 1 each install 24-in. automatic gate furnished by the city;
(31) 100 lin. ft. remove 24-in. corrugated metal pipe;
(32) 100 cu. yds. concrete for drainage inlets and minor structures;
(33) 5000 lbs. reinforcing steel in structures;
(34) 6800 lbs. inlet grating and supporting angles;
(35) 2000 lin. ft. reconstruct right-of-way fence.

Proposition B
(1) 2,400,000 cu. yds. fill construction;
(2) 50,000 cu. yds. compaction to 95% density;
(3) 5,000 M. gals. watering;
(4) 5000 c.y. rehandling fill material
(5) 25,000 cu. yds. leveling and benching;
(6) 25,000 cu. yds. excavation and removal of unsuitable material;
(8) 16,200 tons rock facing.

Proposition C
(1) 5,000,000 cu. yds. fill construction;
(2) 425,000 cu. yds. compaction to 95% density;
(3) 50,000 M. gallons watering;
(4) 100,000 cu. yds. rehandling fill material;
(5) 60,000 cu. yds. leveling and benching;
(6) 225,000 cu. yds. excavation and removal of unsuitable material;
(7) 10,000 cu. yds. canal excavation;
(8) 25,000 tons rock facing;
(9) 110,000 sq. yds. subbase preparation;
(10) 10,000 tons crushed rock base;
(11) 4700 sq. yds. removing existing concrete pavement;
(12) 9500 cu. yds. trench and minor structure excavation and backfill;
(13) 220,000 sq. yds. fine grading of inlet ponding area;
(14) 3200 lin. ft. furnishing and laying 12-in. standard strength reinforced concrete pipe;
(15) 1150 lin. ft. furnishing and laying 15-in. standard strength reinforced concrete pipe;
(16) 200 lin. ft. furnishing and laying 18-in. standard strength reinforced concrete pipe;
(17) 1150 lin. ft. furnishing and laying 21-in. standard strength reinforced concrete pipe;
(18) 500 lin. ft. furnishing and laying 24-in. standard strength reinforced concrete pipe;
(19) 1200 lin. ft. furnishing and laying 27-in. standard strength reinforced concrete pipe;
(20) 2000 lin. ft. furnishing and laying 30-in. standard strength reinforced concrete pipe;
(21) 2150 lin. ft. furnishing and laying 33-in. standard strength reinforced concrete pipe;
(22) 200 lin. ft. furnishing and laying 36-in. standard strength reinforced concrete pipe;
(23) 100 lin. ft. furnishing and laying 21-in. corrugated metal pipe;
(24) 1000 lin. ft. furnishing and laying 24-in. corrugated metal pipe;
(25) 200 lin. ft. furnishing and laying 36-in. corrugated metal pipe;
(26) 100 lin. ft. furnishing and laying 48-in. corrugated metal pipe;
(27) 100 lin. ft. lay 24-in. corrugated pipe furnished by city;
(28) 1 each furnish and install 21-in. automatic drainage gate;
(29) 1 each furnish and install 24-in. automatic drainage gate;
(30) 1 each install 24-in. automatic gate furnished by the city;
(31) 100 lin. ft. remove 24-in. corrugated metal pipe;
(32) 100 cu. yds. concrete for drainage inlets and minor structures;
(33) 5000 lbs. reinforcing steel in structures;
(34) 6800 lbs. inlet grating and supporting angles;
(35) 2000 lin. ft. reconstruct right-of-way fence.

Total bids submitted Mar. 18 were:
(A) Guy F. Atkinson Co., South San Francisco, Calif., (Prop. A) $1,922,360.50; (Prop. B) no bid; (Prop. C) $3,722,310.50.

COUNTY OF SAN MATEO
STATE OF CALIFORNIA
NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the Purchasing Agent, County of San Mateo, in the County Court House, Redwood City, California, until 10:00 A. M., March 21, 1947, at which time they will be publicly opened and read in the office of the Purchasing Agent, for the performance in accordance with the plans and specifications therefor, to which special reference is made, of the CLEARING AND GRUBBING OPERATIONS for the realignment of County Road No 20, also known as Canada Road, San Mateo County, California, as follows:

From the existing Canada Road near the entrance to the property known as Canada Road Park, being approximately 2.5 miles along said road in a generally northerly direction from Woodside, California; thence in a generally northerly direction to the intersection of the said Canada Road with County Road No. 19, also known as Ralston Avenue, said proposed realignment being approximately 4.7 miles in length (Engineer's Station 134+00 to Station 382+30.84).

Item 1. Clearing and Grubbing
Lump Sum

Prevailing rates of wages shall be paid on the work.

The attention of bidders is particularly directed to the provisions of Section 8, Articles (a) and (b), of the Standard Specifications, which are hereby cancelled, as no sub-contracts or assignments will be permitted.

No bid will be accepted from a contractor who is not licensed in accordance with the laws of the State of California.

Plans and specifications, forms of proposal, and contract may be seen and obtained at the Office of the Purchasing Agent in the County Court House, Redwood City, California. Plans may be taken therefrom upon deposit of $10.00 per set. Said deposit will be refunded upon return of the plans in good condition

The County of San Mateo reserves the right to reject any or all bids.

E. B. SMITH, Purchasing Agent.

PLANS and Speculations

Clearwater High School at Clearwater, Calif. (Compton Union High School District) is to obtain about 10,000 square feet of surplus structures for vocational shops and vocational classroom facilities, together with necessary surplus furniture and equipment, so that it can offer courses of education and training to 275 veterans compared with 220 veterans at present.

oOo

FWA plans funds will be advanced to the city of Auburn for grading, paving and widening of Elm Avenue. Estimated project cost is $72,200, and the advance is $1,400.

oOo

A resolution to line up the state legislature behind a move to increase its share of federal flood control funds is being considered by the senate water resources committee. The resolution supports a state water resources board demand for $35,778,000 as California's total flood control share.

oOo

Candidates for a state senior harbor engineer position ($435-$535) will be examined May 3. Registration as a civil engineer, and five years' professional experience is required. The vacancy is in San Francisco

oOo

Lynwood High School at Lynwood, Calif., (Compton Union High School District) obtained approval of its application for 7,000 square feet of surplus structures for vocational shops, together with necessary surplus furniture and equipment, so that it can accommodate an expected enrollment of 400 veterans, compared with 350 now on the rolls and 300 enrolled last fall

oOo

Franklin D. Roosevelt high school at Compton, Calif., (Compton Union High School District) is to obtain surplus Government structures for 8,000 square feet of vocational shops and classrooms, together with surplus furniture and equipment, so that it can train 300 veterans, compared with the present enrollment of 250 veterans and 225 last fall

oOo

Willowbrook high school at Compton, Calif., (Compton Union High School District) is to obtain 8,000 square feet of space for vocational shops and vocational classroom facilities, together with necessary surplus furniture and equipment, in order to accommodate 250 veterans, compared with present veteran enrollment of 200, and 190 last fall.

oOo

State civil service exams will be given May 24 for a senior electrical engineer ($435-$535). Degree in electrical engineering and five years' professional experience are required.

oOo

Bids will be received by WAA on Richmond Shipyard No. 1 and part of No. 2 up to April 15, at the San Francisco office.

DIRECTORS CHOSEN

New directors of the Oakland Builders' Exchange were announced late Wednesday afternoon.

William E. McGrath, Joseph A. Turgeon, H. J. Christensen, Donald B. Kirby, C. H. Thrams, John S. Tulloch, Hal Bennett, N. V. Heathorn, William J. Goodman, J. Carlstrom, R. C. Fischer, T. S. Ricker, all incumbents, were returned to the board.

Others elected were: L. H. (Abe) Lincoln, home builder, and Conrad Rasmussen, plasterer.

The board will meet within a few days to elect the new officers of the east bay Exchange.

Taft-McCarthy Rent Control Bill to Get Early Consideration

WASHINGTON. — As some of the congressional smoke cleared away from two months' work here this week, it was perfectly apparent that rent controls would be continued regardless of their legal form.

Decontrol New Units

Just as the bill to discontinue the Office of Price Administration June 30 was going to the White House, it became evident that President Truman had won powerful republican support in his campaign against a general increase in rent ceilings.

This fact was disclosed when Senator Robert Taft of Ohio, chairman of the republican policy committee, announced his opposition to any across-the-board rent increase and proposed a substitute plan of his own.

This will be discouraging news to the real estate lobbies who have pleaded so many months for relief from what they term a general nationwide hardship. They have been looking forward at least to a flat 10 or possibly 15 per cent increase in rent ceilings.

Senator Taft's plan which was worked out with Senator McCarthy of Wisconsin, would continue rent control until March 1, 1948, under the administration of a new rent adjustment and decontrol board.

More liberal hardship relief would be authorized for landlords instead of the flat increase they have been hoping for.

Important to home builders in the new Taft measure is the provision that new housing would be decontrolled immediately.

Localize Control

The feeling of many congressmen was expressed by Senator

Legion Booklet Details Cooperation of Local Groups in Providing Vets Rental Dwellings

WASHINGTON.—Following its nationwide survey of the housing condition for veterans, the American Legion has published a booklet entitled "Operation Housing", which carries detailed explanation of several plans from which veterans may work in building their individual homes.

In addition to individual and cooperative plans, the booklet lists the following guides for vets who are planning new houses:

The Lambert Plan: This is operated in New Brunswick and Trenton, N. J. It stresses re-use of slum or unused local property and combines cooperation of local governing bodies which provide inexpensive improved land, partial tax deferments. Local cotractors bid competitively, local dealers supply all construction materials and the local housing authority administers the property without profit for rentals ranging from $30 to $46 a month.

The Rochester Plan: This was conceived by eight Rochester, N. Y., banks who formed a non-profit company to build rental homes for ex-servicemen. The banks hold the title and issue mortgages at low interest rates. This system is financed through FHA insured mortgages and amortized over 32 years. Rentals average $48 a month.

The Seattle Plan: Representatives from banks, labor, FHA, NHA along with contractors and architects have worked out a plan which has already placed under construction more than 400 rental units.

The Brooke Plan: Devised in Cincinnati, Ohio, this plan offers a community complete with supervisory service. Started with formation of a local housing committee and ended with dwellings ready for occupancy—ownership or rental plan. This plan uses local architectural, building, supply, financial facilities and is said to save 22 per cent of final cost.

The Greendale Plan: A limited dividend coporation composed of local leaders in financial, construction, labor and veterans' organizations acquires a large tract of land, enlists financial aid through issuance of bonds and erects moderate cost rental housing under Title 608 of the Housing Act.

The Massachusetts Plan: Most space is given to this system. It develops a key plan for a house of economical dimensions developed by the American Legion, Department of Massachusetts. It embraces principles developed by the Producers' Council and the National Retail Lumber Association.

The Massachusetts plan employs economical house dimensions of 24 feet by 28 feet or 24 feet by 32 feet. It is flexible enough in scope, the Legion committee says, to cover a wide variety of room layouts and housing styles. The key plan will serve as a guide in determining the amount of vital materials necessary for economical home construction.

These materials will be packaged in groups, not as prefabricated unit construction by semi-skilled laborers but as the basic material now used by the building trades, the Legion publication explains.

May Add Rooms

And in this respect—through use of pre-cut, pre-measured and prepackaged materials — the Massachusetts plan is a radical departure from the conventional building methods. The Legion committee believes that it constitutes a high standard economical short-cut to good low-cost housing and so

(Continued on Page 7)

GROOVER AND I

"YEARS THE LOCUST HATH EATEN"

We do not realize what has happened because we have spent money faster than it can be counted.

☆ ☆ ☆

One Senator wants 2.6 billion dollars of next year's income earmarked for the public debt — this would contemplate payment in about 100 years. The Truman budget figured to pay out in something over 1300 years.

☆ ☆ ☆

Averaging these two means we have already spent ourselves into bondage for the next thousand years.

☆ ☆ ☆

During something like seven years we have dissipated and destroyed ecconomic worth, loaned, given, burnt up, spent, and gone into debt for a total of about ⅞ of a trillion dollars. You can't count money as fast as we have spent it!

☆ ☆ ☆

Figure it out: two paying tellers working 24 hours per day for seven years, counting currency at the rate of 100 pieces per minute could not count that total unless they were handling thousand dollar bills! Simply incredulous — but simple arithmetic!

It's like paying a bar-bill while trying to shake off a hangover.

Creedon Office Refutes Scaling Down of 1947 Housing Goal—'Never Had a Definite Goal'

WASHINGTON.—Housing Expediter Frank R. Creedon Thursday morning denied complicity with statements issued over the week-end lowering the 1947 housing goal of one million starts mentioned in the President's economic message to congress.

Obviously indignant at publication of a report presumed to come from deputies in the expediter's office, spokesmen for Creedon said the expediter never had committed himself to a strict housing goal for 1947. Morning papers today carried stories that a report edited by Michael Fooner, industrial specialist, and Ecward Sard, deputy program chief in Creedon's office, reduced the official 1947 housing goal from one million homes to an estimated 825,000 conditioned on retention of all existing controls by congress.

No Definite Goal

Creedon's office branded this report as something from the opposing camp. "It obviously is from Norton Long, one of former expediter Wilson Wyatt's top deputies," a spokesman told the "Builder" correspondent. "We are denying it as representative of Creedon's views. He never has announced a definite "start" goal for this year."

The controversial report was said to have been based on lengthy research by a scorc of Creedon's top staff personnel. It struck at the high cost of building. Because of this, and material scarcity, it said, only 825,000 new homes can get underway this year. This assumes that all financial controls will be continued.

And this figure includes trailers, remodeling jobs, all houses and apartments.

The announcement came just before Creedon testified before the house banking and currency committee which is considering legislation to kill the Patman Act.

This bill maintains all of Creedon's controls and is scheduled to expire December 31 unless congress tampers with it. Congressman Wolcott, who heads the committee, is determined to place the bill "six feet under", and retain only the mortgage insurance veteran preference provisions.

Long Was Bitter

Whatever the source of the weekend report, it disagreed with Department of Commerce figures on 1947 estimates. Agreeing only on six billion dollars as the probable amount of new residential construction, it places average cost of the 1947 new dwelling at $7,200 instead of $6,000, which is the bureau of labor statistics prediction. Obviously, fewer homes would be started for the same overall expenditure at the $7,200 figure. The report also recommended that commercial building limitations continue through September.

At the time Wyatt resigned, Long, in vitriolic statements, predicted the 1947 housing program would be a complete failure and a disgrace as far as veteran assistance was concerned. Some of his remarks were heard by Senator Stewart's investigating committee. Not much had been heard from Long until these accusations of Creedon's office.

Foley Testifies

The house committee also was to hear from Major General Philip B. Fleming, administrator of the office of temporary controls, during its hearings on repeal of the Patman measure.

Raymond M. Foley, national housing administrator, appeared before a senate committee Wednesday, testifying on the newly-introduced Wagner-Ellender-Taft long-range housing bill

253 RENTAL PROJECTS

WASHINGTON. — During January and February, FHA field offices received applications for mortgage insurance on more than 45,000 new dwelling units, largely under veterans emergency housing provisions of the National Housing Act. More than 12,150 of these, or about 27 per cent of the total, consisted of rental units to be built in 253 multi-family housing projects.

Probe Military Waste In Bay Area; Tests Unification Savings

WASHINGTON. — Representative Jack Z. Anderson (r., San Juan Bautista) disclosed Wednesday that his house armed forces subcommittee will conduct a probe into extravagance and waste due to duplicated army, navy and marine corps depots and installations in the San Francisco Bay area.

The study will provide a major test of savings that can be achieved through unification of the armed services. Congressional survey of the Bay region was ordered "because there, within a very small area, is located every conceivable type of armed service facility."

The survey will include loss to San Francisco through army retention of large unused portions of the Presidio.

Army Won't Give Up Presidio, Mayor Told

Sixth Army officials who conferred with him refused to concede that any of the Presidio might be spared for the city, Mayor Lapham told a Daily Pacific Builder reporter Wednesday.

Maj. General George P. Hays told the mayor that the army plans an extensive building program at the Presidio, including a new Letterman General Hospital to be built near the Presidio golf links; a new veterans hospital which has been recommended by Gen. Omar Bradley, veterans administrator; expansion of quarters to house army personnel families; and construction of administrative quarters to house offices now in the downtown business district.

Mayor Lapham said he had pointed out that if the Presidio could be spared for the United Nations, it certainly could be given up for home building in view of San Francisco's small area.

Reveals Methods of Foretelling Volume

WASHINGTON. — (Exclusive) — Two simple methods for predicting volume of construction work over any given period were outlined to members of the Washington Building Congress here yesterday by Carl Wilkin, research analyst for the Raw Materials National Council.

Speaking on the part that construction plays in the National economy, Wilkin told the builders that new construction in this country always equals 12 per cent of the net national income. This ratio is unvarying, he maintained, basing his remarks on exhaustive studies of national economic trends for the past 10 years.

A second economic fact presented by Wilkin was this:

For every farm income dollar in this country, one dollar is spent for construction and maintenance work. This ratio too, he said, is unwavering.

LUMBER 17% HIGHER

WASHINGTON. — The production of 412 lumber mills reporting to the National Lumber Manufacturers Association trade barometer for the week ending March 1, was 17.1 per cent above the corresponding week of 1946, it was reported today.

FHA PERMITS ISSUED

SAN FRANCISCO.—The Federal Housing Administration, D. C. McGinness, district director, 315 Montgomery St., San Francisco, has announced the following list of permits granted by the above office for the construction of dwelling or rental units (other than for owner-occupancy) in the San Francisco area for applicants as noted:

1 UNIT—San Jose; Gordon W Mapes, 1297 Cherry Ave, San Jose.
1 UNIT—Hayward; Ralph C Lohman, 695 Grove Way, Hayward.
3 UNITS—San Francisco; Portella Building Co, 760 Felton St, San Francisco.
3 UNITS—San Francisco; Superior Building Co, 1426 Noriega St, San Francisco.
1 UNIT—Mountain View; Henry Harmssen, Box 182, Mountain View.
1 UNIT—Richmond; Norman W Anderson, 2714 Barrett Ave, Richmond.
4 UNITS—San Francisco; Grace Perego, 50 Post St, San Francisco.
7 UNITS—Napa; P and F Devita, 1441 Spruce St, Napa.
16 UNITS—Sacramento; Richard J Vernon, 909½ 8th St, Sacramento.
3 UNITS—Menlo Park; Jack DeBell, 10 DeBell Dr, Atherton.
1 UNIT—Sacramento; E A Corum & Son, 2665 Donner Way, Sacramento.
1 UNIT—San Jose; Thomas C Richter, 63 N Cragmont Ave, San Jose.
1 UNIT—Albany; G D Gaeta, 928 San Pablo Ave, Albany.
7 UNITS—Sacramento; Jack W Greene, 1912 Kenwood St, Sacramento.
1 UNIT—Sacramento; Wm A Winkler, Box 281, 34 Nederlands Blvd, Sacramento.
1 UNIT—San Jose; O C Demrick, Box 265, San Jose.
61 UNITS—Park Mead, Contra Costa County; Clancy & Negley, Inc, 1630 Webster St, Oakland.
3 UNITS—Oakland; L H Lincoln, Oakland.
2 UNITS—Sun Valley Estates, Contra Costa County; Clancy & Negley, Oakland.
1 UNIT—Marysville; E W Binninger, 25 E 12th St, Marysville.
1 UNIT—Pacific Grove; Homer T Hayward Lumber Co, Box 171, Pacific Grove.
1 UNIT—Richmond; T G Anthony, 531 San Pablo Ave, Albany.
1 UNIT—Galt; Jesse Beam, Galt.
10 UNITS—Stockton; Swain Oaks Manor, Box 276, Stockton.
5 UNITS—Stockton; Precision Homes Co, 1111 E Channel St, Stockton.
2 UNITS—Menlo Park; K Jones, 45 N 1st St, San Jose.
1 UNIT—Gonzales; Wm J Allen and F W Lopez, Gonzales.
1 UNIT—San Francisco; Heglin & Nielsen, 1297 Dolores St, San Francisco.
1 UNIT—Sacramento; Richard J Smith, Route 6, Box 3223B, Sacramento.
2 UNITS—Menlo Park; Martin H Reeves, 222 Green Oaks Dr, Atherton.
1 UNIT—Tulare; E S Matheny, 540 W Nuys St, Tulare.
1 UNIT—Yuba City; G W and L A Abner, 407 Park Ave, Yuba City.
2 UNITS—Stockton; Valley Construction Co, 2748 E Fremont St, Stockton.
1 UNIT—Redwood City; Leo C Clemente, 626 El Camino Real, Redwood City.

NEW Improved SCOOPMOBILE
***Five NEW* IMPROVEMENTS!**

1 NEW "Shovel Action" BUCKET
A full load . . . plus! No more ramming into stock pile. Simply ease SCOOPMOBILE into pile and lift bucket with a full load . . . easier on the machine . . . faster, fuller!

2 HAND LEVER CONTROL
Two hand levers at operator's fingertips give positive, flexible control of bucket action. No more trip rope and "shock dumping" from unhandy elevations.

3 DISCHARGE ACTION
Full loads can now be discharged from very top of rack. (Up to 8 ft.) Partial loads can be discharged by closing bucket at any height while pouring.

4 NEW COUNTER BALANCE
The new SCOOPMOBILE keeps its feet on the ground! New counter balance (optional) is easy to attach to rear of Scoopmobile to accommodate heavy loads at top of rack.

5 CONTROLLED DIGGING ACTION
Improved double sheaves and mechanical improvements give entirely new control of digging angle. New design of bucket means NO spillage over rough terrain.

Legion Study
(Continued from Page 1)

has endorsed the system with full backing.
The publication states: "The quantities and specifications will be in keeping with good construction practices. The size, the room plans, and the style of the individual dwelling can vary. The builder and architect will be able to carry the planning of homes in the type of the community which is bound to grow because of the need of many homes—and, unlike the picture that the prefabrication industry promises, houses of individual character will become part of the communities.
"The houses deemed best under this plan would have four rooms and a bath on the first floor—living room, two bedrooms and kitchen, and a stair well. The dwelling should be of a story and a half construction so that bedrooms above can be completed at a later date. Single story plans are also in the development stage."
Applicable Nationally
After several months of investigative work, the Legion Housing Committee says it believes these materials to be the one that should be packaged:
Wiring and lighting, heating units (complete), plumbing and fixtures, hardware and millwork. The actual packaging of lumber and other basic materials will be done within the local community by the dealer or contractor. This plan calls for the maximum use of standard lengths of wood products.
Each of the above groups can be divided into several types of packages. Regional and architectural demands require different kinds of heating packages, for example, and different kinds of millwork.
But the Legion feels that on the whole, the plan is applicable to the entire nation.
Guarantee Delivery
The booklet adds: "To bring about the workability of the plan it would be our desire that cooperation on the part of industry and labor would make a non-controlled system possible; that the large producers of these materials would be able to guarantee delivery of a specific number of units to certified veteran purchasers."
More detailed information on any of the above plans is being provided inquirers by the national headquarters of the Legion at Indianapolis, Ind.

BURLINGAME

SHOP, $10,000; Lot 14, Block 17, East Lane; owner and builder, H E Henricks.

Rent Controversy

(Continued from Page One)

Buck of Delaware, chairman of a banking subcommittee now working on a rent bill. He had been advocating the straight 10 per cent rent hike but said, following introduction of the Taft measure, that he didn't consider the blanket boost "vital." He added that he thought the Taft-McCarthy plan would work.

Senator Buck promised his subcommittee would consider the bill as soon as Taft and McCarthy were ready to present it.

Real estate and construction industry people have been pinning their hopes on an earlier subcommittee proposal that rent control be continued only until the end of the year. Senator Charles W. Tobey, chairman of a special subcommittee studying rent controls, said he was hopeful of a report on some type of decontrol bill by the end of next week.

The earlier proposal calls for a general 10 per cent increase, decontrol of new construction and enforcement of ceilings through the courts instead of any federal agency. It would also include a provision for turning control over to the states if requested.

OPA Not Necessary

The bill which went to the President's desk for signature contains a $178,000,000 deficiency appropriation with the OPA death sentence attached as a conference report. It was approved overwhelmingly by the House earlier in the week and received unanimous Senate approval except for a few more radical elements that advocated continuation of wartime controls over the national economy.

Supporting the conference agreement, senate leaders reaffirmed the congressional intention to provide for extension of rent controls beyond the expiration date of June 30 for OPA.

The house already had expressed itself with regard to continuance of rent regulations, emphasizing it is not necessary to maintain OPA to keep them operative. Many observers are wondering if the same congressional logic might not be applied to CPA in regard to its remaining building controls.)

Speculation Rampant

Senator Saltonstall of Massachusetts is quoted as saying, "Rent controls will be continued in some form, as they should be."

Since rent regulations have such a close alliance with real estate market trends, members of the home building industry are watching the Capitol Hill maneuvers with avid interest.

GROOVER AND I

LETTER TO MR. STALIN

Premier Josef Stalin
Your Excellency:

The people of the United States are doing battle against an enemy. It is and will remain a determined battle, but is not yet a winning battle. We have not yet devised proper defense methods nor discovered successful weapons against our enemies: polio and cancer.

We don't know much about the Russian people. True, we have seen the well groomed State representatives sent out in circulation, but we do not know the millions of people—the uncounted little guys who form your strength—and, perhaps your weakness.

We assume they are like us—people who walk on their hind legs, have two arms for working and a heart for feeling. They laugh and suffer, cry and dance, feel hunger and joy and cold and fatigue—people like us.

Perhaps you too have the problem of cancer. Perhaps you too have a project for doing something in this direction for your people. If so, we would like to be of help.

This Nation is now getting together 400 million dollars to help a couple of your neighbors with their problem. If you have a health program, and money will help—if you have research, and exchange of information and technique will help—it is yours for the asking.

Perhaps through cooperation, the time will sooner come when mankind, black, white, yellow and brown—Christian, Jew, Gentile and Infidel—Moslem, Hindu and Hottentot—all mankind will be free from the fear of this dread scourge.

If we can jointly secure the freedom which health gives, perhaps then farming and factory technique might be exchanged, to the end that your crops give more bountiful harvest, your flocks and herds give heavier yield and your machines a higher output.

After this, should you want to return to the way of the gun and the sword, we will do battle with you—provided you can find enough of your people who want to do battle—enough of your people who still think there are bounties of the earth which cannot be obtained through the honest effort of intelligent cooperation.

"Groover".

PLANS and Speculations

Plans and specs funds were advanced by FWA for these Los Angeles County projects: Hawthorne school district, elementary school at Hawthorne, estimated cost, $142,000, advance, $6,250; Garvey school district, Emerson School additions at Wilmar, to include kindergarten and toilet facilities, $55,000; advance, $2,400

oOo

Surplus structures were allocated by FWA to Renton school district 403 of King County, Wash., for conversion into about 7,500 square feet of vocational aircraft shop facilities.

oOo

Construction of a 3000-seat convention and exhibit hall at the county fairgrounds at Sonora is being promoted by the Tuolumne County Centennial Celebration Committee

oOo

Los Gatos residents have objected to relocation of a four-lane highway to make way for a 25,000 acre-foot water storage reservoir at Windy Point on Los Gatos Creek on grounds that it would endanger the lives of nearby property owners

oOo

Spring streetwork has begun at Alviso with grading and scarification of one block of Elizabeth Street. Work on five other streets is contemplated.

oOo

Paradise Valley ranchers have requested that it be included in the South Santa Clara water conservation district

oOo

WAA will open bids on 94 surplus buildings at the Chico Municipal Airport in San Francisco offices, on April 2. The county is expected to bid on the buildings and would use them for educational purposes

oOo

Washoe, Nev., county commissioners have given top priority for construction under the federal aid to secondary roads program to Kietzke Lane. Next come these feeder roads: Longley - Bovnton Lane, Wadsworth - Gerlach Road, and Valley View Road from Huffaker Lane to Moana Lane.

Tested Garage Door Operator Available From Local Dealer

The "Scientific" electric garage door operator is again available for immediate installation in the San Francisco Bay Area. This operator has proven it worth and durability in many installations in this area. It can be installed on practically any residential or commercial building with either overhead or swinging doors. It may also be applied to gates at the entrance of estates and parks.

The operator is controlled from the moving car as it enters the driveway, the driver merely presses a button on the instrument panel of the car and the operator opens the door and turns on the attached light which illuminates the garage and the driveway. After the car has entered the garage, the driver presses a button located in the garage, or in the house on attached garages, and the door closes and the light goes out. Upon leaving the whole operation is reversed, leaving the door closed.

This operation is actuated by a coil buried in the driveway and energized by induction, from the car. There are no moving parts underground to get out of order necessitating costly cutting of concrete. All of the mechanism is located out of the weather inside the garage.

The cost of operation is less than 25c per month.

The "Scientific" operator is unique in that it has no gear boxes, spline shafts, chains, or any metal-to-metal working parts which are noisy and drip oil and grease on the car. It is the only gearless, greaseless, silent operator on the market today.

There is a built-in safety clutch that automatically stops the door if it should encounter an obstruction, such as a child's wagon left in the opening.

The "Scientific" operator is sold by the Lincoln Lumber Company, 9025 "G" Street (foot of 90th Avenue), Oakland 3, California, SWeetwood 6880.

Kings County supervisors have approved a long range county airport plan for development of fields in Hanford, Avenal, Lemoore, Kettleman City, Corcoran and Burris.

Equipment Dealers Ask Protection From Surplus Speculators

WASHINGTON. — Surplus construction equipment sold and given away by the State Department, foreign liquidation commissioner, in foreign lands and insular possessions, now arriving by the shipload in the nation's seaports, is creating serious impact on the construction equipment industry, according to Wm. A. Danner, president of the Associated Equipment Distributors. The AED is a nationwide organization of some 800 distributors and 240 manufacturers of construction and road building machinery.

Danner said that manufacturer and distributor plants now have large inventories of scrapers, bulldozer attachments and related equipment, but get little turnover because the war assets administration is still selling huge quantities of these items domestically and in its territories and possessions.

He declared: "These latter sales by WAA, on which import restrictions are not imposed by law or regulation, combined with similar properties given to foreign governments under long term credit agreements, which are being sold for dollars to American speculators, are gutting the market in this phase of the industry."

It was the intention of congress when the Surplus Property Act was promulgated and the Act so states, that surplus sold abroad should not be returned to the United States, he said.

"If this is not stopped at once," Dahner predicted, "curtailment in new production is inevitable and personnel lay-offs in some plants will follow."

#

Metal Congress In Oakland on Saturday

The Western Metal Congress and Western Metal Exposition will be held concurrently at the Oakland Civic Auditorium and the adjacent Exposition Hall from March 22-27.

Seventeen associated industry and professional organizations are cooperating in the Congress, first of the post-war era, and special programs have been arranged by two, the American Welding Society and the American Foundrymen's Association.

The American Welding Society will hold a luncheon at Zerkotes Lake Merritt dining room. Carl J. Eastman, president of the San Francisco Chamber of Commerce, and James H. L'Hommedieu, president of the Oakland Chamber, will deliver the welcome addresses. L. W. Delhi, of Hunt Mirk & Co., of San Francisco, president of the American Welding Society, will speak.

At the same time, a luncheon meeting will be held by the American Foundrymen's Association in the Hotel Leamington, with Robt. Voshrink, president of the northern California chapter, presiding.

Technical papers will be delivered on the American Welding Society's program on Monday from 9 a. m. to 11:55 a. m.; on Tuesday and Wednesday, from 9 a. m. until 3:55 p. m. Thursday's session will end at 10:55 a. m.

On the American Foundrymen's Association program, technical sessions will be held from 2 to 5 p. m., on Monday, Tuesday, Wednesday and Thursday.

A special committee has arranged ladies' entertainment including tours of the city, a fashion show and luncheons. On Wednesday, March 26, a dinner dance will be held in the ballroom of the Palace Hotel. Invitations have been extended to guests, members of cooperative societies, and exhibitors.

WET Bill Designed to Serve Lowest Income Groups in Normal Times, Taft Tells Senators

WASHINGTON.—Hearings on the 1947 version of the Wagner-Ellender-Taft long range housing bill began before the Senate banking and currency committee here this week.

Testifying as the hearings opened were Senators Taft and Ellender, Senator Claude Pepper; Raymond M. Foley, National Housing Administrator; John H. Faley, commissioner of the Federal Home Loan Bank; Dillon S. Myer, commissioner of the federal public housing authority, and Charles F. Brannan, assistant Secretary of Agriculture.

Senator Charles W. Tobey, who is presiding, had scheduled proponents of the bill again Thursday and set aside two days next week to hear those against the measure.

Thursday's witnesses will include Franklin D. Roosevelt, Jr., chairman of the American Veterans national housing committee, and Fiorello LaGuardia, former mayor of New York, both staunch supporters of housing legislation.

Designed for Normalcy

Most important development at the opening hearing was Senator Taft's statement supporting expenditure of $150 million each year for carrying out provisions of the legislation and addition of one billion dollars a year to national expenditures for housing, health and education. The larger figure would include the $150 million for housing.

Senator Taft said he felt this outlay would solve the nation's housing problems.

The revised measure is designed primarily to relieve the low living standard of between five and six million families occupying sub-level housing accommodations, Senator Taft told the committee. "This bill was not devised," he said, "to deal with an emergency situation but for the usual circumstances when building materials are available. It is only a matter of finding the people to put up money."

The Ohio senator admitted that the housing program of 1946 was a partial failure. The congress authorized $400 million out of $600 million appropriated for housing uses, including all material subsidy payments. But only about $35 million of this was actually used, Senator Taft said.

"That emergency method has been dropped by the government itself," Taft added. "I believe the present method is to take restrictions off and let them build as many houses as they can."

That is all right for the present, the witness maintained, but somethink must be done if construction is to maintain beyond a time two years hence.

Encourage Prefabs

The federal housing administration mortgage insurance, little changed in the new bill, was described by Senator Taft as "the greatest step forward in housing the government ever has taken."

Proponents emphasized a need for lowering home costs. This would be encouraged through the 1947 WET bill's title covering encouragement to prefabricators and research in the field of low-cost housing. The senator did not enlarge on his statements that cooperation by labor groups, wage agreements and labor and management understanding could bring down construction costs. "But the government certainly can help," he said. The reference was to research in low-cost housing methods.

Senator Taft gave the following summaries of other titles in his new legislation:

Title VII — Yield insurance. Equity investments in large scale rent housing projects for investors such as insurance companies are sought. "Today people are almost forced to buy their homes because of the rental housing shortage. The cheapest way to get rents down is to encourage large scale rental housing."

A return of 2% per cent would be guaranteed investors. But Senator Taft's statement supporting Title VII an experiment, not an integral part of the bill."

Title VIII — Urban redevelopment. This is not limited to public housing, it was revealed. Rewritten from last year's bill because of the complexity in the 1946 version. (Taft said he had to study that part of S. 1592 one hour each time he gave a speech on it.) It now would provide a two-thirds federal grant in the form of a subsidy covering any losses involved. Cities would have to bear one-third of such slum clearance losses. Temporary loans totaling $500 million in all, cover so-called slums and the worse commercial city areas such as warehouse and whole localities. States can't do the work. Twenty million dollars per year would be the total cost to the federal budget in money authorized by this section. Temporary loans would be setup as revolving funds.

Title IX—Public Housing. Most controversial section. No additional monies for public housing have been authorized since 1939. All housing built since then has been for war use. (Reference to government-built homes.) Now would authorize 500,000 units under the same formula of federal subsidy as set out before, these to be built in four years.

Hold to 10 Per Cent

"I have no desire to run a public housing project over 10 per cent of total construction expenditures in this country," Taft said. He described public housing as "almost a greater necessity than food and clothing. The problem is how to proportion its cost to the income of the people."

Without some such measure as S. 866, the year 1925 will repeat itself with houses constructed so rapidly an exhausted market results, Taft declared, and then without competition people will be living in low standard homes, unable to compete for better housing.

YOU GET EXTRA PROFITS from American Mutual's All American Plan
Here's a simple way to get three important extra's . . .
Complete Insurance Protection . . . Protection At Its Best . . . and **Savings Through Lower Costs.** American Mutual's All American Plan for Contractors shows you quickly and simply how you may get these three extra's for your next contract:
Complete Protection—American Mutual writes practically every type of insurance coverage for all types of construction projects. All forms are modern, and comprehensive to give maximum protection.
Protection At Its Best—Every American Mutual policy is backed by complete service to assure maximum value to you for the insurance dollars you spend.
Savings Through Lower Cost—Since 1887, American Mutual has returned 20% or more to policyholders—more than $100,000,000 in dividends.

Sale of Cargo Nets, Drum Loaders, Hose, Etc.
SAN FRANCISCO, Calif.—War Assets Administration, 33 Berry St., San Francisco, announces sale of cargo nets, drum loaders, hose, etc., to priority claimants and to normal trade channels concurrently with closing date set for April 11.

RESAWING ATTACHMENT. — This attachment for resawing wood and plastics in furniture, box, shipbuilding and other industries is on display now at the Western Metal Exposition at Oakland's civic auditorium from March 22-27. The entire resawing attachment is hinged on the column of the Doall Zephyr and can be easily shifted off the table, making the saw available for other work. Partial aluminum structure makes the accessory lightweight and easy to adjust and change over.

Official Proposals

FIRST PUBLISHED TODAY

Highway Improvements—
Siskiyou and Modoc Counties

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 373, Public Works Building, Sacramento, California, until 2 o'clock p. m., on April 16, 1947, at which time they will be publicly opened and read in the Assembly Room of said building, for surfacing Highway in accordance with the Specifications therefor, to which special reference is made, as follows:
Siskiyou and Modoc Counties, between Route 72, three miles north of Dorris and four miles west of Hatfield (11-Sis-73J) about fifteen and six-tenths (15.6) miles in length to be surfaced with plant-mixed surfacing and seal coat, and between 2.4 miles north of Stronghold and Oregon State Line (11-Mod,Sis-210-B,A), about seven and two tenths (7.2) miles in length to be surfaced with plant-mixed surfacing and seal coat and shoulders to be restored with imported borrow.
Bids are required for the entire work described herein.
In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Skilled Labor	
Asphalt plant dryerman or fireman	$1.60
Asphalt plant mixer operator	1.65
Asphalt spreading machine operator	1.95
Motor grader operator	2.10
Operator of power shovel or other excavating equipment, shovel type controls (up to and including 1 cubic yard)	2.10
Operator of power shovel or other excavating equipment, shovel type controls (over 1 cubic yard)	2.25
Roller operator	1.95
Tractor driver	1.95
Truck driver (18 cubic yards water level capacity or more)	1.7125
Truck driver (14 cubic yards and less than 18 cubic yards water level capacity)	1.5875
Truck driver (8 cubic yards and less than 14 cubic yards water level capacity)	1.525
Intermediate Grade Labor	
Oil distributor bootman	1.275
Oiler power shovels or cranes	1.50
Truck driver 4 cubic yards and less than 8 cubic yards water level capacity)	1.3375
Truck driver (less than 4 cubic yards water level capacity)	1.25
Unskilled Labor	
Flagman	1.15
Laborer	1.15

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions, as interpreted in the light of this classification.
The minimum wage paid to all skilled labor for which rates are not shown above shall be not less than $1.375 per hour.
The minimum wage paid to all intermediate labor, for which rates are not shown above shall be not less than $1.15 per hour.
The minimum wage paid to all unskilled labor for which rates are not shown above shall be not less than $1.15 per hour.
Overtimeons and one - half (1½) times the above rates.
Sundays and holidays—one and one-half (1½) times the above rates.
The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules, and regulations will apply to such work.
The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.
Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer in the district in which the work is situated, and at the office of the Associated General Contractors in San Francisco, and at the office of the County Engineer or County Surveyor at the county seat of the county in which the work is to be performed.
No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions).
The Department of Public Works reserves the right to reject any or all bids.

Room of said building, for constructing State Highway in accordance with the Specifications therefor, to which special reference is made, as follows:

Lake County across Kelsey Creek at Cobb (1-Lak-29-B,C), a reinforced concrete bridge and approaches to be constructed.

Bids are required for the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Carpenter	$1.75
Cement finisher	1.375
Concrete mixer operator (one cubic yard capacity or less)	1.60
Concrete mixer operator (over one cubic yard capacity and paving type)	1.90
Concrete vibrator operator	1.375
Flagman	1.15
Jackhammer operator	1.375
Laborer	1.15
Mason	2.05
Motor grader operator	2.10
Oil distributor bootman	1.275
Oiler, power shovels or cranes	1.50
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.10
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.25
Reinforcing steel worker	1.75
Roller operator	1.95
Tractor driver	1.95
Truck driver (18 cubic yards water level capacity or more)	1.7125
Truck driver (14 cubic yards and less than 18 cubic yards water level capacity)	1.5875
Truck driver (8 cubic yards and less than 14 cubic yards water level capacity)	1.525
Truck driver (4 cubic yards and less than 8 cubic yards water level capacity)	1.3375
Truck driver (less than 4 cubic yards water level capacity)	1.3375
Any classification omitted herein not less than	1.15

Overtime—One and one-half (1½) times the above rates.

Sundays and holidays—One and one-half (1½) times the above rates.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the District in which the work is situated, and at the office of the Associated General Contractors in San Francisco.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions.)

The Department of Public Works reserves the right to reject any or all bids.

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received by the Department of Public Works, Division of Highways, at the office of the Principal Bridge Engineer, San Francisco - Oakland Bay Bridge, Toll Plaza, Oakland 8, California, until 2 P.M. o'clock on April 2, 1947, at which time and place they will be publicly opened and read, for performing work as follows:

Alameda County, on the San Francisco-Oakland Bay Bridge Approach, between Toll Plaza and Distribution Structure (IV-Ala-5-Oak), at right of way fence to be constructed.

Plans and specifications, and forms of proposal, bonds, and contract may be obtained at the above address.

No bid will be considered unless it is made on a proposal form furnished by the District Engineer, and is made in accordance with the provisions set forth under Section 2, "Proposal Requirements and Conditions" of the Standard Specifications. Each bid must be accompanied by a proposal guaranty in accordance with the requirements of article (f) of the said Section 2 of the Standard Specifications.

The Department of Public Works reserves the right to reject any or all bids.

The quantities listed in the State Highway Engineer's Estimate hereinafter stated, are approximate only, being given as a basis for the comparison of bids, and the Department of Public Works does not, expressly or by implication, agree that the actual amount of work will correspond therewith, but reserves the right to increase or decrease the amount of any class or portion of the work, or to omit portions of the work, as may be deemed by the Engineer to be necessary or advisable.

Bids are required on the work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Carpenter	$1.75
Fence erector	1.85
Flagman	1.25
Laborer	1.25
Any classification omitted herein not less than	1.25
Overtime—One and one-half (1½) times the above rates.	
Sundays and holidays—One and one-half (1½) times the above rates.	

Engineer's Estimate

Item 1. Clearing.

Item 2. 310 lineal feet moving and reconstructing existing guard railing.

Item 3. 2,660 lineal feet woven wire fencing.

Item 4. 1 each, 14-foot wide, 6-foot high double drive gate.

Item 5. 2 each, 3½-inch standard pipe gate posts and accessories.

Item 6. 5 each, 2½-inch standard pipe pull and corner posts and accessories.

Item 7. 1 each, 2½-inch standard pipe and post.

Plasterers' Hod Carriers	1.65
Plumbers	1.87½
Roofers	1.75
Sheet Metal Workers	1.87½
Steam Fitters	2.00
Tile Setters	1.75
Tile Setters' Helpers	1.25
Transit Mix Operator (5 Yds.)	1.45
Any classification omitted herein not less than	1.25
Overtime—One and one-half times the above rates.	

Apprentices may be employed provided they are properly indentured to the contractor in full compliance with the provisions of Section 1777.5 of the Labor Code.

Plans and specifications for examination are on file in the office of the Division of Architecture, Public Works Building, Sacramento, and Room 503 State Office Building, Los Angeles, and at the principal California Cities Builders' Exchange Offices.

Contractors who are desirous of securing plans, specifications and proposal forms for the purposes of preparing and submitting a proposal for this work may do so subject to certain conditions as hereinafter stated by requesting same in writing from the Division of Architecture, Public Works Building, Sacramento. Such request shall be accompanied by a deposit of Twenty Five ($25.00) dollars. Check shall be made payable to the Division of Architecture. Such deposit is required as a guarantee of the good condition of the plans and specifications to the Division of Architecture within 30 days after the date set for opening bids. Failure to so return the plans will cause forfeiture of the Deposit to the State.

Prequalification: Plans, specifications and proposal forms will only be issued to those contractors who are prequalified with the Department of Public Works by having filed a statement of experience and financial condition on a standard questionnaire form in accordance with the provisions of the State Contract Act. Such statement must have been filed and approved not more than one (1) year and not less than five (5) days previous to the date set for receiving and opening bids. Contractors may obtain standard questionnaire forms from the Division of Architecture.

No bid will be accepted from a contractor who has not been licensed in accordance with the provisions of the Contractor's License Act or to whom a proposal has not been issued by the Department of Public Works.

No bid will be considered unless it is presented on a proposal form furnished by the Division of Architecture and accompanied by a bidder's bond, cash, a cashier's or certified check made payable to the Director of Public Works, in the sum of at least ten per centum (10%) of the amount of the bid.

The Department of Public Works reserves the right to reject any or all bids and to waive any informality in any bid received.

No bidder may withdraw his bid for a period of thirty (30) days after the time set for opening thereof.

Highway Improvements Napa Co.

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 373, Public Works Building, Sacramento, California, until 2 o'clock p. m. on **April 2, 1947**, at which time they will be publicly opened and read in the Assembly Room of said building, for constructing Highway in accordance with the specifications therefor, to which special reference is made, as follows:

Napa County, on Silverado Trail between 4 miles northeast of Napa and Calistoga (IV-Nap-60?), about four and seven-tenths (4.7) miles in length to be graded and surfaced with crusher run base and armor coat and a reinforced concrete bridge to be constructed.

Bids are required for the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Skilled Labor	
Asphalt plant dryerman or fireman	$1.60
Carpenter	1.75
Cement finisher	1.875
Concrete mixer operator (one cubic yard capacity or less)	1.60
Concrete mixer operator (over one cubic yard capacity)	1.90
Mason	2.05
Motor grader operator	2.10
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.10
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.25
Reinforcing steel worker	1.75
Roller operator	1.95
Tractor driver	1.95
Truck driver (8 cubic yards water level capacity or less)	1.875
Truck driver (6 cubic yards and less than 8 cubic yards water level capacity)	1.50
Intermediate Grade Labor	
Concrete vibrator operator	1.375
Jackhammer operator	1.375
Oil distributor bootman	1.275
Oiler power shovels or cranes	1.50
Truck driver (4 cubic yards and less than 6 cubic yards water level capacity)	1.4075
Truck driver (less than 4 cubic yards water level capacity)	1.2825
Unskilled Labor	
Flagman	1.25
Laborer	1.25

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions, as interpreted in the light of this classification.

The minimum wage paid to all skilled labor, for which rates are not shown above, shall be not less than $1.375 per hour.

The minimum wage paid to all intermediate labor, for which rates are not shown above, shall be not less than $1.25 per hour.

The minimum wage paid to all unskilled labor, for which rates are not shown above, shall be not less than $1.25 per hour.

Overtime—one and one-half (1½) times the above rates.

Sundays and holidays—one and one-half (1½) times the above rates.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules, and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the district in which the work is situated, and at the office of the County Engineer or County Surveyor at the county seat of the county in which the work is to be performed.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions.)

Unskilled Labor

Flagman	1.15
Laborer	1.15

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions, as interpreted in the light of this classification.

The minimum wage paid to all skilled labor for which rates are not shown above shall be not less than $1.375 per hour.

The minimum wage paid to all intermediate labor for which rates are not shown above shall be not less than $1.15 per hour.

The minimum wage paid to all unskilled labor for which rates are not shown above shall be not less than $1.15 per hour.

Overtime—one and one-half (1½) times the above rates.

Sundays and holidays—one and one-half (1½) times the above rates.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules, and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Room 373, Public Works Building, Sacramento, California, until 2 o'clock p. m. on April 9, 1947, at which time they will be publicly opened and read in the Assembly Room of said building, for repairing State Highway in accordance with specifications therefor, to which special reference is made, as follows:

Lassen County, between 2 miles north of Milford and Bird Flat (11-Las-29-D), about twelve and four-tenths (12.4), miles in length to be surfaced with plant-mixed surfacing and shoulders to be constructed of imported borrow.

Bids are required for the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Asphalt plant dryerman or fireman	$1.60
Asphalt plant mixer operator	1.65
Asphalt spreading machine operator	1.95
Flagman	1.15
Laborer	1.15
Motor grader operator	2.10
Oil distributor bootman	1.375
Oiler power shovels or cranes	1.50
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.10
Operator of power shovel or other excavating equipment, shovel type controls (over 1 cubic yard)	2.25
Roller operator	1.95
Tractor driver	1.95
Truck driver (14 cubic yards and less than 18 cubic yards water level capacity)	1.5875
Truck driver (8 cubic yards and less than 14 cubic yards water level capacity)	1.525
Truck driver (4 cubic yards and less than 8 cubic yards water level capacity)	1.3375
Truck driver (less than 4 cubic yards water level capacity)	1.25

Unskilled Labor

Flagman	1.15
Laborer	1.15

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions, as interpreted in the light of this classification.

The minimum wage paid to all skilled labor for which rates are not shown above shall be not less than $1.375 per hour.

The minimum wage paid to all intermediate labor for which rates are not shown above shall be not less than $1.15 per hour.

The minimum wage paid to all unskilled labor for which rates are not shown above shall be not less than $1.15 per hour.

Overtime—one and one-half (1½) times the above rates.

Sundays and holidays—one and one-half (1½) times the above rates.

The foregoing quantities are approximate only, being given as a basis for the comparison of bids, and the Department of Public Works does not, expressly or by implication, agree that the actual amount of work will correspond therewith, but reserves the right to increase or decrease the amount of any class or portion of the work, as may be deemed necessary or expedient by the Engineer.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules, and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Room 373, Public Works Building, Sacramento, California, until 2 o'clock p. m. on April 9, 1947, at which time they will be publicly opened and read in the Assembly Room of said building, for constructing State Highway in accordance with the specifications therefor, to which special reference is made, as follows:

Fresno and Kings Counties, across Kings River, near Hardwick (VI-Fre., Kin-623), a reinforced concrete girder bridge to be constructed.

Bids are required for the entire work described herein.

State Highway Engineer's Estimate

Item 1. Clearing and grubbing.
Item 2. 1,050 cubic yards structure excavation.
Item 3. 1,133 lineal feet timber bridge railing.
Item 4. 197 cubic yards Class "A" Portland cement concrete (footing blocks).
Item 5. 1,460 cubic yards Class "A" Portland cement concrete (structure).
Item 6. 700 pounds of miscellaneous iron and steel.
Item 7. 3,400 lineal feet furnishing concrete piling.
Item 8. 112 each, driving piles.
Item 9. 200,000 pounds furnishing bar reinforcing steel.
Item 10. 200,000 pounds placing bar reinforcing steel.
Item 11. 2 each, clearance markers.
Item 12. Engineer's office.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Skilled Labor	
Carpenter	$1.75
Cement finisher	1.875
Concrete mixer operator (one cubic yard capacity or less)	1.60
Concrete mixer operator (over one cubic yard capacity and paving type)	1.90
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.10
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.25
Pile driver bolstman or operator	2.10
Pile driver man	1.86
Reinforcing steel worker	1.75
Roller operator	1.95
Tractor driver	1.95
Truck driver (18 cubic yards water level capacity or more)	1.7125
Truck driver (14 cubic yards and less than 18 cubic yards water level capacity)	1.5875
Truck driver (8 cubic yards and less than 14 cubic yards water level capacity)	1.525

Skilled Labor	
Carpenter	$1.75
Cement finisher	1.875
Concrete mixer operator (one cubic yard capacity or less)	1.60
Concrete mixed operator (over one cubic yard capacity and paving type)	1.90
Derrick operator	2.10
Electrician	1.875
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.10
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.25
Pile driver bolstman or operator	2.10
Pile driver man	1.86
Reinforcing steel worker	1.75
Roller operator	1.95
Structural steel worker	2.00
Tractor driver	1.95
Truck driver (18 cubic yards water level capacity or more)	1.7125
Truck driver (14 cubic yards and less than 18 cubic yards water level capacity)	1.5875
Truck driver (8 cubic yards and less than 14 cubic yards water level capacity)	1.526
Intermediate Grade Labor	
Concrete vibrator operator	1.375
Jackhammer operator	1.375
Oiler power shovels or cranes	1.50
Truck driver (4 cubic yards and less than 8 cubic yards water level capacity)	1.3375
Truck driver (less than 4 cubic yards water level capacity)	1.25
Unskilled Labor	
Flagman	1.15
Laborer	1.15

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions, as interpreted in the light of this classification.

The minimum wage paid to all skilled labor for which rates are not shown above shall be not less than $1.375 per hour.

The minimum wage paid to all intermediate labor for which rates are not shown above shall be not less than $1.15 per hour.

The minimum wage paid to all unskilled labor for which rates are not shown above shall be not less than $1.15 per hour.

Overtime—one and one-half (1½) times the above rates.

Sundays and holidays—one and one-half (1½) times the above rates.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules, and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the district in which the work is situated, at the office of the Associated General Contractors in San Francisco, and at the office of the County Engineer or County Surveyor at the county seat of the county in which the work is to be performed.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions.)

The Department of Public Works reserves the right to reject any or all bids and to waive any informality in any bid received.

No bidder may withdraw his bid for a period of thirty (30) days after the time set for opening thereof.

Highway Improvements Plumas and Lassen Counties

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 373, Public Works Building, Sacramento, California, until 2 o'clock p. m. on April 9, 1947, at which time they will be publicly opened and read in the Assembly Room of said building, for constructing State Highway in accordance with the specifications therefor, to which special reference is made, as follows:

Plumas and Lassen Counties, between 0.3 mile west and 0.8 mile east of Plumas-Lassen County Line (11-Plu, Las-29-A, A), about one and one-tenth (1.1) miles in length, to be graded, surfaced with plant-mixed surfacing and seal coats applied thereto.

Bids are required for the entire work described herein.

State Highway Engineer's Estimate

Item 1. 3 cubic yards removing concrete.
Item 2. 11 acres clearing and grubbing.
Item 3. 23,500 cubic yards roadway excavation, Location "A".
Item 4. 23,000 cubic yards roadway excavation, Location "B".
Item 5. 230 cubic yards structure excavation.
Item 6. 255,000 station yards overhaul.
Item 7. 22,075 square yards preparing subgrade (Class "B", Method No. 2).
Item 8. Developing water supply and furnishing watering equipment.
Item 9. 500 thousand gallons applying water.
Item 10. 59 stations finishing roadway.
Item 11. 24 tons liquid asphalt, SC-2 (prime coat).
Item 12. 140 tons paving asphalt (plant-mixed surfacing).
Item 13. 2,775 tons mineral aggregate (plant-mixed surfacing).
Item 14. 4,500 lineal feet shaping and compacting plant - mixed dikes.
Item 15 3 tons asphaltic emulsion (seal coat).
Item 16. 13 tons liquid asphalt, R O-R C-5 (seal coat).
Item 17. 130 tons fine screenings (seal coat).
Item 18. 6 cubic yards Class "A" Portland cement concrete (structures).
Item 19. 200 pounds bar reinforcing steel.
Item 20. 570 lineal feet metal plate guard railing.
Item 21. 85 each, culvert markers and guide posts.
Item 23. 140 lineal feet 18 in. corrugated metal pipe (16 gauge).
Item 24. 4 each, spillway assemblies.
Item 25. 92 lineal feet 8 in. corrugated metal pipe down drains (16 gauge).

The State will furnish the steel plates and all necessary parts for use in metal plate guard railing as more explicitly set forth in the special provisions.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Asphalt plant dryerman or fireman	$1.60
Asphalt plant mixer operator	1.65
Asphalt spreading machine operator	1.95

Fleming Testifies Against Across-the-Board Rent Increase; Would Confuse Bldg. Program

WASHINGTON.—Under fire from Republican members of the house banking and currency committee, Major General Philip B. Fleming, administrator of the office of Temporary controls and the federal works agency, said this week that he no longer believes an across-the-board rent increase is feasible.

Earlier this year the OTC chief prepared an order for a general 10 per cent increase in rents but later rescinded it. Asked by committeemen why this action was taken, General Fleming said he withdrew the order when he learned that President Truman, on three occasions, had put himself on record as opposed to any across-the-board hike in rents.

Also asked why he no longer favored turning rent control over to the states as provided in House Resolution 2549, General Fleming said the OTC had now determined that it was able to handle all requests for rent increases submitted by those landlords claiming hardship instances.

Heretofore, he continued, OTC felt that it would be impossible to handle the large number of requests for rent raises with the limited personnel in its offices. Since that time, however, the methods by whic applications for hardship relief are made have been simplified and OTC now is able to attend to each inquiry, he said.

Hits Material Scarcity

At one place in the hearing General Fleming said, "I have no personal interest because no matter what happens, control will be taken away from my office." The administrator took on the OTC duties last December in addition to his responsibilities as FWA head.

Pressed for his views on why he favored keeping rent control in effect until June 30, 1948, General Fleming insisted that confusion in the construction industry would result if all rent restrictions were removed. He implied that a transfer of authority to the states or state and local courts would result in the same misfortune.

Diligent and detailed questioning narrowed it down to this:

Shouldn't rent control be removed from new construction to stimulate construction of rental housing?

Fleming answered that he believed the controls should be removed "to the extent of stimulating new building." Then he quickly added, "To the extent of the confusion resulting in the construction industry, no, I would not take it off."

He said that if rent controls were removed on new housing, "rents might go so high that veterans would have trouble." In spite of this, he agreed that the sooner rent controls can be removed, the better.

But in Fleming's belief, the increase so widely desired in rental housing units is being held back more by scarcity of building materials than by rent ceilings.

Survey Personnel

Chairman Wolcott, Michigan representative, steered the subject matter to its intent when he questioned, "Why haven't builders put up more housing under the Patman Act? That is what we seek to rectify in this bill."

The morning witness, before the committee more than two hours, left little doubt as to his opposition to the proposed legislation. "Under this bill a landlord could advertise one rent and then charge another," he told the congressmen.

One committee member asked for a listing of all administrative personnel in rent control showing all those who came originally from jobs in the construction industry or the real estate field. The witness promised to obtain this information for the record.

Regulations Confusing

Questioned again regarding his statement that confusion would result from taking rent control away from the federal government, Fleming said he referred to a condition where one segment of a community would be regiated by rent control while another segment of the same area would be entirely decontrolled.

June 30, 1948, was named as the future date for rent decontrol because studies show that conditions will improve to warrant it at that time, Fleming told the committee.

Stampers Unite to Oust Black Market

WASHINGTON. — A drive to stamp out the growing "black market" in steel has been launched by private interests with formation of "Operations Ingot", a title designating efforts to uncover buying of over-priced production materials.

Customers Buy Direct

Tom J. Smith, Jr., executive vice-president of the Pressed Metal Institute, has issued an official warning to stamping plants against the over - priced buying practice.

He said that someone is going to get caught in the near future with some over-priced steel that will eventually be disposed of at a loss.

A general bulletin sent to all members of the Institute reads:

"If your customers insist on such gambling, then let them buy this over-priced metal direct and then absorb the differentials by invoicing you at the current card prices that their stampings can be billed at current levels, but avoid any commitments obligating you beyond the already high card prices."

Senate Probe

The stamping industry has threatened a complaint to the Iron and Steel Institute if individual steel companies fail to do something to improve the situation for steel customers soon, it was revealed.

"A senate investigation of the price situation is possible if present conditions persist," Smith stated.

#

Yuba City residents have petitioned county supervisors for preparation of a temporary flying strip on county airport property until the master airport plan is developed.

Did You Know That . . .

The annual spring party of the Lumber Merchants Association of Northern California will be held this year at the Old Hearst Ranch, near Pleasanton, on Friday and Saturday, March 28 and 29. Robert J. Wright, executive vice-president of the Association, said more than 250 retail lumber dealers, manufacturers, wholesalers and distributors are expected to arrive from all parts of northern California to attend the party. Guest of honor will be Goodwin J. Knight, lieutenant governor of California, who will address the group at a Friday luncheon.

Carl R. Crisco has been appointed office manager of the San Francisco sales branch of the Western Machinery Company. He formerly was with Bethlehem Steel Company.

oOo

The San Francisco Builders' Exchange will hold a dinner dance in the Gold Room of the Palace Hotel on Thursday evening, April 17. It will be the first such fete held by the Exchange since 1940. Admission is by reservation, and reservations may be made now.

Reverse Reefer System Heats Engineer's Home

WASHINGTON. — Maybe Everett Carman of McLean, Va., was tired of firing his furnace and paying the coal bills; anyway, now he is heating his six-room Cape Cod house with well water—cold well water, at that.

Carman is a Bureau of Mines fuel engineer, which may explain the ingenious adaptation of cool, deep well water to heat his house. It is simple, he said. Heat is extracted from cold water and blown through the dwelling.

Water is pumped from Carman's well through a cooling apparatus which lowers its temperature from 60 to 55 degrees. The five degrees of natural heat that is thus given up by the water is compressed and by a reverse refrigeration system, heats the family dwelling.

Carman explains: "When you fill ice trays to make ice cubes, your refrigerator draws all the heat from the water, turning the water to ice. The heat is dissipated thru coils. My system blows the heat taken from the well water through the house."

His device is fully automatic, needs no fuel storage space, provides an even flow of warm air at a pre-set temperature, allows no blasts of hot or cold air and uses only electricity to run the pump and air circulating motors.

The "heat pump" which is not yet in full production, coats about $1,000 and this is listed by Carman as the only serious drawback to wholesale adaptation of the system at present.

As it is installed in the Virginia home, the new type heating system, using a plant known commercially as Marvair, can be reversed in the summer time to take heat from the rooms and transmit it to the circulating water system. This results in a natural air conditioner.

Despite the exhorbitant cost of initial installations, the "heat pump" system has been used successfully for six years in a New Haven, Conn., factory and several commercial buildings in New England are heated by this process.

Power companies and the Bureau of Mines are keeping close watch over Carman's heating and cooling system. Exhaustive instrument checks are being made with electricity consumption registered closely.

The upkeep is only the monthly power cost.

Some observers see in the new heating arrangement a method of conserving the nation's dwindling coal and oil stocks. This could not occur, however, until the appliance is made considerably less expensive and readily available to general public use.

Might be a boom in the offing for well drillers.

URGE SPEEDY ACTION OKAYING BASIN REPORT

WASHINGTON.—Fast congressional approval of the Bureau of Reclamation report on proposed development of the Columbia River basin has been called for by Senator Robertson of Wyoming.

The report calls for 238 separate projects in all. Eleven of these are pegged for immediate authorization and include work in the upper valley reaches located in Wyoming.

#

REVISE STEEL PRICES

PITTSBURGH. — Revisions in extra charges on steel plates, shapes, bars, semi-finished material, alloys (bars and semi-finished), hot rolled and vitrenamel sheets, long ternes, and hot rolled strip, which in the aggregate result in price reductions, were announced today by Carnegie - Illinois Steel Corporation, United States Steel subsidiary.

Wagner-Ellender-Taft Bill Is Criticized for Not Providing Study of Housing Trends

WASHINGTON. — (Exclusive). — Some criticism was heard on Capitol Hill today that the Taft-Ellender-Wagner long-range housing bill did not delve deeply enough into the human values with regard to housing.

One title of the legislation (on which hearings opened this week) provides for rather extensive research into home building methods. This admittedly is designed for one purpose — to discover how to build quality houses at lower cost.

Would Help Builders

But certain critics, including housing authorities, are convinced that this part of the bill should go farther in its researches, and should include a survey into future human needs in relation to housing.

They agree that technical studies are desirable, that home costs have to be cut appreciably, but they would go farther than the technical phases of home construction.

Looking forward to better planning in housing, several public organizations, including the American Public Health Association, have advocated a national study of the types of family groups developing in the United States. Knowledge to be gained from such surveys, they claim, would help builders immeasurably.

Favored Tenants

They say that present methods employed by builders are "hit and miss", that is any type of home is constructed in the hope that somewhere there is a satisfactory tenant in the market.

The human value studies proposed would eliminate dangers now inherent in this so-called hit and miss system; they would prevent the "wrong type" of housing coming back on the builders hands, these people say.

Population trends are indicating that unpopular tenants—large family or low income groups—are to be increasingly in the market for shelter.

One writer observes, "The present scramble for scarce shelter has established the housing elite of the nation, the tenants upon whom apartment and rooming house managers and home builders cast a tolerant, if not indulgent, eye. Such are largely the childless couples with stable jobs and sizeable incomes (if the wife works and isn't home to nose around, so much the better), young persons willing to double up, and families able to buy houses priced at from $12,000 up.

'Okie' Renters

"Naturally, in this cast system, persons with enough money can transcend the disadvantages of age, children and lack of marital status. But their numbers are relatively small."

This pinpoints a tendency that some feel is developing toward a segregation of a small portion of American renters into a gypsy or "okie" classification.

#

LUMBERMEN MEET

San Francisco Lumbermen's Club will meet for lunch Tuesday at the Palace Hotel.

Warden Clinton Duffy will speak on "San Quentin Today".

WET OR TEW?

WASHINGTON. — Housing Expediter Creedon told a Dodge paper representative that he understands the 1947 Wagner-Ellender-Taft long range housing bill is to be referred to as the Taft-Ellender-Wagner measure.

"In all seriousness," he said, "I was informed that the bill would go by the new designation."

No explanation was given for the change from W-E-T to T-E-W in another reference but it is a safe bet that the well known nomenclature that stemmed from last year's hearings had something to do with it.

Fuller Managers to Hold Annual Meeting

The annual branch managers' convention of W. P. Fuller & Co. will be held in San Francisco this week.

Registering at the Hotel Mark Hopkins today are branch, sales and glass department managers from Fuller branches in 32 western cities.

In addition to the week - long schedule of business sessions, a number of special events have been planned for the delegates and their ladies.

There will be a cocktail party at the Hotel Mark Hopkins on Tuesday, March 25. Ladies will be entertained at a luncheon on Wednesday, March 26, at Tanforan.

The annual branch managers' party will be held Saturday, Mar. 28.

Convention sessions will be under the general chairmanship of J. Langdon Root, vice - president and general manager of W. P. Fuller & Co.

Individual meetings will be addressed by President A. F. Brawner, Vice-President and Treasurer W. P. F. Brawner, General Sales Manager H. S. Margetts; Hazel F. Harvey, manager of the purchasing and jobbing department; F. O. Roeber, comptroller; W. P. Fuller III, manager of the glass division; George L. Gibson, manager of the engineering division; Walter D. Jones, director of the general laboratory; H. C. Schroder, manager of the wallpaper division, and L. H. Markwood, advertising manager.

HANSON IS NEW HEAD CAPITOL HOME BUILDERS

WASHINGTON. — Lawrence Hanson, 38, formerly legislative representative of the National Association of Home Builders, this week began his new duties as executive director of the Home Builders Association of Metropolitan Washington.

Hanson joined the national association late in 1945. In large measure he was responsible for placing the attitude of NAHB on the earlier Wagner - Ellender - Taft housing bill before members of congress. The first W-E-T bill was passed by the Senate but died before it could get to the House floor.

A native of Richmond, Va., Hanson was engaged in publishing work before coming to Washington in 1940.

#

COPPER IMPORT TAX TO EARLY SENATE VOTE

WASHINGTON. — Sen. Millikin of Colorado, chairman of the senate finance committee, today promised swift action in the senate for the copper import tax bill which would suspend the four cents per pound import charge for a given period.

The bill already has passed the house with a suspension provision extending removal of the tax charge on incoming raw copper until March 31, 1949.

#

CUSHING PROMOTED

MINNEAPOLIS. — Reginald C. Cushing has been appointed sales manager of the air conditioning controls division for the Pacific region of the Minneapolis-Honeywell Regulator Company. J. S. Locke, manager of the division, has announced.

Cushing will make his headquarters at the company's San Francisco office, 1136 Howard Street.

PLANS and Speculations

Nevada legislative bills recently introduced call for transfer of the remaining $329,000 of the University of Nevada's fund grant of $350,000 for construction of a classroom building to be used for provision of a new heating plant, and for $50,000 for conversion of the university's South Virginia street farm into a classroom laboratory for the college of agriculture.

oOo

No bids were received on Pittsburg's $8 million steel plant, WAA revealed this week.

oOo

Merced city council will ask the state public utilities commission to authorize construction of a underpass at the Santa Fe Railroad on K Street.

oOo

Plans for installation of 5,000 feet of sewer line estimated to cost $10,000 are under consideration by the Hollister city council.

oOo

Twenty-one engineers were registered by the Nevada state board of registered professional engineers in March.

oOo

Santa Cruz's Chamber of Commerce has requested army engineers to postpone the yacht harbor hearing schedule for March 27 until August 15.

oOo

Improvement to the 36th District Agricultural Association's fairgrounds at Dixon are estimated to cost $150,000.

oOo

WAA representatives will approve use of water from the water line at Basic Magnesium project in Nevada, providing they can deal with a recognized municipal authority.

oOo

Some 28 acres of former Folsom prison land will be used to form a new city park. Development will start with a swimming pool sponsored by the Folsom Lion's Club.

Electrical Equipment Cartel Dissolved by District Court Order

WASHINGTON—Attorney General Tom C. Clark announced that a final judgment eliminating restraints in our foreign trade in electrical equipment was entered today in the United States District Court at New York City against the Electrical Apparatus Export Association; General Electric Company; International General Electric Company, Incorporated; Westinghouse Electric Corporation; and Westinghouse Electric International Company. Under this judgment the Export Association will be dissolved and the defendants enjoined from engaging in the future, by means of any new association, in various illegal cartel activities.

"This judgment," Mr. Clark said, "is a step forward in the Department of Justice program for preventing the illegal use of export trade associations."

The original suit was filed October 9, 1945. The Government in the amended complaint charged the defendants with restraining trade on all types of electrical equipment and apparatus for the generation, transmission, and use of electricity including electrical motors, generators, transformers, capacitors, rectifiers, etc. General Electric and Westinghouse were charged with having entered into a cartel agreement with leading manufacturers of electrical equipment in Germany, England and Switzerland. The cartel agreement was known as the International Notification and Compensation Agreement and provided for allocating orders, raising prices and eliminating competition between the parties in certain markets of the world. The complaint further alleged that General Electric and Westinghouse had caused the formation of the Export Association for the purpose of entering into and carrying out the cartel agreements.

Architects Open Battle Against Fire Bill; Protest Housing Chief's Action to Governor

By LORNA S. STOCK

The architects of California will not support Fire Safety Bill 753 as it is written, John S. Holles, chairman of the governmental relations committee of the California Council of Architects, disclosed Monday.

It was the first intimation that any opposition had arisen within the special fire safety committee appointed to draft amendments sharpening fire provisions of the State Housing Act. The committee was appointed several months ago by Walter P. Koetitz, chief of the division of housing, of the State Department of Industrial Relations.

The rift started at the time the committee was appointed, a reliable source revealed. Architect and engineer members felt that the committee had been "packed" with building officials and fire department representatives, who reportedly controlled 14 votes.

"In almost every issue," said this observer, "the vote was 14 building and fire department officials in opposition to three architects and engineers."

Last Friday, the Pacific Coast Building Codes Conference, Central district, went on record opposing 753, the building officials protesting the predominance of fire marshals on the committee which drafted the legislation and alleging that they weren't properly represented.

'A. B. 753 Confusing'

The architects have swung their support to Assembly Bill No. 1332, which substitutes the up - to - date construction provisions of the 1946 uniform building code and repeals Chapters 5, 7, to 15, 17 to 22, and Chapter 24 of the State Housing Act.

In Los Angeles, Earl T. Heitschmidt, chairman of the construction industries committee of the Los Angeles Chamber of Commerce, pledged the backing of his organization to A. B. 1332 instead of A. B. 753. Explaining his position, he commented: "Assembly Bill No. 1332 is part of a program to secure uniformity and simplification in building regulation. . . . The value and need for simple uniform building codes are so plainly evident that opposition to the proposal is surprising, to say the least. The next step is to bring the state laws into agreement."

Referring to pressure for legislation following recent hotel fires, Heitschmidt stated, "Hasty patching of the State Housing Act will only make a bad situation worse. The result of that effort is A. B. 753, composed of some 75 random amendments to the State Housing Act."

He said A. B. 753 is confusing in that some provisions are retroactive while others are not, and enforcement authority is divided between the fire, health and building departments of the state.

Meantime, Vincent Palmer, president of the California Council of Architects, protested to Governor Warren against a letter signed by Chief Koetitz, which, he said "uses

(Continued on Page 7)

Oakland Firm Seeks Subs on $2 Million Apartment Venture

Sub-bids will be asked in about six weeks on a $2 million apartment development in Oakland, Jas. Hill, secretary - treasurer of Roberts Enterprises, Inc., announced over the week-end. Construction probably will begin in two months on a 2-acre site where the home of the late Senator George C. Perkins was razed recently.

Location of the development is a tract bounded by Vernon, Perkins and Orange Streets, divided into ten lots, and three other lots on Glen Avenue east of Piedmont Avenue, Station Street near Belmont Avenue and MacArthur Blvd. near Park Boulevard.

Twelve six-story and three-story buildings will include some 220 units. Four of the buildings will be of wood frame construction, and the other eight of reinforced concrete. According to Roberts Enterprises' designers, the apartment houses will be modern in every respect. All will have elevators. There will be a underground garage for tenants.

Deposits Required With Surplus Bids

WASHINGTON. — War Assets Administration said today that deposits will be required henceforward from all bidders in sealed bid sales and from successful bidders in spot sales and auction sales.

Conditions under which deposits are required are as follows:

For personal property, deposits of 10 per cent on bids from $5,000 to $100,000 must be made. If the bid is more than $100,000, an additional two per cent is required for the amount in excess of $100,000. WAA Zone Administrators may set, in certain cases, a higher rate of deposit.

LIGHTING EXPOSITION LURES 72 EXHIBITORS

CHICAGO. — Over 72 lighting equipment, lamp, paint and allied manufacturers are already signed up to exhibit their latest developments for 'Planned Lighting' at the coming 2nd International Lighting Exposition and Conference sponsored by the industrial and commercial lighting equipment section of the National Electrical Manufacturers Association, Chairman E. C. Huerkamp disclosed Wednesday.

It will be held Nov. 3-7, 1947, at the Stevens Hotel here. It will be larger than the first exposition held in 1946.

TILE PRODUCTION CONTINUES GOOD

WASHINGTON.—Latest industry reports place the February production of brick and tile at 21 per cent more than for the same month of 1946.

But because of the shorter number of working days in February the output of brick was 11 per cent less than in January, 1947, and production of tile was 16 per cent less. The average production per working days is approximately the same for both months, however.

10,649 UNITS OKAYED

WASHINGTON—Exactly 10,649 additional living units of all types will result from permits approved by the federal housing administration during the week ending Mar. 14.

This brings to 140,670 the number of dwelling units added under the permit system, in effect since December 23, last year.

Tin Supplies Below 1947 Estimates; Far East Problems Many

WASHINGTON. — There is a marked deterioration in the supply position of tin, according to a statement of the Combined Tin Committee Tuesday. Demands for allocations for the period from January to June, 1947, total almost 60,000 long tons, the Tin Committee pointed out, whereas new supplies, available for allocation from all sources during this period total 17,700 tons.

The committee reported that production in Belgium is increasing. In China, production is far below pre-war levels, due to economic and transportation problems. The rehabilitation of the mining industry in Malaya has been slower than anticipated and current recovery of production has been seriously handicapped by a shortage of coal.

Exchange problems have so far made procurement of the tin allocated during 1946 from Siam so difficult that it is not anticipated that Siam will be an effective source for new procurement during the first half of 1947.

Exports from the Netherlands Indies have been retarded by unsettled shipping conditions, whereas smelting of tin ore in the Netherlands has slowed down because of a shortage of coal.

Five thousand of almost 10,000 tons of tin found in Japan have been allocated by the Combined Tin Committee in 1946 and a thousand tons are now available. The remaining quantity will be reported for allocation as soon as the protected work of sorting and sampling is completed.

LOANS 14% OVER JANUARY, 1946

WASHINGTON.—Non-farm real estate financing in the nation during January totaled approximately $847 million, about a third greater than in the first month of 1946, the Federal Home Loan Bank Administration reported today. More than half of this rise, it was noted, was due to increases in the average amount of the mortgages made since the number of such loans recorded in the month was only 14 per cent higher than in January 1946.

USE OF MODULAR SIZES ECONOMICAL

WASHINGTON.—Savings in the cost of building veterans' hospitals will result from the use of modular sizes of masonry products, windows, and other building materials, Tyler S. Rogers, president of the Producers' Council, stated today.

"Completion of the hospitals also will be speeded up, inasmuch as modular products can be put in place more quickly than the traditional sizes because the amount of cutting and fitting on the job is greatly reduced," Rogers said.

AID 685,000 VETS

Government loan guarantees provided in the G. I. Bill have aided more than 685,000 veterans in financing purchase of homes, farms and business with a total value of nearly $3,683,000,000. Veterans Administration announced.

Loans approved from the inception of the program through Feb. 25, 1947, included 605,000 for homes, 24,500 for farms, and 56,000 for business purposes.

JANUARY BEST MONTH

WASHINGTON—More new permanent homes and apartments were completed in January 1947 than in any other month since the end of the war, Housing Expediter Frank R. Creedon announced today. Total of the new permanent units completed was 59,300.

Stewart Bill Creates Rural Roads Agency; Federal Funds to 75%

WASHINGTON. — Two bills among the flood of legislation thrown into the congressional hopper this week are of special interest to contractors.

These are S. 821, providing appropriations for construction of rural local roads, and S. 854 authorizing an additional $50 million for certain construction under the national defense housing act.

The first, introduced by Senator Stewart of Tennessee, would supplement the federal-air road act of 1916. Submitted to the senate committe on public roads, this measure would create within the federal works agency a constituent administration of the rural local roads administration.

Such a constituent part of FWA would be headed by a commissioner who would administer the act's provisions.

An interesting feature of the newly - introduced bill stipulates that appropriations under its authority would not begin until after legal termination of the war. Beginning on that date—yet to be set by congress—appropriations in the amount of $1,126,000,000 would be authorized to become available at the rate of $375 million a year for three years.

These funds would be apportioned among the various states in accordance with provisions of the federal highway act of 1921. Amounts allotted to each state would be re-apportioned among the political subdivisions on the basis of road mileage, population and area.

Federal funds could not exceed 75 per cent of construction costs plus a percentage for states which include certain public lands.

More Authorizations

The bill's author differentiates between funds designated for local political subdivisions and those going to towns or townships. All monies would be matched on a three to one ratio; but for three years if allocated to local political subdivisions and for two years if allocated to towns or townships.

S. 854 went to the committee on banking and currency. Teamed in by Senator O'Mahoney of Wyoming, it calls for $50 million to be authorized as a supplement1 appropriation to the national defense housing act.

This bill would increase fiscal authorizations for national housing agency for use in providing shelter for distressed families of service men and veterans.

The money would go for any "necessary expense" for completing temporary housing under contract with educational institutions, local public agencies, political subdivisions, states or non-profit organizations.

No Funds Available

The implied importance of this legislation is reduced somewhat by its application only to those contracts made prior to passage of the national defense housing act in 1940.

Since that time funds have not been available to complete those temporary projects contracted for and this measure would make this type of housing available to servicemen and veterans wherever it has been contracted for at state or lower government levels.

NEED MORE CASTINGS

WASHINGTON.—Steel demand, in a wide range of products, will decrease unless the output of castings, also needed in these items, is stepped up by making available more foundry and malleable grade merchant pig iron, the Civilian Production Administration told a group of steel representatives meeting here last week

CPA PERMITS GRANTED

SAN FRANCISCO. — The Civilian Production Administration, A. J. Brier, regional director, 1355 Market St., has announced the following permits granted for construction of commercial and industrial buildings in the San Francisco area:

March 19, 1947

CHURCH FOUNDATION, $30,000; 84th Ave & MacArthur, Oakland; owner, The Neighborhood Church of Oakland, 6119 MacArthur Blvd, Oakland.

TRACTOR SALES & SERVICE, $30,000; Harrison & Oak Grove, San Francisco; owner, Peterson Tractor & Equip, 923 Harrison St, San Francisco.

CENTRAL OFFICE, Bldg, $85,000; 440 Turk St., San Francisco; owner, City & Co of San Francisco Housing Authority, 525 Market St, San Francisco.

OFFICE—FRUIT CONTROL, $16,000; 1515 9th St; Sacramento; owner, Calif Tree Fruit Agreement & Eugene L Williams 1910 Eye St, Sacramento.

WOOD TREATING PLANT, $15,000; Oroville; owner, National Wood Treating Corp, Box 351, Oroville.

DAIRY BARN, $9,500; Bloomfield; owner, James Tremari, Box 13 Bloomfield.

STORAGE — EQUIPMENT, $2,800; 928 Vallejo St, Napa; owner, Pac Tel & Tel Co, 140 New Montgomery, San Francisco.

OFFICE TEL CO, $2,700; 12 West Gabilan St, Salinas; owner, Pac Tel & Tel Co, 140 New Montgomery, San Francisco.

OFFICE—STORAGE Training Facilities, $4,000; 65 So 3rd St, San Jose; owner, Pac Tel & Tel Co, 140 New Montgomery ,San Francisco

RETAIL FURNITURE, $800; 417 E Weber Avenue, Stockton; owner, Burnham Bros; 417 E Weber Ave, Stockton.

WAR SURPLUS — Sporting Goods, $50; 3320 So Market St, Redding; owner, Mike Kaplan, Box 1046, Redding.

LUNCH COUNTER Grocery Store, $7,000; 1820 West 7th; Oakland; owner, Martin Pirro, 1820 7th St, Oakland.

OFFICE BLDG, Fire Damage, $35,000; 268 Market St, San Francisco; owner, M Norton, 57 Sutter St., San Francisco.

MACHINE SHOP, $9,445; Tracy; owner, Southern Pacific Co, 65 Market St, San Francisco.

LAUNDRY, $4,000; Miner & Pilgrim St, Stockton; owner, Ong Jew, 406 So Sutter St, Stockton.

FRUIT PROCESSING, Cold Storage, $23,000; Lodi; owner, Gust Frey, Rt 1, Box 375A Lodi.

BALL PARK Bleachers, $4,080; Stockton; owner, City of Stockton, City Hall, Stockton.

TEL CO, Photo Equip, $11,000; Adj 80 So Market St, San Jose; owner, Pac Tel & Tel Co, 140 New Montgomery, San Francisco.

INSURANCE, $4,600; owner, Thos O Verga, 1221 7th St, Monterey.

MARCH 20, 1947.

RESTAURANT, $83; Diablo Blvd, Lafayette, The Curve; owner, Larry Sellar, Box 271, Lafayette.

BAKERY warehouse, $11,000; SW Jefferson and Aurora, Stockton; owner, Klipatrick's Marvel Bakery, 1312 E 8th St., Oakland.

ELEMENTARY schoo $60,000; Alum Rock School, Santa Clara County; owner, Alum Rock Union School District.

PACKING House, $71800; Ivanhoe; owner, Ivanhoe Fruit Assn, Box 37 Ivanhoe.

RAMP Auto Park, $2000; 149 Eddy St., San Francisco; owners, S. E. Onorato and Marietta F. Onorato, 220 Bush St., San Francisco.

TIRE repair shop, $4500; 131-A Walnut Ave., Santa Cruz; owner, Jos. E. Jovnt, premises.

MACHINE shop, $3517; Livingston; owner, Johansen-Copley Mfg. Co., Box 79 3rd and Front Sts., Livingston.

WAREHOUSE, $8900; San Francisco owner Walton N. Moore Dry Goods, Mission and Fremont Streets, San Francisco.

HOSPITAL for alcoholics, $13,000; 3345 E Tulare Ave., Fresno; owner, John E. Goree, Jr., 209 Holland Bldg., Fresno.

REAL Estate and insurance office, $4000; 600 N Irwin St., Hanford; owner, Alfred Garvalho, Box 105 Hanford.

KILN for lumber drying, $8500; San Leandro St. 81 85th, Oakland; owner, Willard A Kinney, 1117 Colusa Ave., Berkeley.

BANK warehouse, $5375; California and Fremont Sts., Stockton; owner, Capital Co., 1 Fowell St., San Francisco.

BRANCH bank, $6275; 6126 Medan Place, Oakland; owner, Central Bank, Broadway and 14th Streets, Oakland.

300 Million DOLLARS in NEW POWER PLANTS and Service Installations

California's industrial development before and during the war has become permanent growth—the post-war trend is upward! We are going places in a big way!... in industry, payrolls, population and markets.

Immediately after wartime building restrictions were lifted, P. G. and E. began to provide increased service for Northern and Central California to meet new and increased demands for gas and electricity *and to build well ahead* of anticipated growth. In 1946 approximately $45,000,000 was spent toward that end. AND NOW a comprehensive 5-year expansion program has been developed calling for the expenditure of an additional $300,000,000 by the end of 1951.

New power plants will be constructed and others enlarged, adding about 1,000,000 horsepower to P. G. and E.'s power capacity. Also included in the program is a vast systemwide expansion of transmission and distribution facilities.

P. G. and E. will be fully ready to help Northern and Central California grow during the busy years ahead with a power capacity of more than 3,500,000 horsepower.

PLANS and Speculations

San Francisco's water department has been authorized to acquire Lots 7, 8, 9, 22, 23 and 24 in Block 2207 by eminent domain proceedings for the Forest Hill tanks.

oOo

Purchase of land to extend the boundaries of **San Francisco's** proposed McLaren Park has been authorized. Four lots are involved.

oOo

San Francisco supervisors voted unanimously to seek state aid for the rehabilitation of the deteriorating Palace of Fine Arts. It might be used as a state-sponsored county agricultural fair permanently located there.

oOo

City Engineer Ralph Wadsworth has urged San Francisco state representatives to support the superhighway bill as originally passed by the senate. Such state aid is essential to meet San Francisco's minimum traffic needs, he said.

oOo

Yuba County Junior College at Marysville has been authorized to obtain 1,920 square feet of surplus structures for administrative and other facilities.

oOo

San Francisco supervisors this week authorized the purchase of Lot 1 and the southeasterly 25 feet of Lot 2 in Assessor's Block 6272 for $7500. The tract will be used as the site for a branch library.

oOo

Coolidge school district 21 of **Pinal County**, Arizona, has FWA approval of its application for 1,000 square feet of agricultural and mechanical arts classroom facilities.

oOo

The city of San Francisco will apply for state aid for construction of the Vicente Street outfall sewer project soon. Total cost of the project is $189,000.

oOo

St. Mary's Boys' High School at **Phoenix**, Ariz., is to obtain about 1,000 square feet of surplus structures to be converted into industrial arts classroom facilities.

oOo

Residents of the Stanford water district recently voted 68-13 to be annexed to the city of Palo Alto.

oOo

Walnut Creek city council is making plans for widening Bonanza Street between Locust and the Sacramento Northern railroad crossing.

oOo

Niles Chamber of Commerce has endorsed proposed establishment of a memorial stadium and nightlighting of the football field of Washington Union High School.

oOo

The 200-inch, 530-ton telescope at Mount Palomar, Calif., will be in operation by the end of 1947, the Rockefeller Moundation disclosed last week.

oOo

Requests that traffic signals be installed at the Redwood Road-Castro Valley Boulevard intersection have been forwarded to John H. Skeggs, district engineer for the highway department.

oOo

Oroville City Engineer S. J. Norris has resigned his position, and will leave to do engineering on the proposed dam and reservoir for the Oroville - Wyandotte irrigation district in the Palermo area.

oOo

Incorporation of the highway from **Morro Bay** on the California coast to the Nevada line into the state highway system has been approved by the state assembly's committee on conservation and planning.

oOo

Three subdivisions have requested extension of water service from **Sacramento**. They are: Covle Acres the Fong Tract, and Sunnyside Terrace.

Creedon Calls VHP-1 'Most Important of All Government Controls'

WASHINGTON. — Housing Expediter Frank R. Creedon told congress yesterday that the construction limitation order—VHP-1—is the most important government control in operation.

Testifying before the house banking and currency committee, Creedon explained to the congressmen that the total volume of construction allowed by CPA since Creedon became expediter now has been increased 40 per cent. He meant that the weekly allowance since January 15 has been boosted to $50 million. Before that time it remained at $35 million for months.

Scarcities Remain

He described VHP-1 as "the barrier" that holds construction materials in line for home building, adding that its importance could not be overemphasized. If this control were to be removed, he said, the much-needed items for home construction would go immediately, in great measure, into such unessential jobs as night clubs, race tracks, bars, bowling alleys, etc.

Committeemen questioned the expediter closely on all phases of his written statement.

One congressmen asked if the limitation order, in effect, did not continue the labor shortage unnecessarily. Creedon replied that from his own experience he had learned that whenever materials come into adequate supply, labor shortages disappear. He added that reports of some labor deficiences in the construction trades had reached his office but that they were spotty, coming from isolated areas.

Most materials still are scarce, Creedon testified, citing cast iron soil pipe as an outstanding example. Framing lumber is one item that is plentiful but homes require all materials to be completed, he pointed out.

Continue ATS

The cost of new homes has leveled off, the expediter declared. But shortages of many housing items continue. In no event can government controls be removed with safety before the last quarter of 1947, in his estimation.

Creedon would continue the apprentice training program, not so much because of a need for labor at present, but because of the drain to come from a much accelerated construction program which he sees just ahead.

#

FARM LID $5,000

Non - residential structures on farms of five acres or more may now be built, altered, or repaired without authorization from the Civilian Production Administration if the job does not exceed $5,000, CPA said today. Formerly the farm small job exemption was $1,000.

GROOVER AND I

DIPLOMATIC DOUBLE - TALK

Probably the greatest need of this country is some honesty in High Places.

☆ ☆ ☆

The first approach to this would be cutting out the diplomatic double-talk and using simple words having only one meaning.

☆ ☆ ☆

Imagine a diplomat using words which anyone could understand and which he couldn't later weazel out of! He would rather be caught without his striped trousers!

☆ ☆ ☆

"Unilateral action" he says when he means "we're doing this alone". "Bilateral action" means "there are two of us in this".

☆ ☆ ☆

"Multilateral action" means "we are all in agreement until one of us gets his pants caught in the barn gate"—

☆ ☆ ☆

And then we are in "agreement in principle".

#

Terminal, Stuffing Tubes for Cables Available Here

Large quantities of surplus terminal and stuffing tubes for electric cable installations which cost the government about $1,200,000 are being offered for sale on a competitive bid basis.

Designed for use with cables in bulkheads, decks, partitions, etc., they may be adapted for a variety of uses in industry. They are made of brass, steel, bronze or aluminum.

They are no longer subject to priorities and are offered fob. location through WAA offices at Spokane, 85,000 available; Portland, 9,000; San Francisco, 2,500, and Los Angeles, 2,000.

#

BOILER OUTPUT CUT

WASHINGTON. — New orders were booked during January for 1,393 steel boilers of 100 sq. ft. of heating surface and over, according to a report released today by the Bureau of the Census. The heating surface of these boilers amounted to 1.4 million sq. ft. This compares with orders for 1,462 steel boilers with a heating surface of 1.5 million sq. ft. which were booked during December of last year, and orders for 1,381 boilers with heating surface of 1.6 million sq. ft. which were booked during January 1946.

Nat'l Chamber Endorses Gradual Decontrol Of Wolcott Bill; Need Simultaneous Growth

WASHINGTON.—The Chamber of Commerce of the United States had added its voice to those being heard for and against H. R. 1549, legislation introduced by Representative Wolcott and designed to kill most phases of the Patman Housing Act.

Spokesman for the Chamber was George W. West, chairman of the construction and civic development department committee. He also is president of the First Federal Savings and Loan Association of the West Lumber Company, both of Atlanta, Georgia.

Needless to say, the body of West's remarks favored the Wolcott legislation in its pattern of decontrol.

Freedom's Incentives

The basic problem in the simplest terms, is how most effectively and quickly to multiply the operations of a major industry which came out of the war period at an extremely low level of activity, whether measured in terms of physical production or of employment level, West said. In other words, how to persuade a great many people to engage in the business of not only erecting houses, but also of supplying the materials, financing, land, and other essentials which add up to useable dwelling units.

A satisfactory volume of finished homes can not result, he maintained, unless raw materials production, processing, distribution, site preparation, financing and erection all expand at a comparable rate.

From this beginning, West developed his testimony as follows:

"It is the firm conviction of the national chamber that only a free market can supply incentives which meet these exacting standards. To attempt to 'program' so vast and complex an activity as the construction industry of the United States is to attempt the impossible. This is demonstrated by recent history. Government subsidies, market guarantees, priorities, and other artificial devices have served to multiply, rather than to decrease, the difficulties of the industry. Unnecessary and ill advised restrictions have added to its problems. Supporters of a planned economy for construction cite many figures which, they claim, prove the effectiveness of their efforts. But the one statistic that really counts—the number of dwelling units completed in the U. S.—gives clear indication of their failure."

Enact H. R. 2549

West told the committee he felt that partial relaxation of federal controls during the last few months should not be permitted to "obscure the issue."

In a statement of strong proportions, the witness said the construction industry is still more closely controlled than any other segment of the American economy. He pointed out that it is still necessary to conform to many hampering restrictions, to secure the permission of the federal government before a job can be started and to procure a permit through tedious and time - consuming red tape.

Then he said: "Title I of H. R. 2549, now before this committee, would remove these remaining controls and give the industry full freedom to expand in response to natural economic forces the effectiveness of which is unquestioned. It should be enacted into law as soon as possible."

Use Permanent Agencies

The chamber of commerce representative pointed out that with the end of federal control as outlined in the bill, the purpose for which the National Housing Agency was created, "programming of private construction", will no longer exist.

As an alternative to full operation of the government's housing agencies, West proposed coordination of policies and operations of permanent agencies concerned with housing in a committee or council of their directing heads.

City Rejects Offer To Save $125,000 On Market Rail Job

The City of San Francisco has rejected a proposal made by Chas. L. Harney that by working around the clock he can reconstruct the inner rails on Market Street in 65 days instead of the anticipated 300, and at a saving of at least $125,000.

Harney advanced this startling proposal shortly after commencing the project. It received immediate consideration of utility officials who held it up to determine its legality. Under original contract provisions, traffic was re - routed and construction work allowed only seven hours a day between 9 a. m. and 4 p. m.

Utilities Manager Jas. H. Turner said Harney's proposition was turned down because it "too great a change in the concept of the contract and it would defeat the competitive bid provision of the city charter."

Such a change, he added, would also cause considerable inconvenience to the riding public.

"We didn't write the original contract on an around the clock basis," Turner explained, "because union labor required double time at night."

The utilities manager described present progress as "eminently satisfactory" and stated he expected the project will be completed "well within contract time."

In effect, Harney told the commission: "Give me those rails 24 hours a day for 65 days and you can have the remaining 235 days of allotted construction time. And you'll save about $125,000 at the same time."

APARTMENT BILL IS DEFEATED IN TEXAS

AUSTIN, Tex.—A bill designed to authorize life insurance companies to invest up to five per cent of their admitted assets in apartment house projects in Texas has been defeated in the Texas legislature.

HEAT COILS ON SALE

Government surplus stocks of unused, nonfreeze heating coils for steam pressures up to 150 pounds per square inch will be offered for sale to all trade levels, including exporters at low fixed prices ranging upward from $24.60 each, fob Mechanicsburg, Pa. The offering will open early in April.

The coils consist of 3/8-in. tubes within 5/8-in. tubes, and are adaptable for many heating, ventilating, air - conditioning, processing and drying uses. Tubes and fins are copper and the steel casings have drilled flanges on all sides for easy attachment of ductwork or for bolting the sections together.

VET TURNOVER SLIGHT

WASHINGTON. — Veterans of World War II comprised one out of every five factory employees in December 1946, the bureau of labor statistics of the Department of Labor reported today. Over 2.9 million veterans were employed in manufacturing industries.

Job shifting, as reflected by the number of quits, continued to decline. Veterans' quit rates in December in both durable and nondurable goods industries were the lowest on record.

PROMPT DELIVERY—ORDER NOW!

Fenestra
INDUSTRIAL STEEL DOORS

NOW AVAILABLE! from our Pacific Coast Factory

Fenestra Industrial Steel Doors are available in a variety of stock types and sizes. They are ideal for stairway and service entrances, furnace rooms and fire exits (where label doors are not required) of commercial and public buildings — stores, laundries, schools, public garages, filling stations. Also for industrial buildings such as tool and die shops, machine shops, bakeries, dairies and many other types of structures.

(Right) Typical Single Swing Door • Well Designed, Sturdy • Long-lasting

STOCK TYPES . . . Sizes range from 2'8" to 7'4" width and 6'8" to 7'4" height—providing variety for many needs. For dimensions by types illustrated, send for our catalog.

Comfortable, Functional Home Is Modest-Sized, Yet Spacious

Hedrich Blessing Photo

Planning a house in which to live happily ever after?

Then, study the plan of this modest-sized house recently completed in the suburbs of Chicago, designed by architect David M. Barrow and its owner, Howard M. Sloan. House and Garden calls this house "one of the most important small houses it has ever published."

The basic plan is simple and functional. Appealing and charming as this house is in its appearance and plan, its equipment and mechanical principles are even more important, and are applicable to any blueprint.

The house turns its back to the street, and its face to the private garden and the sun which hits the rooms most used during the day, as well as the tiny greenhouse. The overhanging roof, protected with tumble, colorful and fire-resistant asphalt shingles, shields the main area from too much sun. Supplementary awnings are used in the summer. In winter, when the sun is lower in its zenith, the sun's rays help to heat the house.

Here's a house that makes its own weather the year around. It is completely sealed in. Double glazed windows throughout are fixed—cannot be opened—but the air conditioning system provides filtering, cooling, dehumidification, and air circulation in the summer; warming, humidification, filtering and air circulation in the winter.

The sheet steel floor, with warm air circulating beneath it, provides radiant heating.

Despite its forward looking design, the house approximates its neighbors in appearance, and fits easily into its suburban environment.

Chamberlin's District Headquarters Move to Oakland in Firm's 50th Anniversary Year

In 1947, the Chamberlain Company of America marks its 50th anniversary, according to District Manager V. R. Reynolds, who supervises the company's interests in the states of California, Nevada and Arizona.

Factory branch offices are located in all principal cities. For many years district headquarters has been located at 113 Tenth Street, San Francisco. The 50th anniversary year, 1947, has been chosen for another step in the company's Pacific coast expansion program, according to Reynolds.

Modern offices, a large warehouse and manufacturing site has been acquired at 1496—67th Street, Oakland 8 (Emeryville). On Mar. 1, district headquarters for the firm will be located at that address.

The San Francisco office will continue to serve this area. The downtown Oakland office will be discontinued. It's personnel and activities will function from the district headquarters at the 67th Street address.

After 50 years in business the Chamberlin Company is the only national manufacturer of fuel saving and home-comfort products which it sells and services directly to and for the customer. Other lines of similar products are usually handled by independent dealers. With Chamberlain there is no division of responsibility. It's products are sold and installed only by full-time regularly employed company representatives.

"From a humble beginning in 1897, Chamberlin now operates 36 branches and five factories, and is America's oldest and largest firm of home comfort, fuel-saving specialists," Reynolds declared. "Over 2,500,000 home and building owners have installed Chamberlin equipment to save fuel, reduce drafts and keep out dust and dirt."

Among the fuel-saving services that Chamberlin installs are metal weatherstrips, rock wool insulation, caulking and screens, Reynolds pointed out.

Largely responsible for the company's success, according to Reynolds, is the policy of recommending its services only if a survey clearly indicates that the home or building needs the specific weatherproofing product.

Electron Compass Small but Accurate

NEW YORK.—An electron gun compass no larger than a flashlight, but capable of flying the largest airplanes or navigating ocean liners, was unveiled at the annual meeting of the American Institute of Electrical Engineers here last week. The new instrument is capable of precise readings hitherto unattainable by the conventional type of magnetic compass.

Containing no moving parts and looking more like a black stick than a compass, the device depends upon a constant bombardment of electrons aimed at a target to provide directional signals and guide an airplane or ship on a preset course, he explained.

INGENIOUS TEXAN SOLVES ALIGNMENT KITCHEN CABINETS

One installation problem sometimes faced by kitchen dealers is properly lining up base and wall cabinets in rooms which are out of line.

This recently confronted a Youngstown, Kitchens dealer in Texas.

He found that the house, which had no basement, had settled so much that he couldn't level the cabinets. Undismayed, this ingenious Texan went outside and raised the corner of the house two and a half inches.

Presto! The cabinets fitted perfectly.

Plumbing-Heating Output to Set New High Mark in 1947

CHICAGO.—That 1947 will be a significant year for the plumbing and heating industries in that it will mark a return to full peacetime production is predicted by the Plumbing and Heating Industries Bureau.

Production figures for 1946 for some lines indicate that the reconversion hump has already been passed, the Bureau points out.

Manufacturers of plumbing and drainage specialties report a 130 per cent increase in 1946 production.

Cast iron radiator production for 1946 was 100 per cent ahead of 1945. A further 50 per cent increase in 1947 is expected.

Soil pipe production—100 per cent over 1945; steel boilers, double the 1945 figure; power driven oil heating equipment, nearly four times ahead of 1945; unit heater production, 35 per cent above 1945.

Manufacturers of brass pipe and copper tube expect that all peacetime manufacturers records will be broken in 1947. Iron and steel pipe in great volume will be produced in 1947, unless the industry is faced with interruptions over which it has no control.

The productive capacity of the plumbing and heating industries is being increased by the addition of new plants, expansion of existing plants, mechanizations of manufacturing processes, and the application of new methods learned during the war.

NOBLE CHAIRMAN

Weller Noble, of Berkeley, was elected chairman of the Bay Area transportation and traffic committee at its first meeting held today at the Commercial Club in San Francisco, to map a program of action for the study of area-wide transportation and traffic requirements, with emphasis on the need for an additional Bay crossing.

Sewage Treatment Plant and Sanitary Sewer Cost $109,266
TONASKET, Wash.
Owner—City of Tonasket, Vernon Allen, city clerk, Municipal Bldg., Tonasket, Wash.
Engineer—DeWitt C. Griffin & Associates, Spokane, Wash.
Low Bidder—Everett McKellar, Cashmere, Wash., $109,266.
Other bids March 11 were:
Hansen & Parr, Spokane, Wash., $115,960.
Ford & Walters, Seattle, Wash., $120,283.
Vandivort Construction Co., Wenatchee, Wash., $122,789.
W. L. Ridge, Spokane, Wash, $134,653

3/19/47 32
Plans in Progress
Power and Blower Building Est. Cost $750,000
LOS ANGELES, Calif., Los Angeles County, Hyperion Sewage Disposal Plant.
Owner—City of Los Angeles.
Architect—Samuel E. Lunden, 400 Rowan Bldg., 458 S. Spring Street, Los Angeles, Calif.
Structural Engineer—Paul E. Jeffers, 816 W. 5th St., Los Angeles, Calif.
Mechanical and Electrical Engineers—Ralph E. Phillips, 816 W. 5th St., Los Angeles, Calif.
Reinforced concrete, class-A power and blower building 230x125x47 ft high.

34—DAMS, RESERVOIRS & DREDGING

3/20/47 34
Low and Only Bidders
Concrete Conduit Cost, $418,810
PASADENA, Calif., Los Angeles Co.
Arroyo Seco Channel, between Colorado St. and La Loma Ave.
Owner—Board of Supervisors of Los Angeles County Flood Control District, 501 Hall of Records, Los Angeles, Calif.
Plans by Chief Engineer H. E. Hedger, 751 S. Figueron St., Los Angeles, Calif.
Includes alterations to existing overflow dam and construction of a rectangular reinforced concrete conduit about 4000 ft. long, with two reinforced concrete bridges crossings.
Low Bidder—A. Teichert & Son, Inc., 1846 57th St., Sacramento, Calif., $418,810.
The work involves:

Proposition 1
Contractor to furnish all materials except copper water seals.

Spillway Items
(1) 80 cu. yds. removal of concrete from crest of dam;
(2) 65 cu. yds. removal of reinforced concrete from dam aprons;
(3) 2050 cu. yds. class A spillway excavation;
(4) 300 cu. yds. class B spillway excavation;
(5) 280 cu. yds. bridle trail excavation;
(6) 15 cu. yds. bedrock excavation for spillway floor subdrain system;
(7) 5 cu. yds. excavation for spillway cutoff;
(8) 3670 cu. yds. fill and backfill of spillway walls and bridle trail;
(9) 1700 cu. yds. compacted fill in place;
(10) 400 sq. yds. each additional single roller trips covering 1000 sq. ft.;
(11) 225 lin. ft. furnish and placing 6-in. concrete pipe lateral subdrain;
(12) 45 lin. ft. same 8-in. center subdrain;
(13) 92 lin. ft. same 10-in.;
(14) lump sum, alterations to well box No. 1;
(15) 25 lin. ft. 8-in. drain and outlet for well box No. 1;
(16) 50 lin. ft. same for well box No. 2;
(17) 360 cu. yds. concrete in west spillway wall;
(18) 960 cu. yds. same in east spillway wall;
(19) 180 cu. yds. same in east wall below minimum depth;
(20) 31,000 lbs. placing reinforcing steel in spillway walls;
(21) 60 cu. yds. concrete in cutoff wall at toe of dam;
(22) 2 cu. yds. reinforced concrete in cutoff wall at sta. 348 plus 100;
(23) 100 cu. yds. same in spillway crest;
(24) 145 cu. yds. same in spillway floor, 12-in. slabs;
(25) 200 cu. yds. same, 18-in. slabs;
(26) 16 lin. ft. drilling 2-in. weepholes in existing rock walls;
(27) 425 lin. ft. drilling holes, placing end grouting steel dowels;
(28) 330 lin. ft. furnish and placing fence on spillway walls;
(29) 125 lin. ft. placing copper water seals;
(30) 2650 bbls. furnish portland cement;

Conduit Items
(1) 54,700 cu. yds. class A conduit excavation;
(2) 6000 cu. yds. class B same;
(3) 1600 cu. yds. class A training channel excavation;
(4) 200 cu. yds. class B training channel excavation;
(5) 200 cu. yds. class A typical cutoff wall excavation;
(6) 1000 cu. yds. class A downstream cutoff wall excavation;
(7) 5 cu. yds. class B same;
(8) 200 cu. yds. bedrock excavation for subdrain trenches;
(9) 990 cu. yds. reinforced concrete invert slab, center strip;
(10) 1935 cu. yds. same, side strips;
(11) 3150 cu. yds. same, well boxes;
(12) 2375 cu. yds. same, well stems;
(13) 13 cu. yds. same in spread footings of bridge;
(14) 19 cu. yds. same in abutment footings of bridge;
(15) 42 cu. yds. same in abutment walls of bridge;
(16) 84 cu. yds. same in decks of bridge;
(17) 10 cu. yds. same in bridge curbs;
(18) 75 cu. yds. same in typical cutoff wall;
(19) 77 cu. yds. same in downstream cutoff wall;
(20) 10 drain outlet boxes;
(21) 6 drain inlet boxes;
(22) 2 18-in. drain pipe inlets;
(23) 7992 lin. ft. furnishing and placing 6-in. concrete pipe, continuous pipe drain;
(24) 1305 lin. ft. same, center subdrain;
(25) 4460 lin. ft. same, lateral subdrain;
(26) 900 lin. ft. same, 8-in. center subdrain;
(27) 1670 lin. ft. same, 10-in.;
(28) lump sum, furnish and place equestrian bridge fences;
(29) lump sum, furnish and place truck bridge railings;
(30) 7964 lin. ft. furnish and place fence on conduit walls;
(31) lump sum, furnish and place riprap and rockfill at downstream cutoff wall;
(32) 13,200 bbls. furnish portland cement.

Total bids March 18 were:
(A) A. Teichert & Son, Inc., Sacramento, Calif., $418,810.
(B) MacDonald & Kruse and Hensler Constr. Corp., Glendale, Calif., $439-105.90.
(C) Macco Corp., Clearwater and Burlingame, Calif., $499,933.80.
(D) Guy F. Atkinson Co., Long Beach Calif., and South San Francisco, $546,069.70.

3/24/47 34
Application Filed for State Water Permit
Conservation Dam Cost $1,000,000
Near LOS GATOS, Calif., Santa Clara Co. Windy Point, about 2 miles south of Los Gatos
Owner—Santa Clara Valley Water Conservation District (Herbert C. Jones, Porter Bldg., San Jose, attorney, G. W. Hunt, district engineer, 6c North 2nd St., San Jose, Calif., 374 West Santa Clara St., San Jose, Calif.
Plans by engineering department of owner.
Reservoir with capacity of approx 25,000 acre-feet and surface area of 450 acres; earthen dam, 150 ft. high with 15-foot freeboard.

3/24/47 34
Contract Awarded
Huts, Sidewalks, Water and Sewer Systems; Spec. 1629 Cost $28,468.30
MISSOURI BASIN PROJECT, Montana. Hardin, Mont.
Owner—U. S. Bureau of Reclamation, Billings, Mont.
Plans by engineering department of owner.
Erecting five steel arch-rib huts and constructing sidewalks, water distribution system and sewer system.
Contractor—William J. Krates Construction Co., 424 Rimrock Rd., Billings, Mont.

3/21/47 34
Low and Only Bidders
Low Bidder Cost $118,020.16
LOS ANGELES, Calif., Los Angeles Co. Wilbur Creek between Devonshire St., and the Los Angeles Flood Control District debris basin located at a point 700 feet downstream from Nordhoff St.
Owner—Dept. of Agriculture, Soil Conservation Service, 2053 4th St. (4th and Hubbard, San Fernando, Calif).
Plans by owner.
Low Bidder—Garn L. Moody, 11606 Sherman Way, North Hollywood, Calif., $118,020.16.

3/21/47 34
Bids Rejected—To Be Readvertised as Spec. 1753 To Open Apr. 9
Clearing Scofield Reservoir Site (Portion); Spec. 1367
SCOFIELD PROJECT, Utah, 30 mi. northwest of Price.
Owner—U. S. Bureau of Reclamation Federal Bldg., Price, Utah.
Plans by owner.
As previously reported Burks & Co., Denver, Colo., at $15,200 submitted the low bid June 27.

3/19/47 34
Low Bidders
Earthwork and Structures; Spec. 1665 Cost $120,341
KLAMATH PROJECT, Oregon-California. About 35 miles southeast of Klamath Falls, Ore.
Owner—U. S. Bureau of Reclamation, Raymond R. Best, district engineer, P. O. Box 512, Klamath Falls, Ore.
Plans by engineering department of owner.
Includes earthwork and structures, laterals and drains, Coppock Bay area, first extension, and concrete lining in "M" canal, Modoc Unit, Tule Lake Division.
Low Bidder—George R. Stacy, Tulelake, Calif., $120,341.
C. A. Dunn, Klamath Falls, Ore., at $129,144.50 submitted second low bid March 17.

3/20/47 34
Owner Taking Bids—Due April 1, 1 P. M.—(Bidders Figuring)
Flood Control Channel and Levees; Serial 47-25
LOS ANGELES CO., Calif. From mouth of San Gabriel Canyon to Santa Fe Dam.
Owner — Los Angeles Dist. Corps of Engineers, War Dept., 751 So. Figueron St., Los Angeles, Calif.
Unit quantities were given March 18.
The following contractors have taken out plans:
Guy F. Atkinson Co., 22233 South Santa Fe Ave., P. O. Box 259, Long Beach, Calif.
Bresel & Bevanda Constructors Inc., 417 S. Hill St., Los Angeles, Calif.
Peter Kiewit Sons Co., 340 Kieway Ave., Arcadia, Calif.
Mosco Corp., 815 N. Paramount Blvd., Clearwater Calif.
J. F. Shea, & Co., 8660 Rheed Ave South Gate, Calif.
United Concrete Pipe Corp., P. O. Box 425, Baldwin Park, Calif.
Vinnell Co., 1145 Westminster, Alhambra, Calif.
E. B. Bishop, P. O. Box 325, Orland, and P. O. Box 1813, Long Beach, Calif.

Basich Bros. Constr. Co., P. O. Box 151, Alhambra, Calif.
W. E. Kier Constr. Co., 1462 N. Stanley Ave, Los Angeles, Calif.
Olympian Dredging Co., 525 Market St., San Francisco, Calif

3/19/47 34
Bids Rejected
Fish Hatchery
PUYALLUP, Wash.
Owner—State Directors of Game Donald W. Clark, 615 Smith Tower, Seattle, Wash.
Plans by engineering department of owner, James H. Lyon, chief engineer.
Includes hatchery building, 16 circular concrete rearing ponds, 8 rectangular concrete raceways, intake and water supply pipeline, water distribution system, drainage and sewage disposal system, walkways, etc.
As previously reported, A. W. Johnson Co., Inc., 208 E. Pacific, Seattle, Wash., at $305,000, submitted the low bid February 27.

35— DOCKS, PIERS & HARBORS

3/19/47 35
Contemplated—Legislation Necessary To Finance Long-Range Building Program
Wharf, Cold Storage Space & Pier Impts. Cost $20,000,000
SEATTLE, Wash., King County. Bell to Madison street and Salmon Bay Terminal on Lake Washington ship canal
Owner—Port of Seattle, Warren C. Lamport, general-manager, Seattle, Wash.
Program includes $18,000,000 quay-type wharf, 2000 feet long, to replace small finger-type piers, a $600,000 expenditure for coldstorage space, impts to piers for fishing boats, paving of aprons and transit shed floors and installation of cargo handling facilities to cost $1,000,000.

36— PARKS, AIRPORTS & PLAYGROUNDS

3/20/47 36
Contract Awarded
Paving Tennis, Basketball and Volleyball Courts Cost $7,296
STOCKTON, Calif., San Joaquin Co. El Dorado School, Pacific Ave. and Harding Way.
Owner—Stockton Board of Education, San Joaquin and Lindsay, Stockton, Calif.
Plans by owner.
Contractor — M. J. B. Construction Co., 322 Elks' Bldg., Stockton, Calif.

37— RAILROADS, SUBWAYS & TUNNELS

3/25/47 37
Owner Taking Bids—Due April 15, 3 P. M.
Railroad
RIVERSIDE COUNTY, Calif. From Eagle Mountain iron mines to Southern Pacific main line on the north side of the Salton Sea near Mecca.
Owner—Kaiser Engineers, Inc., E. T. Larsen, project engineer, 1924 Broadway, Oakland, Calif.
Plans by owner.
Approximately 51 miles of railroad.
Major items of work are:
3,200,000 cu. yds. of embankment;
230,000 ft. b.m. timber for trestle;
27,000 lin. ft. treated piling;
550 each driving pile;
170,000 track ft. natural ballast;
275,000 track ft. laying track;
105,000 track ft. screen ballast;
30- to 72-in. corrugated metal pipe;
30x52-in. and 40x65-in. corrugated metal culverts.
Note: The owner will furnish all ties and rails.
The following list of general contractors have received plans for the project:
Dimmitt & Taylor, 815 E. 59th St., Los Angeles, Calif.
Haddock Engineers, Ltd., 1616 S. Greenwood Ave., Montebello, Calif.
Clifford C. Bong, 6 N. 1st St., Arcadia, Calif.
J. F. Shea & Co., 8660 Rheem Ave., South Gate, Calif.
J. A. Thompson, P. O. Box 518, Inglewood, Calif.
Clyde W. Wood, Inc., 6900 Tujunga Ave., P. O. Box 620, North Hollywood, Calif.
Gunther & Shirley Co., 714 W. Olympic Blvd., Los Angeles, Calif.
H. B. Nicholson, 1151 S. Broadway, Los Angeles, Calif.
William A. Smith Contracting Co., 514 Central Bldg., Los Angeles, Calif.
Morrison-Knudsen Co., 810 Title Guarantee Bldg., Los Angeles, Calif.
Fredrickson & Watson Construction Co., 873 81st Ave., Oakland, Calif.
Wallace D. Hamilton, 451 Arlington Ave., Berkeley, Calif.
A. D. Schader, 144 Spear St., San Francisco, Calif.
O. B. Richter, 524 California St., Sacramento, Calif.

3/24/47 37
Low and Only Bidders
Light Lane and Instrument Landing System; Pro. 647-375
WINSLOW, Ariz. Winslow Municipal Airport.
Owner—Civil Aeronautics Administration, 5651 Manchester Ave., Los Angeles, Calif.
Low Bidder—Wickes Engineering & Construction Co., Des Moines, Iowa, (1) $20,820.50; (2) $3995; 90 days' completion.
Corbin & Davis Electric Co., Phoenix, Ariz., at (1) $44,390.50; (2) $8257.50; 90 days, submitted the only other bid March 14.

38— ELECTRIC LIGHTING TRANSMISSION LINES

3/24/47 38
Contract Awarded
Transmission Line; Spec. 1627 Cost $49,155
HUNGRY HORSE PROJECT, Montana. Northwest part of Montana.
Owner—U. S. Bureau of Reclamation, Denver, Colo.
Plans by engineering department of owner.
Includes construction of 12.47-kilovolt transmission line from Hungry Horse Dam construction substation to the Hungry Horse Government Camp substation and electrical distribution system for Hungry Horse Government Camp.
Contractor—Olson Construction Co., Inc., 1549 S. 2nd W., Salt Lake City, Utah.

3/25/47 38
Owner Taking Bids—Due April 15, 2 P. M.
Electrical Distribution System
YOUNTVILLE, Calif., Napa County. Veterans' Home.
Owner—State of California, Division of Architecture, Public Works Bldg., Sacramento, Calif.
State Architect—Anson Boyd, Public Works Bldg., Sacramento, Calif.
Specifications obtainable from the above office.

3/20/47 35
Owner Taking Bids—Due April 4, 1 P. M.—(Bidders Figuring)
Electric Distr. System; Serial 47-28
MUROC, Calif., San Bernardino Co. Muroc Army Air Field.
Owner—Los Angeles District, Corps of Engineers, War Dept., 751 S. Figueroa St., Los Angeles, Calif.
Plans by owner.
4800-volt underground electrical distribution system and alterations on existing overhead distribution system.
Specifications obtainable from the above office upon deposit of $5.00.
Following contractors have taken out plans:
Fischbach & Moore, Inc., 1509 W 8th St., Los Angeles, Calif.
Fritz Ziebarth, 820 W. Esther St., Long Beach, Calif.
Bartel Electric Co., 1328 W. Florence Ave., Los Angeles, Calif.
C. D. Draucker, 2700 San Fernando Road, Los Angeles, Calif.
Vinnell Co., 1145 Westminster, Alhambra, Calif.
N. H. Anderson, P. O. Box 1270, 380 Alexander Ave., San Bernardino, Calif.
Holsin & Galvan, 218 Avalon Blvd., Wilmington, Calif.
Sierra Electric Co., 101 Regent St., Inglewood, Calif.
California Electric Works, Ltd., 424 8th Ave., San Diego, Calif.
Electric & Machinery Co., 4462 Fire stone Blvd., South Gate, Calif.
R. F. Jones Electric Co., 925 Meridian Ave., South Pasadena, Calif.
Vaneott Co., 5024 W. Washington Blvd., Los Angeles, Calif.
Walterscheid Electric Co., 151 W. Bonita, San Dimas, Calif.
Scott Buttner Electric Co., 534 20th St., Oakland, Calif.

3/20/47 35
Contract Awarded
Test Piling; Spec. 1650 Cost, $19,20
CENTRAL VALLEY PROJ., Calif. Site of Delta - Mendota pumping plant, approx eight miles northwest of Tracy, Calif.
Owner—U. S. Bureau of Recalmation O. G. Boden, construction engineer Antioch, Calif.
Plans by Engrg. Dept. of Owner.
Contractor—Underground Constr. Co. 75th Ave. and San Leandro Blvd., Oakland, Calif.

39—SEWERS

3/24/47 39
Low and Only Bidders
Storm Sewers Cost $94,689
CAMAS, Washington.
Owner — City of Camas, Odmund Egaas, city clerk, City Hall, Camas, Wash.
Plans by engineering department of owner.
Includes installation of 6351 ft. 6-in. concrete sewer pipe, 4669 ft. 8-in. pipe, 2861 ft. 10-in. pipe, 4550 ft. 12-in. pipe, 900 ft. 18-in. vitrified clay sewer pipe, 66 ft. 18-in. cast iron pipe, 66 ft. 12-in. cast iron pipe, 86 ft. 24-in. steel casing pipe, 845 ft. 24-in. concrete sewer pipe, 72 manholes, etc.
Low Bidder—Smith Bros., Vancouver, Wash., $94,689.
Other bids March 11 were:
Statewide Construction Co., Seattle, Wash., $99,044.
Henshaw Bros., Portland, Ore., $99,599.
Bergh & Olds, Tacoma, Wash., $103,313.
P. S. Lord, Portland, Ore., $113,181.

3/21/47 39
Contract Awarded
Pipe Conduit and Appurtenances Cost $28,555.10
OAKLAND, Calif., Alameda County. Highland-way and a portion of MacArthur Blvd., between 55th Ave. and Pierson St.
Owner—City of Oakland, Charles N. Don, city clerk, City Hall, Oakland, Calif.
City Engineer—Walter N. Frickstad, 7th floor, City Hall, Oakland, Calif.
Contractor—D. J. Bressi, 305 Linden Ave., South San Francisco, Calif.

3/21/47 39
Plans in Progress—Owner Will Ask Bids Within Two to Six Months
Sanitary Sewer Lines Cost, $180,000
EAST MERCED, Calif., Merced Co.
Owner—City of Merced, J. E. Fritz, mayor, G. E. Winton, city engineer, City Hall, Merced, Calif.
Consulting Engineer—W. A McCanless, City Hall, Merced, Calif.

3/20/47 39
Contract Awarded
Sanitary Sewers Cost, $90,696.39
MONTEBELLO, Calif., Los Angeles County. Concourse Ave., etc.
Owner—City of Montebello, city clerk City Hall, Montebello, Calif.
Plans by Engrg. Dept. of Owner
Contractor—Bebek & Brkich, 238 W. Florence Ave., Los Angeles, Calif.

3/20/47 39
Proposed—Sewers Cost, $88,000
REDDING, Calif., Shasta Co. Garden and Olivia Tracts.
Owner—City of Redding, Daniel S. Carlton, City Atty.; W. W. Green, Planning Engineer, City Hall, Redding, Calif.

3/20/47 39
Owner aking Bids—Due Apr. 9, 8 P. M.
Lateral & Sub-Trunk Sewers
NEWPORT, Wash.
Owner — Town of Newport, C. E. Jaynes, Town Clerk, Town Hall, Newport, Wash.
Engineer—H. A. Sewell, Newport, Wash.
Includes 14,209 lin. ft. 6 in. sewer pipe; 9255 lin. ft. 8 in. do; 2657 lin. ft. 10 in. do; 795 lin. ft. 12 in. do; and 218 lin. ft. 15 in. do; 150 lin. ft. 6 in. cast iron pipe; 103 lin. ft. 8 in. do; 20 lin. ft. 12 in. do; 63 manholes, 2 pump manholes, 2 flush tanks, 19 cleanouts and 6 catchbasins.
Specifications obtainable from office of the Engineer upon deposit of $25.00.

3/20/47 39
Plans In Progress—Bond Election in Amount of $75,000 Proposed for June—Sanitary Sewer System Cost, $75,000
KINGSBURG, Calif., Fresno County.
Owner — City of Kingsburg, Oscar Erickson, City Supt., City Hall, Kingsburg, Calif.
City Engineer—A. J. Ross, City Hall, Kingsburg, Calif.

3/20/47 39
Bond Election in Amount of $50,000 Proposed for June—Industrial Sewer System Cost, $150,000
KINGSBURG, Calif., Fresno County
Owner — City of Kingsburg, Oscar Erickson, City Supt., City Hall, Kingsburg, Calif.
City Engineer—A. J. Ross, City Hall, Kingsburg, Calif.
Consulting Engineer—Chas. Gilman Hyde, Professor Emeritus of Engineering, University of California, Berkeley, Calif.
Includes two new sewer lines, 12- and 18-in., sand filter beds and installation of receiving dump and pumping station.

40— STREETS AND HIGHWAYS

3/24/47 40
Proposed
Streets, Sewers and Water System
RENO, Nev., Washoe Co., Albion Tract No. 1.
Owner—City of Reno, T. L. Taylor, City Clerk, City Hall, Reno, Nev.
City Engineer—E. C. Frisch, City Hall, Reno, Nev.
Includes grading and paving, sanitary sewer mains, water mains

3/24/47 40
Proposed
Streets, Sewers & Water System
RENO, Nev. ,Washoe Co. Parkside Vista Tract on Idlewild Park Road
Owner—City of Reno, T. L. Taylor, City Clerk, City Hall, Reno, Nev.
City Engineer—E. C. Frisch, City Hall, Reno, Nev.
Includes grading and paving, sanitary sewers and water mains

3/24/47 40
FWA Funds Advanced
Street Improvements Cost $136,350
LAS VEGAS, N. M.
Owner—City of Las Vegas, Mayor Alfred E. Rogers, City Hall, Las Vegas, N. M.
Engineer—Southwestern Engineering Co. of Albuquerque, N. M.
Includes grading; paving; curbs and gutters; sidewalks, etc.

3/25/47 40
Low Bidders
Grading, Surfacing, Bridges
WASHINGTON.
Owner—State of Washington, Clarence B. Shain, director of highways, Olympia, Wash.
Plans by engineering department of owner.
Projects include:
1. Grading, constructing asphaltic concrete and cement concrete pavement, integral concrete curb and concrete sidewalk on 0.588 mile of P.S.H. No. 1, Sales Rd. to Tacoma in Pierce County, F.A.P. No. U-171 (15).
Low Bidder—Faine & Gallucci, Tacoma, Wash., $56,102.07.
2. Improving portion of P.S.H. No 3 as follows: Yakima, 1st St. from E. B St. to E. Beech St., resurfacing existing concrete pavement with asphaltic concrete; E. Beech St. to E. Lenox Ave., constructing concrete pavement strips 8 ft. wide along existing pavement, resurfacing existing pavement with asphaltic concrete, constructing concrete sidewalks and storm sewer; south corporate limits of Yakima at E. Lenox Ave., to Meade Ave., constructing 8-ft. concrete paving strips along existing pavement and concrete sidewalk in Yakima County, F.A.P. No. F-103 (9), U-165 (7) and U-132 (21)
Low Bidder—Fiorito Bros., Seattle, Wash., $184,081.48.
3. Reconstructing a part of the drawrest of Snohomish River bridge No. 1-A/205 on S.S.H. No. 1-A, a state project in Snohomish County.
Contract Awarded—American Pile Driving Co., Everett, Wash., $11,427.
4. Constructing reinforced concrete flat slab bridges, Corbett Creek bridge on S.S.H. No. 4-C, F.A.S. No. S-20 (1) and Rock Creek bridge and approaches on S.S.H. No. 2-G, state project in Lincoln County.
Bids Rejected. Low Bidder—Pfeiffer Hohner & Hargrave, Spokane, Wash, $59,135.
5. Surfacing and constructing light bituminous surface treatment on 4.5 miles of Steptoe Butte State Park Rd. in Whitman County, a state project.
Contract Awarded — Carbon Bros., Spokane, Wash., $31,825.
6. Clearing, grubbing grading and surfacing on 2.519 miles of Kalama River Road, Cowlitz County Road Project, F.A.S. No. S-145 (1)
Contract Awarded — Lynn Contr. & Engrg. Co., Chehalis, Wash., $73,720.54.
7. Clearing, grubbing, grading and surfacing on 1.358 miles of Eatonville Cutoff, Alder Section, Pierce County Road Project, F.A.S. No. S-107 (2)
Contract Awarded — Consolidated Constr. Co., Tacoma, Wash., $56,386.70.
8. Clearing, grubbing, grading, surfacing and constructing bituminous surface treatment road mix type on 7.61 miles of the Addy-Gifford Road, Stevens County Road Project, F.A.S. No. S-168 (1)
Contract Awarded—F. B. Hewett Co., Parkwater, Wash., $141,944.40.

3/19/47 40
Contract Awarded
Grading Cost $0.22 per cu. yd.
BURLINGAME, Calif.. San Mateo Co. Ray Park baseball diamond.
Owner—City of Burlingame, Herbert K. White, city clerk, City Hall, Burlingame, Calif.
Excavate approximately 5000 cu. yds. of earth and move within the playing field area. (Alterations to existing sprinkler system and play equipment and engineering and turf seeding to be done by City.
Contractor—Steeble & Brown, Box 669, San Mateo, Calif.

3/21/47 40
Contract Awarded
Farce and Curb Cost $1,709
SAN FRANCISCO, Calif. Opposite Kezar Stadium, Golden Gate Park.
Owner—Park Commission of the City and County of San Francisc, Gerald J. Linares secretary, McLaren Lodge, Golden Gate Park, San Francisco, Calif.
Plans by owner.
South Drive fence and curb.
Contractor—Cyclone Fence Division 440 Bayshore Blvd., San Francisco, Calif.

3/21/47 40
Plans in Progress
Paving
RENO, Calif., Washoe, Co.
Owner—City of Reno, T. L. Taylor, City Clerk. City Hall, Reno, Nev.
City Engineer—Edward C. Frisch, City Hall, Reno, Nev.
Includes (1) asphalt surfacing of 60,600 lin. ft. of streets, 32,400 ft. on north side and 37,200 on south side; cost $500,000; 26,000 lin. ft alley paving, $150,000; installing curbs and gutters along approx 140,000 lin. ft. of city's streets; cost $175,000 and approx. 60,000 ft. sidewalk installation, cost $70,000.

3/21/47 40
Contract Awarded
Street Improvement; Spec. 20,186 Cost $6,276
SAN FRANCISCO, Calif. Portions of Thrift Street between Capitol and Plymouth Avenues.
Owner — City and County of San Francisco, Department of Public Works, Room 282 City Hall, San Francisco, Calif.
City Engr.—Ralph Wadsworth, City Hall, San Francisco, Calif.
Contractor—Charles L. Harney, 575 Berry St., San Francisco, Calif.

3/21/47 40
Owner Taking Bids—Due Apr. 2 10 A. M.
Grading and Paving
LOS ANGELES Calif., Los Angeles Co. Imperial Highway between Main St. and Broadway.
Owner—Los Angeles City Board of Public Works, 133 City Hall, Los Angeles, Calif.
Plans by owner.
Specifications obtainable from the above office.

3/19/47 40
Owner Taking Bids—Due April 16, 2 P. M.
Grading
KERN CO., Calif., On Oconche Drive between State Highway Route 58 and 3.5. miles southerly
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engr.—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
About 3.4 miles grading, applying bituminous surface treatment to the central portion and penetration treatment to the shoulders.
Work involves:
(1) 15,000 cu. yds. rdwy. excav.;
(2) 380,000 sta. yds. overhaul;
(3) 310 cu. yds. struct. excav.;
(4) 9,000 cu. yds. import borrow;
(5) develop water supply and furnish equip.;
(6) 1,400 M. gals. apply water;
(7) 173 sta. finish rdwy.;
(8) 65 tons liq. asphalt, SC-2 pene. treatment;
(9) 50 tons liq. asph. RC-2 or RC-3 prime coat;
(10) 43,700 sq. yds. prepare, mix and shape surf. bit. surf. treatment;
(11) 360 tons liq. asph. SC-3 or SC-4 bit. surf. treatment;
(12) 35 tons asph. emulsion seal coat;
(13) 430 tons screenings seal coat;
(14) 60 cu. yds class A Port. cem. conc. structs.;
(15) 288 lin. ft. 30x5 inch part circ CM culvert 8 gage;
(16) 12 each culvert markers;
(17) 2,000 lbs. bar reinf. steel.
Specifications obtainable from the above office.

3/25/47 40
Contemplated
Surfacing
COLUSA, Calif., Colusa Co.
Owner—City of Colusa, City Hall Colusa, Calif.
Includes sealing with heavy coat of pebble surfacing 25 blocks of residential streets.

3/25/47 41
Truck
Bids Wanted
CHICO, Calif., Butte Co. —Until Apr. 2, 5 p. m. bids will be received by the Chico City School Dist., F. J. Martin, Clerk, 448 Salem St., Chico, Calif., for furnishing ½ or ¾ ton pickup truck.
Specifications obtainable from the above office.

3/25/47 40
Owner—Taking Bids—Due April 11, 5 P. M.
Street Improvements
SACRAMENTO, Calif., Sacramento County. Streets adjacent to Buckman Court, Van Osten Tract and Macmeve Tract.
Owner—City of Sacramento, H. G. Denton, city clerk, City Hall, Sacramento, Calif.
The work involves:
(1) 1090 cu. yds. excavation and grading;
(2) 2220 lin. ft. curb and gutter cut No. 13 to construct;
(3) 9900 sq. ft. 3½-in. concrete sidewalk to construct;
(4) 27,000 sq. ft. 5½-in. concrete pavement to construct;
(5) 940 sq. ft. asphaltic concrete pavement to construct;
(6) 4 street monuments to place;
(7) 3 gutter drains cut No. 11 to place;
(8) 4 manholes to construct;
(9) 512 lin. ft. 6-in. V.I. sewer pipe;
(10) 1102 lin. ft. 8-in. V.I. sewer pipe;
(11) 18 8x8x6-in. tees to place;
(12) 21 6x6x4-in. wyes to place;
(13) 140 lin. ft. curb and gutter No. 13 to remove;
(14) 630 sq. ft. 3½-in. sidewalk concrete to remove;
(15) 88 sq. ft. 5½-in. concrete pavement to remove;
(16) 1 10-in. clivo tree to remove;
(17) 1 water system complete in place.
Specifications obtainable from the above office.

3/25/47 40
Owner Taking Bids—Due April 1, 10 A. M.
Grading, Surfacing & Bridges
WASHINGTON
Owner—State of Washington Director of Highways Clarence B. Shain, Olympia, Wash.
Plans by engineering department.
Projects include:
1. Clearing, grubbing and grading and constructing steel girder farm bridge on 4.357 miles of P.S.H. No. 1, Ostrander to Castle Rock in Cowlitz County, F.A.P. No. FI-22 (8) involving 52 acres of clearing, 28 acres of grubbing, 94,840 cubic yards of common excavation, 103,800 cubic yards of solid rock excavation, 2,880 cubic yards of structure excavation, 1,035 cubic yards of gravel backfill, 6,560 cubic yards of crushed stone surfacing, 3,170 cubic yards of ballast, 595 cubic yards of concrete, 104,106 pounds of steel reinforcing bars, 880 cubic yards of loose riprap, 5,490 linear feet of culvert pipe, 2,000 pounds structural steel, 500 linear feet of treated timber piling, lump sum erecting structural steel, and other items.
2. Clearing, grubbing, grading surfacing and constructing asphaltic concrete pavement on 3.675 miles of P.S.H. No. 2, Spokane to Geiger Field Road in Spokane County, F.A.P. Nos. F-156 (21) & FI-156 (20) Unit 1 and State Project, involving lump sum clearing and grubbing, and about 1,000 cubic yards of common excavation, 9,950 cubic yards of solid rock excavation, 8,600 cubic yards of ballast, 4,370 cubic yards of crushed stone surfacing, 12,563 tons of asphaltic concrete, 1,139 linear feet of beam guard rail, 372 linear feet of culvert pipe and other items.
Excavate approximately 5000 cu. yds. of earth and move within the playing field area. (Alterations to existing sprinkler system and play equipment and engineering and turf seeding to be done by City.
Contractor—Steeble & Brown, Box 669, San Mateo, Calif.

3/19/47 40
Contract Awarded
Grading Cost $11,858.04
INYO COUNTY, Calif., Between Tecopa and State Highway Route 127
Owner—County of Inyo, Ray Lawrence, county clerk, Courthouse, Independence, Calif.
Plans by engineering department of owner.
Includes about 4.72 miles grading and applying penetration treatment, together with drainage facilities.
Contractor — Roland T. Reynolds, Route 4, Box 139, Anaheim, Calif

3/24/47 41
Plans in Progress
Gas Line Cost $55,000,000
TEXAS-VIRGINIA. Between Houston Texas, and Virginia.
Owner—Tennessee Gas & Transmission Co., Gardiner Symonds, president, Houston, Texas.
Engineer—Private plans.
Includes a 1000-mile gas line with booster stations, etc

3/24/47 41
Owner Taking Bids—Due April 8th
School Facilities
NAPA, Calif., Napa County
Owner—Napa Union High School and Junior College District, Dr. H. M. McPherson, district superintendent of schools, Hall of Records, Napa, Calif.
Architects—W. G. Corlett and Arthur W. Anderson, Bank of America Bldg., Oakland, Calif.
Installation of water mains, sewers, and electrical and gas connections for the new junior college plant to be moved from Camp Shoemaker

3/21/47 41
Owner Taking Bids—Due Apr. 9, 1 P. M.
Water Supply Facilities (Reconstruct); Serial 47-30
MUROC, Calif., Kern Co., Muroc Air Base.
Owner—Los Angeles District Corps of Engineers, War Dept., 751 So Figueroa St., Los Angeles, Calif.
Plans by owner.
Specifications obtainable from the above office.

3/21/47 41
Contract Awarded on Schedules 1 & 3 Discharge Pipelines; Etc., Spec. 1588 Cost $73,131
YAKIMA PROJ., Wash., Roza Division along full reach of the canal between Yakima and Benton City, Wash.
Owner—U. S. Bureau of Reclamation, 7½ Second St., Yakima, Wash.
Plans by Engrg. Dept. of Owner.
Includes manifolds, discharge pipelines and outlet structures for 16 pumping plants.
Contractor—Scheumann & Johnson, Lloyd Bldg., Seattle, Wash.

3/21/47 41
Contract Awarded on Schedules 1A and 11A
San Vicente Pipeline, 2nd Unit Cost $683,595.65
SAN DIEGO, Calif., San Diego Co. From San Vicente Reservoir to Lakeside.
Owner — City of San Diego, City Clerk, City Hall, San Diego, Calif.
Plans by Engrg. Dept. of Owner.
The work is divided into two sections. Section 1 extends from San Vicente Reservoir to station 143 plus 10, a distance of about 14,800 ft., with two alternate bidding schedules: Schedule 1-a for reinforced concrete cylinder pipe and Schedule 1-b for welded steel pipe. Section 2 extends from station 143 plus 10 to Lakeside, a distance of about 7400 ft. Schedule 2 provides for the installation of reinforced concrete cylinder pipe.
Contractor—American Pipe & Construction Co., 4635 Firestone Blvd., South Gate, Calif

3/21/47 41
Owner Will Ask Bids When Delivery Dates of Materials for Which Bids Will be Opened April 2 Are Known
Water Mains (Install Only)
LODI, Calif., San Joaquin County.
Owner—City of Lodi, John Blakely, city clerk, City Hall, Lodi, Calif.
City Engineer — Clinton Henning, City Hall, Lodi, Calif.

3/24/47 41
Contract Awarded
Install Pipe Cost $16,307
SAN BRUNO, Calif., San Mateo Co. Milla Park No. 2.
Owner — City of San Bruno, Ralph E. Woodman, city clerk, City Hall, San Bruno, Calif.
City Engineer — C. L. White City Hall, San Bruno, Calif.
Contractor—L. C. Jensen, 2525 64th Ave., Oakland, Calif

3/24/47 41
Bids Rejected
Water Mains
VANCOUVER, Wash. Hazel Dell District.
Owner—Public Utility District No. 1, Clark County, 219 Central Bldg.,

(Continued on Page 14)

41—GAS, WATER AND OIL PIPE LINES

3/24/47 41
Plans in Progress
Gas Line Cost $55,000,000
TEXAS-VIRGINIA. Between Houston Texas, and Virginia.
Owner—Tennessee Gas & Transmission Co., Gardiner Symonds, president, Houston, Texas.

Supplies and Materials
Bids Wanted
PANAMA CANAL, Canal Zone.—Bids will be received by the General Purchasing Officer, The Panama Canal, Washington 25, D. C., for miscellaneous materials as follows:

March 28

Sch. 8553—Partition lavatory fittings; locks and lock-trim; handrail brackets; saah balances; showcase hardware; glass wire, clear; 30 safety treads; natural slate blackboards; cork bulletin boards; asbestos millboard; 1400 lbs. cement-floor hardener; 100 gallons exterior traffic paint; 1000 dry batteries; 2500 cord sets for heating appliances; 36 50-ft. steel measuring tapes; 36 100-ft. do and 150 sheets welded wire fabric for concrete reinforcement.

March 31

Sch. 8556—1 centrifugal blower; 6 instructors' tables; 2 instructors' tables; 12 students' tables; 4 prison type lavatories; 1 prison type water closet; 13 drinking fountains; 12,000 steel dowels; 12,000 steel dowel sleeves; 12 pneumatic backfill tampers; 100 tons foundry pig iron; 1500 fire bricks; 50 safety switches; 50 junction or pull boxes; 30 electric signal bells; 20 gross practice arrows; 470 ft. rubber radiator hose.

Sch. 8555—150 90-degree street pipe elbows; 1000 ft. ¾-in. brass pipe; 2000 ft. 1-in. copper tubing; 200 ft. ¾-in. o. d. steel tubing; 10 water gate valves; 100 compression faucets; 1300 lbs. corrosion-resisting bar steel; 600 lbs. sheet copper; 1400 lbs. sheet aluminum; 500 lbs. sheet brass; 400 lbs. brass rod; 200 lbs. do; 1000 lbs. brass rod.

3/24/47 42
Top Soil—Bids Rejected
ALAMEDA, Calif., Alameda Co.—Bids submitted March 3 were rejected by the City of Alameda, J. P. Clark, city clerk, City Hall, Alameda, Calif., for 500 cu. yds. top soil delivered to Bay Farm Island.
As previously reported Arias-Knapp Co., 961 41st St., Oakland, Calif., at $2 per cu. yd. submitted the low bid.

3/24/47 42
Sale of Cable—Bids Wanted
SAN FRANCISCO, Calif. — War Assets Admin., 33 Berry St., San Francisco, Calif., announces sale of Navy and Maritime cable to normal trade channels with closing date set for Apr. 30, 4 p. m.

3/24/47 42
Pipe, Bolts, Etc.—Bids Rejected—To Be Readvertised as Spec. 1757—To Open April 16
DESCHUTES PROJ., Ore.—Bids submitted February 5 under Spec 1646 have been rejected by the U. S. Bureau of Reclamation, Denver, Col., for furnishing and delivering f.o.b. cars at the shipping point or fob cars at Madras, Ore., one 96-inch diameter plate steel pipe with structural steel supports, anchor bolts and 24 sets of field-weld test plates for the Willow Creek siphon, north unit main canal, Deschutes Project, Ore. The pipe will be installed by the government

3/24/47 42
Structural Steel
Bids Wanted
COLUMBIA BASIN PROJECT, Washington.—Until April 22, 2 P. M., bids will be received by the U. S. Bureau of Reclamation, Customs House, Denver, Colo., under Spec. 1749 for furnishing and delivering f.o.b. cars at the shipping point or f.o.b. cars at Pasco, Wash., at the option of the bidder, structural steel framework, roof and sidewall panels and other materials for a steel pumping plant building for Pasco pumping plant, Columbia Basin Project, Washington. The materials will be erected by the government. No charge for copies of the specifications to prospective bidders; to others, $1.25, not returnable.

3/25/47 42
Poles—Low and Only Bidder
DAVIS DAM, Ariz.—J. H. Baxter & Co., 333 Montgomery St., San Francisco, Calif., submitted the only bid at unit prices, f.o.b. Alhambra, or Long Beach, poles for the 161-kv and 115-kv transmission lines for the Davis dam project, Ariz.-Nev. Invit. 7475-A, as follows:

Schedule 1
(1) 4, 45-foot. class 3poles;
(2) 20, 50-ft. class 2 poles;
(3) 120, 55-ft. class 2 poles;
(4) 400, 60-ft. class 2 poles;
(5) 1,030 65-ft. class 2 poles;
(6) 400, 70-ft. class 2 poles;
(7) 160, 75-ft. class 2 poles;
(8) 6, 80-ft. class 2 poles;

Schedule 2
(9) 4, 45-ft. class 2 poles;
(10) 30, 50-ft. class 2 poles;
(11) 120, 55-ft. class 2 poles;
(12) 500, 60-ft. class 2 poles;
(13) 500, 65-ft. class 2 poles;
(14) 250, 70-ft. class 2 poles;
(15) 60, 75-ft. class 2 poles;
(16) 4, 80-ft. class 2 poles;

J. H Baxter and Co., San Francisco, Calif., f.o.b. Alhambra or Long Beach (1) $43.75; (2) $57.70; (3) $71.15; (4) $81.50; (5) $92.65; (6) $104.00; (7) $115.80; (8) $132.60; (9) $45.00; (10) $59.40; (11) $73.10; (12) $83.25; (13) $95.20; (14) $106.90; (15) $119.50; (16) $136.20; net.

3/25/47 42
Reinforcement Bars
Bids Wanted
GILA PROJECT, Arizona.—Until April 2, 2 P. M., bids will be received by the U. S. Bureau of Reclamation, Customs House, Denver 2, Colo., under Inv. A-24,589-Q-1 for reinforcement bars, f.o.b. shipping point and/or Yuma, Ariz.
Specifications obtainable from the above office.

3/25/47 42
Reinforcement Bars
Bids Wanted
COLORADO - BIG THOMPSON PROJECT, Colorado.—Until April 2, 2 P. M., bids will be received by the U. S. Bureau of Reclamation, Customs House, Denver 2, Colo., under Inv. F-46,416-A for reinforcement bars, f.o.b. shipping point and/or Fort Collins, Colo.
Specifications obtainable from the above office.

3/25/47 42
Reinforcement Bars
Bids Wanted
CENTRAL VALLEY PROJECT, California.—Until April 2, 2 P. M., bids will be received by the U. S. Bureau of Reclamation, Customs House, Denver 2, Colo., under Inv. E-33,071-A-2 for reinforcement bars for concrete, f.o.b. shipping point and/or Westley, Calif., as follows:
(1) 637,000 lbs. ⅝-in. and larger round deformed bars;
(2) 295,000 lbs. ⅝-in. round deformed bars;
(3) 175,000 lbs. ¼-in. round deformed bars;
(4) 92,000 lbs. ⅝-in. round deformed bars.
Specifications obtainable from the above office.

3/25/47 42
Steel Strand
Bids Wanted
KENDRICK PROJECT, Wyoming.—Until April 4, 2 P. M., bids will be received by the U. S. Bureau of Reclamation, Customs House, Denver, Colo., under bid No. C-22,397-A for 3,200,000 lin. ft. ⅜-in. diameter high-strength steel strand, f.o.b. shipping point and/or Gering, Neb.; Cheyenne, Laramie and Medicine Bow, Wyo., and Greeley, Colo.
Specifications obtainable from the above office.

3/25/47 42
Electric Cable
Bids Wanted
SAN FRANCISCO, Calif.—Until March 31, 3 P. M., bids will be received by Purchaser of Supplies M. H. Gerry, 270 City Hall, San Francisco, Calif., for furnishing and delivering wire and cable for the Department of Electricity.
Specifications obtainable from the above office.

3/25/47 42
Suspension Clamps, Etc.
Bids Wanted
DAVIS DAM, Arizona.—Until April 1, 2 P. M., bids will be received by the U. S. Bureau of Reclamation, Customs House, Denver 2, Colo., under Inv. A-7001-A for suspension clamps, etc., f.o.b. shipping point and/or Ehrenberg, Ariz.
Specifications obtainable from the above office.

3/24/47 42
Suspension Clamps, Etc.
Bids Wanted
MISSOURI BASIN PROJECT, Nebraska.—Until April 1, 2 P. M., bids will be received by the U. S. Bureau of Reclamation, Customs House, Denver, Colo., under Inv. 67,500-B-1 for suspension clamps and hooks, double-strain yoke assemblies, etc., f.o.b. shipping point and/or Gering, Neb., and Sidney, Neb.
Specifications obtainable from the above office.

3/24/47 42
Fuel Oil
Low and Only Bidders
SACRAMENTO, Calif., Sacramento Co.—The following submitted bids March 19 to the State Purchasing Agent, Sacramento, Calif., under Req. 62183, Quo. 49022, for 12,000 gallons diesel engine fuel oil delivered to storage tanks at Goshen maintenance station:
Shell Oil Co., $.075.
Tidewater Oil Co., $.0679.
Sunland Refining Co., $.0679.
Valley Oil, Merced, $.065; awarded.

3/25/47 • 42
Portland Cement
Bids Wanted
COLORADO - BIG THOMPSON PROJECT, Colorado.—Until March 31, 2 P. M., bids will be received by the U. S. Bureau of Reclamation, Customs House, Denver, Colo., under Inv. A-4,410-A for 40,000 bbls. portland cement in bulk (1) f.o.b. cars at shipping point; (2) f.o.b. trucks at shipping point; (3) f.o.b. cars Loveland, Colo., or (4) in a ground-level unloading hopper at east portal of Ramshorn tunnel and/or south portal of Proserpine tunnel, approximately three miles south of Estes Park, Colo.
Specifications obtainable from the above office.

3/25/47 • 42
Reinforcement Bars
Bids Wanted
SAN FRANCISCO, Calif.—Until March 31, 2 P. M., bids will be received by the U. S. Treasury Department, 100 McAllister St., San Francisco 2, Calif., under bid No. SF-3828-47 for reinforcement bars for concrete, f.o.b. vendor's plant or Coram, Calif.
Specifications obtainable from the above office.

3/25/47 • 42
Gate Parts
Contract Awarded
OGDEN RIVER PROJECT, Utah.—Pacific Coast Engrg. Co., Drawer E, Alameda, Calif., at $2125 awarded contract by the U. S. Bureau of Reclamation, Denver, Colo., under Spec. 1641 for furnishing and delivering f.o.b. cars at the shipping point or f.o.b. cars at Ogden, Utah, one lot of parts to be used in making alterations on drive unit for existing cylinder port gate, Ogden Canyon Conduit, Ogden River Project, Utah. The material will be installed by the government.

3/24/47 42
Radial Gates
Contract Awarded
BOISE PROJECT, Idaho.—Valley Iron Works, Yakima, Wash, at $18,209 awarded contract by the U. S. Bureau of Reclamation, Customs House, Denver, Colo., under Spec. 1658 for furnishing and delivering f.o.b. cars at the shipping point or f.o.b. cars at Mountain Home, Idaho, two 25-foot by 22-foot radial gates with 5-diameter rollers, pin bearings, 10-inch wall plates with but splices and gate sills; two 40,000-lb. capacity motor-driven radial-gate hoists for installation in the spillway of Anderson Ranch Dam, Boise Project, Idaho. The gates and hoists will be installed by the government.

3/24/47 42
Gate Valve Castings
Contracts Awarded
SAN FRANCISCO, Calif., Empire Foundry Co., 428 3rd St., Oakland, Calif., and Lincoln Iron Foundry, 1000 25th St., San Francisco, Calif., awarded contract by Purchaser of Supplies, M. H. Gerry, 270 City Hall, San Francisco, Calif., under Inv. 2841 for furnishing and delivering approximately 52,000 lbs. cast iron gate valve castings from city patterns.

3/24/47 42
Pipe—Low and Only Bidder
CALISTOGA, Calif., Napa Co.—The Johns-Manville Sales Corp., 116 New Montgomery St., San Francisco, Calif., at $1.846 per foot, awarded contract by the City of Calistoga, George C. Locey, city clerk, City Hall, Calistoga, Calif., for furnishing 1500 lin. ft. of 10-inch transite pipe, manufactured from asbestos and hydraulic cement in standard lengths of 13 ft., including couplings.

43—MACHINERY AND EQUIPMENT

3/25/47 43
Gate Valve, Etc.
Low and Only Bidders
PROVO RIVER PROJECT, Utah.—Following submitted bids Mar 12 to the U. S. Bureau of Reclamation, Customs House, Denver, Colo., under Spec. 1692 for furnishing and delivering f.o.b. cars at the shipping point or f.o.b. cars at Nash Utah, one (1) 30-inch, 150-pound, steel-body, flanged gate valve faced and drilled with 4-inch by-pass, and equipped for pull-chain operation; one (1) 24-inch 125-pound, flanged check valve of the non-slam tilting disk type, for steel seat; one (1) sump pump of the deep-well turbine type, direct-connected to a vertical 3-phase, 220-volt motor to discharge 600 gallons per minute against a total dynamic head of 50 feet; one (1) water jet primer of the fixed nozzle type to discharge 20 cubic feet of air per minute against a negative head of 15 feet of water; three (3) flowmeters for indicating, recording, and totalizing the flow at various points in the system, for Jordan Narrows Pumping Plant, Deer Creek Division, Provo River Project, Utah. Two (2) of the flowmeters shall be of the mercury-well-float-and-cable-actuated type. One (1) flowmeter shall be of the water-wheel-float-and-cable-actuated type. The apparatus will be installed by the Government.
Item 1:
Pump and Equipment Co., Seattle, Wash., $2941; ship 135 days; no weight given; f.o.b. nearest railroad siding at destination; terms 1%—10 days No equalization offered. Firm bid.
Item 2:
Chapman Valve Mfg. Co., Indian Orchard, Mass.; $3508; ship 180 days; 5000 lbs.—Springfield, Mass.; f.o.b. Pleasant Grove, Utah; terms 2%—10 days. No equalization offered. Firm bid.
Item 2:
Pump and Equipment Co., Seattle, Wash., and Chapman Valve Mfg. Co., Indian Orchard, Mass., both bid $1050; firm bid. No equalization offered. The exceptions are listed below:
Pump and Equipment Co., ship 8 days; no weight given; f.o.b. nearest railroad siding; terms 1%—10 days.
Chapman Valve Mfg. Co., ship 150 days; 3200 lbs.—Springfield, Mass.; f.o.b. Pleasant Grove, Utah; terms 2%—10 days.
Item 3:
Pump and Equipment Co., Seattle, Wash., $807; ship 90 days; 2400 lbs.—Alhambra, Calif.; f.o.b. nearest railroad siding; terms 1%—10 days. No equalization offered. Firm bid.
Water Engineering Co., Denver, Colo., $1645; ship 252 days; 1645 lbs.—Los Angeles; f.o.b. Pleasant Grove, Utah; terms net. No equalization offered. Firm bid.
Worthington Pump and Machinery Corp., Denver, Colo., $857.97; ship 210 days; 1153 lbs.—pump unit and 255 lbs.—motor; f.o.b. Denver with freight allow to destination; terms net No equalization offered. Firm bid.
F. H. Whiting Co., Denver, Colo., f.o.b. Pleasant Grove, Utah, $907 net, no equalization.
Utility Engineers, Inc., Salt Lake City, Utah; f.o.b. railroad siding nearest Nash, Utah $944; net; no equalization.
Item 4:
No bids received.
Item 5:
Builders Providence, Inc., Division of Builders Iron Foundry; Providence, R. I., $1556; ship 112 days; 625 lbs.; f.o.b. Providence; terms net. Equalization is offered. Firm bid.
Wine and Smelter Supply Co., Denver, Colo., 2 motor at $422 each and 1 motor at $542; ship 8 weeks; no weight cr f.o.b. point given; terms net. Firm bid.

No. 1, item 1, $164,-021; ship 1 valve without motor 390 days and motor 524 days; ship 1 valve without motor 420 days and motor 524 days; ship 1 valve without motor 450 days and motor 524 days; ship 1 valve without motor 480 days and motor 524 days; ship 1 valve without motor 510 days and motor 524 days; 364,400 lbs.; item 2, $1073; ship 180 days; 5850 lbs.; item 3, $283; ship 390 days; 350 lbs.; ship all items f.o.b. Sunnyvale; total bid of Sch. No. 1, $165,577; Sch. No. 2, item 4, $75,598; ship 1 valve without motor 330 days and motor 524 days; ship 1 valve without motor 360 days and motor 524 days; 145,840 lbs.; item 5, $486; ship 180 days; 2340 lbs.; item 6, $283; ship 330 days; 350 lbs.; ship all items f.o.b. Sunnyvale; total bid of Sch. No. 2, $76,367; terms net. Combination bid of Sch. Nos. 1 and 2, $234,994. No equalization offered.

Filer & Stowell Co., Milwaukee, Wis., Sch. No. 1, item 1, $173,210; ship 1 valve without motor 330 days and motor 450 days; ship 1 valve without motor 360 days and motor 450 days; ship 1 valve without motor 390 days and motor 450 days; ship 1 valve without motor 420 days and motor 450 days; and ship 1 valve and motor 450 days; 350,000 lbs.; item 2, $1184; ship 180 days; 7200 lbs.; item 3, $393; ship 333 days; 500 lbs.; ship all items f.o.b. Milwaukee; total bid for Sch. No. 1, $174,917; Sch. No. 2, item 4, $80,581; ship 1 valve without motor 270 days and motor 450 days; ship 1 valve without motor 300 days and motor 450 days; 140,000 lbs.; item 5, $612; ship 180 days; 2900 lbs.; item 6, $393; ship 270 days; 500 lbs.; ship all items f.o.b. Milwaukee; total bid of Sch. No. 2, $81,586; terms net. Combination bid of Sch. Nos. 1 and 2, $227,283. No equalization offered.

3/21/47 43
Disconnecting Switch
Bids Wanted
FT. PECK PROJECT, Montana.—Until Apr. 15, 2 p. m. bids will be received by the U. S. Bureau of Reclamation, Customhouse, Denver, Colo., under Spec. 1730 for furnishing and delivering f.o.b. cars at the shipping point or f.o.b. cars at Savage, Montana, at the option of the bidder, one (1) 69,000-volt, 600-ampere, 3-pole, single-throw, manually-gang-operated, outdoor-type disconnecting switch, with manually-gang-operated grounding blades for the Savage Pumping Plant 69-kv Transmission Line, Fort Peck Project, Montana. The apparatus will be installed by the Government.

No charge for copies of the specifications to prospective bidders; to others $0.75, not returnable.

3/21/47 43
Pumping Units
Low and Only Bidders
COLUMBIA BASIN PROJECT, Wash. — Following submitted bids March12 to U. S. Bureau of Reclamation, Custom-house, Denver, Colo., under Spec. 1683 for furnishing and delivering f.o.b. cars at the shipping point or f.o.b. cars at Pasco, Washington, at the option of the bidder, seven motor-driven, vertical-shaft pumping units, complete, for installation in six relift pumping plants, Pasco Lateral System, Columbia Basin Project, Washington. The apparatus will be installed by the Government.

Crane-O'Fallon Co., Denver, Colo., Sched. No. 1, item 1, $2607; 2500 lbs.; item 2, $3158.50; 2589 lbs.; item 3, $2051.50; 1676 lbs.; item 4, $2035.50; 1650 lbs.; item 5, $2680; 2290 lbs.; shipping all items from Hamilton, Ohio, no time given; item 6, $25 per day—engineer; total bid, $12,513.50; Sched. 2, item 7, $13,564; 11,960 lbs.; no shipping time given item 8, $25 per day—engineer; both schedules f.o.b. destination; terms net. Combination bid of $26,077.50. Will equalize.

Foods Machinery Corp, Peerless Pump Division, Los Angeles, Calif., Sched. 1, item 1, $2606; 2458 & 485 lbs.; item 2, $3066.50; 2837 & 605 lbs.; item 3, $2011.50; 1805 and 360 lbs.; item 4, $1962.50; 1858 and 330 lbs.; item 5, $2928.50; 2690 and 330 lbs.; ship all items from Los Angeles and Quincy, Ill.; 150 days; item 6, $25 per day—engineer; total bid $12,-576.10; Sched No. 2, item 7, $13,581; 7511 & 2860 lbs. from Los Angeles and Quincy; 9300 lbs.—Schenectady, N. Y.; item 8, $25 per day—engineer; ship 150 days; both schedules f.o.b. destination; terms net. Combination bid of $26,127.10. No equalization offered.

Fairbanks-Morse Co., Kansas City, Mo., Sched. No. 1, item 1, $2912; 2700 & 590 lbs.; item 2, $3255.50; 3300 & 1100 lbs; item 3, 2134.50; 2200 & 700 lbs.; item 4, $2228.50; 2500 & 650 lbs.; item 5, $2654; 2600 & 500 lbs.—shipping all items from Pamona and Oakland; 360 days; item 6, $25 per day—engineer; total bid of $13,184.50; Sched. No. 2, item 7; $13,617; 9300 lbs & 13,700 lbs.—shipping from Pamona and Schenectady; item 8, $25 per day—engineer; both schedules f.o.b. destination; terms net. Combination bid of $26,801.50. No equalization offered

3/24/47 43
Switchboard Extensions
Bids Wanted
CENTRAL VALLEY PROJECT, California.—Until April 29, 2 P. M., bids will be received by the U. S. Bureau of Reclamation, Customs House, Denver, Colo., under Spec. 1750 for furnishing and delivering f.o.b. cars at the shipping point or f.o.b. cars at Redding, Calif., one (1) extension to main control switchboard CS; one (1) extension to auxillary switchboard CAS for Keswick power plant, Central Valley Project, California. The apparatus will be installed by the government. No charge for copies of the specifications to prospective bidders; to others, $1, not returnable.

3/24/47 43
Transformers
Bids Wanted
DAVIS DAM PROJECT, Arizona-Nevada.—Until April 29, 2 P. M., bids will be received by the U. S. Bureau of Reclamation, Customs House, Denver, Colo., under Spec. 1754 for furnishing and delivering f.o.b. cars at the shipping point or f.o.b. cars at Bannock, Calif., five (5) 45,000/56,250/60,000-kva., 13,600- to 132,800/230,000 Y - volt, 3 - phase, 60 - cycle, oil - immersed, self-cooled/forced air-cooled, outdoor type power transformers for Davis power plant, Davis Dam Project, Arizona-Nevada. The apparatus will be installed by the government. No charge for copies of the specifications to prospective bidders; to others, $0.75, not returnable.

3/24/47 43
Transfer Car
Bids Wanted
BOISE PROJECT, Idaho. — Until April 18, 2 P. M., bids will be received by the U. S. Bureau of Reclamation, Customs House, Denver, Colo., under Spec. 1755 for furnishing and delivering f.o.b. cars at the shipping point or f.o.b. cars at Mountain Home, Idaho, one 30-ton transfer car for the Anderson Ranch Dam, Boise, Project, Idaho. The transfer car will be installed by the government. No charge for copies of the specifications to prospective bidders; to others, $0.75, not returnable.

3/24/47 43
Pipe and Test Plates, Etc.
Bids Wanted
DESCHUTES PROJECT, Oregon.—Until April 16, 2 P. M., bids will be received by the U. S. Bureau of Reclamation, Customs House, Denver, Colo., under bid No. 1757 for furnishing and delivering f.o.b. cars at the shipping point or f.o.b. cars at Madras, Ore., one 36-inch diameter plate-steel pipe with structural-steel supports, anchor bolts and twenty-four (24) sets of field-weld test plates for the Willow Creek siphon, North Unit Main Canal, Deschutes Project, Oregon. The pipe will be installed by the government. No charge for copies of the specifications to prospective bidders; to others, $1.50, not returnable.

3/24/47 43
Power Circuit Breaker, Etc.
Contracts Awarded
FORT PECK PROJECT, Montana.—The Pacific Electric Manufacturing Corp., 5815 3rd St., San Francisco, Calif., at (1) $8350, and Standard Transformer Co., Warren, Ohio, at (5) $2567.98, awarded contracts by the U. S. Bureau of Reclamation, Denver, Colo., under Spec. 1550 for power circuit breakers and metering equipment for Northern Electric Cooperative, Inc., substation and metering station.

3/24/47 43
School Bus
Bids Wanted
TRACY, Calif., San Joaquin Co.—Until April 12, 8 P. M., bids will be received by the Tracy Elementary School District, cleric, West Park School, Tracy, Calif., for furnishing one school bus with capacity of 71 passengers.

Specifications obtainable from the above office.

3/24/47 43
Gate Assembly
Contract Awarded
DENVER, Colo. — Willamette Iron & Steel Co., 3050 NW. Front St., Portland, Ore., at $93,987, awarded contract by the U. S. Bureau of Reclamation, Walker R. Young, chief engineer, Denver, Colo., under Spec. 1555 for furnishing and delivering f.o.b. cars at the shipping point or f.o.b. cars at Enders, Neb., and Wilds, Colo., at the option of the bidder, one high-pressure gate assembly for installation in the outlet works of Enders Dam, Frenchman-Cambridge Unit, Missouri Basin Project, Nebraska, consisting of one 6-ft. by 7-ft. 6-in. high-pressure gate, one 173,000-lb. hydraulic hoist, one hydraulic gate hanger with one single-throw and one double-throw mercury switch assembly, two conduit-lining transitions and one 1¾-in. standard shoulder eyebolt and also three high-pressure gate assemblies for installation in the penstock gate structure, Estes power plant, Colorado-Big Thompson Project, Colorado, consisting of three 6-ft. by 7-ft. 6-in. high-pressure gates, and three 173,000-lb. hydraulic hoists, three single-throw and three double-throw mercury switch assemblies and three 1¾-in. standard shoulder eyebolts. The materials will be installed by the government.

3/24/47 43
Synchronous Motors, Etc.
Bids Wanted
COLORADO - BIG THOMPSON PROJECT, Colorado.—Until April 25, 2 P. M. bids will be received by the U. S. Bureau of Reclamation, Customs House, Denver, Colo., under Spec. 1745 for furnishing and delivering f.o.b. cars at the shipping point or f.o.b. cars at Granby, Colo., three (3) vertical-shaft, 6600-volt, 3-phase, 60-cycle, alternating current, 0.90 leading power factor, synchronous motors with direct-connected exciters, each rated 6000-hp. at 327-rpm., complete with excitation-control cubicles and protective equipment cubicles, for the Granby pumping plant, Colorado-Big Thompson Project, Colorado. The apparatus will be installed by the government. No charge for copies of the specifications to prospective bidders; to others, $1.25, not returnable.

2/21/47 17
Ambulances
Contract Awarded
REDWOOD CITY, Calif., San Mateo Co.—J. A. Schaefer Co., 4627 Beverly Blvd., Los Angeles, Calif., at $5968 ea.; delivery July 1, awarded contract by the County of San Mateo, E. B. Smith, purchasing agent, Courthouse, Redwood City, Calif., for furnishing 2 ambulances

44— SUB-CONTRACT INFORMATION

3/21/47 44
Electrical and Mechanical Work—
Contracts Awarded
SEATTLE, Wash., King County.—W. E. Beggs Co., 234 6th Ave. North, Seattle, Wash., at $395,630 for mechanical work, and Industrial Electric Co., 1828 Yale Avenue, Seattle, Wash., at $114,621 for electrical work, awarded contracts by the University of Washington, Raymond B. Allen, president, Herbert T. Condon, secretary, Board of Regents, Room 1030, Henry Bldg., Seattle, Wash., for electrical and mechanical work for first unit of Health Science Bldg. at University of Washington Campus.

Plans by Architects Naramore, Bain, Brady & Johnson, Dexter Horton Bldg., and Associates McClelland & Jones, Republic Building, Seattle, Wash., and Supervising Architects, Bebb & Jones, Hoge Bldg., Seattle.

3/21/47 44
Lawn Sprinkler Valves, Etc.
Bids Wanted
SANTA CLARA, Calif., Santa Clara Co.—Until March 26, 2 P. M., bids will be received by the Federal Works Agency, Public Buildings Administration, office of the district engineer, 838 U. S. Appraiser's Bldg., San Francisco, Calif., for furnishing and installing lawn sprinkler valves, etc., at the U. S. Post Office Bldg., Santa Clara, Calif.

Plans and specifications obtainable from the above office of the district engineer.

3/21/47 44
Repairs to Concrete Beams—
Bids Wanted—Bidders Figuring
SAN FRANCISCO, Calif. — Until March 27, 2 P. M., bids will be received by the Board of State Harbor Commissioners, Ferry Building, San Francisco, Calif., Frank G. White chief engineer, for repairing reinforced concrete beams and girders of Piers 29, 31 and 33 on the waterfront of the City and County of San Francisco, Calif.

Plans and specifications obtainable from the above office of the chief engineer upon deposit of $10. Each bid must be accompanied by a certified check payable to the Board of State Harbor Commissioners in the amount of 5% of the bid.

Following contractors have taken out plans:

Johnson-Western Co., Box 416, Alameda, Calif.

The work involves furnishing and applying 45,700 sq. ft. mineral-surfaced asphalt prepared roll roofing.

TRAXCAVATE for PROFIT

The profitable machine on any job is the machine that keeps busy

The TRAXCAVATOR—front-end loader built by THE TRACKSON CO. and mounted on a "CATERPILLAR" diesel tractor—has been called "the busiest machine on the job" by many builders. It's the perfect machine for jobs that involve digging, loading, leveling, or backfilling, and for the handling and rehandling of materials.

HIGHLY VERSATILE
EASILY MOVED FROM JOB TO JOB

PLANS and Speculations

The latest figure on the proposed bond issue for transit and other improvements is $118,450,000. The original figure was about $56 million. Mayor Lapham has called a meet of his administrative planners to decide whether a bond issue in the $118,450,000 amount will be submitted to voters in November.

oOo

Mayor Lapham has recommended to the supervisors that the state should purchase Angel Island for state park purposes. City officials reported that the 640-acre island would not be practical for vets emergency housing.

oOo

Initial steps toward establishment of a Murray township recreation district were taken recently by the Livermore city council.

oOo

Gifts totaling $423,891 have been given to the current Mills College building program, according to Frank W. Wentworth, financial vice-president of the school.

oOo

Vallejo Community hospital will be taken over by Permanente Foundation from the federal works agency the first of April.

oOo

Officials of the Marin municipal water district have proposed to the state park commission that the state take over two areas of Mount Tamalpais totaling 40 acres for a state park.

oOo

Construction of a new North Sacramento city hall will be delayed until building costs have declined, city officials announced this week.

oOo

San Luis Obispo has contracted with the state for construction of the proposed new freeway at the city's north entrance by agreeing to relocate the city water main between the Motel Inn and the foot of Cuesta grade.

oOo

Redding city planning commission has presented to the city council a proposal to extend Akard Avenue and a rezoning of Eureka Way.

oOo

Establishment of a junior high school to serve seventh and eighth graders from the Esparto, Madison, Cottonwood, Gordon, Clover and Mount Pleasant districts has been proposed. The Esparto would be used.

oOo

Vallejo will be gifted with the deed to the $800,000 Franklin Junior High School building, the federal works agency has announced. The gift is one the condition that the school district build additional facilities to cost at least $25,000

oOo

Hayward's business district soon will have new, modern street signs.

AIA MEETS IN PALO ALTO NEXT TUESDAY

The Northern California Chapter of the American Institute of Architects will meet at Rickey's Studio Club south of Palo Alto, on Tuesday, April 1.

The program has been arranged by the members residing in Santa Clara and Santa Cruz Counties.

ISO OFFICIAL BODY

NEW YORK.—The International Organization for Standardization (ISO), has become the official body for international standardization work following ratification of its constitution and by-laws by the national standards bodies of 15 nations.

Geneva, Switzerland, will be the headquarters of ISO.

Hotel Construction Rules May Be Set Up By Government

WASHINGTON.—The Secretary of Commerce would be authorized to establish standards for construction of hotels and other buildings housing large numbers of persons under a house bill introduced by Congressman Camp and now before the committee on interstate and foreign commerce.

Camp drew his bill with a view to making such buildings safe against fire and provided that the Secretary of Commerce would be guided by National Bureau of Standards findings in drawing up his set of standards.

These standards would be applicable to materials used in building hotels and other structures for use in housing large numbers of people as well as to the buildings themselves.

Duties of the Secretary as outlined in the measure read:

"a—to set up and establish, from time to time, fire prevention standards for the construction, remodeling, and operation of hotels, apartments, schools and other buildings where large numbers of people congregate or are housed, and for the materials used in the same;

"b—to set up and establish, from time to time, standards for fire detection and for the lifesaving equipment and facilities of such buildings, and;

"c—to prepare and make suggestions and proposals for model state laws and municipal ordinances embodying such standards and to encourage the adoption of the same by state and municipal authorities."

It is further provided that the Secretary of Commerce shall publish and make readily available to interested persons, states and municipal authorities the standards and model laws

SEEK BETTER METHODS

NEW YORK.—Improved methods of applying ceramic tile direct to old plaster, wood and other wall surfaces are being sought in a research program of the Tile Council of America, according to A. R. McMannis, chairman of the Council's research committee.

GROOVER AND I

HONESTY, SIMPLIFIED

Yesterday's column had hardly enjoyed its morning coffee when some Reader wanted to know exactly my meaning in repeatedly mentioning our need for honesty in High Places.

☆ ☆ ☆

A fair question and I will answer with the most recent example at hand.

☆ ☆ ☆

You have just been told that it will be necessary for you to make a down payment of 500 million dollars to prevent the spread of Communism in Korea.

☆ ☆ ☆

The first point is that this planned expenditure in Korea has been some time in the cooking and did not just "happen" last week

☆ ☆ ☆

To more honestly state this situation, you are being clipped a half-billion dollars because Russia refuses to keep her part of the Potsdam Agreement regarding Korea!

☆ ☆ ☆

Let Claude Pepper explain that one away.

CEMENT MANUFACTURER ADDRESSES SEA MEETING

Otto Beuhner, Salt Lake City manufacturer of precast slabs, joists and artificial stone work, will address the Structural Engineers' Association dinner meeting next Tuesday.

It will be held in the Engineers' Club, with assembly at 5:30 and dinner at 6 p. m. The history of reinforced concrete construction, which originated in San Francisco about 1904, will be discussed, also. President William Moore will preside.

RETURN AQUATIC PARK

The San Francisco park commission announced today that Aquatic Park will be returned to the city by the government within three months. Rehabilitation of the building is estimated to cost $25,000 and to require 30 to 60 days.

Kaiser-Burns Project in San Jose to Be Dedicated; Seven Homes Built Each Week

SAN JOSE.—The first large group of houses in Kaiser Community Homes' 700-unit project here will be formally dedicated today in presentation ceremonies led by Industrialist Henry J. Kaiser and Fritz B. Burns, president of the company.

More than 100 city officials and civic leaders were to be on hand to see Kaiser and Burns present a veteran of World War II with the keys to one of the completed homes in the development.

The initial block of 173 Kaiser houses lies in a broad tract at the San Jose-Santa Clara boundary. Sixty houses already have been finished in this group, and completions are at the rate of seven a week.

The community site is dotted with beautiful walnut trees, is close to a developing business center, and adjacent to land set aside for later phases of the project.

Homes in the project are conventionally constructed.

A basic advantage of the Kaiser house is its combination of a single, standardized interior floor plan with a wide range of exterior designs. The homes are erected in five fundamental styles—Ranch house, Colonial, Californian, Suburban and New Englander. Upon that foundation more than 750 distinct variations can be devised by altering numerous details of architectural treatment.

The Kaiser organization has developed this "system of fundamental architectural variables" to a high degree of effectiveness. It relies chiefly upon changes in the position of the attached garage with respect to the house, in the form and pitch of the roof, in the setback of houses from the street, and in the community layout.

Other variations are the style and size of porches, the range of pastel colors used in exterior surfacing, and such secondary adornment as shutters, trellises and wainscoting.

The Kaiser houses here are notable for such quality features as "storage walls" — spacious closet areas utilizing the full interior depth of wall partitions; a Formica plastic sink-top practically impervious to damage from burns or scratches; asphalt tiling in bathroom, kitchen and service porch; two-car garage; wood shingles on all roofs; wide lot frontage; and hardwood flooring or high-grade carpeting.

Both two and three bedroom models are available. The two-bedroom types are priced at $9,650 and the three-bedroom units at $10,425. In cases where a detached garage is provided, the price is $200 more. Financing features a long-term loan with a down payment of at least $600.

Public Housing Would Benefit All Citizens, Especially Vets, Senate Committee Is Told

WASHINGTON.—Hearings of proponents of the Taft-Ellender-Wagner bill by the senate banking and currency committee have been nearly completed, and most of its opponents are yet to be heard.

Raymond M. Foley, national housing administrator and federal housing commissioner, told the senate committee that he favored S-866, and that it "reflects the results of the thorough senate studies and investigations", as well as the informed interest of the sponsors

at interest of 3%, and advance loans of 1% to assist cooperative groups to get started;

3. To invest the administrator of housing activities with directive powers, on the ground that a strong, central agency will act economically and effectively;

4. To establish a technical director for housing with authority to use funds, previously appropriated for housing, to finance the pioneer developmental and experimental work on factory - built housing in order to reduce costs;

5. To provide that development funds and 100% loans be available to new producers of factory - built housing in order to speed up the modernization of the building industry.

Other groups to appear before the committee advocating the T-E-W bill includes the American Federation of Labor, the Federal Council of Churches, the United States Conference of Mayors and the National Association of Housing Manufacturers.

Housing Czar Unwanted

Among the many who will vigorously oppose the legislation are the National Association of Home Builders, the National Association of Real Estate Boards, the Building Products Institute and other industry organizations.

"There is no place in this country for a peacetime housing czar as proposed in the Taft-Ellender-Wagner housing bill," Douglas Whitlock, chairman of the Building Products Institute, stated Monday.

"The construction industry itself proposed the creation of a housing commission of the general type specified in the bill to coordinate the activities of the various federal agencies dealing with housing matters, but there is no need whatsoever for a permanent housing administrator," Whitlock said.

"In the effort to justify his existence on the payroll and to expand the scope of his authority, an overall housing administrator inevitably would attempt to maintain governmental control of the building industry.

Impartiality Unlikely

"The federal housing administration and the Federal Home Loan Bank Administration which the administrator would coordinate, under the terms of the new W-E-T bill served private enterprise and the nation's home owners with entire satisfaction before the war and can do so again if left free to perform their functions without outside interference.

"Although the administrator is described in one part of the bill as a mere coordinator of housing activities, other sections make him the director of a far-flung urban redevelopment program and make him responsible for public housing policy. We hold that these diverse responsibilities are incompatible. No administrator whose principal activities consist of stimulating Federal programs in the housing and slum clearance field can be counted on to administer impartially the conflicting responsibility of guiding the government's credit agencies intended to aid private building.

'Separate Agencies'

"Past experience has shown that the opportunities to spend many millions of dollars of public funds take precedence in such a combination of responsibilities. If there is to be an agency devoted to public housing, it should be separate from those agencies which are devoted to helping private enterprise meet the nation's housing need."

(17) 5,900 tons min. agg. plant mix surf.;
(18) 950 lin. ft. raised bars and traffic fins;
(19) 76 tons asph. emulsion paint binder, curing seal and seal coats;
(20) 280 tons screenings seal coat;
(21) 10,000 cu. yds. port. cem. conc. pave.;
(22) 7,250 each tie bolt assemblies;
(23) 130 lin. ft. stand. timber bridge railing;
(24) 172 lin. ft special timber bridge railing Mission Creek bridge;
(25) 2,400 cu. yds. port. cem. conc. structs.;
(26) 200,000 lbs. bar reinf. steel;
(27) 21,000 lbs. misc. iron and steel;
(28) 3,260 lin. ft. furnish timber piles;
(29) 108 each drive timber piles; guide posts;
(30) 1,500 cu. yds. port. cem. conc. curbs and gutters;
(31) 110 cu. yds. port. cem. conc. sidewalks;
(32) 350 lin. ft. laminated guard railing;
(33) 125 each culvert markers and guide posts;

IRVINGTON PUMPING STATION

Low and Only Bidders
Irvington Pumping Station; Spec. 436 Cost, $87,559.50
NEAR IRVINGTON, Calif., Alameda County.
Owner—City and County of San Francisco, N. A. Eckart, general manager and chief engineer, 287 City Hall, San Francisco, Calif.
Plans by engineering department of owner.
Includes construction of 2200-hp. electrically operated pumping station with appurtenant structures and connecting steel pipes. Frame and stucco buildings consist of pump station, 25-ft. 8-in. by 54-ft. 6-in.; garage, 18x23-ft., and storehouse, 10x12-ft.
Low Bidder—Fred J. Early, Jr. Co., Inc., 369 Pine Street, San Francisco, Calif., $87,559.50.
The work involves:
(1) 1800 cu. yds. general excavation and grading;
(2) 275 cu. yds. excavation for structures and pipe;
(3) 48,000 sq. ft. surfacing for roadways;
(4) 150 cu. yds. concrete work;
(5) 25,000 lbs. reinforcing steel;
(6) lump sum, constructing pumping station above concrete work;
(7) lump sum, constructing garage above concrete work;
(8) lump sum, constructing storehouse above concrete work;
(9) lump sum, installing pumps, motors, valves and fittings furnished by the city;
(10) lump sum, furnishing and installing pressure gauges and miscellaneous small pipe and fittings;
(11) 12,000 lbs. furnish and install cast steel fittings;
(12) lump sum, furnish and install cast iron sole plates for pumping units;
(13) lump sum, electrical work;
(14) lump sum, furnish and install traveling crane and hoist;
(15) 12,500 lbs. furnish and lay welded steel pipe;
(16) 14,500 lbs. furnish and install steel pipe specials not included in other items;
(17) 31,500 lbs. reconditioning and installing 44-in. I.D. welded steel pipe furnished by the city;
(18) lump sum, installing 44x18in. Venturi meter furnished by the city;
(19) 4000 lbs. furnish and install miscellaneous steel work;
(20) 2000 lbs. furnish and install cast iron soil pipe and fittings;
(21) 5 each furnish and install 4-in. gate valves;
(22) 3 each furnish and install 4-in. vacuum valves;
(23) 9 each furnish and install air release valves;
(24) lump sum, furnish and install flexible couplings;
(25) 2000 lbs. furnish and install corrugated metal pipe culverts;
(26) lump sum, furnish and install septic tank system;
(27) lump sum, furnish and install domestic water supply piping and fittings;
(28) 2 M b.m. furnish and install Douglas fir lumber.

NEW Improved SCOOPMOBILE
Five NEW IMPROVEMENTS!

1 NEW "Shovel Action" BUCKET
A full load . . . plus! No more ramming into stock pile. Simply ease SCOOPMOBILE into pile and lift bucket with a full load . . . easier on the machine . . . faster, fuller!

2 HAND LEVER CONTROL
Two hand levers at operator's fingertips give positive, flexible control of bucket action. No more trip rope and "shock dumping" from unhandy elevations.

3 DISCHARGE ACTION
Full loads can now be discharged from very top of rack. (Up to 8 ft.) Partial loads can be discharged by closing bucket at any height while pouring.

4 NEW COUNTER BALANCE
The new SCOOPMOBILE keeps its feet on the ground! New counter balance (optional) is easy to attach to rear of Scoopmobile to accommodate heavy loads at top of rack.

5 CONTROLLED DIGGING ACTION
Improved double sheaves and mechanical improvements give entirely new control of digging angle. New design of bucket means NO spillage over rough terrain.

Aiken Bill Would Authorize Appropriation of $250 Million for College Veterans' Housing

WASHINGTON.—Little attention has been given to a bill just introduced by Senator George D. Aiken which would authorize the appropriation of $250 million to be granted by the federal works agency to colleges for the erection of housing for veteran students.

In the form in which it was introduced on the senate floor and referred to the labor and public welfare committee, the Aiken bill (S. 971) would amend Title V of the national defense housing act of 1940.

The funds so made available would be for construction projects which would be started prior to December 31, 1948. No grant would exceed 50 per cent of the cost of the educational facilities to the institution as determined by the federal works administrator.

Apportionment among the states of 75 per cent of the $250 million would be based on the total number of veterans in each state certified by Veterans Administration as eligible for education and training. The balance, or 25 per cent, would be alloted to institutions at the discretion of the administrator.

Should this bill get through congress in its present form, and all funds so provided are allocated, and used, it means that contractors will engage in a $500 million program for housing student veterans, all within the next two years.

The act defines "institution of higher learning" as including any educational institution as universities, colleges, junior colleges, or normal schools, which is:

1—a public institution, or

2—a private institution no part of the net earnings of which shall inure to the benefit of any private shareholder or individual.

When presenting the bill to congress, Senator Aiken said when the colleges opened last September, 1,090,000 veterans were enrolled for full - time instruction. This brought total enrollments to over 2 million.

"To meet this unprecedented increase in college enrollment and to carry out the implied contract between the federal government and our educational institutions to provide educational opportunities for every able veteran who chooses to take advantage of the GI bill, colleges and unversities, state and local governments, and the federal government have worked hand in hand," Senator Aiken said.

"Due to the scarcity of building materials and the immediacy of the demand, it was necessary to provide temporary housing and temporary classrooms and laboratories if institutions were to accept veterans through increasing their capacity for enrollment."

The senator pointed out that a survey of 12 institutions revealed expenditure of $8,462,000 by the schools themselves to enroll 74,000 veterans. This was spent on temporaries. At the same 12 colleges the federal government has spent $8,369,000 for the same purpose.

Based on a ratio of 5 to 8 in terms of relative expenditures, all institutions have spent for nonquota housing, for site preparation and other expenditures for temporary structures, something over $200 million.

Citing the intention of 3 million additional veterans to enroll as expressed in certificates of eligibility and entitlement, he said the estimate of an enrollment of 3 million by 1950-51 is conservative.

The United States office of education already has certified institutional needs for non-housing construction of more than 12 million square feet of floor space in excess of that which can be made available through appropriations for temporary facilities. The institutions have stated that they will require a total of 52 million square feet to adequately instruct veterans now enrolled.

State Building Boom To Require 20% of National Tile Output

LOS ANGELES. — California's pyramiding population and industrial growth is reflected in a staggering demand for tile and other building materials, Richard P. Bailey, west coast advisory committee member of the Tile Council of America, announced today.

Bailey, a Los Angeles and Hynes manufacturer, revealed California requirements account for about 20 per cent of the total national output which is expected to exceed 90 million square feet in 1947.

"Tile is probably the only building material used today which California manufacturers are selling for an average of 25 per cent less than 20 years ago," Bailey said. "Expanded plant and production facilities and economies effected through exhaustive laboratory research have made this and a wider selection of quality products possible."

Creations and installations of California's tile industry have established nation-wide "trends" and will continue to pace the field with products that not only harmonize or contrast with bathroom and kitchen fixtures, Bailey said, but with floor and furniture coverings and drapes to meet demands of some modern architects and interior decorators for "cordinated styling" of colors.

California Council members include General Tile Corp., Gladding, McBean & Co., Pacific Clay Products, Pacific Tile & Porcelain Co., and Pomona Tile Company.

SAVAGE OKAYS PLANS FOR $27,840,000 DAM ON GOULBURN RIVER

Dr. J. L. Savage, one of the world's best known engineers, famed for his work on the Grarnd Coulee and Boulder Dam, has endorsed studies on the $27,840,000 proposed Eildon Dam at Eildon Weir on the Goulburn River in Victoria, Australia, made by the Victorian state rivers and water supply commission.

Fundamental basis of the project is the increase of the area of the present Eildon Reservoir from 306,000 acre feet to 2,350,000 acre feet. The proposed dam would increase the capacity of existing storages on the Goulburn to four times the present ones, enabling local irrigation areas to be doubled.

RESIDENTS OPPOSE TEHACHAPI CHANGE

SACRAMENTO.—A bill by Senator Charles Deuel to transfer the California Institution for Women from Kern County to a new undesignated site and to utilize existing Tehachapi facilities as a branch of the Lancaster intermediate institution for men is opposed by Tehachapi residents.

They contend that their safety would be jeopardized by escapes from the men's institution. A hearing will be held April 3.

DEMOLITION BETTER

WASHINGTON.—Demolition of slums and reconstruction of dwellings from the group up is more practical in many cases than rehabilitation of existing structures, according to a recent study cited by the National Association of Housing Officials.

GROOVER AND I

MISCHIEVOUS BOYS

Americans are beginning to think about a long rope and running iron for rebranding Communists and their fellow stoodges.

☆ ☆ ☆

Already the Commies are squalling about their "inalienable rights." Such jabberwock is utterly stupid.

☆ ☆ ☆

There is nothing in our Constitution, stated or implied, which gives protection to a person who would destroy that Constitution by force and violence.

☆ ☆ ☆

It is the American people who have been stupid — stupid in permitting so weird a doctrine under the tolerant theory that boys must be boys and blow off steam.

☆ ☆ ☆

The little boy living in the next block is forced to play on the street because his parents object to his playful habit of putting chopped up rubber bands in the ground coffee and the family cat in the washing machine.

☆ ☆ ☆

He comes on your block. You know he isn't a bad boy at heart—he is just repressed, frustrated and misunderstood.

☆ ☆ ☆

You invite the little fellow in and tell him to make himself at home. You give him a bunch of old newspapers and a handful of matches, send him down into your basement to amuse himself—

☆ ☆ ☆

—It was a nice home you had.

RENT CONTROL VOTED TO MARCH, 1948, BY SENATE SUBCOMMITTEE

WASHINGTON.—A senate banking subcommittee reached an agreement on a bill extending rent controls to March 1, 1948. Frank Creedon, housing expediter, would administer the program.

The subcommittee took no final action, however, to first smooth out technicalities. Control under this measure would be turned over to those states having adequate laws for its administration. Local rents advisory committees would make rent adjustments, or decontrol areas.

STEEL BOOKINGS UP 22,000 TONS—AISC

NEW YORK. — Estimated total bookings of fabricated structural steel for February were 124,436 tons. This was 22,000 tons larger than the bookings for January, according to the American Institute of Steel Construction.

Estimated total for January and February was 256,306 tons or an increase of 11% over the average of 203,858 tons booked in the same months in the averaged five prewar years 1936-40.

WARREN HINTS VETO OF HIGHWAY MEASURE

SACRAMENTO. — Gov. Warren today called for passage of the super-highway bill in its original form and at the same time hinted that otherwise, he might veto the measure from which the assembly revenue and taxation committee has stripped most of the revenue raising provisions.

Warren commented: "I don't think that would be a highway bill. There is no money in it for construction, and the trucks would pay less than they do at the present time.'

Paving Brick Institute Predicts Billion Dollar Year in Highway Construction During 1947

WASHINGTON.—With the advent of warmer weather, contractors soon will be starting what the experts predict will be the greatest road building program in history—that for 1947.

It is anticipated that more than $6 billion will be spent on highway construction during the next five years. A reasonable assumption is that between $1 and $1½ billion of that money will go into the road program during the current year.

Need still stands as the greatest single factor for progress in road building in the immediate future while excessive cost stands just as stubbornly against the expanding program.

Most private groups, including road building contractors themselves, are inclined to be optimistic over the outlook for the 1947 building season.

Maintenance Needed

Claude C. Blair, president of the Paving Brick Institute, has voiced this opinion as follows:

"Although some authorities have reduced their estimates of the volume of highway construction to be completed in 1947, sufficient materials, labor, and funds should be available to permit more than $1, billion of new paving this year."

In his estimation it should be considered feasible that the road building volume will increase to $1½ billion in 1948. Then, he adds to these figures a half billion dollar repair and maintenance job on old highways and streets in 1947. Like volume of new paving installations, this should increase in 1948.

Road builders and highway officials say that a great deal of maintenance work is sorely needed because of forced neglect during the war years and immediately afterwards. A lack of sufficient machinery has influenced the continuing breakdown of the nation's highway system. Temporary repairs to scaling and broken road slabs have been regarded largely as wartime expedients, holding up automobile travel until more permanent repairs can be installed.

Undoubtedly many stretches of badly damaged paving will have to be replaced together as soon as material price adjustment and heavy equipment supply warrant.

Limitations Important

The overall program will bring gradual improvement in superhighways, streets and farm-to-market roads in all sections of the country.

In some sources it is considered that labor shortages will add to excessive bidding in holding back full realization of road building plans.

There are those, however, including the building materials men, who do not hold to this theory. They are banking on an assumption that continued limitations on comercial and industrial non-housing construction will free enough labor for all building work in progress, including highways and streets.

To Overcome Scarcity

Finally, the industry people look for all principal road-building materials soon to be available in ample quantities. As construction increases, they say, any shortages of construction equipment will be overcome with little delay.

DOMESTIC WATER SYSTEM SHIPMENTS ARE SMALLER

WASHINGTON.—Factory shipments of domestic water systems totaled 59,545 units during January, and were valued at $4,352,257. This was four per cent lower than the number for December, but 28 per cent higher than that for the same month in 1946.

GET AUBURN HOSPITAL

AUBURN.—The $10 million DeWitt General Hospital here will be turned over to the state for $142,594, the war assets administration announced. The hospital has been used since last June by the state as a 2500-bed mental hospital.

Will Erect Large Plant to Produce Nescafe at Ripon

Forty-nine new northern California plants to cost $2,378,500, and 29 expansions of existing plants to aggregate $2,358,500 were announced during February, it was reported today by the San Francisco Chamber of Commerce industrial department.

The San Francisco bay region (12 counties) will account for 39 of the new projects to total $2,082,500 and 26 expansions costing $2,239,500.

Among the important projects announced for the bay region during February are:

Uni-Bilt Sales Equipment Co., 135 Quint Street, San Francisco, leased 28,500 square feet for a new factory to produce store fixtures. New equipment will be installed.

DeBoom Paint Co., NW. corner 22nd and Mississippi Streets, San Francisco, purchased property and plan erection of a new factory to cost approximately $125,000.

Pioneer - Queen Lily Soap Co., 18th and Carolina Sts., San Francisco, plans $200,000 expansion of their facilities.

J. I. Case Company of Racine, Wis., purchased 16-acre tract and auxiliary buildings formerly owned by Harris Manufacturing Co. in Stockton. Plans are being drawn for additional building for manufacturing and assembly of farm machinery.

Leslie Salt Company, Newark, Alameda County, plans two-story addition to present refinery for screening and processing of crude salt for industry.

Nestle's Milk Products, Inc., Ripon, San Joaquin County, will erect $260,000 plant to manufacture soluble coffee.

Reo Motors of Lansing, Mich., acquired 129,000 square feet at 22nd and Poplar Streets, Oakland, and plan 60,000 square foot building for truck assembly plant.

Westinghouse Electric Corporation leases the Joshua Hendy Iron Works: While this important announcement of Westinghouse is not considered a new plant or expansion of existing plant, it is a particularly significent development in the heavy industrial equipment field. Westinghouse has leased the Hendy plant for a 10-year period, with an option to buy.

PONDEROSA FORESTS IN DANGER, ENGLE WARNS

WASHINGTON. — Representative Engle pointed out Wednesday that unless a federally-sponsored program for the control of pine bark beetles was started at once, billions of board feet of California's ponderosa pine would be destroyed.

He is author of a bill to establish a cooperative program to combat insects dangerous to ponderosa pine forests in California, Oregon and Washington.

URGE COMPLETION

SACRAMENTO. — The Legislature's senate committee on military and veterans affairs Thursday recommended appropriation of 3¾ million dollars to complete 1,679 vets. housing units left incomplete by the federal public housing authority.

CPA PERMITS GRANTED

SAN FRANCISCO. — The Civilian Production Administration, A. J. Grier, regional director, 1355 Market St., has announced the following permits granted for construction of commercial and industrial buildings in the San Francisco area:

March 24, 1947

BAKERY, $17,000; owner, Alex Toso, 1502 Main, Redwood City.
FOOD MARKET, $30,000; Robertsville; owner, Theodore P Lamantia, Route 3, Box 418, Los Gatos.
COLD STORAGE & QUICK Freezing Plant, $3,000; Rockaway Beach; owner, Joseph Williams, 1393 Valencia, San Francisco.
AUTO REPAIR SHOP, $4,500; 1601 K St, Sacramento; owner, Hall E Slater, Inc, 1605 K, Sacramento.
RETAIL JEWELRY STORE, $8,678; 477 14th Street, Oakland; owner, Gensler Lee Inc, 1775 Bdwy, Oakland.
DISPATCHING HALL and OFFICE, $4,500; 1448 Webster, Oakland; owner, Operating Eng Local No 3, 1095 Market, San Francisco.
TO COMPLETE FACTORY, $350,000; E Grand Ave, South San Francisco; owner, W P Fuller & Co, 301 Mission, San Francisco.
RESTAURANT, $10,000; Yosemite & Santa Cruz; owner, Peter Ruffino, 827 Sycamore, Modesto.
ALTER AUTO SALES Room, $8,500; owner, Webb Motor Company, 2471 Shattuck, Berkeley.
SCHOOL STADIUM Seats, $3,500; Salinas High School, Salinas; owner, Salinas Union H. S. 110 Salinas Nat'l Bank Bldg.
FENCE CONDEMNED RIGHT-OF-Way through Ranch, $19,500; Santa Clara County; owner, State of Calif, Dept of Public Works, Divn Hiways, 2001 Van Ness, San Francisco.
FORD AGENCY, SALES & Service, $33,500; Alta at 7th, Gonzales; owner, Don Boysen Motors, 220 Town St, Salinas.
OFFICE BLDG for INS BROKER, $4,000; owner, John E Costa, 224 E 10th, Pittsburg.
STORE BLDG, $30,000; 2001 Pacific Ave, Stockton; owner, Irwin Barlow, Box 2113, Carmel.
BANK, $97,000; 2701 Mission, San Francisco; owner, Capital Company, No 1 Powell St, San Francisco.

3/28/47 4
Contemplated—Site Acquired—Construction Planned About the Middle of This Year
Central Office Telephone Bldg.
LODI, Calif., San Joaquin Co. 150 ft. site at the southeast corner of Church and Elm Streets.
Owner—Pacific Telephone & Telegraph Co., 140 New Montgomery St., San Francisco, Calif., George A. Burrell, Lodi, manager.

3/28/47 4
Contract Awarded
Office Bldg., Alter Cost $60,000
SAN FRANCISCO, Calif., 223 Bush Street.
Owner—Standard Oil Company, 225 Bush Street, San Francisco, Calif. Plans by owner.
Alterations to offices.
Contractor — Swinerton & Walberg, 225 Bush St., San Francisco, Calif.

3/28/47 5
Contract Awarded
Auto Sales Bldg., (Alter) Cost $15,000
SAN FRANCISCO, Calif., Van Ness & Geary.
Owner—Van Etts Motors, c/o Contractor.
Architects—Blanchard & Maher, 369 Pine Street, San Francisco, Calif. Alterations.
Contractor—Fred J. Early, Jr., Co., Inc., 369 Pine Street, San Francisco, Calif

3/28/47 1
Contract Awarded—CPA Approval Granted for Skeleton Frame Only
Bank Building Est. Cost, $155,000
LOS ANGELES, Calif., Los Angeles County. 5780 Wilshire Blvd.
Owner—Citizens National Trust and Savings Bank of Los Angeles, 455 S Spring St., Los Angeles, Calif.
Architects and Engineers—Stiles Clements, 3137 Van Nuys Bldg., 210 W 7th St., Los Angeles.
Foundation Engineer—L. T. Evans, 408 S Spring St., Los Angeles, Cal.
Reinforced concrete; 2 stories, 84x150.
Contractor—C. W. Driver, Inc., 111 W 7th St., Los Angeles, Calif.

2/28/47 4
Contemplated—Site Acquired — Surveying of Site in Progress—
Office Building
WEST PITTSBURG, Calif., Contra Costa County. 400-acre site fronting Honker Bay and bounded on east by Shell Chemical Corp. property, on west by McAvoy Yacht Harbor, and extending from the bay to AT&SF railroad tracks.
Owner—American Dredging Co., Russell S. Harris, president and manager, 1419 Broadway, Oakland, Cal.
Offices of purchasing agent and other departments, corporation area and equipment will be moved to the new site, which will be utilized principally for storage of dredges and barges.

2/28/47 3
Plans Nearing Completion—Store (Alter.) Approx. Cost, $15,000
OAKLAND, Calif., Alameda County. Hobart and Broadway.
Owner—Withheld.
Plans by Roslyn & Gartner, Lloyd Gartner, AIA, 821 Market St., San Francisco, Calif.
Work includes new store front, interior partitions, plate glass.

3/28/47 6
Plans Completed—Construction Will Start As Soon As Conditions Permit—Department Store—Est. Cost, $1,600,000
TUCSON, Ariz. Corner of Scott and Pennington Streets.
Owner—Levy Brothers' Clothing Co.

SUB - BIDS WANTED

General contractors desiring sub-bids on any job are invited to make known their requirements in this column. There is no charge for this service.

School Addn., Hazelton Elementary School, Stockton; Bids due Apr. 2, 4 PM
Bingham Constr. Co., 6329 Eastern Ave, Sacramento (Sacto 6-6419)
B. C. Giles & Co., 319 Elks Building, Stockton.
Wallace D. Harkins, Inc., 406 Sutter St., San Francisco (GRaystone 3022)
M. E. Shuper, 321 Elks Bldg., Stockton (Stockton 3-4532)

Woodcrest Elementary School Addition, Roseville; Bids due April 1, 8 PM
Central California Const. Co., 820 Capitol National Bank Bldg., Sacramento (Sacramento 3-6371)
Bingham Constr. Co., 6329 Eastern Ave., Sacramento (Sacto. 6-6419)

Sewage Treatment Plant and Appurtenances, Fresno; Bids due April 10 10:30 A. M.
DeLuce & Son, 1745 Filbert St., San Francisco (GRdway 3600)
Trewhitt, Shields & Fisher, Pacific-SW Bldg., Fresno (Fresno 3-4267)

Police Station Repairs, San Francisco; Bids due April 2, 2:30 P. M.
Welmitz & DeNarde, 316—6th St. San Francisco (MArket 4482)
H. L. Peterson Construction Co., 753 Treat Ave., San Francisco, Calif.
Peter Sartorio, 262 Clementina St., San Francisco, Calif., (GArfield 8317)
Henry Arian Construction, 4142 Geary Blvd., S. F. (BAyview 3170)
Robert L. Wilson, 1299 Bush St. San Francisco (GRaystone 6224)
Adam Arras & Son, 116 New Montgomery St., S. F. (Garfield 8381)

Two Classrooms, Mt. Burney Elementary School, Shasta County; Bids due March 31, 8:00 P. M.
L. G. Shalz, Route 1, Box 142, Chico (Chico 1088)
B. & R. Constr. Co., 110 Market St., San Francisco (DOuglas 7516)

School Addn., Eastside School, Oroville; Bids due March 31, 12 Noon
L. G. Shalz, Route 1, Box 142, Chico (Chico 1088)

School Addn., Burbank School, Oroville; Bids due March 31, 12 Noon
L. G. Shalz, Route 1, Box 142, Chico (Chico 1088)
Bingham Constr. Co., 6329 Eastern Ave., Sacramento (Sacto. 6-6419)

Juvenile Hall, Plumas County; Bids due April 7, 2:30 P. M.
L. G. Shalz, Route 1, Box 142, Chico (Chico 1088)
Bingham Constr. Co., 6329 Eastern Ave., Sacramento (Sacto. 6-6419)
B. & R. Constr. Co., 110 Market St., San Francisco (DOuglas 7516)

Classroom Building, Jefferson Union Elementary School, Santa Clara County, Bids Due March 31, 8 P. M.
Pacific Coast Builders, 2530 18th St., San Francisco, Calif. (HEmlock 9288)
Midstate Constr. Co., 1299 Bush St., San Francisco (GArfield 2618)
Peter Sartorio, 262 Clementina St., San Francisco (GArfield 8317)
Carl N. Swenson Co., 1095 Stockton Ave., San Jose (BAllard 2002)
Robt. McCarthy, 1050 Kirkham St., San Francisco (OVerland 4050)
Wm. Horstmeyer Co., 23 Main St., San Francisco (MArket 7239)

Ward Wing & Convalescent Barracks No. 11, Yountville, California; Bids Due April 1, 2 P. M.
Moore & Roberts, 692 Mission Street, San Francisco, Calif. (GArfield 8579)
Carl N. Swenson Co., 1095 Stockton Ave., San Jose (BAllard 2602)
Carl N. Swenson Co., 1095 Stockton Ave., San Jose (BAllard 2002)

Associated Truck Service Sta., Reno, Nev.; Bids due March 31, 12 Noon
Bingham Constr. Co., 6329 Eastern Ave., Sacramento (Sacto. 6-6419)

Oak Park Plunge, Stockton, Calif.; Bids Due March 31, 8 P. M.
M. E. Shuper, 321 Elks Bldg., Stockton (Stockton 3-4532)
M. & K. Corp., 200 Financial Center Bldg., S. F. (EXbrook 7624)
Haas & Rothchild, 326 Merchants Exchange Bldg., S. F. (EXbrook 1205)

Mira Vista and Pullman Schools, Richmond; Bids due April 2, 8 P. M.
C. F. Parker, 1644 Monterey Blvd., San Francisco (OVerland 3723)
Biltwell Constr. Co., 4745 Geary Blvd. S. F. (BAyview 5947)

Sewage Treatment Plant Alterations, Tulare; Bids due April 3 5:00 P. M.
Trewhitt, Shields & Fisher, Pacific SW. Bldg., Fresno (Fresno 3-4267)
Central California Constr. Co. Inc., 116 Erie St. S. F. (HEmlock 7926)

James Monroe Grammar School, Redwood City; Bids due April 10, 8 P. M.
Cattich Bros. & Stevenson, P. O. Box 165, Redwood City (R. C. 4900W)
Huber Constr. Co., 5998 Mission St., Daly City (JUniper 7-0417)

Wm. H. Taft Grammar School, Redwood City; Bids due April 10, 8 P. M.
Cattich Bros. & Stevenson, P. O. Box 165, Redwood City (R. C. 4900W)
Huber Constr. Co., 5998 Mission St., Daly City (JUniper 7-0417)

Sidney Cohn Hardware Store, 19th and Ocean Aves., San Francisco; Bids due March 31
Taylor-Wheeler Commercial Inc., of Fresno, c/o Architect I. W. Goldstine, Suite 711, 821 Market St., San Francisco (EXbrook 6946)
Haas & Rothchild, 326 Merchants Exchange Bldg., S. F. (EXbrook 1205)

Officers' Quarters and Utilities; Spec. 1268, near Merced; Castle Army Air Field; Bids due April 15 2 P. M.
Jas. I. Barnes Constr. Co., 941 Rhea Bldg., S. F. (EXbrook 5532)
Ernentrautt & Summers, 696 Pennsylvania St., S. F. (ATwater 2420)
Wallace D. Harkins, Inc., 406 Sutter St., San Francisco (GRaystone 3022)
Biltwell Constr. Co., 4745 Geary Blvd., S. F. (BAyview 5947)
Midstate Constr. Corp., 1299 Bush St., San Francisco (GArfield 2618)

Caselli Street Sewer Replacement; Spec. 20216, San Francisco; Bids due April 2, 2:30 P. M.
M. & K. Corp., 200 Financial Center Bldg., San Francisco (EXbrook 7624)

Grammar School Addn., Danville Union Grammar School, Danville; Bids Due April 10, 8 P. M.
Payne Constr. Co., 398 Fifth St., San Francisco (EXbrook 6943)

Officers' Quarters and Utilities, Two-Rock Ranch, Sonoma County; Bids Due April 15, 2:00 P. M.
Ernentrautt & Summers, 696 Pennsylvania St. S. F. (ATwater 2420)

Municipal Sewage Works Enlargement, No 56-3, Palo Alto; Bids Due April 28, 3:00 P. M.
Central California Constr. Co., Inc., 116 Erie St. S. F. (HEmlock 7926)

PLANS ON FILE

The following list of plans and specifications for construction projects are now available for inspection at the office of DAILY PACIFIC BUILDER, 465 Tenth Street, San Francisco

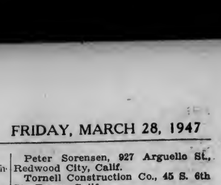
HANNAFORD & TALBOT
519 CALIFORNIA STREET - SAN FRANCISCO 4

63 E Congress St., Tucson, Ariz.
Architect—Marcus Miller, 111 W 7th St., Los Angeles, Calif.
Reinforced concrete and steel fireproof, 3 stories, 150x100, 70,000 sq. ft. of floor space, steel sash, glass and glazing, painting, plastering, plumbing, electrical work, air conditioning, roof-top recreational facilities, two passenger and one freight elevators.

3/28/47 3
Contract Awarded—CPA Approval Granted—Warehouse Bldg.— Estimated cost, $896,000
LOS ANGELES, Calif., Los Angeles County. 5675 Anaheim-Telegraph.
Owner—U. S Rubber Co., purchasing department, 5675 Anaheim - Telegraph Road, Los Angeles.
Architect-Engineer — L. A. Parker, Room 716, 408 S Spring Street, Los Angeles, Calif.
Steel frame and reinf. concrete with reinf. brick filler walls, one-story, 360x521, steel roof joists on steel frame, 2-in. wood roof sheathing, composition roofing, no sash (artificial lighting throughout), concrete floor, sprinkler system, fire doors, railroad spur.
Contractor—Haddock-Engineers, Ltd. 129 W 2nd St., Los Angeles, Calif.
Steel Worker—Consolidated Steel Corporation, 5700 S Eastern Ave., Los Angeles, Calif.



3/28/47 2
Owner Taking Bids—Due April 16, 10 A. M.—Garages; Spec. 1756
DAVIS DAM IRO., Ariz.-Nev. Davis Government Camp, about 30 miles west of Kingman, Ariz., on Arizona side of the Colorado River.
Owner—U. S. Bureau of Reclamation, Kingman, Ariz.
Plans by owner.
Garages for permanent residences (including (1) 220 c.y. excavation; (2) 60 c.y. concrete, and (3) lump sum construction of 20 double garages, except excavation and concrete.
Specifications obtainable from the above office; no charge to prospective bidders; to others, $1.00, not refundable.

3/28/47 3
Low and Only Bidders—Warehouse Restoration; Spec. 04-203-47-64
SAN FRANCISCO, Calif., Columbia Steel Co., 15th and Harrison Sts.
Owner—San Francisco District Corps of Engineers, War Department, 74 New Montgomery St, San Francisco, Calif.
Plans by owner.
General restoration work, including replacing and resetting of jessee's metal enamel sign and removing two government - installed lights and removing driveways.
Low Bidder—Chas. E. Walt, 666 Mission St., San Francisco, Calif., $5,-138.
Henry Arian Constr., San Francisco, Calif., at $6,210 submitted only other bid March 27.

3/28/47 4
Owner Taking Bids—Due April 1, 2 P. M.
Removal of Buildings and Restoration Work; Serial No. 04-203-47-67
SAN FRANCISCO, Calif. Fourth and Ferry Sts.
Owner—San Francisco District Corps of Engineers, War Department, 74 New Montgomery St, San Francisco, Calif.
Plans by owner.
Includes removing and disposing of dispatcher's office, straightening and repairing fences and gates, patching pavement, etc.
Specifications obtainable from the above office.
The following contractors are being furnished with plans:
A. M. Hardy, 736 Clementina St., San Francisco, Calif.
Fredrickson & Watson Construction Co., 573 81st Ave., Oakland, Calif.

3/27/47 39
Owner Taking Bids—Due April 2, 2:30 P. M. (Unit Quantities)
Unit 1, Section 8, Joint Outfall "B" Trunk Sewer
LOS ANGELES, Calif., Los Angeles Co. From Washington Blvd., to San Gabriel Blvd
Owner—Los Angeles County Sanitation District No. 2, A. M. Rawn, chief engineer and general manager 1299 S. Maple Ave., Los Angeles, Calif.
Plans by engineering department of owner.
Includes construction of 20,000 lin. ft. 54-in., 57-in. and 60-in. reinforced concrete pipe
Specifications obtainable from the above office upon deposit of $5.
The work involves:
(1) 1667 lin. ft. 60-in. reinforced concrete pipe, between Stations 45 plus 85 and 18 plus 85, and between Stations 25 plus 10 and 32 plus 85, complete in place;
(a) using centrifugal pipe, 1600 D loading;
(b) using precast same;
(2) 621 lin. ft. 60-in. reinforced concrete pipe, between Stations 6 plus 10 and 6 plus 35, complete in place;
(a) using centrifugal pipe, 1200 D loading;
(b) using precast same;
(3) 2654 lin. ft. 60-in. reinforced concrete pipe between Stations 6 plus 35 and 15 plus 85, between Stations 18 plus 85 and 25 plus 10, and between Stations 32 plus 85 and 43 plus 50, complete in place;
(a) using centrifugal pipe, 1000 D loading;
(b) using precast same;
(4) 4165 lin. ft. 57-in. reinforced concrete pipe, between Stations 154 plus 00 and 195 plus 95, complete in place;
(a) using centrifugal pipe, 100 D loading;
(b) using precast same;
(5) 45 lin. ft. 54-in. reinforced concrete pipe, between Stations 84 plus 57 and 85 plus 05, complete in place;
(a) using centrifugal pipe, 2000 D loading;
(b) using precast same;
(6) 236 lin. ft. 54-in. reinforced concrete pipe, between 92 plus 68 and 94 plus 50, complete in place;
(a) using centrifugal pipe, 1200 D loading;
(b) using precast same;
(7) 1665 lin. ft. 54-in. reinforced concrete pipe, between Stations 119 plus 26.85 and 136 plus 00, complete in place;
(a) using centrifugal pipe, 1100 D loading;
(b) using precast same:
(8) 9001 lin. ft. 54-in. reinforced concrete pipe, between Stations 42 plus 80 and 84 plus 57, Stations 85 plus 05 and 92 plus 08, Stations 94 plus 50 and 119 plus 26.85, and between Stations 136 plus 00 and 154 plus 00, complete in place;
(a) using centrifugal pipe, 100 D loading;
(b) using precast same;
(9) 29 standard manholes type "B", complete in place;
(10) 2 standard junction chambers type "B", complete in place;
(11) one standard manhole type "B" with 8 lin. ft. 57-in. 1800 D loading (thick wall) reinforced concrete pipe stub, complete in place;
(12) 100 cu. yds. standard concrete bed to be placed where required,
(13) 600 tons of gravel bed to be placed where required under pipe.

40— STREETS AND HIGHWAYS

3/26/47 • 40
Low Bidders
Rock Slope Protection and Bridge
MULTNOMAH COUNTY, Oregon.
Owner—State of Oregon, Oregon State Highway Commission, R. H. Baldock, state highway engineer, Public Service Bldg., Portland, Ore.
Plans by engineering department of owner.
Included the following two projects:
(1) Multnomah County: Troutdale-Wahkeena Creek section of Columbia River Highway; Federal Aid Project No. FA-248 (11) involving 0.9 mile rock toe, 2.58 miles rock slope protection, 8.45 miles of roadbed topping and topsoiling and seeding requiring approximately 185,000 cu. yds. rock excavation, 114,000 cu. yds. topsoil materials and 280 acres seeding;
Low Bidder—J. N. & M. J. Conley, Portland, $389,770.
Leonard & Slate Oregon, Ltd., Portland, Ore., at $390,100, submitted second low bid March 25.
(2) Multnomah County: Construct concrete bridge over O.W.R.R. & N. Co. tracks at Bridal Veil on Columbia River Highway; Federal Aid Project No. FGI-248 (12), structural excavation, 3300 cu. yds. concrete, 582,000 lbs. reinforcing steel and 2000 lin. ft. metal railing.
Only Bidder—Guy F. Atkinson Co., Portland, Ore., and Orange and Railroad Aves., South San Francisco, Calif., $317,400.

3/27/47 • 40
Owner Taking Bids—Due Apr. 23, 2 P. M.
Highway Repair
MODOC CO., Calif. Between Lassen County Line and Canby and between 6.8 miles and 7.4 miles northwest of Canby.
Owner—State of California, Div. of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
Work consist of about 20.8 miles repairing with crusher run base and seal coat.
Work Involves:
Location 1, 11-MOD-28-A
(1) 5 cu. yds. remove conc.;
(2) 1,300 cu. yds. rdwy. excav. type A;
(3) 6,000 cu. yds. rdwy. excav., type B;
(4) 160 cu. yds. struct. excav.;
(5) 10,000 mile yds. haul;
(6) develop water supply and furnish water equip.;
(7) 640 M. gals. apply water;
(8) 108 sta. finish rdwy.;
(9) 20,000 tons crusher run base;
(10) 185 tons liq. asph. SC-2 prime coat;
(11) 415 tons liq. asph. SC-6 seal coat;
(12) 3,600 tons coarse screenings seal coat;
(13) 2,000 tons fine screenings, seal coat;
(14) 72 lin. ft. 12 in. CMP 16 gage;
(15) 122 lin. ft. 24 in. CMP 24 gage;
Location 2, 11-MOD-210-A
(16) 35 M. gals. apply water;
(17) 1,365 tons crusher run base;
(18) 11 tons liq. asph. SC-2 prime coat;
(19) 13 tons liq. asph. SC-6 seal coat;
(20) 100 tons coarse screenings, seal coat;
(21) 55 tons fine screenings seal coat.
Specifications obtainable from the above office.

3/27/47 40
Contract Awarded
Surfacing Cost $184,081
YAKIMA, Wash., Yakima County. First St. from E. B St. to E. Beech St., and E. Beech St. to E. Lenox, etc.
Owner—State of Washington, Clarence B. Shain, director of highways, Olympia, Wash.
Plans by engineering department of owner.
Includes resurfacing existing concrete pavement with asphaltic concrete, constructing paving strips and concrete sidewalk.
Contractor—Fiorito Bros., 1100 Leary ...Way, Seattle, Wash.

3/27/47 • 40
Low and Only Bidders
Resurfacing and Widening
Cost $107,885
FRESNO COUNTY, Calif. Between Fowler and Caiwa Overpass and between 4.6 miles north of Kings County line and Mountain View Avenue.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
About 4.8 miles resurfacing with plant mix surfacing between Fowler and Calwa Overpass and about 6.4 miles widening portions with untreated rock borders and resurfacing entire length with plant mix surfacing between 4.6 miles north of Kings County line and Mountain View Avenue.
Low Bidder—Gunner Corp., 272 Annandale Rd., Pasadena, $107,885.
Work involves:
(1) 106 sta. trenching borders, Location B;
(2) 2,100 tons untreated rock base borders, Location B;
(3) 7,560 tons min. agg., plant mix surfacing, location A;
(4) 11,500 tons do, location B;
(5) 375 tons liq. asph. SC-6 plant mix surfacing, location A;
(6) 575 tons do, location B;
(7) 8 tons liq. asph. SC-2, prime coat location B;
(8) 30 tons asph. paint binder, location A;
(9) 35 tons do, location B.
Total bids submitted March 26 were:
(A) Gunner Corp., Pasadena, $107,885.
(B) Ted F. Baun, Fresno, $110,985.
(C) R. M. Price Co., Huntington Park, $115,180.
(D) Valley Paving & Construction Co., Fresno, $117,140.
(E) M. J. Ruddy & Sons, Modesto, $132,138.
Unit prices were:

Addition on the Existing Public Works Building

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF ARCHITECTURE

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the Division of Architecture, Public Works Building, Sacramento, California, up to 2:00 P.M., Tuesday, April 15, 1947, said bids thereafter on said day to be publicly opened and read for Additions to Public Works Building, Sacramento, California, in accordance with plans and specifications therefor.

The work includes alterations and construction of a partial fifth and sixth story addition on the existing Public Works Building. The addition will be of structural steel and reinforced concrete, and comprises 17,000 square feet approximately.

Separate bids only will be entertained for the following segregate parts of the work:

General Work.

Plumbing, Heating and Air Conditioning.

Electrical Work.

Authority Notice: Approval for this construction was granted by the Civilian Production Administration with Serial No. 9-1-5375.

Prevailing Wage Scale: In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

	Hourly Rate
Asbestos Workers	$1.75
Bricklayers	2.50
Bricklayers' Hod Carriers	1.47½
Carpenters	1.75
Cement Finishers	1.87½
Elevator Constructors	1.96
Elevator Constructors' Helpers	1.37
Electric Workers	2.00
Material Hoist Operator	1.85
Glass Workers	1.65
Iron Workers, Structural	2.00
Iron Workers, Architectural	1.85
Iron Workers, Reinforcing Steel	1.75
Laborers, Building	1.25
Lathers	2.00
Painters	2.00
Plasterers	1.87½
Plasterers' Hod Carriers	1.65
Plumbers	1.87½
Roofers	1.75
Sheet Metal Workers	1.75
Steam Fitters	1.87½
Tile Setters	1.75
Tile Setters' Helpers	1.25
Transit Mix Operator (5 Yds.)..	1.45

Any classification omitted herein not less than..... 1.25
Overtime—One and one-half times the above rates.

Apprentices may be employed provided they are properly indentured to the contractor in full compliance with the provisions of Section 1777.5 of the Labor Code.

Plans and specifications for examination are on file in the office of the Division of Architecture, Public Works Building, Sacramento, and Room 803 State Office Building, Los Angeles, and at the principal California Cities Builders' Exchange Offices.

Contractors who are desirous of securing plans, specifications and proposal forms for the purposes of preparing and submitting a proposal for this work may do so subject to certain conditions as hereinafter stated by requesting same in writing from the Division of Architecture, Public Works Building, Sacramento. No bid request shall be accompanied by a deposit of Twenty Five ($25.00) dollars. Check shall be made payable to the Division of Architecture. Such deposit is required to guarantee the safe return in good condition of the plans and specifications to the Division of Architecture within 30 days after the date set for opening bids. Failure to so return the plans will cause forfeiture of the Deposit to the State.

Prequalification: Plans, specifications and proposal forms will only be issued to those contractors who are prequalified with the Department of Public Works by having filed a statement of experience and financial condition on a standard questionnaire form in accordance with the provisions of the State Contract Act. Such statement must have been filed and approved not more than one (1) year and not less than five (5) days previous to the date set for receiving and opening bids. Contractors may obtain standard questionnaire forms from the Division of Architecture.

No bid will be accepted from a contractor who has not been licensed in accordance with the provisions of the Contractor's License Act or to whom a proposal has not been issued by the Department of Public Works.

No bid will be considered unless it is presented on a proposal form furnished by the Division of Architecture and accompanied by a bidder's bond, cash, a cashier's or certified check made payable to the Director of Public Works, in the sum of at least ten per centum (10%) of the amount of the bid.

The Department of Public Works reserves the right to reject any or all bids and to waive any informality in any bid received.

No bidder may withdraw his bid for a period of thirty (30) days after the time set for opening thereof.

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 373, Public Works Building, Sacramento, California, until 2 o'clock p. m. on April 9, 1947, at which time they will be publicly opened and read in the Assembly Room of said building, for constructing Highway in accordance with the Specifications therefor, to which special reference is made, as follows.

Fresno and Kings Counties, across Kings River, near Hardwick (Vi Fre-, Kin-623), a reinforced concrete girder bridge to be constructed.

Bids are required for the entire work described herein.

State Highway Engineer's Estimate

Item 1. Clearing and grubbing.
Item 2. 1,050 cubic yards structure excavation.
Item 3. 1,133 lineal feet timber bridge railing.
Item 4 197 cubic yards Class "A" Portland cement concrete (footing blocks).
Item 5. 1,460 cubic yards Class "A" Portland cement concrete (structure).
Item 6. 700 pounds of miscellaneous iron and steel.
Item 7. 3,400 lineal feet furnishing concrete piling.
Item 8. 113 each, driving piles.
Item 9. 200,000 pounds furnishing bar reinforcing steel.
Item 10. 200,000 pounds placing bar reinforcing steel.
Item 11. 2 each, clearance markers.
Item 12. Engineer's office.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Skilled Labor	
Carpenter	$1.75
Cement finisher	1.875
Concrete mixer operator (one cubic yard capacity or less)..	1.60
Concrete mixer operator (over one cubic yard capacity and paving type)	1.90
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.10
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.25
Pile driver holstman or operator	2.10
Pile driver man	1.86
Reinforcing steel worker	1.75
Roller operator	1.95
Tractor driver	1.95
Truck driver(18 cubic yards water level capacity or more)	1.7125
Truck driver (14 cubic yards and less than 18 cubic yards water level capacity)	1.5875
Truck driver (8 cubic yards and less than 14 cubic yards water level capacity)	1.525
Intermediate Grade Labor	
Concrete vibrator operator	1.375
Jackhammer operator	1.375
Oiler power shovels or cranes..	1.50
Truck driver (4 cubic yards and less than 8 cubic yards water level capacity)	1.3375
Truck driver (less than 4 cubic yards water level capacity)	1.25
Unskilled Labor	
Flagman	1.15
Laborer	1.15

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions, as interpreted in the light of this classification.

The minimum wage paid to all skilled labor for which rates are not shown above shall be not less than $1.375 per hour.

The minimum wage paid to all intermediate labor for which rates are not shown above shall be not less than $1.15 per hour.

The minimum wage paid to all unskilled labor for which rates are not shown above shall be not less than $1.15 per hour.

Overtime—one and one-half (1½) times the above rates.

Sundays and holidays—one and one-half (1½) times the above rates.

The foregoing quantities are approximate only, being given as a basis for the comparison of bids, and the Department of Public Works does not, expressly or by implication, agree that the actual amount of work will correspond therewith, but reserves the right to increase or decrease the amount of any class or portion of the work, or to omit portions of the work, as may be deemed necessary or expedient by the Engineer.

The attention of bidders is directed to the fact that the work hereinproposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the district in which the work is situated, at the office of the Associated General Contractors in San Francisco, and at the office of the County Engineer or County Surveyor at the county seat of the county in which the work is to be performed.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions).

The Department of Public Works reserves the right to reject any or all bids.

DEPARTMENT of PUBLIC WORKS
DIVISION OF ARCHITECTURE

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the Division of Architecture, Public Works Building, 12th and "N" Streets, Sacramento, California, up to 2:00 P. M., Tuesday, April 1, 1947, said bids thereafter on said day to be publicly opened and read for New East Ward Unit and Convalescent Barracks No. 11, Veterans' Home, Yountville, California, in accordance with plans and specifications therefor.

The New East Ward Unit is a four (4) story reinforced concrete wing to be added to the existing Hospital and has a total floor area of approximately 33000 sq. ft.

The Convalescent Barracks is a one (1) story reinforced concrete building with a floor area of 38,400 sq. ft. approximately.

Separate bids for each building and combined bids for both buildings will be entertained for each of the following segregations of the work:

General Work
Heating and Ventilating Work
Plumbing Work
Electrical Work

Combination bids to include both the General Work and the Mechanical Work will be entertained for each building and also for both buildings.

Alternate Bids will be required for the omission as a part of the work.

Prevailing Wage Scale: In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

	Hourly Rate
Asbestos Workers	$1.75
Bricklayers	2.00
Bricklayers Hod Carriers	1.50
Carpenters	1.75
Cement Finishers	1.75

Highway Improvements
Plumas and Lassen Counties

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 373, Public Works Building, Sacramento, California, until 2 o'clock p. m. on April 9, 1947, at which time they will be publicly opened and read in the Assembly Room of said building, for constructing State Highway in accordance with the specifications therefor, to which special reference is made, as follows:

Plumas and Lassen Counties, between 0.3 mile west and 0.8 mile east of Plumas-Lassen County Line (11-Plu, Las-29-A, A), about one and one-tenth (1.1) miles in length, to be graded, surfaced with plant-mixed surfacing and seal coats applied thereto.

Bids are required for the entire work described herein.

State Highway Engineer's Estimate

Item 1. 3 cubic yards removing concrete,

Item 2. 31 acres clearing and grubbing.

Item 3. 23,500 cubic yards roadway excavation, Location "A".

Item 4. 23,000 cubic yards roadway excavation, Location "B".

Item 5. 230 cubic yards structure excavation.

Item 6. 255,000 station yards overhaul.

Item 7. 22,025 square yards preparing subgrade (Class "B", Method No. 2).

Item 8. Developing water supply and furnishing watering equipment.

Item 9. 600 thousand gallons applying water.

Item 10. 59 stations finishing roadway.

Item 11. 24 tons liquid asphalt, SC-2 (prime coat).

Item 12. 140 tons paving asphalt (plant-mixed surfacing).

Item 13. 2,775 tons mineral aggregate (plant-mixed surfacing).

Item 14. 4,500 lineal feet shaping and compacting plant - mixed likes.

Item 15 3 tons asphaltic emulsion (seal coat).

Item 16. 13 tons liquid asphalt, R O-R C-5 (seal coat).

Item 17. 330 tons fine screenings (seal coat).

Item 18. 6 cubic yards Class "A" Portland cement concrete (structures).

Item 19. 200 pounds bar reinforcing steel.

Item 19. 14 each, monuments.

Item 21. 670 lineal feet metal plate guard railing.

Item 22. 55 each, culvert markers and guide posts.

Item 23. 240 lineal feet 18 in. corrugated metal pipe (16 gauge).

Item 24. 4 each, spillway assemblies

Item 25. 92 lineal feet 8 in. corrugated metal pipe down drains (16 gauge).

The State will furnish the steel plates and all necessary parts for use in metal plate guard railing as more explicitly set forth in the special provisions.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Asphalt plant dryerman or fireman	$1.60
Asphalt plant mixer operator	1.65
Asphalt spreading machine operator	1.95
Carpenter	1.75
Cement finisher	1.675
Concrete mixer operator (one cubic yard capacity or less)	1.60
Concrete mixer operator (over one cubic yard capacity and paving type)	1.90
Derrick operator	2.10
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.10
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.25
Painter (brush)	1.625
Painter (spray)	1.75
Pile driver hoistman or operator	2.10
Pile driver man	1.86
Reinforcing steel worker	1.75
Roller operator	1.95
Structural steel worker	2.00
Tractor driver	1.95
Truck driver (18 cubic yards water level capacity or more)	1.7125
Truck driver (14 cubic yards and less than 18 cubic yards water level capacity)	1.5875
Truck driver (8 cubic yards and less than 14 cubic yards water level capacity)	1.525
Intermediate Grade Labor	
Concrete vibrator operator	1.375
Jackhammer operator	1.375
Oiler power shovels or cranes	1.50
Truck driver (4 cubic yards and less than 8 cubic yards water level capacity)	1.3375
Truck driver (less than 4 cubic yards water level capacity)	1.25
Any classification omitted herein not less than	1.15
Overtime—one and one-half (1½) times the above rates.	

Sundays and holidays—one and one-half (1½) times the above rates.

The foregoing quantities are approximate only, being given as a basis for the comparison of bids, and the Department of Public Works does not, expressly or by implication, agree that the actual amount of work will correspond therewith, but reserves the right to increase or decrease the amount of any class or portion of the work, or to omit portions of the work, as may be deemed necessary or expedient by the Engineer.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineer at Los Angeles and San Francisco, at the office of the District Engineer of the district in which the work is situated, and at the office of the Associated General Contractors in San Francisco.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions).

The Department of Public Works reserves the right to reject any or all bids.

DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 373, Public Works Building, Sacramento, California, until 2 o'clock p. m. on April 9, 1947, at which time they will be publicly opened and read in the Assembly Room of said building, for constructing Highway in accordance with the specifications therefor, to which special reference is made, as follows:

San Joaquin County, across Mokelumne River about 5 miles northwest of Lodi (X-SJ-901), a structural steel and reinforced concrete bridge to be constructed.

Bids are required for the entire work described herein.

State Highway Engineer's Estimate

Item 1. 430 cubic yards structure excavation.

Item 2. 50 cubic yards Class "A" Portland cement concrete (footing block).

Item 3. 1,275 cubic yards Class "A" Portland cement concrete (structure).

Item 4. 1,454 lineal feet concrete railing.

Item 5. 208,000 pounds furnishing structural steel.

Item 6. 206,000 pounds erecting structural steel.

Item 7. 2,400 pounds cast steel.

Item 8. 1,900 lineal feet furnishing Douglas Fir piling.

Item 9. 48 each driving timber piles.

Item 10. 5,760 lineal feet furnishing concrete piling.

Item 11. 128 each, driving concrete piles.

Item 12. 255,000 pounds furnishing bar reinforcing steel.

Item 13. 265,000 pounds placing bar reinforcing steel.

Item 14. Engineer's office.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Skilled Labor	
Carpenter	$1.75
Cement finisher	1.675
Concrete mixer operator (one cubic yard capacity or less)	1.60
Concrete mixer operator (over one cubic yard capacity and paving type)	1.90
Derrick operator	2.10
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.10
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.25
Painter (brush)	1.625
Painter (spray)	1.75
Pile driver hoistman or operator	2.10
Pile driver man	1.86
Reinforcing steel worker	1.75
Roller operator	1.95
Structural steel worker	2.00
Tractor driver	1.95
Truck driver (18 cubic yards water level capacity or more)	1.7125
Truck driver (14 cubic yards and less than 18 cubic yards water level capacity)	1.5875
Truck driver (8 cubic yards and less than 14 cubic yards water level capacity)	1.525
Intermediate Grade Labor	
Concrete vibrator operator	1.375
Jackhammer operator	1.375
Oiler power shovels or cranes	1.50
Truck driver (4 cubic yards and less than 8 cubic yards water level capacity)	1.3375
Truck driver (less than 4 cubic yards water level capacity)	1.25
Unskilled Labor	
Flagman	1.25
Laborer	1.25

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions, as interpreted in the light of this classification.

The minimum wage paid to all skilled labor for which rates are not shown above shall be not less than $1.375 per hour.

The minimum wage paid to all intermediate labor for which rates are not shown above shall be not less than $1.25 per hour.

The minimum wage paid to all unskilled labor for which rates are not shown above shall be not less than $1.25 per hour.

Overtime—one and one-half (1½) times the above rates.

Sundays and holidays one and one-half (1½) times the above rates.

The foregoing quantities are approximate only, being given as a basis for the comparison of bids, and the Department of Public Works does not, expressly or by implication, agree that the actual amount of work will correspond therewith, but reserves the right to increase or decrease the amount of any class or portion of the work, or to omit portions of the work, as may be deemed necessary or expedient by the Engineer.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules, and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the district in which the work is situated, at the office of the Associated General Contractors in San Francisco, and at the office of the County Engineer or County Surveyor at the county seat of the county in which the work is to be performed.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions.)

The Department of Public Works reserves the right to reject any or all bids.

AMERICAN CONTRACTORS ELIGIBLE FOR PHILIPPINE REHABILITATION JOBS

WASHINGTON. — American contractors can undertake construction work in the Philippines under the Rehabilitation Act of 1946 on an equal foting with Filipino contractors, Thomas H. MacDonald, Commissioner of the Public Roads Administration, Federal Works Agency, announced today. The announcement is based on a recent opinion of the Philippine Secretary of Justice.

In public works undertaken exclusively at the expense of the Philippine government, Filipino contractors are legally entitled to preferential treatment. However, the Secretary of Justice has stated that these prefrential laws do not apply to public works, undertaken under the Philippine Rehabilitation Act, which will be financed entirely by the United States government or jointly by it and the Philippine government. For such work, American contractors will have equal status with Filipino contractors in qualification for bidding, determination of the low bidder, and award of contract.

The Secretary of Justice also ruled that American contractors will be permitted to take equipment and supplies to the Philippines subject only to the same taxes as those imposed on Filipino contractors.

#

BACK RETURN OF CVP TO STATE MANAGEMENT

Support in principal of pending state legislation directing the state water project authority to negotiate for return of control and management of the Central Valley Project to the state, and requiring that state water law provisions, not the federal 160-acre limitation, apply in contracts made within California by any federal agency was announced today by the California State Chamber of Commerce. The State Chamber directors also took action on other water measures before the state legislature

#

CALIFORNIA BACKLOG TO REMAIN UNTIL '60

SACRAMENTO—The enormous backlog of construction probably cannot be disposed of before 1960, according to a report just released by the state reconstruction and reemployment commission.

The report attributed the backlog to wartime deferment of all types of building, plus the fact that California had accumulated a housing shortage even before the war started.

This backlog will be supplemented by growing population, increasing demand for public construction, expansion of business and industry and obsolescence of existing structures, it was predicted.

Earmark $25,000 for Designing of Second Senate Office Bldg.

WASHINGTON.—The senate public works committee has favorably reported a bill authorizing $25,000 to be spent for the preparation of plans and specifications, and a survey, for a new Senate Office Building in Washington.

The area just west of the present Senate Office Building is under consideration as a possible site. Construction of the new building here would balance the second House Office Building across the Capital plaza.

The senate committee also considered a bill calling for appropriation of $400,000 for preparing plans and specifications for a new federal court house for the district but took no action.

Chairman Chapman Revercomb of West Virginia, said further consideration would be given to this larger bill which was reported favorably from the subcommittee.

The federal courthouse job would run in the neighborhood of $5 million in cost, on the basis of earlier estimates.

#

RENTAL PROGRAM IS BOOMING—McGINNESS

One thousand four hundred seventy-five commitments to insure loans on single-family residential properties were issued by the FHA during the month of February and 1521 commitments have been issued during the first three weeks of March, with applications pouring in at an increased rate, according to D. C. McGinness, district director of the federal housing administration.

Projects involving 437 rental units are located in San Francisco, 1694 in the East Bay, 688 on the Peninsula and 1625 in all other Northern California communities, notably Salinas, Sacramento, San Jose, Stockton and Fresno.

#

'DECONTROL ANSWER TO HOUSING POSER'

WASHINGTON.—Congress has within its grasp the answer to the housing problem, Herbert U. Nelson, executive vice-president of the National Association of Real Estate Boards, told the senate banking and currency committee Thursday morning.

The removal of controls on the industry, coupled with certain existing or proposed legislation, will do the job, he explained. Such a program, moreover, will not put the government in the housing business, as proposed in S. 866 (the Wagner-Ellender - Taft bill), but it will get houses built.

#

CALIFORNIA HAS 175 'HALTS' IN FEBRUARY

WASHINGTON.—A total of 175 "stop" telegrams against violators of VHP-1 was issued in California in February, the civilian production administration's compliance division announced.

Among them were injunctions obtained against further unauthorized construction of four horse barns, a cafeteria, clubhouse and grandstand at Tanforan race track at San Bruno. The unauthorized construcor of a $3,500 office building in La Mesa, Calif., was fined $1,000 in federal court.

#

PHENOLIC RESINS ALLOCATIONS END

WASHINGTON.—Allocation of phenolic resin molding compound will end March 31, the Civilian Production Administration announced today.

Producers have assured CPA that they will voluntarily make available to manufacturers of electrical wiring devices sufficient molding material to meet their minimum essential requirements.

GROOVER AND I

HERE IS ONE WE CAN UNDERSTAND:

The local Customs Office is employing 65 out of 76 Customs men in one classification.

☆ ☆ ☆

This will mean more "pilfering of the docks", a nice way of saying waterfront stealing. This will mean higher insurance rates. It may also mean some jewel smuggling, which doesn't count very much one way or the other.

☆ ☆ ☆

It will mean an increase in the illicit narcotic line—in other words, a Hopheads Holiday

☆ ☆ ☆

Some years ago we embarked on an international WPA. We have carelessly tossed money around by countless billions.

☆ ☆ ☆

We are now scraping the bottom of the barrel and beginning to count in millions.

☆ ☆ ☆

There is a direct relationship between the money we will give to European countries and these 65 Customs men who are losing jobs some of them have worked at for more than 20 years.

☆ ☆ ☆

We have finally spent ourselves down to understandable size. The time may come when giving away a million dollars means

☆ ☆ ☆

259 Jobs here at home.

#

Eastern Equipment Dealers Ask Speed Up Machine Sales

WASHINGTON—East coast machinery distributors today were on record favoring an immediate increase in scrapping of surplus machine tools by the War Assets Administration up to 30 or 40 per cent of the total.

Individually, these distributors approved a five-point plan of accelerated distribution adopted by the American Machine Tool Distributors Association at Chicago.

This plan results from a fear that the creeping disposal pace now set may result in a surplus dumping program that could be disastrous to the industry.

The five points recommended to WAA are:

1—Work "around the clock" to tag all tools needed for the National Security Reserve.

2—After removing motors and controls, scrap remaining special and standard equipment which has no commercial value.

3—Advise schools, charitable institutions, county, city, state and federal organizations to select machines they can use, provided they agreed to keep them at least 10 years.

4—Reinventory remaining machines and relocate them in warehouses, plainly tagged with manufacturer's name and serial number and give all dealers unencumbered access to warehouses for inspections.

5—Operate each warehouse as a selling unit.

In January, it was pointed out, only approximately one - third of machines declared surplus by WAA had been sold.

#

DROP LUMBER RULES

WASHINGTON—All production controls on lumber, millwork, hardwood flooring and softwood plywood will be removed March 31.

CPA announced today that limitation orders L-858 and L-359 will be revoked at that time.

WET Bill Was Vigorously Fought in House Committee Last Year; Chairman Let It Die

WASHINGTON.—(Exclusive).—Opposition to the revised version of the old Wagner-Ellender-Taft long-range housing bill rolled up like a snowball in Washington as members of the senate banking and currency committee heard testimony against the plan to subsidize housing in America.

Reminiscent of the surge of protest that developed last June when the WET bill was up for consideration in the house committee, this year's controversy is finding voice in testimony of private industry witnesses.

Wyatt Pressure

Last year it took from the middle of June until the end of July for this opposition to pyramid and effectively block the housing measure. In this interim, however, it often was nip and tuck as committe favor swayed back and forth between the powerful recommendations of Wilson W. Wyatt as housing expediter, and the equally strong objections of such groups as the National Association of Home Builders, the National Association of Real Estate Boards and the U. S. Chamber of Commerce.

A flashback to the exciting day at the end of July when the WET bill finally was washed out in the closing days of the 79th session should be in order in view of mounting interest now.

Last year the critical hour developed on July 29 following weeks of hearings which saw one of the toughest lobbying battles develop. On that day Chairman Spence of the house banking and currency committee suddenly called his group into executive session. He planned to have showdown vote, but it never came. Scared out by a promise on the part of democratic members that they would throw their vote with republican fellow committeemen in rejecting the bill (then S.1592), the committee head dropped the move for a forced vote.

Let Bill Expire

The explanation given at that time was that Congressmen Spence feared bringing the vote to a head would jeopardize the chances for the legislation in 1947. Obviously, a unanimous or nearly unanimous rejection of the original bill would have a strong adverse effect on its chances in a succeeding session of congress, furnishing fire for objectors and dampening the enthusiasm that proponents might whip up in new committee members.

So Spence let the bill die, predicting at the same time that it would receive favorable action the next time around.

The national housing bill of 1946 outlined a 10-year program designed to provide 1,500,000 dwelling units each year. This included 125,000 public housing units. The 1947 version has been revised to cover a 45-year span, requiring approximately $150 million each year to carry out its provisions. It would build 500,000 public housing units in four years' time.

Among the first to testify in opposition this year was George W. West, chairman of the construction and civic development department committee of the U. S. Chamber of Commerce; Herbert U. Nelson, executive vice-president of the National Association of Real Estate Boards, and Edward R. Carr, Washington, D. C., builder and president of the National Association of Home Builders.

'A Community Problem'

Edmund R. Purves, representing the American Institute of

STANDARD MACH. CO. TO HANDLE 'DUMPCRETE'

Standard Machinery Company, 450 Bayshore, are exclusive northern California distributors of the "Dumpcrete", it was announced today. The "Dumpcrete" is a special utility body for hauling air-entrained concrete.

The unit also may be used for hauling sand, gravel, earth or other materials.

Public Housing Bill Would Bring Crisis, Holden Warns Senate

WASHINGTON—The Commerce and Industry Association of New York was placed on record over the week-end against the Taft-Ellender - Wagner housing bill by Thomas S. Holden, president of F. W. Dodge Corporation, when he appeared before the senate banking and currency committee yesterday.

Basing the major part of his testimony on an article he authored for the Architectural Record last November, Holden warned senators that passage of the T-E-W bill would stabilize building costs at the highest rate in the nation's history. Effect of the bill would be highly inflationary, he said.

Striking at government controls as the principal cause of inflationary trends, Holden said:

Leads to Depression

"At a time of severe shortages the government deliberately inflated housing demands at the same time, through a wage-price policy later admitted to be unrealistic, it encouraged inflated costs and selling prices of building materials, and started a cycle of rising living costs which, in turn, brought about higher and higher wages in the building trades.

"At a time when the situation cries out for cost stabilization, when housing demand needs no artificial stimulation, proponents of this bill seek to inflate housing demands still further. There will be little incentive to cost reduction until the housing market again becomes competitive. The possibilities of various kinds proposed in this bill will tend to further inflate housing demand and to maintain high costs at great expense to the taxpayers."

The F. W. Dodge Corporation president told of finding nothing in the bill (S. 866) which he thought could be helpful to the "present situation". Instead, he found in it a number of things he felt would aggravate it. Subsidy provisions and liberal home-ownership terms were among the features he said he could not condone.

This contention he proved by citing figures that threw a light of absurdity on housing need estimates released by governmental sources.

From these figures the Commerce and Industry Association spokesman drew two conclusions:

1—The NHA estimate of postwar housing needs of the country, upon which has been argued the need for this legislation, are fantastic; they are figures blown up for use as sales arguments to congress and the public, without economic validity.

2—In times of reasonable prosperity, the people of this country will improve their own housing conditions without excessive liberalization of housing finance or lavish government subsidies.

Then Holden proceeded to sound the alarm concerning oversaturation of the housing market:

'A Very Bad Bill'

"It is my strong belief that a program for construction of 12,600,000 or more new non-farm dwelling units in 10 years, if actually carried out by means of this legislation or by any other means, would so far outstrip the actual housing needs of the country as to create an economic crisis of the first order."

He expressed his conviction that inflationary factors would domi-

Forecasts Disaster

(Continued from Page One)

nate the housing market for some years to come if housing demands as anticipated in the T-E-W bill were added to the needs and demands of ordinary, unsubsidized, taxpaying families.

"I think it is a very bad bill," the witness commented after describing it as essentially a public housing measure. The first two titles, he said, assume that "the federal government shall become the all-wise guardian and mentor of all the people with respect to their housing needs."

Wants 'Urgent'

A more immediate urgency, he concluded, is the removal of governmental restrictions as quickly as possible. The basic problem is housing production, cost stabilization and then cost reduction with neither government subsidies nor government control of the home building industry in a position to accomplish any of these purposes.

"A decision by the government to keep out of this field would serve to stimulate additional efforts by local and state governments.

"Furthermore, as the private building industry gets into its stride once more, the new housing accommodations, more and more older but still useful dwellings will become available for those unable to build for their own needs."

Wipe Out NHA

Nelson recommended congressional adoption of an eight-point NAREB-sponsored program in lieu of the T-E-W provisions now under committee consideration. This alternate plan calls for dissolution of the national housing agency, restriction of Federal Housing Administration functions to mortgage insurance operations, operation of the Federal Home Loan Bank Board as a separate agency, re-establishment of the Federal Savings Loan Insurance Corporation, repeal of the Patman Act and coordination of all federal participation in the housing industry.

Want Rent Boost

NAREB reiterated its request for a 15 per cent across-the-board rent increase on existing houses and removal of rent control on all new housing. It favored extending until January 31, 1948, Title VI of the National Housing Act. This would continue mortgage insurance on home properties constructed for rent.

Forecasts Disaster

(Continued from Page One)

nate the housing market for some years to come if housing demands as anticipated in the T-E-W bill were added to the needs and demands of ordinary, unsubsidized, taxpaying families.

"I think it is a very bad bill," the witness commented after describing it as essentially a public housing measure. The first two titles, he said, assume that "the federal government shall become the all-wise guardian and mentor of all the people with respect to their housing problems."

'Decontrol Urgent'

A more immediate urgency, he concluded, is the removal of governmental restrictions as quickly as possible. The basic problem is housing production, cost stabilization and then cost reduction with neither government subsidies nor government control of the home building industry in a position to accomplish any of these purposes.

W-E-T Bill History

(Continued from Page One)

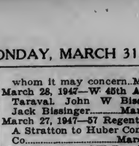
Architects, said a statement by Louis Justement, Washington, D. C., architect, would be filed with the committee for the AIA.

West, in his statement, struck at the generous use of federal funds as proposed by the T-E-W bill for slum clearance. The fact that economy demands hardly will allow such outlays does not mean that slum conditions in the nation's cities will continue indefinitely, West said.

"All over the country," he testified, "communities are actively exploring the possibility of remedial measures, utilizing their own resources. In Indianapolis, Detroit, and Chicago, to cite three outstanding examples, slum clearance projects are now underway, and many other communities are planning similar projects. More than 30 states have passed laws to facilitate urban redevelopment by their respective municipalities, and a number of additional states have such measures under consideration.

"A decision by the government to keep out of this field would serve to stimulate additional efforts by local and state governments.

"Furthermore, as the private building industry gets into its stride in providing new housing accommodations, more and more older but still useful dwellings will become available for those unable to build for themselves."



Wipe Out NHA

Nelson recommended congressional adoption of an eight-point NAREB-sponsored program in lieu of the T-E-W provisions now under committee consideration. This alternate plan calls for dissolution of the national housing agency, restriction of Federal Housing Administration functions to mortgage insurance operations, operation of the Federal Home Loan Bank Board as a separate agency, re-establishment of the Federal Savings Loan Insurance Corporation, repeal of the Patman Act and coordination of all federal participation in the housing industry.

Want Rent Boost

NAREB reiterated its request for a 15 per cent across-the-board rent increase on existing houses and removal of rent control on all new housing. It favored extending until January 31, 1948, Title VI of the National Housing Act. This would continue mortgage insurance on home properties constructed for rent.

Item 5. 35,000 tons imported borrow, location 2 or 3;
Item 6. 35,000 c.y. imported borrow, location 1;
Item 7. 70,000 station yards overhaul on roadway excavation;
Item 8. 51,250 mile yards overhaul on imported borrow, Location 1;
Item 9. Developing water supply and furnishing water equipment;
Item 10. 6350 M. gallons applying water;
Item 11. 310 stations finishing roadway;
Item 12. 140 tons liquid asphalt SC-2 (prime coat);
Item 13. 460 tons paving asphalt (plant mixed surfacing);
Item 14. 65 tons liquid asphalt RORC-5 (seal coat);
Item 15. 9200 tons mineral aggregate (plant mixed surfacing);
Item 16. 685 tons screening (seal coat);
Item 17. 70 c.y. Class "A" Portland cement concrete (structures);
Item 18. 5000 lbs bar reinforcing steel
Item 19. 10.5 miles constructing new property fences;
Item 20. 150 l.f. removo and salvage existing corrugated metal pipe
Item 21 100 l.f. relay salvaged corrugated metal pipe;
Item 22. 2056 l.f. 18-in. corrugated metal pipe (16 gauge);
Item 23. 220 l.f. 24-inch corrugated metal pipe (16 gauge);
Item 24. 86 l.f. 60-in. corrugated metal pipe (10 gauge);
Item 25. 80 l.f. 8-in corrugated metal pipe (16 gauge);
Item 26. 44 l.f. 22x36-in. corru. metal pipe arch (12 gauge);
Item 27. 68 l.f. 30-in. reinforced concrete pipe;
Item 28. 6 spillway assemblies;
Item 29. 4900 l.f. compacting and shaping dikes;
Item 30. 25 14-ft. metal drive gates;
Item 31. 2000 c.y. compacting original ground.

The attention of the bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials and also the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the County Clerk, Hall of Records Building, Redding, California, and they may be seen at the Office of the County Surveyor of Shasta County.

No bid will be considered unless it is made on a blank form furnished by the County of Shasta and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prqualified as required by law. (See said Proposal Requirements and Conditions.)

The County of Shasta reserves the right to reject any or all bids.

COUNTY OF SHASTA
By ERNEST D BREUNING.
County Road Commissioner
Board of Supervisors.
(Daily Pacific Builder)
(March 25, 31; April 7, 1947)

Skilled Labor

Classification	Rate per hour
Asphalt plant dryerman or fireman	$1.60
Asphalt plant mixer operator	1.65
Asphalt spreading machine operator	1.95
Carpenter	1.75
Cement finisher	1.875
Concrete mixer operator (one cu. yd. capacity or less)	1.60
Concrete mixer operator (over one cu. yd. capacity and paving type)	1.90
Motor grader operator	2.10
Operator of power shovel or other excavating equipment, shovel type controls (up to and including 1 cu. yd.)	2.10
Operator of power shovel or other excavating equipment, shovel type controls (over 1 cubic yard)	2.25
Reinforcing steel worker	1.75
Roller operator	1.95
Tractor driver	1.95
Truck driver (18 cu. yds. water level capacity or more)	1.7125
Truck driver (14 cu. yds. and less than 18 cu. yds. water level capacity)	1.5875
Truck driver (8 cu. yds. and less than 14 cu yds. water level capacity)	1.525
Intermediate Grade Labor	
Concrete vibrator operator	1.375
Jackhammer operator	1.375
Oil distributor boatman	1.275
Oiler power shovels or cranes	1.50
Truck driver (4 cu. yds. and less than 8 cu. yds. water level capacity)	1.3575
Truck driver (less than 4 cu. yds. water level capacity)	1.25
Unskilled Labor	
Flagman	1.15
Laborer	1.15

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions, as interpreted in the light of this classification.

The minimum wage paid to all skilled labor, for which rates are not shown above, shall be not less than $1.875 per hour.

The minimum wage paid to all intermediate labor, for which rates are not shown above, shall be not less than $1.15 per hour.

The minimum wage paid to all unskilled labor, for which rates are not shown above, shall be not less than $1.15 per hour.

Overtime on and one-half (1½) times the above rate.

Sundays and holidays one and one-half (1½) times the above rate.

The rates of wages, including overtime, holiday and Sunday rates, above specified are subject to the effect, if applicable, of executive orders of the President of the United States and to any modification thereof and to any and all lawful orders of the President or any other authorized Federal officer or agency, insofar as the same may be applicable to the contract, in case of any inconsistency, the rates fixed by any such applicable Federal order, whether higher or lower, shall control.

The foregoing quantities are approximate only, being given as a basis for the comparison of bids, and the County of Shasta does not, expressly or by implication, agree that the actual amount of work will correspond therewith, but reserves the right to increase or decrease the amount of any class or portion of the work, or to omit portions of the work, as may be deemed necessary or expedient by the Engineer.

POSITIONS OPEN

S-640—MECHL. DRAFTSMAN, experienced on steam power plant work, for layouts, details and checking. Sal. up to $2.25 hour. San Francisco.

S-642—BASEBEY ENGR., qualified to plan and construct whisle. bakeries. Salary open. San Francisco.

S-651—SALES ENGR. with broad exper. in mechl. lines to sell shop contracts. Car Requd. Start $300 mo. and exp. San Francisco.

LARGEST CONSTRUCTION DAILY IN THE WEST

Vol. 57—No. 63 SECTION ONE SAN FRANCISCO, TUESDAY, APRIL 1, 1947

Copyright 1947 by F. W. Dodge Corporation

PLANS and Speculations

Placer County will employ a competent landscape architect to design a master plan for improvement of its fair grounds in Roseville.

oOo

The public buildings administration of the federal works agency will open offices in Seattle for the first time on April 1.

oOo

School District No. 62, Clackamas County, Oregon, is to obtain about 5,000 square feet of surplus structures to be converted into vocational shop facilities for Oregon City Vocational School at Oregon City, together with surplus furniture and equipment.

oOo

Sutter County supervisors have approved a deed submitted by Levee District I (at a price of 15,000) granting to the county property south of Yuba City for airport use.

oOo

Surplus government equipment will be made available to the University of Oregon dental school at Portland, FWA announced.

oOo

Solano supervisors have sent a resolution to the Legislature urging that an additional bridge or bridges be built across Carquinez Straits between Martinez and Benicia.

oOo

Building plans for a Methodist youth center in Walnut Creek are progressing and a fund campaign will be started soon. Money will be spent only for materials and labor will be done by volunteer workers.

oOo

Completion of the Rollingwood Community Building will probably be some time this week.

oOo

Warm Springs chamber of commerce has petitioned for use of highway markings to indicate approaches to the business district of that town in order to cut down traffic hazards. Paving of Landing Road also was urged.

oOo

Only final approval of the Sacramento County district attorney is necessary before street lights are installed in Del Paso Heights.

oOo

Sutter County is seeking to join the already united counties of Butte and Yuba in a tri-county water conservation committee to agitate for state and federal recognition of the need for more water in the area.

oOo

Leroy Johnson (r., Stockton), may introduce a bill to give to states war-built federal public words projects in their areas. So far such gifts are limited to schools and recreational facilities.

oOo

Oakland is entitled to $360,000 in state gas tax funds. Funds already pledged are $75,000 to the development of Mountain Boulevard and $50,000 to Park Boulevard improvement.

oOo

Offering $920,000 for a war surplus factory that cost more than $5 million to construct, the Emerald Mining Company of Elko, Nev., submitted the high bid for a Salt Lake City plant for experimental processing of alumina from clays found near Marysvale, Utah.

oOo

A congressional committee is en route to the Panama Canal Zone to study plans for modernizing it.

oOo

WAA will ask bids again for Richmond Shipyard No. 4. The highest bid previously submitted was below the minimum annual rental set by the agency.

WAA-OHE Act to Enable Purchase of Building Materials

As the result of joint action taken by War Assets Administration and the Office of the Housing Expediter, the State of California will be permitted to buy barracks and other government-owned structures at surplus Army and Navy camps in California at prices to be established by WAA on a fair value basis for resale to veterans in that state at cost.

As a part of the state's program for housing its veterans, the California legislature recently authorized the state to purchase such surplus government property and sell it to veterans, or builders representing veterans, for their own use as housing. The legislature established a revolving fund of $1 million to assist veterans in carrying out the program, including removal of the structures from the camps and re-erecting them on sites owned by the veterans.

To make possible the carrying out of the housing program provided by the California legislature for its veterans, the Housing Expediter granted an exception to his priority regulations to permit California to purchase surplus structures in that state for resale to veterans at prices to be established by WAA on a fair value basis. WAA will adjust its operations and procedures in order to carry out the California veterans program.

#

MEET TUESDAY

Latest developments in precast concrete construction will be described when the Structural Engineers Association dinner meeting is held Tuesday night at the Engineers' Club.

Speaker is Otto Beuhler of Salt Lake City, manufacturer of precast slab, joist, and stone work.

San Francisco Building Meager in Contrast To Prewar; Builders Blame Water Dept.

By LORNA S. STOCK

Construction in San Francisco is being seriously retarded by the failure of the city water department to install lines in undeveloped tracts, it was revealed Monday when an Associated Home Builders committee met to investigate the situation.

Builder Carl Gellert cited figures showing that before the war Bay Area construction had been sliced into thirds, with equal shares going to San Francisco, Oakland, and the Peninsula. Now he said, 5,000 homes are going up on the Peninsula, whereas San Francisco's portion is only 1700.

Furthermore, he said, at least 2,-358 dwelling units are being held up because the water lines have not been installed. Fifty-two blocks owned by AHB members in the Sunset district, if provided with water service, would be the site of about 1500 homes, it was estimated. All of the Laurel Hill cemetery job is tied up for lack of these services. It is to be used for apartments, and would provide 1,-600 to 2000 living units.

At Miraloma Park, Meyer Bros. are to build 250 houses. This firm reportedly has acquired some pipe at great expense and is trying to get the city water department to use it.

Builders were especially bitter because they had observed no similar scarcity of water pipe on the Peninsula. The pipe most badly needed is in the six- and eight-inch sizes.

Ray Housman, a representative of U. S. Pipe and Foundry Company, told the group that the shortage of water pipe is nation-wide, and San Francisco is only one of many areas confronted by the water service problem.

Housman said that the shortage was due largely to two recent steel strikes, plus a coal strike, plus a recent and serious pig iron shortage.

Locally, the water pipe shortage is an old story to the city water department. Their order for 17,000 feet of eight- and 25,000 feet of six-inch pipe is now about a year old. Originally, delivery was promised in December, 1946. There was a delay, and about March 3, the water department was informed by U. S. Pipe & Foundry that it probably would not be delivered before April, 1947. Now the company is not making any promises, but has indicated that the delivery may not be completed until September, and perhaps not until January of 1948.

The firm is trying frantically to obtain pig iron, Housman declared. CPA—now defunct—is not channeling pig iron to the manufacturers. The priority system has been trimmed considerably. Should the builders be able to obtain RR or RRR priority ratings, the situation might be somewhat better for them, he said.

Contractor Charles L. Harney bluntly asked Housman: "Would you say that the water department has exercised due diligence in acquiring pipe?"

He replied: "Yes", adding that a municipality is by no means a preferred customer, since its purchases must be made only from "the lowest, responsible bidder".

His Alabama factory may deliver about 18,000 feet of six-inch pipe in May, he indicated. The earlier shipment is possible because the water department has agreed to accept pipe in 12-foot lengths instead of the normal 18-foot lengths.

Housman emphasized that the company is eager to fill all orders placed on "firm" contracts (such

(Continued on Page 7)

GROVER AND I

SLAVIC RELATIONS

As a host Mr. Stalin has understandably emphasized his rudeness toward Secretary Marshall by receiving both the French and the English Ministers while ignoring the representatives of this Republic.

☆ ☆ ☆

Even though Mr. Stalin makes a last-minute gesture it would only further emphasize the lack of courtesy already shown.

☆ ☆ ☆

Perhaps it is Mr. Stalin's way of saying that the only Peace he is interested in is a large Piece of the World.

☆ ☆ ☆

It may be we should have a full-time Minister in charge of Russion Relations—

☆ ☆ ☆

John L. Lewis might be suggested for that job.

VIOLATIONS UNDER $3,000 OVERLOOKED BY OPA COMPLIANCE

WASHINGTON.—Building material overcharges as well as all other price cases are included in the recent Office of Price Administration announcement that due to lack of operating funds the compliance division anticipates dropping all over-ceiling charges up to $3,000.

The office already has dropped from its records all price cases involving $200 or under, and expects to make the more drastic reduction in the near future.

Expediter's Office Absorbs Housing Duties Of CPA; Transfer 1200 Empolyes April 5

WASHINGTON, March 31.—Housing Expediter Frank R. Creedon announced today that at midnight he will take over the Civilian Production Administration functions dealing with the housing program.

These functions include the 50 million dollar a week limitation on non-housing construction, the allocation of a few basic raw materials to producers of critical building materials and special priority assistance to those producers for needed equipment and machinery.

Creedon said the CPA's activities will be continued in full force. He added:

"We are taking over exactly where and when CPA leaves off. Compliance actions started by CPA will be carried through. The criteria for non-housing construction will continue as is, and applicants for non-housing approval will deal generally with the same people as they have in the past."

Creedon directed that the ten CPA regional construction offices be abolished and that their functions be divided between district offices and Washington.

He said that veterans' preference on new housing built for rent or sale, the simplified permit system on housing construction, and the channeling of surplus materials to housing will be continued.

Creedon's action was in keeping with an announcement by President Truman last Saturday that the CPA functions would go to the housing expediter's office. Creedon said:

"As stated by the President in announcing the transfer, these few but essential controls, will be continued as long as they are necessary for the housing program, and they will be enforced."

Some 1,200 employees will be taken over from CPA by Creedon and will continue in substantially the same jobs as they had in OPA.

In San Francisco, all VEHP compliance functions previously administered by the OPA will be taken over by the Office of Housing Expediter on April 5, Preston L. Wright, OHE regional expediter announced today.

Transfer of these functions was made necessary by the recent cut in OPA operating funds.

Pending cases include civil suits now in the courts such as: (1) injunctions to cancel; return of overcharges to veteran purchasers; cancellation of illegal sales made to non-veterans; (2) cases in the hands of the U. S. district attorney which are awaiting criminal prosecution; (3) cases where investigations have been completed and are awaiting filing of suits; (4) cases of alleged violations awaiting settlement or where further investigation is necessary.

The compliance activities to be taken over by OHE which are concerned with protecting veterans' rights include:

1. Veterans' preference — first choice to buy or rent all housing built under priority regulations.

2. The maximum price authorized by FHA for a house started under authorization issued prior to December 24, 1946.

3. Obtaining substantially the size and price of housing that was approved by FHA when construction was authorized.

Compliance investigations will be handled by the personnel and the organization which formerly was the Compliance Division of the CPA, Wright said.

#

ALLOW BIG DEPOSIT ON FURNISHED QUARTERS

WASHINGTON—One additional month's advance rent may be collected as a "security deposit" on furnished living quarters in dwellings that are newly constructed and rented for the first time after March 25, 1947, the Office of Price Administration said today.

A "security deposit" is any amount in excess of one month's advance rent.

Contract Plasterers Form State Group; Hoppe Is President

LOS ANGELES.—At the first statewide convention of all California contracting plasterers and lathers since 1941 held here recently, it was voted unanimously to form a state association.

A. D. Hoppe, Los Angeles plastering contractor, was elected president. Appointed committees immediately set about to solve such problems as the rising costs of material and labor in the building industry, laxity in the enforcement of building codes, and educational means of off-setting the inronds of inferior plaster and lath substitutes. The delegates pledged themselves to do everything possible towards increasing efficiency and production on the job in an effort to decrease building costs.

Other officers of the new state association include: 1st vice-president, Travis Summers, Fresno, and 2nd vice-president, E. H. "Tony" Larsen, San Diego.

Trustees chosen to serve for the coming year are: Vance Peterson, San Francisco; Jack Gregory, San Bernardino; John C. McBain, San Jose; R. O. Schonewetter, Los Angeles, and Dean Daughtrey, San Diego.

LOS ANGELES FIRM CALLS FOR SUB-BIDS

Haddock Engineers, Ltd., 1616 S. Greenwood Avenue, Montebello, Calif., this week called for subbids on all trades and materials to be used in a $1,900,000 residential development in Torrance, Calif.

About 211 units will be constructed for the Continental Construction Co., Inc., 112 S. LaBrea, Los Angeles. They will be of wood frame and stucco construction, and all will include garages, composition roofing, and all site work. There will be some two and some three bedroom homes.

AMERICAN INSTITUTE OF ARCHITECTS CHAPTER MEETING

The Northern California Chapter of the American Institute of Architects wishes to remind its members that there will be an important meeting of the chapter tonight, April 1, 1947, at 7:30 P. M. The meeting will be held at Rickey's Studio Club, 4219 El Camino Real, just south of Palo Alto. This meeting is being arranged by the Santa Clara and Santa Cruz counties members. You are urged to attend.

BRICK OUTPUT DOWN

WASHINGTON. — February production of unglazed brick and unglazed structural tile declined 11 per cent and 16 per cent, respectively, from the January level of production, according to preliminary figures released today by the bureau of the census. This decrease in output may be accounted for, at least in part, by the fewer working days in the month.

#

AC HOLDS DANCE

The Architectural Club will meet Wednesday, April 2, at 8 p. m., in the Builders' Exchange. Plans for the April 11th dinner dance will be announced at the meeting.

It will be held at the Music Box, 849 O'Farrell. Admission is by reservation.

CPA PERMITS GRANTED

SAN FRANCISCO. — The Civilian Production Administration, A. J. Gries, regional director, 1355 Market St., has announced the following permits granted for construction of commercial and industrial buildings in the San Francisco area:

March 26, 1947

MFG. CANDLES (evicted), $6,000; owner, Charmwick Candle Co, Box 492, Burlingame.
TRUCK SERVICING & Overhauling, $39,000: 530 North 16th Sacramento; owner, Elen Rasmussen, 825 J St, Sacramento.
TO PREVENT DETERIORATION of Materials, $50: Hanford 5th & Brown; owner, Clement Brothers, 601 W 7th, Hanford.
STOREHOUSE, $3,600: Figueroa at Del Monte, Monterey; owner, E B Gross, 262 E Franklin, Monterey.
FOOD MARKET, $3,500; 565 E 14th San Leandro; owner, J A Hammond, 6025 Margarido, Oakland
FURNITURE, APPLIANCES, $6,000; 415 Grand, South San Francisco; owner, G J Rozzi, 349 Grand, South San Francisco.
ALTER BANK, $1,800; Main & Santa Rosa Ave, Sebastopol; owner, Bank of Sonoma Co, Sebastopol.
REPAIRS, ALTERATIONS, Sanitary facilities, Ford Sales and services, $9,000; 3321 Broadway, Oakland; owner, Carl L Scott, 2221 Broadway, Oakland.
HARDWARE & GROCERY, $13,000; 7th & Q Streets, Mendota; owner, B H Jennings, Box 208, Mendota.
FRUIT WAREHOUSE, $19,500; Earlimart; owner, Marko Zanlnovich, R 1, Box 725, Delano.
REHABILITATE BLDG, for Office & Sales, $415,030; 20th & Broadway, Oakland; owner, Jackson Furniture, Co, 13th & Clay, Oakland.
BEVERAGE WAREHOUSE, (To enclose, public hazard) $450; 405 N. 1, Tulare; owner, Harry Tuttle; Fridley & John Janelli, Tulare.
SERVICE SHOP & STORAGE, $2,725; 215-225 S Clara St, San Jose; owner, Hayes Company, 211 W S Clara, San Jose.
FIRE ESCAPE, LODGE HALL, $3,000; 3256 E 14th, Oakland; owner, A P U M E C 3256 E 14th St. Oakland.
TO COMPLETE ALTERATIONS, $450; owner, Club Lido, 915 Columbus, San Francisco.
LUNCH ROOM IN SCHOOL, $6,600; Bartlett School, Porterville; owner, Porterville, Elementary School District, Porterville.
DRY cleaning plant, $3000; 300 Block Main St., Ripon; owner, Shelley & Teekell, general delivery, Ripon
MOVE OFFICES IN MILL WORK Establishment, $3,650; 430 10th St, Modesto; owner, United Lumber Yards, Box 731, Modesto.
REMODEL ENTRANCE, remove hazard, $2,812; 1175 Market, San Francisco; owner, J M Long & Co, 1175, Market, San Francisco.
CARD BOARD CONTAINER Fabrication, $65,000; 1901 Poplar St, Oakland; owner, Western Paper Box Co, 3454 Harlan, Oakland.
FIRESTONE SALES & SERVICE, (evicted), $27,000; 311 E Yosemite Madera; owner, William A Brammer, 219 E Yosemite, Madera.
SELF-SERVE LAUNDRY, $2,500; South San Francisco; owner, Leo Ferko, 524 Grand, South San Francisco.
PLUMBING, HEATING, VENTILATING SHOP, remove safety hazard, $5,600; 516 Pacific Ave, Santa Cruz; owner, Cacco & Sons ,516 Pacific Ave, Santa Cruz.
MFG METAL SPECIALTIES, $4,750; owner, O F Heimkamp, 8111 MacArthur, Oakland.
GROCERY and MARKET, $12,000; 4121 Belmont; owner, R W McPherson, 4130 Belmont, Fresno.
AUTO & TRUCK REPAIRS, $3,000; 35 Water Street, Santa Cruz; owner, Mosso & Piccinelli, 35 Water St, Santa Cruz.
WAREHOUSE, Agricultural, farm laboratory, $1,830; Kentucky and Tulare, Bakersfield; owner, Spreckels Sugar Co, No 2 Pine, San Francisco.
POULTRY PROCESSING PLANT, condemned, $30,000; 741 Park, San Jose; owner, Joseph Sancera, 741 Park Ave, San Jose.
NURSERY, LANDSCAPE contracting, $2,580; owner, Harmon Rowe, 1330 Alhambra, Sacramento.
PLANING MILL, $5,500; 2651 Roosevelt St, Stockton; owner, H H Schingler & Son, 1803 Chronicle, Stockton.
OFFICE, LABORATORY, $9,000; Anh Street, Greenville; owner, Indian Valley Light & Power, Greenville
ASSEMBLY PLANT, farm machinery, $20,000; East Fremont, Stockton; owner, Towner-Meyer Company, Box 837, Stockton.
STORE BUILDING, $14,000; 21st & Santa Clara, San Jose; owner, Antone Jaca, Route 3, Box 207, San Jose.
ALTER FOR OFFICES, (evicted), $76,973; 116 New Montgomery St, San Francisco; owner, General Mills, Inc, 180 New Montgomery St, San Francisco.
COPRA PROCESSING, $2,700; Sutter & 13th, San Pablo; owner, Contra Costa Vegetable Oil Co, 1551 Oxford, Oakland.
FOUNDATION ONLY, Dry Kiln, $4,165; owner, J E Higgins Lumber Co, 99 Bayshore, San Francisco.
FERTILIZER PROCESSING, $15,000 Yuba City; owner, Calif Seed & Fertilizer, 521 Reeves, Yuba City
MACARONI MFG PLANT, $9,000; 1061 7th Street; Oakland; owner, Oakland Macaroni, 955 22nd Street, Oakland.
HARDWARE WAREHOUSE, $3,000; 2 miles south of Modesto; owner, J R Stille, R 4, Box 2027, Modesto.
CHURCH, FOUNDATION only, $10,000; 19th & Monte Vista, San Francisco; owner, Temple Baptist Church, 241 Otsego, San Francisco.

FHA PERMITS ISSUED

SAN FRANCISCO.—The Federal Housing Administration, D. C. McGinness, district director, 315 Montgomery St., San Francisco, has announced the following list of permits granted by the above office for the construction of dwelling or rental units (other than for owner-occupancy) in the San Francisco area for applicants noted:

12 UNITS, Hollister; J. L. Young, Rte. 1, Box 49, Hollister.
24 UNITS, San Lorenzo; Victor G. Flashman, 2122 Clinton Ave., Alameda.
2 UNITS, Oakland; L. J. Emery, 1544 35th Ave., Oakland.
77 UNITS, Pleasant Acres, Contra Costa County; C. Dudley DeVilbiss Co., Box 1274, Walnut Creek.
2 UNITS, Pacoto; Claude T. Lindsay 824 Taraval St., San Francisco.
1 UNIT, Fresno; Donald M. Madsen, 1338 Blackstone Ave., Fresno.
1 UNIT, Campbell; Ralph H. Anderson, Route 1, Box 448, San Jose.
1 UNIT, San Anselmo; Rafael Capital Co., 296 Sycamore Avenue, Mill Valley.
12 UNITS, Vallejo; C. M. O'Connor, 628 Marin St., Vallejo.
80 UNITS, Oakland, Sol Scherman, 3805 Foothill Blvd., Oakland.
13 UNITS, Vacaville; J. W. Caughy, Box 228, Vacaville.
6 UNITS, Hayward; Lorne Merritt Co., 1912 170th Ave., Hayward.
5 UNITS, Sacramento; Chas. C. Bell, 5608 H St., Sacramento.
4 UNITS, Salinas; Rex C. Powell, 61-C Pearl St., Salinas.
2 UNITS, Fresno; Ochs Constr. Co., Helm Bldg., Fresno.
1 UNIT, San Varlos; Loretz & Suline 1964 Alemany Blvd., San Francisco.
1 UNIT, Richmond; Jos. J. Smith, 2728 Fanhandle, Richmond.
1 UNIT, San Mateo; Gordon C. Hess, 175 Valdeflores Drive, Burlingame.
1 UNIT, Belmont; O. C. Roelinge, 18 E 25th Ave., San Mateo.
1 UNIT, Stockton; Mattingly Corp. 316 E Channel St., Stockton.
1 UNIT, Fresno; L. A. Johnson, 1335 Blackstone Ave, Fresno.
1 UNIT, Petaluma; John Tremarl, 338 Bassett St., Petaluma.
24 UNITS, Oakland; Alameda Homes Co., 9935 A St., Oakland.
2 UNITS, Oakland; Geo. W. Drysdale, 684 Spruce St., Oakland.
2 UNITS, Oakland; A. Steffensen 1300 Webster St., Oakland.
2 UNITS, Santa Clara; E. F. Fetaer 982 Myrtle St., Santa Clara.
8 UNITS, Stockton; Evergreen, Inc., 907 Don Burton Bldg., Stockton.
12 UNITS, San Francisco, George N. Wienholz, 234 Langton Street, San Francisco.
8 UNITS, Lafreyette; M. C. Gilderseeve, 774 36th St, Richmond.
8 UNITS, San Mateo; United Constr. Co., 3503 Mission St., San Francisco.
